CONTENTS

1. Acute Rheumatic Fever 1
2. Mitral Stenosis 12
3. Mitral Regurgitation 24
4. Mitral Valve Prolapse Syndrome 36
5. Aortic Stenosis 40
6. Aortic Regurgitation 53
7. Tricuspid Stenosis 65
8. Tricuspid Regurgitation 68
9. Infective Endocarditis 71
10. Introduction to Congenital Heart Diseases 84
11. Atrial Septal Defect 89
12. Anomalous Pulmonary Venous Connection 101
13. Ventricular Septal Defect 106
14. Persistent Ductus Arteriosus 116
15. Coarctation of Aorta 127
16. Tetralogy of Fallot 140
17. Ebstein's Anomaly 149
18. Complete Transposition of the Great Arteries 153
19. Tricuspid Atresia 159
20. Pulmonary Stenosis—Valvular with Intact Ventricular Septum 162

21. Cardiac Malposition and Dextrocardia 171

22. Idiopathic Dilatation of Pulmonary Artery 177

23. Anomalous Origin of Coronary Arteries (Isolated) 179

24. Congenital Complete Heart Block 181

25. Hyperlipidemias 183

26. Systemic Arterial Hypertension 195

27. Coronary Heart Diseases 222

28. Heart Failure 280

29. Cardiac Arrhythmias 318

30. Primary Disease of the Myocardium 375

31. Pericardial Diseases 395

32. Diseases of Aorta 418

33. Pulmonary Embolism 429

34. Primary Pulmonary Hypertension 440

35. Cardiopulmonary Resuscitation 450

36. Pregnancy and the Heart 461

37. Systemic Diseases and the Heart 464
