CONTENTS

1. Yoga 1-13

Yoga: great Indian mysteries *1*, Historical background *1*, Vedic traditions *1*, Other scriptures *2*, Streams of yoga *2*, Tantra yoga and kundalini yoga *2*, Astanga yoga *7*, Hatha yoga *10*, Raja yoga *10*, Jnana yoga *10*, Bhakthi yoga *11*, Karma yoga *12*, Neviya yoga *12*

2. Yogasana 14-17

Introduction *14*, General instructions to the practitioner *14*, Classification of the yogasana *15*, Relaxative asanas *15*, Meditative asanas *15*, Cultural asana *15*, Method of practices of series of asana *15*, Surya namaskara *15*

3. Supine Series of Asana 18-21

Shavasana *18*, Chakra padasana *18*, Utthanpadasana *18*, Pawanamuktasana *19*, Vipareeta Karani mudra *19*, Sarvangasana *19*, Halasana *20*, Chakrasana *20*, Naukasana *20*, Matsyasana *20*, Sethu bandhasana *21*.

4. Prone Series of Asana 22-24

Makarasana *22*, Sphinxasana *22*, Bhujangasana *22*, Tiryaka bhujangasana *23*, Sarpasana *23*, Saral dhaurasana *23*, Dhanurasana *23*, Shalabhasana *24*, Utthan pristhasana *24*

5. Sitting Series of Asana 25-31

Swastikasana *25*, Siddhasana *25*, Vajrasana *25*, Ardha padmasana *26*, Padmasana *26*, Shashankasana *26*, Simhasana *27*, Bhadrasana *27*, Ushtrasana *27*, Yogamudrasana *28*, Baddha padmasana *28*, Gomukhasana *28*, Janushirshasana *28*, Paschimottasana *29*, Ardhamatsyendrasana *29*, Vakrasana *29*, Veerasana *29*, Dhyana veerasana *30*, Padadhirasana *30*, Pranamasana *30*, Suptavajrasana *31*, Lolasana *31*

6. Standing Series of Asana 32-37

Tadasana *32*, Kati Chakrasana *32*, Utkatasana *33*, Vrkshasana *33*, Garudasana *33*, Trikonasana *33*, Parivratta trikonasana *33*, Parsvakonasana *34*, Padahasthasana *34*, Ardhakati chakrasana *34*, Hastautthanasana *34*, Akarna dhanurasana *35*, Tiryaka tadasana *35*, Meru prishtasana *34*, Druta utkatasana *36*, Samakonasana *36*, Utthitalolasana *37*, Dolasana *37*

7. Advanced Series of Asana 38-43

Hanumanasana *38*, Vatayanasana *38*, Poorna matsyendrasana *39*, Koormasana *39*, Poorna chakrasana *39*, Akarna dhanurasana *39*, Vrischikasana *40*, Mayurasana *40*, Moolabandhasana *40*, Gorakshasana *41*, Astavakrasana *41*, Eka pada sirasana *42*, Padma parvatasana *42*, Kukkutasana *42*, Garbha pindasana *43*

8. Pranayama 44-52

Introduction *44*, General rules for the Pranayama practice *45*, Breathing exercise *45*, Abdominal breathing exercise *45*, Thoracic breathing exercise *46*, Clavicular breathing exercise *46*, Rabbit breathing *46*, Dog breathing *46*, Tiger breathing *46*, Classification of pranayama *47*, Nadi shodhana pranayama *47*, Anuloma pranayama *47*, Pratiloma pranayama *47*, Surya bheda pranayama *48*, Chandra nadi pranayama *49*, Sheetali pranayama *49*, Seetkari pranayama *49*, Ujjayai pranayama *50*, Bhramari pranayama *50*, Moorcha pranayama *51*, Surya nadi pranayama *51*, Chandra bheda pranayama *51*, Sameveta pranayama *52*, Kundalani pranayama *52*

9. Bandha 53-54

Introduction *53*, Jalandhara bandha *53*, Moola bandha *54*, Uddiyana bandha *54*

10. Mudras 55-57

Introduction *55*, Gyana mudra *55*, Chin mudra *55*, Nasagra mudra *56*, Khechari mudra *56*, Ashwini mudra *56*, Kaki mudra *56*, Ishvara mudra *56*, Hoh mudra *56*, Mahakrant mudra *56*, Varun mudra *57*, Vajra muraje mudra *57*, Linga mudra *57*, Some important mudras *57*.

11. Meditation 58-64

Introduction *58*, Meditation and religion *58*, Meditation and contemplation *58*, Meditation and hypnosis *59*, Methods of meditation *59*, Goal of meditation *59*, Omkara meditation *59*, Cyclic meditation *60*, Mantra or japa meditation *60*, Transcendental meditation *61*, Yoga nidra *61*.

12. Kriyas 65-74

Introduction *65*, List of kriyas *65*, General instructions about kriyas *67*, Trataka *67*, Kapalabhati *68*, Jala neti *69*, Sutra neti *69*, Nauli *70*, Agnisara *71*, Sankha prakshnalana *72*, Vamana dhauti *72*, Danda dhauti *73*, Vastra dhauti *73*, Inter-relationship of kriyas with chakras *74*, basti *74*.

13. Development of Personality Through Yoga 75-77

Introduction *75*, Yogic relaxation *76*, Sensation of sensitivity *76*, Mudras v/s personality *76*, Chakras v/s personality *77*

14. Acupuncture 78-125

Introduction *78*, Theories of acupuncture *78*, Theory of the five elements *78*, Modern theories *80*, Methods of acupuncture *82*, Technique of acupuncture *83*, Types of stimulation *84*, Acupuncture points *85*, Traditional diagnostic method *87*, Channels and collaterals *87*, Locations of all acupuncture points of the *14*, Channels *89*

15. Acupressure 126-131

Introduction *126*, Mechanism of acupressure *126*, Benefits of acupressure *126*, Methods of applying acupressure *126*, Master acupressure points *127*, Instruments for acupressure *129*, Acupressure points for common aliments *129*.

16. Acupuncture Anaesthesia 132-133

Introduction *132*, Advantages *132*, Disadvantages *132*, Indications *133*, Contraindications *133*

17. Laser Acupuncture Therapy 134-135

Introduction *134*, Procedure, *134*, Advantages, *134*, Precautions *135*

18. Auriculotherapy 136-140

Introduction *136*, Commonly used auricular areas and points *136*, The back of the auricle *140*

19. Moxibustion 141-144

Introduction *141*, Preparation of the moxa wool and its use *141*, Different methods of moxibustion *142*, Botanical description *143*

20. Reflexology and Zonetherapy 145-150

Introduction *145*, Zonology *145*, Physiological effect of reflexology *146*, The basic reflexology techniques *146*, Contraindications *149*, Indications *150*, Benefits of reflexology *150*

21. Hydrotherapy 151-156

Introduction *151*, Historical perspective *151*, Properties of water *151*, Importance of drinking sufficient water *152*, Mechanism of hydrotherapy *152*, Physiological effects of hydrotherapy *152*, Comparative table of the physiological effects of cold and hot *152*, Ageing and water *154*

22. Methods of Hydrotherapy 157-165

Bath technique *157*, Hot full immersion baths *157*, Neutral bath *157*, Hip bath *158*, Spinal bath *158*, Steam and sauna bath *159*, Sitz bath *160*, Hot air bath *161*, Turkish bath *161*, Russian bath *161*, Emollient bath *162*, Alkaline bath *162*, Saline bath *162*, Pine needle bath *162*, Sand bath *162*, Mustard bath *162*, Whirlpool bath *162*, Sponge bath *163*, Tepid bath *163*, Hot immersion bath *163*, Continuous bath *163*, Surge bath *163*, The shallow bath *163*, Graduated bath *163*, Brand bath *164*, Foot bath *164*, Arm bath *164*, Asthma bath *165*

23. Pack Techniques 166-177

Wet sheet pack *166*, Head pack *167*, The spinal pack *167*, The chest pack *168*, The leg pack *168*, Ice packs *168*, The cooling pack *168*, The cold shower pack *168*, The sweating pack *168*, The dry pack *168*, The half pack *168*, The hot blanket pack *168*, Fomentation *168*, Wraps *169*, The compress *169*, The cold or cooling compress *169*, Physiological effects of the cold compress *170*, The very cold compress *170*, The neutral compress *170*, The alternate compress *170*, The revulsive compress *170*, The Hot and cold compress *170*, The hot and renal compress *171*, The hot and cold gastrohepatic compress *170*, The cephalic compress *171*, Douches *171*, Localized douches *172*, Visceral douches *172*, Physiological effects *172*, Knee douche *173*, Thigh douche *173*, Arm douche *173*, Chest douche *173*, The cardiac douche *173*, Upper trunk douche *173*, Lower trunk douche *173*, Back douche *173*, Neck douche *173*, Face douche *173*, The scotch douche *174*, The revulsive douche *174*, The alternate douche *174*, The ascending douche *174*, The cephalic douche *174*, The vaginal irrigation *174*, Enema *174*,

Types of enema *175*, Cold water enema *175*, Neutral water enema *175*, Hot water enema *175*, Oil enema *175*, Graduated enema *175*, Butter mille enema *175*, Saline enema *175*, Aroma oil enema *176*, Massage with hydrotherapy *176*, Emergency hydrotherapy *176*

24. Magnetotherapy 178-184

Introduction *178*, Historical prospective *178*, Magnetic energy in human body *178*, Properties of magnets *179*, Types of magnets *179*, Classification of magnetic material *180*, Physiological effects of magnets in human body *180*, Mode of application *181*, Mode of application of magnets for common ailments *181*

25. Chromotherapy 185-196

Introduction *185*, Colour and healing *185*, Classification of colours *185*, Primary colours *185*, Scondary colours *186*, Wavelength and frequency of the colours *186*, History of chromo-therapy *186*, Effect of colour and its property *187*, Indication and contraindication *191*, Chromo diagnosis *191*, Physiological effects of chromotherapy *193*, Mode of application *194*

26. Mud Therapy 197-201

Introduction *197*, Characteristics of mud *197*, Mode of application *197*, Herbal mud application *198*, Aroma mud applications *198*, Physiological effects of mud *199*, How do mud works *200*, Contraindications *200*, Indications *200*, Cosmetic uses of mud *201*

27. Ooze Therapy 202-205

Introduction *202*, Curative effects of ooze *202*, Functions of different chemical elements in ooze *203*, Precautions *205*

28. Heliotherapy 206-208

Introduction *206*, History of heliotherapy *206*, Types of sunbath *206*, Physiological effects of heliotherapy *207*, Contraindications *208*, Indications *208*, Pathological effects of heliotherapy *208*

29. Aromatherapy 209-225

Introduction *209*, Essential oil *209*, History of Aromatherapy *209*, Physiological action of Aromatherapy *210*, Using essential oils *210*, Blending and storing *212*, Contraindications *213*, List of *116*, Essential oils and its effects, components, properties and indications *214*

30. Massage Therapy 226-242

Definitions *226*, History of massage *226*, Types of massage *227*, Procedures of massage (Swedish) *230*, Lubrication in massage *235*, Basic oils and their uses *236*, Ayurvedic oils *236*, Use of essential oils in massage *237*, Applying the lubricant *237*, The therapist *239*, Infection control *239*, Patient positioning and draping *239*, Contraindications for massage *240*, Baby and infant massage *241*

31. Osteopathy 243-245

Introduction *243*, History of osteopathy *243*, Osteopathic principles *243*, Physiology of osteopathy *244*, Mode of treatment *244*, Cranial osteopathy *245*, Visceral osteopathy *245*, Diagnosis according to osteopathy *245*, Contraindications *245*

32. Chiropractic 246-247

Introduction *246*, The nervous system *246*, History of chiropractic *246*, Difference between chiropractic and osteopathy *246*, Physiology of chiropractic *246*, Diagnosis according chiropractic *247*, Principles of chiropractic *247*, Mode of the treatment *247*, Precaution *247*

33. Shiatsu 248-257

Introduction *248*, Shiatsu technique *248*, Two phases of treatment *248*, Touch techniques *249*, Four main shiatsu functioning *250*, Complete shiatsu treatment *250*

34. Fasting Therapy 256-262

Definition *256*, History of fasting *256*, Principle of fasting *256*, Benefits of fasting *256*, Preparation for fasting *256*, Classification of fasting *257*, Methods and types of fasting *258*, Physiology of fasting *259*, Breaking the fast *260*, Water drinking in fasting *260*, Precautions *260*, Healing crisis during fasting *260*, Physiological effects of fasting *261*, Contraindications *262*, Fasting therapy for common disorders *262*

35. Diet Therapy 263-275

Introduction *263*, Nutritional classification of food *263*, The basic components of food *263*, Raw diet *267*, Fruits *267*, Vegetables *267*, Grains *267*, One fruit and one disease *267*, Food combination *268*, Food hygiene *269*, Food poisoning *269*, Foods rich in vitamin and minerals *270*, Diet therapy for hypertension *271*, Diet therapy for obesity *273*

36. Juice Therapy 276-280

Introduction *276*, Fruits and its natural benefits *276*, Raw juice therapy *277*, Some common ailments, fruit and vegetable juices found beneficial in their treatment *277*, Therapeutic benefits *278*, Theory of raw juice therapy *279*, Hints and steps of juicing *280*

37. Gem Therapy 281-288

Introduction *281*, Historical background of gem stones *282*, Gem stones and their ruling planet *283*, Mode of application *287*, Healing with metal *288*, Name of semiprecious gem stones *288*

38. Leaf Therapy 289-294

Introduction *289*, Neem leaf therapy *289*, Olive leaf therapy *291*, Plantain leaf bath *291*, Aloe vera leaf therapy *291*

39. Laughing Therapy 295-296

Introduction *295*, Aims of laughing *295*, Therapeutic benefit of laughing therapy *295*, Laughing and immunity *295*, Laughing therapy techniques *295*

40. Reiki 297-298

Introduction *297*, History of Reiki *297*, Description of reiki *297*, Ki (vital energy) *297*, Effects of Reiki *298*, Benefits of Reiki *298*, Pranic healing *298*

41. Dance Therapy 299-301

Introduction *299*, History of dance therapy *299*, Effects of dance therapy *299*, Physiological effects of dance therapy *299*, Cardiovascular response to dance *300*, Respiratory response to dance *300*, Earth dancing *300*, Veil dancing *301*

42. Music Therapy 302-305

Introduction *302*, Music as a healing power *302*, Therapeutic characteristics of music *303*, Physiological effect of music therapy *303*, Physiological benefits *304*, Music therapy and disorders *304*

43. Trigger Point Therapy 306-310

Introduction *306*, Trigger point mechanics *306*, Characteristics of a trigger point *306*, Trigger point *307*, Trigger point releases *307*, Possible causes *310*, Location of trigger point *310*

44. Myofascial Release Therapy 311-312

Introduction *311*, Techniques *312*, Grades of myofascial release *312*

45. Positional Release Therapy (PRT) 313-314

Introduction *313*, Definitions *313*, Jone's two discoveries *313*, Physiology of PRT *314*, Indications for application of strain and counterstrain *314*, Clinical hints *314*

46. Muscle Energy Techniques (MET) 315-316

Introduction *315*, PNF *315*, MET *315*, Upper crossed syndrome *316*, Lower crossed syndrome *316*

47. Myotherapy (Bonnie Prudden Concept) 317-318

Introduction *317*, Technique in myotherapy *317*, Quick fix *317*, Quick-fix manual *317*, Permanent fix *318*

48. Hippotherapy 319

Introduction *319*, Use of the horse *319*, Use of hippotherapy *319*

49. Prolotherapy 320-321

Introduction *320*, Indications *320*

50. Pilates 322-323

Introduction *322*, Re-establishment of nature balance *322*, Combination of eastern and western traditions *322*, Basic principles of pilates *322*, Exercise *323*

51. Rolfing 324-325

Introduction *324*, The body and its relation with gravity *324*, Fascia is the main tissue of support and shape *324*, Techniques *325*

52. Calisthenics 326-327

Introduction *326*, Calisthenics exercises *326*

53. Manual Lymph Drainage Therapy 328-331
Introduction *328*, Procedure for manual massage for filarial lymphedema *328*
54. Craniosacral therapy (CST) 332
Introduction *332*
55. Somato Emotional Release (SER) 333
Introduction *333*
56. Mechanical Link 334
Introduction *334*,
57. Visceral Manipulation 335
Introduction *335*
58. Sclerotherapy 336
Introduction *336*, Methods of sclerotherapy *336*, Side effects of sclerotherapy *336*
59. Aerial Yoga 337
Introduction *337*
60. Tai-Chin Chi Kung 338-339
Introduction *338*, Tai-chin ruler *338*
61. Red Dragon Chi Kung 340
Introduction *340*
Index 341
