Contents

Chapter 1. Approach to Neurological Assessment in Children 1

PAM Kunju

- History 1
- Neurological Examination 2
- General Examination 2
- Higher Cortical Function Tests 2
- Examining the Motor System 4
- Reflexes 7
- Coordination and Abnormal Movement 8

Chapter 2. Approach to Localization of Neurological Disorders 10

PAM Kunju

- Anatomy 10
- Brain 11
- Limbic System 12
- Subcortical Structures 12
- Spinal Cord 16
- Localization of Neurological Lesion 16

Chapter 3. Approach to Congenital Malformation of Brain 20

TM Anandakeshavan

- Incidence 20
- Etiology 20
- Classification 20
- Treatment of Congenital Brain Malformations 30

Chapter 4. Approach to Abnormal Head: Size and Shape 33

Anoop Verma

- Head Circumference Measurement 33
- Abnormal Head Circumference 33
- Clinical Pointers for Abnormal Head Growth 34
- Abnormal Shape of Head 37

Chapter 5. Approach to Developmental Delay in Children 42

PAM Kunju

- Global Developmental Delay 42
- Examination 44
- Developmental Assessment in Office Practice 47
- Developmental Observation Card 49
- Hemisyndromes 51
- Formulating the Diagnosis 52
- Causes of Developmental Delay 53
- Investigations 54
- Treatment 55
- Prognosis 55
- Certain Anatomical Patterns 56
- Some Developmental Disorders 56

Chapter 6. Approach to Intellectual Disability and Specific Learning Disorder 63

Himani Bhasin, Suvasini Sharma

Intellectual Disability 63

- Definition 63
- Epidemiology 64
- Etiology 64
- Clinical Features 64
- Differential Diagnosis 64
- Diagnosis 64
- Management 65

Specific Learning Disorder 66

- Definition 66
- Epidemiology 66
- Clinical Features 67
- Severity Classification of Specific Learning Disorder 68
- Diagnosis 68
- Management 69
- Interventions for Specific Learning Disabilities 69

- Special Education Services 69
- Other Treatments 69

Chapter 7. Approach to Autism 71

PAM Kunju

- Autism Features 71
- Autism 71
- Social Communication Deficits 73
- Repetitive Behavior and Restricted Interests 73
- Severity Ratings 74
- Communication Deficits in Autism 74
- Autism: Play 74
- Cognitive Dysfunction in Autism 74
- Restricted and Repetitive Patterns 74
- Tools for Diagnosis of Autism Spectrum Disorder 75
- Comorbid Medical Conditions 75
- Early Recognition 75
- Management 76
- Pharmacologic Therapies 77
- Autism: Differential Diagnoses 77
- Childhood Disintegrative Disorder (Heller Dementia) 79
- Some Investigations 80

Chapter 8. Approach to Inborn Errors of Metabolism in Neonate, Infant, and Children 81

Ramesh Konanki, Lokesh Lingappa

- Inborn Errors of Metabolism: Overview 81
- Classification of Inborn Errors of Metabolism 81
- Common Presentations of Inborn Errors of Metabolism 82
- Approach and Evaluation of Children with Suspected Inborn Errors of Metabolism 84
- Investigations 87
- Management 87
- Asymptomatic Neonate with Inborn Errors of Metabolism Suspected due to Previous Sibling Death 90
- Metabolic Autopsy 91

Chapter 9. Approach to Neuronal Migration Disorders 92

Arundhathi Patil

- Lissencephaly 93
- Heterotopia 96
- Polymicrogyria 97
- Schizencephaly 98
- Focal Cortical Dysplasia and Hemimegalencephaly 98
- Tubulinopathies 99

Chapter 10. Approach to Acute Febrile Encephalopathy 101

D Kalpana, PAM Kunju

- Clinical Presentation 103
- Investigations 103
- Sepsis-associated Encephalopathy 105
- Febrile Infection-related Epilepsy Syndrome 105

Chapter 11. Approach to Acute Encephalitis (Indian Scenario) 109

Kalpana Dutta, Supratim Dutta

- Epidemiology 110
- Etiology 110
- Pathogenesis and Pathology 111
- Clinical Manifestations 112
- Diagnosis 113
- Differential Diagnosis 114
- Investigations 114
- Management 116
- Treatment of Specific Cause if Any Role of Steroids 118
- Prevention 118
- Prognosis 119

Chapter 12. Approach to Childhood Neurotuberculosis in Children 121

Rajeshwar Dayal, Madhu Singh

- Epidemiology 121
- Etiopathogenesis 121
- Classification 122
- Clinical Presentation 122
- Medical Research Council Staging of Tuberculous Meningitis 123
- Diagnosis 123

- Investigations 124
- Cerebrospinal Fluid Sampling and Testing 125
- Differential Diagnosis of Tuberculous Meningitis 126
- Treatment 126
- Course and Complications of Tuberculous Meningitis 129
- Sequelae of Tuberculous Meningitis 130
- Tuberculoma 130
- Spinal Tuberculosis in Children 132
- Paradoxical Response to Chemotherapy 133
- Control of Infection 133
- Prevention of Infection—BCG Vaccine 133

Chapter 13. Approach to Cerebral Malaria 135

AK Rawat

- Cerebral Malaria 135
- Definition 135
- Pathophysiology 135
- Clinical Features 136
- Diagnosis of Cerebral Malaria 136
- Investigations 136
- Management 137
- Prevent Recrudescence and Transmission 138
- Prognosis 139

Chapter 14. Approach to Neurocysticercosis in Children 140

Anoop Verma, Nitin Maheshwari

- When to Suspect Neurocysticercosis? 140
- What are the Different Types of Neurocysticercosis? 141
- What are the Different Stages of the Cysticercus Cyst? 141
- How to Confirm the Diagnosis of Neurocysticercosis? 141
- How to Differentiate Between Tuberculoma and Neurocysticercosis? 145
- How to Treat Neurocysticercosis? 145
- How to Treat Seizures in Neurocysticercosis? 146

Chapter 15. Approach to Fungal Infections of Central Nervous System 149

Vineet Bhushan Gupta, Mahak Bansal

- Etiology 149
- Epidemiology and Risk Factors 149
- Pathogenesis 152
- Clinical Syndromes 152
- Diagnosis 154
- Treatment 158

Chapter 16. Approach to Altered Sensorium 164

Nitish Vora

- Epidemiology 164
- Definitions: Coma and Other States of Impaired Consciousness 164
- Etiology 165
- Evaluation of the Comatose Child 165
- Algorithm 166
- Investigations 167
- Management 169
- Differential Diagnosis 169
- Prognosis 171

Chapter 17. Approach to Acute Stroke Syndrome 172

Shekhar G Patil

- Definition 172
- Arterial Ischemic Strokes 172
- Venous Sinus Thrombosis 179
- Hemorrhagic Strokes 180

Chapter 18. Approach to Febrile Seizures and Fever-related Epilepsies 183

Sujata Kanhere

- Definition 183
- Classification of Febrile Seizures 183
- Fever-related Epilepsies 184
- Etiology of Febrile Seizures and Fever-related Epilepsies—Genetic Basis and Risk Factors 186
- Approach to a Child with Febrile Seizures 187
- Prognosis 190

Chapter 19. Approach to a Child with Epilepsy 192
KN Shah
- Definition 192
- Stepwise Approach in a Child with Suspected Seizure Disorder 192

Chapter 20. Approach to Self-limited Focal Epilepsies of Childhood 205
Neelu Desai
- Childhood Epilepsy with Centrotemporal Spikes 205
- Early-Onset Childhood Occipital Epilepsy (Panayiotopoulos Syndrome) 208
- Benign Partial Epilepsy of Infancy 210

Chapter 21. Approach to Intractable Seizures 213
Anaita Udwadia Hegde, Trupti Jadhav
- Definition 213
- Factors Determining Intractable Epilepsy 213
- Mechanism of Drug Resistance 214
- Management of Refractory Epilepsy 215

Chapter 22. Approach to Seizures Imitator and Seizure Mimics 222
Neeta Naik
- Neonatal Seizure Mimics 222
- Infantile Mimics 222
- Paroxysmal Torticollis 225
- Benign Paroxysmal Vertigo 225
- Alternating Hemiplegia of Childhood 225
- Benign Myoclonus of Infancy 226
- Shuddering Attacks 226
- Hyperekplexia 227
- Spasmus Nutans 228
- Gastroesophageal Reflux 228
- Jactatio Capitis 228
- Self-gratification 228
- Childhood Mimics 229
- Cyclic Vomiting Syndrome 230
- Nonepileptic Seizure 231
- Syncope 231
- Tics 232

Chapter 23. Approach to Dizziness and Vertigo in Children 234
Kavita Srivastava
- Outlines 234
- What do You Mean by "Dizziness"? 234
- Faints/Light Headedness/ Presyncope 234
- Vertigo 235

Chapter 24. Approach to Neonatal Seizures 242
Sujata Kanhere
- Epidemiology/Incidence 242
- Definition 242
- Pathophysiology 242
- Classification of Neonatal Seizures 243
- Relation of Seizure to Electroencephalogram 245
- Etiology of Neonatal Seizures 246
- Differential Diagnosis 248
- Approach to Neonatal Seizures 249
- Management of Neonatal Seizures 250
- Prevention of Neonatal Seizures 251
- Long-term Outcome 252

Chapter 25. Approach to Management of Status Epilepticus 254
Arun Agrawal, Pranati Sharma Agrawal
- Definition 254
- Outcome of Status Epilepticus 254
- Morbidity and Mortality 254
- Classification of Status Epilepticus 255
- Etiology 255
- Causes 255
- Drugs which can Cause Seizures 255
- Hemodynamics 255
- Pathophysiology 256
- Management Goals 256
- Supportive Care 256
- Anticonvulsants 256
- Treatment 256
- Rapid-acting Anticonvulsants 257
- Treatment of Refractory Status Epilepticus 259
- Treatment of Status Epilepticus: What Now? 259
- Nonintravenous Status Epilepticus 259

- Management after Stopping of Convulsions 259
- Complications 261
- Additional Therapies in Management of Refractory Status Epilepticus 261
- Surgical Management of Refractory Status Epilepticus 262

Chapter 26. Current Guidelines for Diagnosis and Management of Childhood Epilepsy 265

Sheffali Gulati, Priyanka Madaan, Prateek Kumar Panda, Rachana Dubey, Vishal Sondhi

- Objectives 265
- Recommendations 266
- Status Epilepticus 281
- Domiciliary Management of Acute Seizure and Epilepsy Awareness 284

Chapter 27. Approach to Neurological Emergencies in Children 293

Amarjeet Wagh, Vasant Khalatkar

- Raised Intracranial Pressure in Children 293
- Approach to Acute Stroke Management 296
- Acute Movement Disorders in Children 298
- Neuromuscular Emergencies in Children 299

Chapter 28. Approach to Child with Cerebral Palsy 302

Sharad Sharma, Nitin Maheshwari

- How to Recognize Cerebral Palsy? 302
- Does this Child have Cerebral Palsy? 303
- Types of Cerebral Palsy 304
- Parts of the Body Affected 305
- Could it be a Progressive or Treatable Neurological Disorder rather than Cerebral Palsy? 306
- What is the Functional Status of the Child? 307
- Does this Child have any Other Comorbidity Associated with Cerebral Palsy? 309
- Does this Child Need Medicines? 309
- Could any Multidisciplinary Support/ Surgical Intervention Help? 310
- Can Stem Cell Therapy Help? 311

Chapter 29. Approach to Early Intervention Therapy in Cerebral Palsy 312

DY Shrikhande, Sheila Shrikhande

- Definition of Early Intervention 312
- Stimulation 313
- Physiotherapy and Occupational Therapy 316
- Orthotic Aids 317
- Drooling 317
- Activities of Daily Living 317
- Cognitive and Adaptive Development 318
- Parental Role 318

Chapter 30. Approach to Neurodegenerative Disorders 321

PAM Kunju

- Clinical Clues of Neurodegeneration 321
- Inheritance 322
- Approach to a Child with Acute Encephalopathy (Small Molecule Disorders) 322
- Organic Acid Disorders 323
- Urea Cycle Defects 325
- Approach to a Child with Chronic Encephalopathy 327
- Formulating the Diagnosis 329
- Investigations 332
- Treatment 337

Chapter 31. Approach to Demyelinating Disorders of Central Nervous System 339

Vineet Wankhede, Sanjeev Joshi

- Etiologies 339
- Acquired Demyelinating Encephalomyelitis 340

- Transverse Myelitis 343
- Neuromyelitis Optica 343
- Schilder's Disease/Myelinoclastic Diffuse Sclerosis 345
- Multiple Sclerosis 345
- Clinically Isolated Syndromes 347
- Prognosis after an Initial Event of Demyelination 347
- Differential Diagnosis of Demyelination in Children 348

Chapter 32. Approach to Movement Disorders in Children 351

Anoop Verma

- Definition 351
- Types 351
- Differences from Epilepsy 352
- Approach to Diagnosis 352
- Pathophysiology 352
- Clinical Presentation and Etiology 353
- Classical Signs of Chorea 353
- Paroxysmal Movement Disorders 354
- Self-injurious Behavior 355
- Drug-induced Movement Disorders 355
- Genetics in Movement Disorders 356
- Odd Movement Disorders 358
- Management 359
- Drugs Used in Movement Disorders 360

Chapter 33. Approach to Opsoclonus Myoclonus Syndrome 363

Jitendra Sahu, Razia A Kadwa

- Historical Note 363
- Incidence and Associations 363
- Clinical Features 363
- Investigations 365
- Pathogenesis 366
- Management 366
- Outcome 367

Chapter 34. Approach to a Child with Ataxia 368

D Kalpana

- Points to be Noted in the History 368
- Head-to-Foot Examination 369
- Onset of Ataxia 369
- Etiology 369
- Investigations 373
- Treatment 374

Chapter 35. Approach to Neuromuscular Diseases 375

D Kalpana, Bindu Thankappan

- Approach to Diagnosis 376
- Floppy infant 376
- Child with Musle Weakness 378

Chapter 36. Approach to Child with Acute Flaccid Paralysis 380

Arijit Chattopadhyay

- Clinical Approach to a Child with Acute Flaccid Paralysis 380
- Common Causes of Acute Flaccid Paralysis 383

Chapter 37. Approach to Paraplegia 386

Arpita Thakker Adhikari

- Classification 386
- Clinical Approach to a Child with Paraplegia 387
- Examination 389
- Approach to a Child with Acute Paraplegia 389
- Supportive Therapy 392
- Approach to Chronic Paraplegia 392

Chapter 38. Approach to Floppy Infant 401

Lokesh Lingappa, Ramesh Konanki

- Clinical Presentation and Appearance 401
- Diagnostic Approach 401
- Investigations 403
- Therapeutic Approach 405

Chapter 39. Approach to a Child with Myopathy and Myositis 406

Anju Agarwal, Neha Garg

- Congenital Myopathies 406
- Muscular Dystrophies 409
- Inflammatory Myopathies 410
- Metabolic Myopathy 411
- Channelopathies 412

Chapter 40. Approach to Headache in Children 414
Vrajesh Udani, Payal Shah
- Childhood Headache Patterns 414
- Classification of Headaches 414
- Evaluation of a Child with Headache 416
- Red Flags for Secondary Headache 417
- Treatment 417

Chapter 41. Approach to Neurocutaneous Syndrome 420
Siddharth Shah, Nitin Maheshwari
- Neurofibromatosis Type 1 420
- Neurofibromatosis Type 2 422
- Tuberous Sclerosis Complex 423
- Sturge-Weber Syndrome 425
- Ataxia Telangiectasia 426
- Von Hippel-Lindau Syndrome 427

Chapter 42. Approach to Nutritional Disorders of Nervous System 429
Sanwer Agrawal
- Protein-Calorie Malnutrition 429
- Cobalamin (Vitamin B_{12}) 429
- Folate Deficiency 432
- Thiamine 433
- Niacin 434
- Pyridoxine 435
- Vitamin E 436
- Vitamins A and D 436
- Copper Deficiency 437

Chapter 43. Approach to Rabies 439
SM Dewangan, G Malini
- Epidemiology 439
- Mode of Transmission 439
- Etiopathology 440
- Clinical Features 440
- Decision to Treat 441
- Management of Animal Bite Wound 443
- Treatment of Clinical Rabies 448
- Few Words for Pet Owners 449
- Recent Advances 449
- Research Priorities 450

Chapter 44. Approach to Neurotoxic Snake Envenomation 451
Meenakshi Girish, Girish Subramanium
- Mechanism of Neurotoxicity 452
- Management 455
- First Aid 455
- Initial Treatment 455

Chapter 45. Fundus Examination in Children 460
Kiran Makhija
- Normal Fundus—Child 460
- Pathophysiological Changes 460
- Common Findings in Fundus 460
- Few Case Studies in Fundus 465

Chapter 46. Approach to Cerebrospinal Fluid Interpretation in Children 467
KP Sarbhai
- What does the Cerebrospinal Fluid do? 468
- Blood-Brain Barrier 469
- Lumbar Puncture 469
- Cisternal Puncture 470
- Analyzing Cerebrospinal Fluid 471

Chapter 47. Approach to Neurophysiological Investigations 475
Amarjeet Wagh
- Electroencephalography 475
- Evoked Potentials 491
- Nerve Conduction Study and Electromyography 495
- Motor Unit Recruitment 499

Chapter 48. Approach to Basics of MRI and CT Scan 500
PAM Kunju, Jayashri L
- Computed Tomography 500
- Magnetic Resonance Imaging 501
- CT and MRI Techniques 505
- MRI Techniques 505
- Some Neuroimaging Features 509
- Some Comparative Scans 514

***Drugs Appendix* 517**
Jeeson Unni

Index *559*
