Contents

Section 1 *General Management of Poisoning or Overdose*

1. **Approach to a Poisoned Patient** 1
Omender Singh, Prashant Nasa, Deven Juneja

Initial Resuscitation and Assessment **3** Disability and Decontamination **5** Toxidromes **9** Laboratory Testing of Poisoning **14** Admission to Intensive Care Unit **15** Antidotes **15** Advanced Life Support Considerations **16**

2. **Laboratory Testing in Poisoning** **19**
Aruna Dewan, Ashwin Patel

Approach to Laboratory Tests in Acute Poisoning **19** Toxicology Tests at Centre for Education, Awareness and Research on Chemicals and Health Laboratory (CEARCH, Ahmedabad) **21**

3. **Acid-base Disorders in Poisoning** **26**
Pradeep Rangappa, Shivakumar Mutnal, Ipe Jacob

Acid-base Disturbances **26** Metabolic Acidosis **26** Osmolar Gap **28** Metabolic Alkalosis **29** Acute Respiratory Acidosis **29** Acute Respiratory Alkalosis **29**

4. **Antidotes** **31**
Omender Singh, Anish Gupta

N-Acetylcysteine **31** Atropine **33** Botulinum Antitoxin-Heptavalent **34** Botulinum Immuno Globulin (Intravenous Human) (Babybig) **35** Bromocriptine **35** Activated Charcoal **36** Calcium **37** Calcium Disodium EDTA ($CaNa_2$ EDTA) **37** Dantrolene **38** Deferoxamine **39** Dimercaprol **39** Digoxin-specific Antibody Fragments **40** Flumazenil **40** Fomepizole (4-Methylpyrazole) **41** Folic Acid (Vitamin B_9) **42** Glucagon **42** High-dose Insulin Therapy **42** Hydroxocobalamin **43** Hyperbaric Oxygen **43** Methylene Blue **44** Naloxone **44** Penicillamine **45** Physostigmine **46** Phytonadione (Vitamin K_1) **46** Pralidoxime (2-Pam) **47** Protamine Sulfate **48** Pyridoxine (Vitamin B_6) **49** Sodium Nitrite **50** Sodium Thiosulfate **51** Succimer [Dimercaptosuccinic Acid (DMSA)] **51** Silymarin **52** Sodium Bicarbonate **52** Leucovorin (Folinic Acid) **53** Levocarnitine **54** Octreotide **54** Thiamine (Vitamin B_1) **55** Potassium Iodide **55** Anti-Snake Venom (ASV) **56**

5. **Lipid Emulsion Therapy** **60**
Omender Singh, Deven Juneja

Mechanism of Action **60** Lipid Preparations **61** Dose and Delivery **61** Adverse Effects **62** Indications of Use **63**

6. **Forensic Toxicology for the Critical Care Specialist** **68**
Sudhir K Gupta, Neha Sharma

Definitions **68** Laws Relating to Poisons **68** Legal Provisions Pertaining to Poisoning **69** Circumstances of Poisoning **70** Duties of a Medical Practitioner in a Patient of Suspected Poisoning **70** Evidence Collection and Preservation of Samples in a Patient of Suspected Poisoning **71** Important Points for Dispatch of Sample for Chemical Analysis **72** Algorithm of Management of a Patient with Suspected Poisoning **72** Toxidrome Approach **72** List of Common Poisons and their Antidotes **72** Reason for Negative Chemical Analysis Report in a Patient with Positive History of Poisoning **72**

Section 2 *Drugs of Abuse*

7. Central Nervous System Depressants: Overdose and Management 77
Mradul Kumar Daga, Lalit Kumar, Jitendra Shukla

Common Central Nervous System Depressants: Mechanism of Action and Uses **77**
Central Nervous System Depressant Overdose and its Management **78** Management of Sedative Hypnotic Overdose and Role of Flumazenil **79** Opioid Overdose and its Management **80**
Cannabinoids Toxicity **80** Gamma-Hydroxybutyric Acid Overdose **80** Party Drugs **80**

8. Sympathomimetic Drugs 84
Anish Gupta, Omender Singh

Central Nervous System Stimulants **85** Hallucinogens **87**
Dissociative Anesthetics **90**

9. Cocaine Intoxication 93
Omender Singh, Anish Gupta

Pathophysiology **93** Clinical Features **93** Diagnosis **95**
Management **95** Prognosis **97**

10. Newer Drugs of Abuse 99
Omender Singh, Rajesh Chawla, Deven Juneja

Substituted Cathinones or "Bath Salts" **99** Synthetic Cannabinoids **101**
Substituted Phenethylamines (2C Drugs) **102** Piperazines **102** Tryptamines **103**
Kratom **103** Salvia **103** Hawaiian Baby Woodrose **104** Desomorphine **104**

Section 3 *CNS Toxins*

11. Toxins-induced Seizures 109
Dinesh Chaudhari, Anjali Chaudhari, Omender Singh

Toxin-induced Seizures **109** Status Epilepticus **115**

12. Toxic Alcohols 118
Michael E Nelson, Farah Dadabhoy, Timothy B Erickson

Ethanol **118** Methanol **120** Ethylene Glycol **122** Isopropyl Alcohol **123**

13. Botulism 128
Anjali Chaudhari, Deven Juneja

Epidemiology **128** Classification **128** Pathogenesis **129** Clinical Presentation **129**
Differential Diagnosis **130** Diagnosis **130** Treatment **131** Prognosis **131**
Prevention **131**

14. Anticonvulsant Overdose 133
Rohit Yadav, Deven Juneja

Classification **133** Management of Antiepileptic Drugs Overdose Based on Mechanism of Action **134**
General Points to Remember in Management of Anticonvulsants Overdose **141**

Section 4 *Pulmonary Toxins*

15. Approach to Respiratory Failure 145
Suneel Kumar Garg, Shweta Gupta

Pathogenesis **145** Approach to Respiratory Failure **146** Specific Management **148**

16. Inhalational Poisoning 151
Suneel Kumar Garg, Shweta Gupta

Classification **151** Epidemiology **152** Pathogenesis **152** Agents Causing Direct Pulmonary Injury **153** Agents Causing Systemic Toxicity **154** Combination Agents **157** Chemical Warfare and Riot Control Agents **158**

17. Carbon Monoxide Poisoning 162
Ashish Bhalla, Vikas Suri, Jamshed Nayer

Sources of Carbon Monoxide **162** Mechanism of Carbon Monoxide Toxicity **162** Clinical Features **162** Diagnosis **163** Treatment **163**

Section 5 *Cardiac Toxins*

18. Poisoning Induced Circulatory Failure 167
Omender Singh, Desh Deepak

Epidemiology **167** Pathophysiology **167** Management **168** Future Therapies **171**

19. Aluminum Phosphide Poisoning 174
Ashish Bhalla

Pathophysiology and Toxicodynamics **174** Clinical Presentation **175** Diagnosis **175** Laboratory Workup **175** Treatment **175** Prognosis **176**

20. Beta-blocker and Calcium Channel Blocker Overdose 178
Saswati Sinha, Subhash Kumar Todi

Pharmacology **178** Clinical Features **178** Management Principles **179**

21. Sodium Channel Blockers 185
Deven Juneja, Omender Singh

Tricyclic Antidepressants **185** Antihistamine (Diphenhydramine) **190**

22. Digoxin and Other Cardiac Glycosides 194
Supradip Ghosh

Cardiac Glycosides: Pharmacology **194** Clinical Features **195** Management **195**

Section 6 *Gastrointestinal and Liver Toxins*

23. Acetaminophen (Paracetamol) Poisoning 203
Anish Gupta, Deven Juneja

Introduction/Epidemiology **203** Pharmacology **203** Toxicology **203** Clinical Features **204** Diagnosis **205** Management **206** Special Cases **208** Prognosis/Outcome **208**

24. NSAID Overdose 210
Anish Gupta, Omender Singh
Pharmacology **210** Classification **210** Toxic Doses **210** Toxic Features **211** Diagnosis **211** Management **211** Salicylates **212**

25. Corrosive Ingestion: Acids and Alkalis 218
Desh Deepak
Epidemiology **218** Causative Agents **218** Common Corrosive Agents **222**

Section 7 *Hematological Toxins*

26. Warfarin and Superwarfarin Toxicity 227
Mohit Mathur
Brief History of Warfarin and Superwarfarins **227** Mechanism of Action **228** Epidemiology **228** Approach Considerations **229** Clinical Presentation and Evaluation **229** Laboratory Investigations **230** Treatment **230**

27. Overdose of Newer Anticoagulants 236
Pravin Amin, Vinay Amin
Therapeutic Role and Monitoring of DOACS **236** Bleeding with DOACS **237** Management of Severe Bleeding with DOACS **238** Agent-specific Interventions for Reversals **239**

28. Dyshemoglobinemias 242
Jeetendra Sharma, Shivangi Khanna
Carboxyhemoglobinemia **242** Methemoglobinemia **247** Cyanide Toxicity **250** Sulfhemoglobinemia **251**

Section 8 *Renal Toxins and Extracorporeal Therapies*

29. Approach to Toxin Induced Acute Renal Failure 257
Sahil Bagai, Dinesh Khullar
Clinical Features **257** Mechanisms of Injury **258** Agents Causing Acute Kidney Injury **258** Heavy Metal Poisoning and AKI **259** Envenomation and Bites Causing AKI **260** Approach to AKI with Poisoning **261** General Management of AKI **261** Prognosis of Patients who had AKI **262**

30. Extracorporeal Therapies: General Principles 264
Deven Juneja, Omender Singh
Factors Affecting Dialyzability **264** Types of Extracorporeal Toxin Removal **265** Issues with Extracorporeal Toxin Removal **269**

31. Extracorporeal Therapies: Specific Poisons 274
Deven Juneja, Omender Singh
Acetaminophen **274** Barbiturates **275** Carbamezapine **276** Lithium **277** Metformin **277** Methanol **278** Phenytoin **279** Salicylic Acid **280** Thallium **281** Theophylline **282** Valproic Acid **283**

32. Extracorporeal Membrane Oxygenation 288
Anna L Condella, Edward W Boyer

Brief History **288** Mechanics of Extracorporeal Membrane Oxygenation **289** Indications for Extracorporeal Membrane Oxygenation **289** Pharmaceutical Overdoses **290** Nonpharmaceutical Poisoning **290** Pediatric Considerations **291**

Section 9 *Pesticides and Rodenticides*

33. Organophosphorus 295
JV Peter

Clinical Presentation **295** Determinants of Toxicity of Organophosphate Compounds **295** Management of Poisoning **296**

34. Carbamates and Newer Insecticides 303
Vijay Kumar Agarwal, Prakash K Khernar, Amit Goel

Carbamates **303** Pyrethroids **307** Organophosphate-Pyrethroid Combination **309**

35. Herbicides Poisoning: Paraquat and Diquat 312
Amit Goel, Omender Singh

Chemistry **312** Mechanism of Toxicity **312** Clinical Presentation **314** Management **315** Outcome **317**

36. Organochlorines 320
Ravi Jain, Omender Singh

Pharmacology **320** Pathophysiology and Mechanism of Toxicity **322** Approach to Patient **323** Biochemical Effects of Toxins **323** Differential Diagnosis **324** Treatment of Organochlorine Pesticide Poisoning **325**

37. Rodenticides 330
Sanjay V Patne, Subramanian Senthilkumaran

Classification of Rodenticides **330** Biochemistry **330** Pathophysiology **331** Clinical Features **331** Clinical Manifestations **332** Workup **332** Treatment **332**

Section 10 *Miscellaneous Toxicities*

38. Heavy Metal Poisoning 339
Prashant Nasa

Pathophysiology **340** General Principles of Assessment and Management **340** Specific Metals **342**

39. Envenomation: Snake, Scorpion, and Spider 348
Subramanian Senthilkumaran, Ponniah Thirumalai Kolundu Subramanian

Types of Snakes **348** Toxic Effects of Snake Venom **348** Pathophysiology **348** Clinical Features **349** Diagnosis **349** Investigations **350** Management of Snake Bite **350** Indications for Antivenom **351** Adverse Reaction to Antivenom **351** Management in Special Situations **352** Scorpion Stings **352** Hymenoptera Stings **354**

40. Plant Poisonings 357
Arvinth Soundarrajan, Subramanian Senthilkumaran, Ponniah Thirumalai Kolundu Subramanian
Indian Poisonous Plants **357**

41. Mushroom Poisoning. 367
Nipun Verma, Ashish Bhalla, Shreya Singh
Background **367** Pathophysiology **367** Epidemiology **368** Clinical Presentation **369** Differential Diagnoses **370** Laboratory Studies **370** Treatment of Mushroom Poisoning **371** Prognosis **372**

42. Methotrexate and Other Chemotherapeutic Agents Toxicity 374
Akhilesh Singh, Omender Singh
Chemotherapeutic Drug-associated Toxicity **377** Extravasation of Chemotherapeutic Agents **382**

43. Metformin and Other Oral Hypoglycemic Agents 386
Prashant Singh, Omender Singh
Biguanides (Metformin) **387** Sulfonylureas **388** Meglitinides **390** Alpha-Glucosidase Inhibitors **391** Dipeptidyl Peptidase-4 Inhibitors **391** Serum Glucose Transporter-2 Inhibitors **391**

44. Chemical and Biological Warfare 395
Yash Javeri, Bharat Jagiasi, Gunjan Chanchalani
Chemical Warfare **396** Biological Warfare **398**

Index 403
