Contents

Section 1: General Pharmacology 1

1. Introduction, Sources of Drugs and Routes of Drug Administration 3
- Definitions *3*
- Essential Medicines *5*
- Sources of Drugs *5*
- Routes of Drug Administration *5*
- Enteral Route *6*
- Parenteral Routes *8*
- Injections *8*
- Inhalation *11*
- Transdermal Route *12*
- Local/Topical Application *13*
- Special Drug Delivery Systems *13*
- Prescription Writing *14*

2. Pharmacokinetics 17
- Mechanisms of Transport of Drugs Across Biological Membranes *18*
- Absorption *18*
- Bioavailability *21*
- Distribution *22*
- Biotransformation (Metabolism) *23*
- Excretion *26*
- Clinical Pharmacokinetics *27*
- Drug Dosage *29*

3. Pharmacodynamics 32
- Mechanisms of Drug Action *32*
- Receptor *33*
- Dose Response Relationship *37*
- Factors that Modify the Effects of Drugs *41*

4. Adverse Drug Reactions, Drug Interactions and Drug Nomenclature 45
- Adverse Drug Reactions *45*
- Drug Allergy *47*
- Drug Interactions *48*
- Drug Development *50*
- Drug Nomenclature *50*
- Orphan Drugs *51*
- P-drugs *51*

Section 2: Autonomic Nervous System Drugs 53

5. Cholinergic Drugs 55
- Introduction to Autonomic Pharmacology *55*
- Cholinergic Agonists *57*
- Cholinergic Drugs *59*
- Esters of Choline *60*
- Cholinomimetic Alkaloids *60*
- Anticholinesterases *61*

6. Anticholinergic Drugs 66
- Atropine Substitutes/Derivatives *68*

7. Skeletal Muscle Relaxants 70
- Classification *70*
- Peripherally-acting Skeletal Muscle Relaxants *70*
- Directly-acting Muscle Relaxants *75*
- Centrally-acting Muscle Relaxants *76*

8. Adrenergic Agonists 78
- Adrenergic Drugs (Sympathomimetics) *80*
- α_1 Agonists *86*
- α_2 Agonists *88*
- Selective β_2 Stimulants *88*
- Anorectic Agents (Anorexiants) *88*

9. Adrenergic Antagonists and Treatment of Glaucoma 89
- Alpha-adrenergic Blocking Agents *89*
- Beta-adrenergic Blocking Agents *92*
- Alpha and Beta-adrenergic Blockers *95*
- Treatment of Glaucoma *96*

Section 3: Drugs Acting on the Kidney 99

10. Diuretics and Antidiuretics 101
- Diuretics *101*
- Physiology of Urine Formation *101*
- Classification *102*
- High Efficacy, High Ceiling or Loop Diuretics *102*
- Thiazides and Thiazide-like Diuretics *104*
- Potassium-sparing Diuretics *105*
- Carbonic Anhydrase Inhibitors *106*
- Osmotic Diuretics *107*
- Diuretics and Dentistry *108*
- Antidiuretics *108*

Section 4: Cardiovascular System Drugs 111

11. Calcium Channel Blockers, Drugs Acting on Renin-Angiotensin System and Treatment of Cardiac Failure 113
- Renin-angiotensin-Aldosterone System (RAAS) *115*
- Electrophysiology of the Heart *118*
- Drugs Used in Congestive Cardiac Failure *119*
- Cardiac Glycosides *121*

12. Antihypertensive Drugs, Plasma Expanders and Treatment of Shock 124
- Classification *124*
- Plasma Expanders *131*
- Vasoactive Drugs *133*
- Pharmacotherapy of Shock *133*

13. Drugs Used in Angina Pectoris and Myocardial Infarction 135
- Antianginal drugs *135*
- Pharmacotherapy of Angina *139*
- Drugs used in Myocardial Infarction *140*

14. Antiarrhythmic Drugs 142
- Classification *142*
- Class I Drugs *142*
- Class II Drugs *144*
- Class III Drugs *144*
- Class IV Drugs *145*
- Other Antiarrhythmics *145*

Section 5: Central Nervous System Drugs 147

15. General Anesthetics 149
- Classification *150*
- Inhalational Anesthetics *150*
- Intravenous Anesthetics *153*
- Preanesthetic Medication *156*

16. Local Anesthetics 158
- Chemistry *158*
- Actions *160*
- Individual Compounds *161*
- Uses and Techniques of Local Anesthetics *163*

17. Sedative Hypnotics 167
- Classification *167*
- Benzodiazepines *167*
- Newer Agents *170*
- Barbiturates *172*

18. Antiepileptics 174
- Types of Seizures *174*
- Antiepileptic *175*
- Phenytoin *176*
- Phenobarbitone *178*
- Carbamazepine *179*
- Ethosuximide *179*
- Valproate *179*
- Benzodiazepines *180*
- Newer Antiepileptics *180*
- Treatment of Epilepsies *181*

19. Opioid Analgesics 183
- Types of Pain *183*
- Classification *184*
- Morphine *184*
- Mixed Agonists and Antagonists *193*
- Opioid Antagonists *194*

20. Nonsteroidal Anti-inflammatory Drugs 195
- Salicylates *196*
- Propionic Acid Derivatives *202*
- Acetic Acid Derivatives *202*

- Fenamates (Anthranilic Acid Derivatives) *203*
- Pyrazolone Derivatives *203*
- Oxicams *204*
- Preferential COX-*2* Inhibitors *204*
- Selective COX-*2* Inhibitors *204*
- Analgesic-antipyretic with Weak Anti-inflammatory Activity *205*

21. Drugs Used in Rheumatoid Arthritis and Gout 207
- Rheumatoid Arthritis *207*
- Pharmacotherapy of Gout *208*

22. Drugs Used in Parkinsonism 211

23. Drugs Used in Psychiatric Disorders 214
- Antipsychotics *214*
- Antipsychotics (Neuroleptics) *215*
- Chlorpromazine (CPZ) *215*
- Antianxiety Drugs (Anxiolytics) *218*
- Antidepressants *219*
- Mood Stabilizers *223*

24. Alcohols and Central Nervous System Stimulants 225
- Alcohols *225*
- Central Nervous System Stimulants *228*

Section 6: Autacoids 231

25. Autacoids 233
- Antihistamines *234*
- Other Autacoids *237*
- Eicosanoids *240*
- Other Autacoids *242*
- Drugs Used in the Treatment of Bronchial Asthma *243*

26. Drugs Acting on Respiratory System 243
- Bronchodilators *243*
- Drugs Used in the Treatment of Cough *248*

Section 7: Drugs Acting on Blood 251

27. Hematopoietic System 253
- Hematinics *253*
- Vitamin B_{12} and Folic Acid *255*
- Drugs Used in the Disorders of Coagulation *256*
- Thrombolytics (Fibrinolytics) *263*
- Antifibrinolytics *263*
- Antiplatelet Drugs *264*
- Coagulants *266*
- Hypolipidemic Drugs *267*

Section 8: Drugs Used in the Gastrointestinal Disorders 271

28. Drugs Used in the Gastrointestinal Disorders 273
- Drugs Used in Peptic Ulcer *273*
- Antacids *273*
- H_2 Receptor Blockers *275*
- Proton Pump Inhibitors *276*
- Ulcer Protectives *278*
- Prokinetic Agents *279*
- Emetics and Antiemetics *280*
- Drugs Used in the Treatment of Constipation *283*
- Drugs Used in the Treatment of Diarrhea *285*

Section 9: Chemotherapy 289

29. General Considerations of Antimicrobial Use 291
- Classification *291*
- Resistance to Antimicrobial Agents *292*
- Antimicrobial Stewardship Program *294*
- Chemoprophylaxis *297*

30. Sulfonamides, Cotrimoxazole and Quinolones 300
- Sulfonamides *300*
- Cotrimoxazole *301*
- Quinolones *303*
- Fluoroquinolones *303*

31. Beta-lactam Antibiotics 306
- Penicillins *306*
- Natural Penicillins *307*
- Semisynthetic Penicillins *309*
- Antipseudomonal Penicillins *310*
- Beta-lactamase Inhibitors *311*
- Cephalosporins *311*

- Carbapenems *314*
- Carbacephems *314*
- Monobactams *314*

32. Broad-spectrum Antibiotics and Aminoglycosides 315
- Tetracyclines *315*
- Tigecycline *318*
- Chloramphenicol *318*
- Aminoglycosides *319*

33. Macrolides, Other Antibacterial Agents and Chemotherapy of Urinary Tract Infections 324
- Macrolides *324*
- Ketolides *327*
- Other Antimicrobials *327*
- Miscellaneous Drugs *332*
- Newer Antimicrobials *332*
- Chemotherapy of Urinary Tract Infection *334*

34. Chemotherapy of Tuberculosis and Leprosy 335
- Antitubercular Drugs *335*
- Treatment of Tuberculosis *339*
- Leprosy *340*
- Classification *343*

35. Antifungal Drugs 343
- Drugs Acting on Cell Membrane *343*
- Azoles *345*
- Drugs Acting on the Nucleus *347*
- Antimetabolites *348*
- Drugs Acting on the Cell Wall *348*
- Other Topical Antifungals *348*

36. Antiviral Drugs 349
- Classification *350*
- Antiherpes Virus drugs *350*
- Drugs Used in Cytomegalovirus Infection 351
- Anti-influenza Virus Agents *351*
- Other Antiviral Agents *352*
- Antiretroviral Drugs *352*

37. Cancer Chemotherapy 356
- Phases of Cell Cycle *356*
- Alkylating Agents *358*
- Antimetabolites *359*
- Natural and Semisynthetic Products *360*
- Miscellaneous *361*
- Hormones in Cancer Chemotherapy *362*
- Biological Response Modifiers *362*
- Treatment of Cancers and Dentistry *364*

38. Chemotherapy of Antiprotozoal and Anthelmintic Drugs 365
- Chemotherapy of Malaria *365*
- Artemisinin and Derivatives *367*
- Folate Antagonists *369*
- Antiamoebic Drugs *369*
- Anthelmintics *372*

Section 10: Hormones 377

39. Insulin and Oral Antidiabetic Drugs 379
- Insulin *379*
- Oral Antidiabetic Drugs *382*
- Glucagon *387*

40. Thyroid Hormones and Antithyroid Drugs 388
- Thyroid Hormones *388*
- Hyperthyroidism and Antithyroid Drugs *389*

41. Corticosteroids 392
- Glucocorticoids *392*
- Mineralocorticoids *398*
- Inhibitors of Adrenal Steroids Synthesis *399*

42. Agents Affecting Bone Mineral Turnover 400
- Calcium *400*
- Phosphorus *400*
- Parathyroid Hormone (Parathormone, PTH) *401*
- Vitamin D *402*
- Calcitonin *403*

43. Androgens and Anabolic Steroids 405
- Androgens *405*
- Anabolic Steroids *405*
- Antiandrogens *406*
- Drugs Used in Male Sexual Impotence *406*

44. Hypothalamus and Anterior Pituitary Hormones, Estrogens, Progestins and Hormonal Contraceptives 407

- Hypothalamic Hormones *407*
- Anterior Pituitary Hormones *409*
- Female sex hormones *411*
- Progestins *413*
- Antiprogestins *414*
- Hormonal Contraceptives *415*
- Drugs Acting on the Uterus *417*

Section 11: Miscellaneous Drugs 419

45. Miscellaneous Drugs 421

- Immunopharmacology *421*
- Antiseptics and Disinfectants *423*
- Chelating Agents *428*
- Vitamins *429*

Section 12: Dental Pharmacology 433

46. Dental Pharmacology 435

- Dentifrices *435*
- Obtundents *436*
- Antiseptics *436*
- Mummifying Agents *437*
- Bleaching Agents *437*
- Styptics *437*
- Mouthwashes *438*
- Astringents *438*
- Disclosing Agents *438*
- Sialogogues *439*
- Anticaries Drugs *439*
- Drugs Used in Dental Plaque *440*
- Dental Desensitizing Agents *442*
- Medical Emergencies in Dental Practice *443*
