Contents

Foreword *vii*
Preface *ix*
Acknowledgments *xi*

CHAPTER 1
Epidemiology and Etiology 1

CHAPTER 2
Biology of Multiple Myeloma 11

CHAPTER 3
Clinical Presentation 28

CHAPTER 4
Diagnosis, Staging, and Follow-up 52

CHAPTER 5
Therapy for Multiple Myeloma: A Historical Perspective 79

CHAPTER 6
Introduction of Immunomodulatory Drugs and Proteasome Inhibitors 91

CHAPTER 7
Recent Advances in Therapy for Multiple Myeloma in Transplant-Eligible Patients 102

CHAPTER 8
Modern Induction Therapy for Transplant-Ineligible Patients 123

CHAPTER 9
Treatment of Relapsed or Refractory Multiple Myeloma 132

CHAPTER 10
Evaluating Disease Response and Goals of Therapy 143

CHAPTER 11
Individualizing Treatment 156

CHAPTER 12
Adjunctive Treatment 171

CHAPTER 13
Future Directions 193
