Contents

1. Burden of Healthcare-associated Infection: World and India **1**
Bhaskar Shenoy

• Healthcare-associated Infections in High-income Countries 2 • Healthcare-associated Infections in Low- and Middle-income Countries 3 • Challenges in India 5

2. Epidemiology of Hospital-associated Infections **6**
Shivananda

• Magnitude 6 • Catheter-associated Infections: Urinary Tract Infections 11 • Ventilator Associated Pneumonia 12 • Organism-related Healthcare-associated Infections 12 • Viruses 13
• Other Nosocomial Infections 13

3. Importance of Infection Control **15**
Jaydeep Choudhury

• Magnitude of the Problem 15 • Pathogenesis 16

4. Basic Principles of Infection Control **26**
Anita Shet

• Chain of Infection 27 • Strategies for Infection Control Measures 30 • Hospital Infection Control Program 30

5. Role of Microbiology Laboratory in Infection Control **34**
Sangeeta Joshi

• Role in Diagnosis 34 • Role in Infection Control 35

6. Isolation Precautions **38**
Bhaskar Shenoy

• Standard Precautions 38 • Hand Hygiene 38
• Healthcare-associated Infection and Hand Hygiene 38
• Practicing, Teaching and Observing Hand Hygiene 44
• Healthcare Activities and Indications 46 • Indications for Hand Hygiene when Medical Gloves are Required 46

• Other Aspects of Hand Hygiene 47 • Respiratory Hygiene/ Cough Etiquette 50 • Personal Protective Equipment 51 • Type of PPE and Barriers and Criteria for Selection 52

Transmission Based Precaution Droplet, Contact and Airborne Infections **57**
Ritabrata Kundu, Joydeep Das

7. Infection Control Methods for Common Diseases **64**
Kheya Uttam Ghosh, Santanu Bhakta, Sanjay K Ghorpade, Dhanya Dharmapalan

Flu (H1N1) **64**
Kheya Uttam Ghosh

• Prevention 64

Tuberculosis **69**
Santanu Bhakta

• Strategy to Prevent Transmission 70 • Digital Health Agenda 70 • How Tuberculosis Spread? 71 • Prevention of Spread of Infection and its Control 71 • Prevention of Transmission in Household 72

Chickenpox **74**
Sanjay K Ghorpade

• Infectious Agent 74 • Transmission 74 • Prevention 75

Methicillin-resistant *Staphylococcus aureus* (MRSA) **79**
Dhanya Dharmapalan

• Prevalence 79 • Measures to Contain MRSA Infections 80 • Gloves and Mask 81

8. Infection Control in Clinic and Office Practice **85**
Dhanya Dharmapalan, Vijay N Yewale

• Infections Transmissible Inside the Waiting Area 85

9. Infection Control Protocols in Intensive Care Unit **91**
GV Basavaraja

• Sources of Cross-infection in the Intensive Care Unit 92 • Strategies to Reduce Infection Risk 93 • Environment Factors and Design Issues for the Intensive Care Unit 96

10. Bed Spacing Recommendations in NICU, PICU and Wards **101**
Pragalatha Kumar

11. Hospital Infection Control Program **104**
Narayanappa D
• Hospital Infection Control Committee 104
• Infection Control Team 106

12. Needle Stick Injuries **108**
Abhay K Shah
• Incidence 108 • Risk Factors 109
• Predisposing Events 110 • Postexposure Measures 113
• Postexposure Prophylaxis 114 • HIV Prophylaxis 116

13. Disinfection and Sterilization **122**
Govindaraj M, Shalini Sharma
• Cleaning of Bedding, Mattresses and Pillows 124
• Cleaning and Reprocessing of Non-critical, Semi-critical and Critical Patient Care Equipment 125

14. Hospital Waste Management **130**
Digant D Shastri
• Hospital Waste Management 130

15. Outbreak Management **141**
Bhaskar Shenoy, M Rajesh Babu
• Describing the Outbreak 141 • Investigation of an Outbreak 142 • Investigation Procedures 142
• Outbreak Control 143 • Identify the Source and Route of Infection 144

16. Prevention of Antimicrobial Resistance **147**
Abhay K Shah, Bhaskar Shenoy
• Factors that Increase the Emergence and Spread of Antimicrobial Resistance in HCFs 148 • Control of Antimicrobial Resistance in HCFs 149 • Judicious Use of Antimicrobials and Formulary Restriction 149
• Measures to Ensure Appropriate Antimicrobial Use in HCFs 150 • Surveillance 151

17. Role of Paramedics in Infection Control **152**
Unis Beulah
• Infection Control Nurse 152
