CONTENTS

CHAPTER 1: Introduction **1**
- Components of a Complete Denture 1

CHAPTER 2: Diagnosis and Treatment Planning **4**
- Diagnosis 4
- Patient Evaluation 4
- Clinical History Taking 6
- Contraindications for Complete Denture 7
- Dental History 7
- Clinical Examination of the Patient 8
- Radiographic Examination 16
- Treatment Plan 17
- Adjunctive Care 20
- Prosthodontic Care 20

CHAPTER 3: Diagnostic Impression in Complete Denture **21**
- Diagnostic Impression 21
- Making the Diagnostic Cast 22
- Analyzing the Diagnostic Cast 23
- Surveying 23

Chapter 4: Mouth Preparation for CD **25**
- Objectives of Mouth Preparation 25
- Non-surgical Methods 25
- Surgical 25
- Ridge Augmentation 27

Chapter 5: Primary Impressions in Complete Denture **29**
- Introduction and Classification of Impressions 29
- Anatomical Landmarks 31
- Anatomical Landmarks in Maxilla 31
- Anatomical Landmarks in Mandible 35
- Principles of Impression Making 38
- Objectives of Impression Making 38
- Recording the Primary Impression 42
- Relining the Primary Impression 44
- Alternative Method 44

CHAPTER 6: Lab Procedures Prior to Master Impression Making **45**
- Finishing the Primary Cast 45
- Fabrication of a Special Tray 45

CHAPTER 7: Secondary Impressions in Complete Dentures **52**
- Techniques for Making the Master Impression 52
- Making a Secondary Impression Using a Special Tray 52
- Inspecting the Impression 58
- Disinfecting the Impression 58
- Remaking the Impression 58

CHAPTER 8: Lab Procedures Prior to Jaw Relation **59**
- Preparing the Master Cast 59
- Indexing the Master Cast 61
- Fabricating the Temporary Denture Base 62
- Stabilizing the Base Plates 66
- Fabrication of Occlusal Rims 67

CHAPTER 9: Maxillomandibular Relations **70**
- Mandibular Movements 70
- Customizing the Occlusal Rims 77
- Orientation of the Plane of the Occlusal Rim 77
- Jaw Relation 77
- Vertical Jaw Relation 80
- Horizontal Jaw Relation 85
- Other Methods of Recording the Centric-jaw Relation 93

CHAPTER 10: Lab Procedures Prior to Try-in **94**
- Articulators and Articulation 94
- Classification 94
- Structure of an Articulator 98
- Mounting Procedure 101
- Teeth Selection 101
- Occlusion 112
- Arrangement of Artificial Teeth 120
- Wax Up 124

CHAPTER 11: Try-in 126
- Definition 126
- Procedure 126
- Speech 127

CHAPTER 12: Lab Procedures Prior to Insertion 129
- Denture Processing 129
- Compression Moulding Technique 129
- Injection-Moulding System 133
- Microwave Processing 135
- Finishing and Polishing the Denture 135

CHAPTER 13: Complete Denture Insertion 137
- Checking for Fit and Function 137
- Checking for the Fit of the Prosthesis 137
- Patient Instructions 139
- Tissue Conditioners 139
- Use of Denture Adhesives 141
- Sequelae of Wearing Complete Dentures 143
- Direct Sequelae of Wearing Complete Dentures 144
- Indirect Sequelae of Wearing Complete Dentures 150
- General Precautions to Prevent and/or Control of Sequelae from Complete Dentures 151

CHAPTER 14: Relining and Rebasing in Complete Dentures 152
- Relining 152
- Rebasing 158

CHAPTER 15: Special Complete Denture 160
- Conventional Complete Dentures with Mechanical Retentive Components 160
- Single Complete Dentures 160
- Immediate Dentures 163
- Tooth-supported Overdentures 166
- Cu-sil Denture 168
- Implant-supported Overdentures 168
- Obturators 168

CHAPTER 16: Introduction and Classification 169
- Common Terminologies Used in Removable Partial Denture 169
- Indications for Removable Partial Dentures 169
- Classification of Partially Edentulous Arches 170
- Steps in the Fabrication of a Removable Partial Denture 174
- Parts of a Removable Partial Denture 175

CHAPTER 17: Diagnosis, Treatment Planning and Mouth Preparation 177
- Clinical Diagnosis 177
- Clinical Evaluation of the Existing Teeth 177
- Derived Diagnosis or Postclinical Diagnosis 178
- Treatment Planning 180
- Pre-prosthetic Mouth Preparation 180
- Common Problems Faced During Treatment Planning 181
- Making the Primary Cast 184

CHAPTER 18A: Surveying 185
- Surveying 185

CHAPTER 18B: Path of Insertion 193
- Determining the Path of Insertion and Guiding Planes 193

CHAPTER 18C: Major Connectors 196
- Major Connector 196

CHAPTER 18D: Minor Connector 205
- Minor Connectors 205

CHAPTER 18E: Rest and Rest Seats 208
- Rest and Rest Seats 208

CHAPTER 18F: Direct Retainers 211
- Direct Retainer 211

CHAPTER 18G: Attachments 221
- Internal Attachment 221

CHAPTER 18H: Indirect Retainers 226
- Indirect Retainers 226

CHAPTER 18I: Denture Base and Teeth 230
- Denture Base 230

CHAPTER 18J: Principles of a Removable Partial Denture Design 233
- Principles of a Removable Artial Denture 233
- Principles of Design/Philosophy of Design 239

- Essentials of Design 240
- Laboratory Design Procedure 241

CHAPTER 19: Prosthetic Mouth Preparation 243
- Preparation of Retentive Undercuts 243
- Guide Plane Preparation 244
- Rest Seat Preparation 245

CHAPTER 20: Secondary Impression and Master Cast for RPD 247
- Impression Making for Kennedy's Tooth Supported Partial Denture 247
- Impression Making for Distal Extension Denture Bases 247
- Dual Impression Procedures 249
- Preparing the Master Cast 254

CHAPTER 21: Fabrication of a Removable Partial Denture 257
- Framework Fabrication 257
- Framework Try-in 262
- Fabrication of the Temporary Denture Base and Occlusal Rims 263
- Jaw Relation 263
- Mounting the Casts 263
- Denture Base Selection 263
- Teeth Selection 264
- Arranging the Artificial Teeth 265
- Processing 266
- Insertion 266

CHAPTER 22: Types of Removable Partial Dentures 269
- Unilateral RPD 269
- Implants Supported RPD 269
- Removable Partial Over-denture 270
- Guide Plane Removable Partial Denture 271
- I-bar Removable Partial Dentures 271
- Swing-lock Removable Partial Dentures 274
- Temporary Partial Dentures 276
- Immediate Partial Dentures 280
- Spoon Dentures 280
- Avery Dentures 281
- Two-part Dentures 281
- Claspless Dentures 281
- Disjunct Dentures 282
- Tooth-borne Nesbit Dentures 283
- Sectional Denture Attachments 283

CHAPTER 23: Correction of Removable Partial Dentures 285
- Relining 285
- Rebasing of Removable Partial Dentures 286
- Reconstruction of Removable Partial Dentures 286
- Repair of Removable Partial Dentures 287
- Glass Fibre Reinforcement Repair in Acrylic Removable Dentures 288

CHAPTER 24: Introduction to Fixed Partial Dentures 290
- Common Terms Used in Fixed Prosthodontics 290
- Indications for FPD 290
- Contraindications for FPD 290
- Diagnosis and Treatment Planning 290
- Classification of FPD 293
- Smile Designing 296

CHAPTER 25: Parts of a Fixed Partial Denture 300
- Retainers 300
- Pontics 301
- Special Pontics 308
- Connectors 309

CHAPTER 26: Design of a Fixed Partial Denture 311
- Design Considerations for Individual Conditions 311
- Material Selection 312
- Biomechanical Considerations 312
- Abutment Selection 313
- Special Cases 316
- Condition of the Residual Ridge 317
- Occlusion with the Opposing Teeth 317

CHAPTER 27: Types of Abutments 318
- Healthy/Ideal Abutments 318
- Cantilever Abutments 318
- Pier Abutments 318
- Tilted Abutments 318
- Extensively Damaged Abutments 319
- Implant Abutments 323

CHAPTER 28: Tooth Preparation 327
- Principles of Tooth Preparation 327
- Preparations for Full Veneer Crowns 331
- Preparations for Partial Veneer Crowns 338

CHAPTER 29: Types of Fixed Partial Dentures 347
- Based on Design 347
- Based on Materials 348
- Based on Length 350
- Based on Duration of Use 350
- Fixed Partial Denture Splints 350
- Fibre-reinforced Composite Resin Bridges 351
- Resin-bonded Fixed Partial Dentures 352
- Laminate Veneers 357

CHAPTER 30: Impression Making in Fixed Partial Dentures 364
- Fluid Control and Soft Tissue Management 364
- Impression-making for Fixed Partial Dentures 371
- Other Equipment for FPD Impressions 374

CHAPTER 31: Temporization or Provisional Restoration 375
- Ideal Requirements of Provisional Restorations 375
- Types of Provisional Restorations 375
- Limitations of Provisional Restorations 377
- Recent Advances and New Materials 378

CHAPTER 32: Lab Procedures Involved in the Fabrication of FPD 380
- Dies and Working Casts 380
- Wax Pattern Fabrication 382
- Casting 387
- Soldering 389
- Welding 391
- Recent Advancements Fabrication in Metal Framework 391
- Ceramic/Acrylic Veneering 393

CHAPTER 33: Cementation of Fixed Partial Dentures 395
- Finishing and Polishing 395
- Luting Agents 395
- Try-in 398
- Cementation 399

CHAPTER 34: Maxillofacial Prosthetics 404
- Materials in Maxillofacial Prosthetics 404
- Colour Matching 407
- Extrinsic and Intrinsic Methods of Colouring 408
- Adhesives in Maxillofacial Prosthesis 408

CHAPTER 35: Implant Dentistry 409
- Indications and Contraindications 409
- Classification of Implants by Design 409
- Classification of Implants by Material Used 412
- Classification of Implants Based on Biocompatibility 414
- Osseointegration 415
- Implant Surgical Components 422
- Implant Prosthetic Components 427
- Prosthetic Management of Dental Implants 432
- Implant Maintenance 448
