Contents

1. Introduction to IUI 1

2. Indications, Patient Selection and Work-up Before IUI 5

- Indications of IUI 6
- Evaluation of the Female Partner 13
- Evaluation of Male Partner 17
- Prerequisites for IUI 17

3. Normal Semen Analysis and CASA 21

- Instructions to the Couple 22
- Collection of Specimen 22
- Physical Parameters 23
- Normal Semen Parameters as Suggested by WHO 26
- Sperm Motility 31
- Sperm Morphology 33
- Fructose Level 36
- Recent Advances in Semen Analysis 36

4. Setting up of an IUI Laboratory 39

- Registration and Accreditation 40
- Equipment 44
- Media 49
- Record Maintenance 50

5. Ovulation Induction in IUI 55

- Rationale for Inducing Ovulation while Carrying out IUI 56
- Ovarian Stimulation or Induction 56
- Various Drugs Commonly Used for Ovulation Induction 58
- Clomiphene Citrate with Gonadotropins 65

6. Monitoring in Intrauterine Insemination 73

Monitoring of Follicular Growth and Endometrial Development 74

7. Role of Doppler in Intrauterine Insemination 87

8. Semen Preparation Techniques for IUI 111

- Advantages of Semen Preparation 112
- Types of Techniques 113
- Comparison of Various Methods 137
- Problem Samples 138

9. Technique of Intrauterine Insemination 141

- Intrauterine Insemination (IUI) 142
- Timing of Insemination 143
- Detection of LH Surge 143
- Ovulation after hCG Injection 144
- Number of Inseminations 146
- Semen Collection and Sample Assessment 146
- Sperm Preparation 148
- Loading the IUI Catheter 153
- Volume of Insemination 154
- Procedure for IUI 154

10. Luteal Phase Support in IUI 161

- Why Luteal Support is Needed in Controlled Ovarian Stimulation with IUI? 162
- Types of Progesterone 163
- Duration of Support 166
- Role of Antibiotics 167

11. Difficult IUI 171

- Acutely Anteverted/Retroverted Uterus 172
- Stenosed Cervix 172
- Abnormal Cervical Canal 173
- Apprehensive Patient 173
- Role of Sonography in Difficult Situations 173

12. Complications of IUI **175**
- Complications due to Ovarian Stimulation 176
- Complications due to the Procedure 187
- Other Complications 190

13. Determinants of Success and Optimizing Success of IUI **195**
- Factors Influencing Pregnancy Rates with IUI 196

14. Donor Insemination **205**
- Indications 206
- Donor Work-up 206

15. Sperm Cryopreservation **211**
- Indications of Cryopreservation 212
- Principles of Cryopreservation 213
- Steps of Cryopreservation 216
