TABLE OF CONTENTS

1. OVERVIEW OF ANTIMICROBIAL THERAPY 1

Factors in Antibiotic Selection 2
Spectrum 2
Tissue Penetration 2
Antibiotic Resistance Potential 3
Safety Profile 4
Cost 4
Hemodialysis Dosing Strategies 4
Microbiology and Susceptibility Testing 5
In Vitro vs. In Vivo Susceptibility 6
PK/PD and Other Considerations in Antimicrobial Therapy 6
Concentration vs. Time Dependent Kinetics 6
Bactericidal vs. Bacteriostatic Therapy 7
Monotherapy vs. Combination Therapy 7
IV-to-PO Switch Therapy 7
Bioavailability of Oral Antimicrobials 8
OPAT 8
Duration of Antibiotic Therapy 9
Colonization vs. Infection 9
Urine (AUC and CAB) 9
Respiratory Secretions 10
Wounds 10
Sacral Decubitus Ulcers and Diabetic Foot Ulcers 11
Positive Blood Cultures vs. Bacteremia (MSSA, MRSA, CoNS) 11
Drug Fever 12
Relative Bradycardia 12
Antibiotic Failure (DDx) 13
Classic Infections Not Curable with Antimicrobial Therapy Alone 13
Antibiotic Stewardship: Principles and Practice 14

2. EMPIRIC THERAPY BASED ON CLINICAL SYNDROME 17

CNS Infections
Acute Bacterial Meningitis (ABM) 18
Acute Nonbacterial/Chronic Meningitis 21
Encephalitis 25
Brain Abscess/Subdural Empyema/ Cavernous Vein Thrombosis/Intracranial Suppurative Thrombophlebitis 28

HEENT Infections
Facial/Periorbital Cellulitis 30
Bacterial Sinusitis 31
Keratitis 33
Conjunctivitis 34
Chorioretinitis 35
Endophthalmitis 36
External Otitis 38
Acute Otitis Media 39
Mastoiditis 40
Suppurative Parotitis 41
Pharyngitis 41
Thrush (Oropharyngeal Candidiasis) 44
Mouth Ulcers/Vesicles 45
Deep Neck Infections, Lemierre's Syndrome, Severe Dental Infections 48
Epiglottitis 49

Lower Respiratory Tract Infections
Acute Bacterial Exacerbation of Chronic Bronchitis (AECB) 50
Mediastinitis 51
Community Acquired Pneumonia (CAP) 51
Non-Zoonotic Atypical Pneumonia 59
Zoonotic Atypical Pneumonia 63
Lung Abscess/Empyema 72
Nursing Home Acquired Pneumonia (NHAP) 73
Nosocomial Pneumonia (NP, HAP, VAP) 74

Cardiovascular Infections
Subacute Bacterial Endocarditis 76
Acute Bacterial Endocarditis 80
Prosthetic Valve Endocarditis 82
Pericarditis/Myocarditis 84
Central IV Line/Pacemaker Infections 85
Vascular Graft Infections 88

Gastrointestinal Tract Infections
Esophagitis 90
Peptic Ulcer Disease 91
Gastric Perforation 91
Diarrhea/Typhoid (Enteric) Fever 92
Cholecystitis 99
Cholangitis 100
Gallbladder Wall Abscess/Perforation 100
Acute Pancreatitis 101
Pancreatic Abscess/Infected Pancreatic Pseudocyst 102
Liver Abscess 102
Hepatosplenic Candidiasis 103

Granulomatous Hepatitis 104
Viral Hepatitis 105
cIAIs/Intraabdominal or Pelvic Peritonitis/ Abscess (Colitis, Appendicitis, Diverticulitis, Septic Pelvic Thrombophlebitis, Spontaneous Bacterial Peritonitis, CAPD-Associated Peritonitis, TB Peritonitis) 108

Genitourinary Tract Infections
Dysuria-Pyuria Syndrome 111
Cystitis 111
Catheter-Associated Bacteriuria/Candiduria 113
Epididymitis 114
cUTIs/Acute Pyelonephritis 115
Chronic Pyelonephritis 116
Renal TB 116
Renal Abscess (Intrarenal/Perinephric) 118
Prostatitis/Prostatic Abscess 119
Urosepsis 120
Pelvic Inflammatory Disease, Salpingitis, Tuboovarian Abscess, Endometritis/ Endomyometritis, Septic Abortion 122

Sexually Transmitted Diseases
Urethritis/Cervicitis 123
Vaginitis/Balanitis 125
Genital Vesicles 126
Genital Ulcers 127
Suppurating Inguinal Adenopathy 128
Genital/Perianal Warts 128
Syphilis 129

Bone and Joint Infections
Septic Arthritis/Bursitis 132
Lyme Disease/Lyme Arthritis 138
Infected Joint Prosthesis 139
Osteomyelitis 140

Skin and Soft Tissue Infections
Cellulitis, Erysipelas, Mastitis 144
Complicated Skin/Skin Structure Infections (cSSSIs) 145
Skin Ulcers 148
Skin Abscesses/Infected Cysts (Skin Pustules/Boils, Furunculosis) 151
Skin Vesicles (Non-Genital) 153
Wound Infections 155
Superficial Fungal Infections Skin/Nail 158
Skin Infestations 161
Ischiorectal/Perirectal Abscess 162

Sepsis/Septic Shock 163

Febrile Neutropenia 171

Transplant Infections
Bacteremia 172
Candidemia 173
CMV/HHV-6/BK Virus 174
EVB/PTLD 175
RSV 175
Adenovirus 175
Encephalitis/Meningitis 176
Brain Abscess/Mass Lesions 176
Focal/Segmental Pulmonary Infiltrates 177
Diffuse Pulmonary Infiltrates 177
Viral Hepatitis 181

Toxin-Mediated Infectious Diseases
Toxic Shock Syndrome 182
Botulism 184
Tetanus 185
Diphtheria 185

Bioterrorist Agents
Anthrax 186
Tularemia Pneumonia 187
Pneumonic Plague 187
Botulism 187
Smallpox 187
Ebola 187

3. ANTIBIOTIC SUSCEPTIBILITY PROFILES AND INITIAL THERAPY OF ISOLATES PENDING SUSCEPTIBILITY RESULTS 195

Antibiotic Susceptibility Profiles (Penicillins, Macrolides, Tetracyclines, and Others) ... 196
Antibiotic Susceptibility Profiles (Cephalosporins) 201
Antibiotic Susceptibility Profiles (Aminoglycosides, Fluoroquinolones, Carbapenems, and Others) 208
Gram Stain Characteristics of Isolates (by Morphology Arrangement, Oxygen Requirements) 213
Alphabetical Index of Isolates 215
Key Factors in Antibiotic Selection (Isolate Known) 217
Antibiotic Resistance Potential 217
Aerobic Isolates 218
Capnophilic Isolates 245
Anaerobic Isolates 246
Yeast/Fungi 252
Empiric Antibiotic Therapy of Selected Problem Pathogens 258t
CSF Gram Stain 260
Sputum Gram Stain 261
Urine Gram Stain 262

4. PARASITES, FUNGI, UNUSUAL ORGANISMS 263

Blood Pathogens
Microfilaria in Blood....264
Trypanosomes in Blood....265
Spirochetes in Blood....267
Intracellular Inclusion Bodies in Blood....271

CSF/Brain Pathogens
Cysts/Mass Lesions in CSF/Brain....274

Lung Pathogens
Pulmonary Cystic Lesions/Masses....279
Pulmonary Coin Lesions....280
Pulmonary Infiltrates/Mass Lesions....281

Heart Pathogens
Chagas' Disease....288

Liver Pathogens
Liver Flukes....288
Cystic Masses in Liver....289
Hepatomegaly....290

Stool/Intestines Pathogens
Intestinal Protozoa....292
Intestinal Nematodes (Roundworms)....294
Intestinal Cestodes (Tapeworms)....297
Intestinal Trematodes (Flukes/Flatworms)....298
Other Intestinal Infections....299

Skin/Muscle Pathogens
Infiltrative Skin/Subcutaneous Lesions....300
Infiltrative Skin Lesions ± Ulcers/Sinus Tracts/Abscesses....301
Skin Vesicles/Bullae....306
Subcutaneous Serpiginous Lesions....306
Skin Papules/Nodules/Abscesses....307
Rickettsia (Fever/Petechial Skin Rash)....313
Other Skin Lesions....316
Myositis....317

5. HIV INFECTION 319

Overview....320
Stages of HIV Infection....321
Acute (Primary) HIV Infection....322
Approach to HIV Testing....323
Initial Assessment of HIV Infection....326
Indications for Treatment of HIV Infection....329
Antiretroviral Treatment....330
Antiretroviral Treatment Failure....334
Prophylaxis of Opportunistic Infections....337
Treatment of Opportunistic Infections....340
Treatment of Other Opportunistic Infections in HIV....358
HIV Coinfections (HBV/HCV)....365

6. PROPHYLAXIS AND IMMUNIZATIONS 371

Surgical Prophylaxis....372
Post-Exposure Prophylaxis....376
Chronic Medical Prophylaxis/Suppression....382
HIV Pre-Exposure Prophylaxis (PrEP)....384
HIV Post-Exposure Prophylaxis (PEP)....384
HIV Opportunistic Infections....384
Transplant Prophylaxis....386
Endocarditis Prophylaxis....388
Travel Prophylaxis....390
Malaria Prophylaxis....394
Tetanus Prophylaxis....396
Immunizations....397

7. PEDIATRIC INFECTIOUS DISEASES AND PEDIATRIC DRUG SUMMARIES 403

CNS Infections....404
HEENT Infections....409
Lower Respiratory Tract Infections....415
Vascular Infections....421
Gastrointestinal Infections....423
Bone and Joint Infections....427
Skin and Soft Tissue Infections....431
Pediatric Antimicrobial Drugs Dosages....434

8. CHEST X-RAY ATLAS 443

Unilateral Focal Segmental/Lobar Infiltrate Without Effusion....444
Unilateral Focal Segmental/Lobar Infiltrate With Effusion....449
Unilateral Ill-Defined Infiltrates Without Effusion....454
Unilateral Ill-Defined Infiltrates With Effusion....461

Bilateral Infiltrates Without Effusion 465
Bilateral Infiltrates With Effusion 475
Cavitary Infiltrates (Thick-Walled) 480
Cavitary Infiltrates (Thin-Walled) 487

9. INFECTIOUS DISEASE DIFFERENTIAL DIAGNOSIS 491

10. ANTIBIOTIC PEARLS & PITFALLS 525

11. ANTIMICROBIAL DRUG SUMMARIES 539

APPENDIX 745
