Contents

1. Chemistry and Metabolism of Carbohydrates 1
2. Chemistry and Metabolism of Lipids 7
3. Chemistry of Proteins and Metabolism of Amino Acid 12
4. Chemistry and Metabolism of Hemoglobin 21
5. Biological Oxidation 25
6. Chemistry and Metabolism of Nucleic Acids 28
7. Replication, Transcription, Translation, and DNA Recombinant Technology 32
8. Enzymes 37
9. Mineral Metabolism 40
10. Vitamins 44
11. Starvation 48
12. Energy Metabolism and Nutrition 49
13. Free Radical and Antioxidants 50
14. Xenobiotics/Detoxification 52
15. Organ Function Tests 54
16. Immunology and Oncology, Oncogenesis 56
17. Extracellular Matrix 57
18. Water, Electrolyte, and Acid-Base Balance 59
19. Case Studies in Biochemistry 62
