Contents

1. **Need for Clinical Research** 1
   Prakash Gattani
2. **Basics of Research Methodology** 7
   Ashwini Kale (Yelikar), Ashish Kale
3. **Pre-test and Post-test Probabilities** 15
   Suhas Otiv
4. **Priorities in Reproductive Health Research** 29
   Bharati Dhorepatil
5. **Formulation of Research Question** 35
   Snehamay Chaudhuri, Hiralal Konar
6. **Study Design** 45
   Bhaskar Pal
7. **Sample Size in Clinical Studies** 54
   Rajshekharan Nair, PK Babu
8. **Statistics and Clinicians** 63
   Mahendra Parikh, Nithya Gogtay
9. **Design, Conduct and Analysis of Clinical Trials** 76
   Narendra Malholtra
10. **How to write a Dissertation** 82
    KA Yelikar
11. **Writing a Scientific Paper** 109
    CN Purandare, Madhuri Patel, Nikhil Purandare, Khyati Patel
12. **Critical Appraisal of a Scientific Paper** 120
    PK Shah, Anahita Chauhan
13. **Patenting of Research** 132
    Harshavardhan Ghorpade
14. **Evaluation of Diagnostic Tests** 142
    Joydev Mukherjee, Debabrata Bandyopadhyay

15. Ethical Issues in Research 155
Sanjay Gupte, Dilip Walke

16. Evidence-based Medicine in Obstetrics and Gynecology 176
Alokendu Chaterjee, Joydev Mukherjee, Partha Mukherjee, Sebanti Goswami

17. Improving Your Presentation Skills 192
Kanan Yelikar

18. Registration of Clinical Trials 198
Sabhyata Gupta

19. Global Careers in Clinical Research 204
Rajiv Singhal
