Contents

1. Epidemiology and Socioeconomic Impact **1**
Shashi Kumar BM, Savitha AS
Epidemiology 1
Etiology 1
Social and Economic Impact 2
Psychological Problems 3

2. Venous Anatomy of the Lower Extremity **5**
Madhulika Mhatre, Aseem Sharma, Aniketh Venkataram
Superficial Venous System 5
Deep Venous System 9
Perforating Veins 9
Accompanying Nerves 10
Applied Anatomy 10

3. Pathology of Leg Ulcers **13**
Divya Gorur, Heera Ramesh
Pathophysiology of Venous Leg Ulcer 13
Pathophysiology of Arterial Ulcers 14
Vasculitic Ulcers 15
Neuropathic and Diabetic Foot Ulcer 15
Ulcerating Skin Diseases 16
Infectious Diseases 17
Drugs 17
Malignancy (Ulcerating Tumors) 17
Hematological Disorders 17
Clotting Disorders 17

4. Microbiology of Leg Ulcers **19**
Amrita Hongal, Ujwal M
Sample Collection and Analysis Methods 19
Pathogenesis and the Flora 19

5. Wound Healing **23**
Shivakumar Patil, Kavya Thimmaiah
Hemostasis 23
Inflammation 24
Proliferation 24
Remodeling of Connective Tissue 25
Scarless Healing 26
Chronic Wound 26

Factors Influencing Wound Healing 26
Healing of Skin Wounds 27
Wound Strength 27

6. History Taking and Examination in Chronic Leg Ulcers **28**
Shilpa K, S Sacchidanand
History Taking 28
Physical Examination 29

7. Venous Leg Ulcers **37**
Amina Asfiya, Manjunath Shenoy
Etiopathogenesis 37
Classification of Chronic Venous Insufficiency 38
Clinical Features 38
Venous Ulcer 39
Arterial Disease 39
Diagnostic Evaluation 40
Management 41
Venous Ulcer Recurrence 45
Criteria for Specialist Referral for Appropriate Management 45

8. Diabetic Foot Ulcers **47**
Vivekanand, Vaibhav Lende, Sravan CPS
Epidemiology 47
Pathophysiology 47
Biomechanics and Foot Pressures 50
Presentation and Diagnosis 50
Management 52
The Charcot Foot 56

9. Neuropathic Ulcers **61**
Savitha AS, S Sacchidanand
Causes of Neuropathic Ulcers 61
Etiopathogenesis 61
Stages of Ulcer Formation 62
Clinical Features 62
Approach to Patient with Neuropathic Ulcer 63
Management of Ulcer 63

10. Ischemic Ulcers, Pyoderma Gangrenosum and Vasculitic Ulcers **68**
Biju Vasudevan, Gayatri Gupta
***Ischemic (Arterial) Ulcers* 68**
Risk Factors 68
Pathogenesis 69
Clinical Features 69
Management 73
***Pyoderma Gangrenosum* 80**
Definition 80
Epidemiology 80
Etiology 80

Pathogenesis 80
Associations 80
Clinical Features 81
Differential Diagnosis 82
Diagnosis 82
Treatment 82
Prognosis 83
Vasculitic Ulcer 83
Introduction 83
Clinical Features and Management 84

11. Principles of Leg Ulcer Management **87**
Anju George

12. Investigations and Radiological Diagnosis of Leg Ulcers **94**
Shwetha S, Deepak HS
Investigations for Leg Ulcers due to Venous Insufficiency and Dependency 94
Investigations for Arterial Cause of Leg Ulcers 99
Investigations for Ulcer Secondary to Vasculitis 103
Neuropathic Ulcers 104
Hereditary Sensory Neuropathy Type 1C: Charcot–Marie–Tooth Disease 107
Laboratory Screening Tests for Clotting Disorders 108
Metabolic Causes of Leg Ulcers 108
Infectious Causes of Leg Ulcer 108
Hematological Causes of Leg Ulcers 108
Investigating Atypical Leg Ulcers 108

13. Topical Therapy for Leg Ulcers **114**
Nagesh TS, Sneha M
History and Physical Examination 114
Management of Leg Ulcer 114

14. Systemic Therapy of Leg Ulcers **120**
Brijesh Nair
Pentoxifylline 120
Aspirin 121
Zinc 121
Antibiotics/Antimicrobials 121
Systemic Steroids 122
Phlebotonics/Flavonoids 122
Fibrinolytic Enhancers 123
Prostaglandin and Prostacycline Analogues 123

15. Compression Therapy and Dressings **126**
Shilpa K, S Sacchidanand, Sachin S
Mechanism of Compression Stockings 126
Types of Compression Stockings 126
Grading the Strength of Compression Stockings 126
Assessment to be done Before Prescribing Compression Therapy 128
Dressings 129

16. Role of Skin Grafting in Managing Leg Ulcers **136**
Smitha Segu, Suhas S
Applied Anatomy of Skin 136
Stem Cells in Skin and Skin Regeneration 137
Common Ulcers and Role of Skin Grafts 138
Optimization of the Wound Bed 138
Negative Pressure Wound Therapy (Vacuum-Assisted Closure Therapy) 139
Hyperbaric Oxygen Therapy 139
Pre-Requisites of Wound Bed for Split Thickness Skin Graft 140
Contraindications for Skin Grafting 140
Skin Graft 140
Skin Graft Storage 145
Complications 145
Recent Advances in Skin Replacement 146

17. Role of Platelet Rich Plasma and Platelet Rich Fibrin in Managing Leg Ulcers **148**
Reena Rai, Yuvasri Gunasekaran
Role of Platelet-Derived Products 148
Platelet Rich Plasma 149
Platelet Rich Fibrin 151

18. Novel Research and Recent Advances in Managing Leg Ulcers **155**
Eswari L, S Sacchidanand
The Role of Stem Cells 155
Biopharmaceutical Agents 156
Endothelial Progenitor Cell Therapy 156
Novel Drug Delivery Systems 156
Biologically Active Skin Graft Substitutes/ Tissue Engineered Skin Equivalents 159
Acellular Regenerative Tissue Scaffold 160
Human Amniotic Cellular/ Tissue Based Products 161
Topical Therapy 161
Dressings 162
Balneotherapy 162
Oral Nutritional Supplements 162
Photodynamic Therapy 162
Negative Pressure Wound Therapy 163
Hyperbaric Oxygen Therapy 163
Electrical Stimulation 164
Pulsed Radiofrequency Electromagnetic Field 164
Surgical Therapy 164
