Contributors ix

Section 1: Shoulder Surgery-I: Instability and Trauma

Editors: Francesco Oliva, Howard Cottam
Series Editors: François M Kelbering, Nicola Maffulli

1. Arthroscopic treatment of anterior instability 1
2. Arthroscopic labral repair 9
3. Mini-open Latarjet procedure 21
4. Arthroscopic Latarjet procedure 29
5. Remplissage repair in humeral bone defect 37
6. Management of glenoid bone loss with an open iliac crest bone graft technique 45
7. Plate fixation of proximal humeral fractures 51
8. Intramedullary nailing of proximal humeral fractures 59
9. Pinning of proximal humerus fractures 67
10. Reverse total shoulder arthroplasty after proximal humeral fracture 75
11. Arthroscopic treatment of greater tuberosity fractures 87
12. Management of periprosthetic humeral fractures 93
13. Surgical fixation of midshaft clavicle fractures 101
14. Surgical treatment of distal clavicular fractures 107
15. Surgical treatment of proximal clavicular fractures 115
16. Surgical fixation of acromioclavicular dislocations 123
17. Latarjet surgery for glenohumeral instability 127

Section 2: Shoulder Surgery-II: Rotator Cuff and Shoulder Arthroplasty

Editors: Pericles Papadopoulos, Achilleas Boutsiadis, Howard Cottam
Series Editors: François M Kelbering, Nicola Maffulli

1. Arthroscopic subacromial decompression 1
2. Arthroscopic excision of the lateral end of the clavicle 7
3. Arthroscopic long head of biceps tendon tenodesis 15
4. Arthroscopic in-situ repair of PASTA lesions 21
5. Arthroscopic subscapularis tear repair 29
6. Single-row rotator cuff repair of postero-superior tears with suture anchors 35
7. Arthroscopic double-row rotator cuff repair 41

8. Repair of massive rotator cuff tears 51
9. Latissimus dorsi transfer for irreparable massive rotator cuff tears: open technique 59
10. Arthroscopic release of the suprascapular nerve at the suprascapular notch 69
11. Arthroscopic treatment of calcifying tendinitis 75
12. Pectoralis major rupture: open repair 83
13. Subacromial InSpace balloon interposition for massive irreparable rotator cuff tears 87
14. Superior capsular reconstruction with dermal allograft 93
15. Shoulder surface arthroplasty for arthritis 103
16. Stemless shoulder arthroplasty for arthritis 111
17. Anatomic total shoulder arthroplasty 117
18. Reverse shoulder arthroplasty with glenosphere bony lateralization (BIO–RSA) 125
19. Reverse total shoulder arthroplasty (RTSA) for comminuted shoulder fractures 131
20. Patient-specific instrumentation for anatomic shoulder arthroplasty 137
21. Hemiarthroplasty for shoulder fractures 143

Section 3: Knee Surgery-I: Soft Tissue

Editors: Henrique Jones, Tiburtius V S Klos, François M Kelberine, Jamie S McConnell
Series Editors: François M Kelbering, Nicola Maffulli

1. Reconstruction of the anterior cruciate ligament using bone–patellar tendon–bone autograft 1
2. Reconstruction of the anterior cruciate ligament using hamstring autograft 9
3. Reconstruction of the anterior cruciate ligament using iliotibial band autograft 17
4. Reconstruction of the anterior cruciate ligament using quadriceps tendon autograft 25
5. Reconstruction of the anterior cruciate ligament without foreign materials: bone dowel method 31
6. Reconstruction of the anterior cruciate ligament with open physes 41
7. Extra-articular lateral tenodesis for anterior cruciate ligament-deficient knee 45
8. Reconstruction of the posterolateral corner 53
9. Reconstruction of the posterior cruciate ligament using a single bundle graft 59
10. Arthroscopic resection of the medial meniscus 67
11. Arthroscopic treatment of a meniscal cyst 73
12. Arthroscopic plasty of the discoid meniscus 77
13. Arthroscopic meniscal repair: the 'all-inside' method 81
14. Reconstruction of the medial patellofemoral ligament using hamstring tendon autograft 87

15. Dynamic reconstruction of the medial patellofemoral ligament with hamstring tendon autograft 93
16. Reconstruction of the medial patellofemoral ligament with quadriceps tendon autograft 97
17. Repair of acute quadriceps tendon rupture 105
18. Surgery for patellar tendonitis: 'jumper's knee' 111
19. Complete arthroscopic synovectomy 115

Section 4: Knee Surgery-II: Bone and Cartilage

Editors: Burt V S Klos, Henrique Jones, François M Kelberine, Wasim Khan
Series Editors: François M Kelbering, Nicola Maffulli

1. Arthroscopic fixation of distal detachment of the anterior cruciate ligament 1
2. Arthroscopic treatment of tibial plateau fractures 7
3. Trochlear osteotomy (Albee procedure) for patellar instability 13
4. Repair of cartilage defects using osteochondral allograft 17
5. Repair of cartilage defects using scaffold 21
6. Repair of cartilage defects with microfracture surgery 25
7. Repair of cartilage defects with mosaicplasty – osteochondral autograft transfer 29
8. Distal femur medial closing wedge osteotomy 37
9. Distal femoral opening wedge osteotomy 47
10. Extra-articular graft for osteochondritis dissecans 53
11. Fixation of osteochondritis dissecans 61
12. High tibial opening wedge osteotomy 65
13. Lateral approach for distal femoral fracture reduction and fixation 71
14. Medial approach for distal femoral fracture reduction and fixation 77
15. Open fixation of tibial plateau fractures 83
16. Open reduction and internal fixation of patellar fractures 87
17. Surgery for Osgood–Shlatter disease 95
18. Proximal tibial tubercle transfer for patella baja (infera) 101
19. Distal tibial tubercle transfer for patellar instability 105

Section 5: Elbow Surgery

Editors: François M Kelberine, Wasim Khan
Series Editors: François M Kelbering, Nicola Maffulli

1. Arthroscopic debridement for osteochondritis dissecans of the capitellum 1
2. Arthroscopic treatment of osteochondritis dissecans using mosaicplasty 7

3. Open treatment for lateral epicondylitis 11
4. Surgical repair of distal triceps tendon rupture 15
5. Reconstruction of chronic distal triceps tendon ruptures 21
6. Repair of distal biceps tendon rupture 27
7. Radial head fracture fixation 33
8. Prosthetic radial head replacement 39
9. Olecranon fracture fixation 45
10. Fracture fixation for distal humeral intra-articular fractures 51
11. Flexible intramedullary nailing for pediatric supracondylar humeral fracture 59
12. Acute ligamentous repair following elbow dislocation 65
13. Arthroscopic debridement for posteromedial impingement 71
14. Treatment of chronic posterolateral instability of the elbow 75
15. Treatment of chronic medial elbow instability 81
16. Open debridement for elbow arthritis 87
17. Arthroscopic arthrolysis of the elbow 95
18. Total elbow arthroplasty without bone loss 103
19. Endoscopic treatment of olecranon bursitis 111

Section 6: Foot and Ankle Surgery

Editors: Gian Luigi Canata, Lee Parker
Series Editors: François M Kelbering, Nicola Maffulli

1. Modified Broström procedure for lateral ligament repair 1
2. Lateral ligament reconstruction with fibular periosteal flap in chronic ankle instability 7
3. Lateral ligament stabilization of the ankle: the Williams procedure 13
4. Anatomic deltoid ligament repair 17
5. Spring ligament reconstruction 23
6. Open reduction and internal fixation of lateral malleolar fractures 27
7. Open reduction and internal fixation of medial malleolar fractures 33
8. Treatment of osteochondral lesions of the talus using 'one-step' bone marrrow-derived cell transplantation 39
9. Arthroscopic treatment of osteochondral lesion of the talus 45
10. Subtalar joint arthrodesis 51
11. Endoscopic and open calcaneoplasty 55
12. Endoscopic treatment of os trigonum 63
13. Accessory navicular bone excision 69

14. Open plantar excision of Morton's neuroma 75
15. Minimally invasive surgery of hallux valgus 81
16. Surgical treatment for osteochondrosis of the second metatarsal head (Freiberg disease or Köhler II disease) 89
17. Endoscopic Achilles tenolysis 95
18. Repair of Achilles tendon subcutaneous rupture with mini open technique 101
19. Treatment of calcific insertional Achilles tendonitis 107
20. Treatment for chronic midportion Achilles tendinopathy: the soleus transfer technique 115
21. Retinaculum repair for recurrent peroneal tendon subluxation 119
22. Surgical treatment of peroneal tendon lesions 125
23. Posterior tibialis tendon reconstruction 133
24. Management of posterior tibialis tendon dislocation 141
25. Surgical release of plantar fasciitis 147
26. Surgical release of the superficial peroneal nerve 155
