Contents

Section One
General Pharmacology

1. Definitions, Dosage Forms and Routes of Drug Administration 1
2. Pharmacokinetics 28
3. Pharmacodynamics 35
4. Adverse Drug Reactions and Drug Interactions 43

Section Two
Pharmacology of Autonomic Nervous System

5. ANS-General Considerations 52
6. Drugs Affecting Cholinergic System and Autonomic Ganglia 55
7. Drugs Affecting Sympathetic System 65

Section Three
Pharmacology of Cardiovascular System

8. Pharmacotherapy of Hypertension 80
9. Pharmacotherapy of Angina Pectoris 90
10. Pharmacotherapy of Cardiac Arrhythmias 97
11. Pharmacotherapy of Congestive Heart Failure (CHF) 104
12. Pharmacotherapy of Shock 111

Section Four
Drugs Acting on Blood and Blood Forming Organs

13. Drugs Affecting Blood Coagulation and Thrombosis 116
14. Haematinic Drugs 124

Section Five
Water, Electrolytes and Drugs Modifying Renal Functions

15. Pharmacology of Water, Electrolytes and Nutrients in Dehydration 132
16. Diuretics and Antidiuretics 142

Section Six
Pharmacology of Respiratory Tract

17. Pharmacotherapy of Cough 150
18. Pharmacotherapy of Bronchial Asthma and Rhinitis 154

Section Seven
Pharmacology of Gastrointestinal Tract

19. Pharmacotherapy of Peptic Ulcer 161
20. Emetics and Antiemetics 168
21. Pharmacotherapy of Constipation and Diarrhoea 172
22. Hypolipidemics and Miscellaneous Drugs Acting on GIT 177

Section Eight
Pharmacology of the Central Nervous System

23. General Considerations and Aliphatic Alcohols 182
24. General Anaesthetics 187
25. Local Anaesthetics 195
26. Skeletal Muscle Relaxants 198
27. Hypnotics and Sedatives 202
28. Antiepileptic Drugs 210
29. Opioid Analgesics and Antagonists 218
30. Analgesic, Antipyretic and Nonsteroidal Anti-inflammatory Drugs 224
31. Psychopharmacology 232
32. Pharmacotherapy of Parkinsonism 243
33. CNS Stimulants and Cognition Enhancers 247

Section Nine
Hormones and Related Drugs (Endocrines)

34. General Consideration and Hormones of Anterior Pituitary 251
35. Thyroid Hormones and Antithyroid Drugs 255
36. Drugs Affecting Calcium Metabolism 260
37. Insulin, Oral Antidiabetics Drugs and Glucagon 263
38. Corticosteroids 272
39. Gonadal Hormones and their Antagonists 277
40. Oxytocin and Other Drugs Acting on Uterus 288

Section Ten
Chemotherapy

41. General Considerations 292
42. Sulfonamides, Trimethoprim and Quinolones 297

43. Urinary Antiseptics and Drugs for Sexually Transmitted Diseases 302
44. Beta-lactam Antibiotics 308
45. Macrolides, Aminoglycosides and Other Antibacterial Drugs 317
46. Tetracyclines and Chloramphenicol 326
47. Antifungal Drugs 331
48. Antiviral Drugs 335
49. Chemotherapy of Tuberculosis 338
50. Chemotherapy of Leprosy 343
51. Chemotherapy of Malaria 345
52. Chemotherapy of Amoebiasis 353
53. Anthelmintic Drugs 357
54. Anticancer Drugs 361

SECTION ELEVEN
Miscellaneous

55. Antiseptics, Disinfectants and Ectoparasiticides 369
56. Vitamins 373
57. Heavy Metals and Antagonists, Enzymes, Therapeutic and Toxic Gases 377
58. Immunosuppressants and Gene Therapy 382
59. Vaccines, Sera and Other Immunostimulants 384
60. Drugs during Pregnancy and Infancy 390
61. Drugs Acting on Skin and Mucous Membranes 392
62. Clinical Pharmacology and Therapeutics 395
63. Management of Drug Inventory and Distribution 401
64. Drug Prescribing and Calculation of Doses 407

Annexures

Annexure I: Adverse drug reaction form 410
Annexure II: Representative examples of drugs which should be stored in refrigerator 412
Annexure III: Proforma I, II, and III 413
Annexure IV: Drug Schedules 417
Annexure V: Abbreviations 419

Index 427
