Contents

Section 1—Thyroid Disorders

Benign Thyroid Disorders

1. Solitary Thyroid Nodule 3
2. Euthyroid Multinodular Goiter 9
3. Toxic Multinodular Goiter 17
4. Toxic Adenoma 23
5. Thyroid Cyst 29
6. Graves' Disease 33
7. Graves' Ophthalmopathy 45
8. Juvenile Graves' Disease 53
9. Graves' with Periodic Paralysis 57
10. Hyperthyroidism in elderly with Heart Disease 61
11. Amyloid Goiter 65
12. Thyroglossal Cyst 71
13. Painful/Nodular Hashimoto's Thyroiditis 79
14. Subacute Thyroiditis or De Quervain's Thyroiditis 85
15. Large Goiter 93
16. Marine–Lenhart Syndrome 99
17. Linguarl Thyroid 103
18. Dyshormonogenetic Goiter 107
19. Retrosternal Goiter 113
20. Post-thyroidectomy Stridor 127

Malignant Thyroid Disorders

21. Papillary Carcinoma 133
22. Papillary Microcarcinoma 145
23. Occult Papillary Carcinoma Presenting as Cervical Lymph Node Enlargement 151
24. Locally Invasive Papillary Carcinoma 157
25. Differentiated Thyroid Carcinoma with Lung Metastases 165
26. Tall Cell Variant of Papillary Carcinoma (TCV) 171
27. Follicular Variant of Papillary Carcinoma 177
28. Completion Thyroidectomy 183
29. Thyroid Cancer in Children 191
30. Follicular Neoplasm 197
31. Hurthle Cell Neoplasm / Carcinoma 201
32. Follicular Carcinoma Presenting with Bone Metastases 207
33. Sporadic MTC 217
34. Multiple Endocrine Neoplasia Type 2A (MEN 2A) 233
35. Persistent Hypercalcitoninemia 243
36. Anaplastic Carcinoma: Diagnostic and Therapeutic Challenge 249
37. Thyroid Lymphoma 257

Section 2—Parathyroid Disorders

38. Primary Hyperparathyroidism 265
39. Primary Hyperparathyroidism with Pancreatitis 281
40. Familial Isolated Hyperparathyroidism (FIHPT) 287
41. Parathyroid Crisis 295
42. Persistent Hungry Bone Syndrome Following Parathyroidectomy 301

Section 3—Adrenal Disorders

43. Conn's Syndrome 309
44. Occult Ectopic ACTH Syndrome 323
45. Overt Ectopic ACTH Syndrome 333
46. Benign, Functioning Adrenal Adenoma 343
47. Adrenocortical Carcinoma Presenting as Adrenal Incidentaloma 349
48. Metastatic Adrenocortical Carcinoma 359
49. Functioning Adrenocortical Carcinoma in Children 365
50. Adrenocortical Carcinoma Presenting as Cushing's Syndrome in Adults 373
51. Sporadic Pheochromocytoma 379
52. Hereditary Pheochromocytoma: Von Hippel Lindau (VHL) Disease 403
53. Unusual Presentation of Pheochromocytoma: Patient Presenting with Hemiparesis 415
54. Unusual Presentation of Pheochromocytoma: Fainting during Micturition 423
55. Pheochromocytoma Presenting with Glycosuria 431
56. Pheochromocytoma Presenting as Orthostatic Hypotension 435
57. Pheochromocytoma Presenting as Unexplained Shock 441
58. Extra-adrenal Pheochromocytoma 445
59. Paraganglioma 451
60. Normotensive Pheochromocytoma 457
61. Adrenal Incidentaloma 461
62. Bilateral Adrenal Masses 471
63. Cushing's Syndrome due to Bilateral Adrenal Lesions 477

64. Adrenal Cyst 485
65. Adrenal Myelolipoma 489

Section 4—Endocrine Pancreas Disorders

66. Organic Hypoglycemia: Insulinoma 495
67. Inculinoma and Hyperparathyroidism as Part of MEN-1 515

Section 5—Other Endocrine Disorders

68. Gonadal Dysgenesis 523
69. Klinefelter Syndrome with Gynecomastia 527
