Contents

SECTION - 1

1. Surgical Anatomy Related to Cataract Surgery 3
2. Operating Room Setup 5
3. Preoperative Evaluation 10
4. Ocular Examination 12
5. Biometry 18
6. Anesthesia 22
7. Surgical Procedure 28
8. Viscoelastics (Ocular Viscosurgical Devices - OVD) 38
9. Intraocular Solutions 41
10. Capsular Incisions (Capsulotomy) 42
11. Hydroprocedures 47

SECTION - 2

12. Nucleus Management In SICS 53
13. Nucleus Removal or Delivery 55
14. Cortical Clean Up 63
15. Intraocular Lens 67
16. Wound Closure 72
17. Conversion To Phaco 76

SECTION - 3 Phacoemulsification

18. Do You Know Your Machine? 79
19. Phacodynamics 85
20. Phacotechnique 93

SECTION - 4 Surgery In Special Situations

21. Hard Cataract 119
22. Pediatric Cataract. 123
23. Cataract and Glaucoma 127
24. Posterior Polar Cataract 132

25. Cataract in Myopia 134
26. Cataract in Uveitis 136
27. Traumatic Cataract 138
28. Subluxated Lens 140
29. Miotic Pupil 143
30. Microincision Phacoemulsification or Bimanual Phaco or Phaconit 149

SECTION - 5 Complications

31. Complications of Cataract Surgery 155
32. Astigmatism and Cataract Surgery 172
33. Anterior Chamber IOL 175
34. Secondary IOL Implantation 177
