CONTENTS

1. Psychology and its Relation to Nursing **1**
Definition of Psychology 2
Importance of Psychology 11
Psychology and Nursing 12

2. Body-Mind Relationship **18**
Integrated Responses 18
The Behaving Organism 20
Levels of Functioning or Levels of Consciousness 20

3. Biology of Behavior **24**
Nervous System 24
Sense Organs: Psychology of Sensations 29
Muscular Control of Behavior 29

4. Nature and Nurture: Individual Differences **34**
Nature—Heredity 34
Nurture—Environment 35
The Nature-Nurture Controversy 41

5. Observation: Attention, Sensation, and Perception **44**
Attention 45
Observation 49
Parapsychology 57

6. The Learning Process **61**
Domains or Types of Learning 62
Modes of Learning 63
Steps in Learning Process 76
Factors Influencing Learning 76
Transfer of Learning 78
Learning and the Nurse 79

7. Memory: Remembering and Forgetting **83**
Three Stages of Memory 84
Factors Influencing Memory 87
Remembering and Forgetting 90
Process of Memory and Recall 91
Forgetting 92

Methods to Improve Memory 98
Studying to Remember 99

8. Thinking and Reasoning: Concept and Language 103

Kinds of Thinking 104
Errors in Thinking 109

9. Intelligence and its Measurement 117

Definitions of Intelligence 117
Types of Intelligence 118
Theories of Intelligence 118
Assessment of Intelligence 127
Types of Intelligence Tests 130
Limitations of the Concept of IQ 131
Individual Differences 132
Practical Experiment 137

10. Aptitudes (Capacity or Innate Potential) 141

Aptitude 141
Practical Experiment 142

11. Motivation 146

Types of Motivation 147
Motive 147
Theories of Motivation 151
Motivation and the Nurse 155

12. Frustration and Conflicts 159

Sources of Frustration 160
Reactions to Frustration 165

13. Stress and its Management 170

Symptoms of Stress 171
Sources of Stress 172
Types of Stress 172
Emotional Reactions to Hospitalization 175
Adaptation Theory (Dr Hans Selye) (1945) 175

14. Defense Mechanisms 181

Anxiety and Fear 181
Adjustment Mechanism or Defense Mechanism 182

15. Emotions in Health and Disease 194

Importance of Emotions 200
Emotions and Disease 200
Development of Emotions 201

An Emotion Acts as a Motive 201
Theories of Emotions 202
States of Emotion 205
The Nurse and Control of Emotions 206

16. Attitude: The Way We See Things 210

Positive and Negative Attitudes 215

17. Personality (Is What the Man is) 220

Classifications of Personality 221
Theories of Personality Development 224
The Five Factor Model or the Five Traits Theory 233
Methods/Techniques of Personality Assessment 233
Assessment of Personality 234
Personality Development 237

18. Developmental Psychology 244

Nature–Nurture Debate 245
Development: Continuous or in Stages 245
Stability or Change Issue 245
Emotional Development in Children 246
Development in the Life Cycle 248
Eight Psychosocial Stages of Erikson 250

19. Mental Health and Mental Illness 265

Mental Hygiene Movement 266
Medical Classification of Mental Illness (World Health Organization) 267
Mental Health—its Meaning and Nature 267
Foundations of Mental Health 269
Role of Nurses in Psychotherapy 271
Shared Responsibility 274
Counseling 274

20. Psychological Tests: Measurement of Individual Differences 279

Kinds of Psychological Tests 279
Prerequisites of a Test: Reliability and Validity 282

21. Attributions: Our Explanations of Behavior 285

Pan Posthema's Case 286
Attributional Biases: Different Attribution for Ourselves and Others 286
Changing Attributions 287
Results and Conclusion 288
Factors Influencing Attributions 288

Modifying our Attributes 289
Attributions and the Nurse 289

22. Educational Psychology: Scope and Methods 292
Education 292
Psychology 293
Educational Psychology 294

23. Effective Teaching 300
Education as a Process of Communication 300
Transmission 304
Training Aids: Value and Characteristic 307
Curriculum Appraisal 308
Lesson Plan 309
For Effective Health Teaching 314

24. Role and Functions of a Teacher 316
Instructional Role 316
Faculty Role 317
Individual Role 317
Qualities of a Good Teacher 317
Characteristics of Effective Teaching 318

25. Evaluation 321
General Functions of Evaluation 321
Principles of Evaluation 322
Methods of Evaluation 323
Evaluation of Instruction 323
Benefits of Evaluation 324
Qualities of a Good Test 324
Types of Tests 325

26. Our Social World 328
Scope of Social Psychology 328
Group—the Unit of Study 329
Antisocial Behavior 329
Staff Groups in Hospitals 330
Leadership 332

27. Soft Skills and Nursing Empowerment 336
Soft Skills 336
Nursing Empowerment 338
