Contents

1. Antenatal Care and Antepartum Fetal Surveillance **1**
Randhir Puri, Bandana Sodhi, Neharika Malhotra

Antenatal Care **1**
Randhir Puri, Bandana Sodhi

• Definition 1 • Aims 1 • Objectives 1 • Frequency of Antenatal Visits 1 • High Risk Pregnancy 2 • Lifestyle Considerations During Pregnancy 3 • Management of Common Symptoms of Pregnancy 3 • Clinical Examination of Pregnant Women 4 • Immunization During Pregnancy 4 • Diet and Hygiene During Pregnancy 4 • Screening for Hematological Conditions 4 • Screening for Fetal Anomalies 5 • Contraception and Birth Spacing 5

Antepartum Fetal Surveillance **6**
Neharika Malhotra

• Indications for Antenatal Fetal Assessment 6 • Monitoring Techniques 6 • Diurnal Variation 7 • Decreased Fetal Activity 7 • Excess Fetal Activity 7 • Association of Fetal Heart Rate and Fetal Movement 7 • Association of Fetal Movement/Fetal Heart Rate/Acoustic Stimulation 7 • Labor 7 • Effect of Medication 7 • Clinical Application 8 • Biochemical Assessment of Fetal Well-Being 9 • Non-Stress Test 9 • Classification of FHR Pattern (By FIGO Subcommittee) 11 • Contraction Stress Test 11 • Biophysical Profile 12 • External (Indirect) Activity Monitoring 13 • Electronic Fetal Heart Monitoring 14 • Fetal Acoustic Stimulation Test 14 • Vibroacoustic Stimulation Test 14 • VAST in Fetal Admission Test 14

2. First Trimester Examination and Pregnancy Confirmation Test **16**
Rati H Khambatta, Jaideep Malhotra

• Pregnancy Confirmation Tests 16 • Nausea and Vomiting 16 • Abortions 17 • Molar Pregnancy 18 • Ectopic Pregnancy 18

3. Prenatal Diagnosis/Fetal Surveillance **20**
Debjyoti Karmakar, Deepika Deka, Bajrang L Soni, Sumana Gurunath, Jaideep Malhotra, Ruchika Garg, Ashok Khurana, Kuldeep Singh, Sakshi Tomar, Sonal Panchal, Narendra Malhotra, JP Rao, Neharika Malhotra

Antenatal Screening Tests **20**
Debjyoti Karmakar, Deepika Deka

• Burden of Disease 20 • Commonly Used Screening Tests 22 • Markers in the Second 22 • New Markers 24 • The Genetic Sonogram 24 • Screening for Fetal Anomalies with Ultrasound 25 • Doppler as a Screening Test 25

Tests for Fetal Well-Being **28**
Bajrang L Soni, Sumana Gurunath, Deepika Deka

• Hypoxemia and Fetal Blood Flow Distribution 28

Biochemical Markers for Antenatal Screening **33**
Jaideep Malhotra, Ruchika Garg

• Screening for Fetal Aneuploidies 33

Ultrasound Markers of Chromosomal Anomalies in the First Trimester **37**
Jaideep Malhotra, Ashok Khurana

• Parameters for First Trimester Screening 37 • Overview of Screening Protocols 39

11–14 Weeks Scan **40**
Ashok Khurana

• Statistical Perspective and Natural History of Chromosomal Abnormalities 40 • Parameters for First Trimester Screening 40 • Overview of Screening Protocols 43 • Dysmorphology Diagnosis in the First Trimester 43

20–22 Weeks Scan (Malformation Scan) **46**
Kuldeep Singh
• Head 46 • Face 47 • Spine 48 • Chest 51 • Abdomen 53 • Limbs 53 • Environment 55 • Cervix 56

Prenatal Diagnosis/Fetal Surveillance in Late Third Trimester **57**
Sakshi Tomar
• Diagnostic Methods 57 • Reasons for Prenatal Diagnosis 57 • Qualifying Risk Factors 57 • Methods of Prenatal Screening and Diagnosis 58 • Color Doppler in Predicting Fetal Wellbeing 62 • Doppler Velocimetry in High-risk Pregnancies 63

Prenatal Diagnosis/Fetal Surveillance Fetal Echocardiography **65**
Sonal Panchal
• Risk Factors 65 • Equipments 65 • Systematic Method of Doing a Fetal Echocardiography 67 • Evaluation of the Heart can be Divided into two Parts 70 • Fetal Circulation 79

Color Doppler and 3D & 4D in Screening for Birth Defects **94**
Narendra Malhotra, Kuldeep Singh, Sakshi Tomar, Jaideep Malhotra, JP Rao, Neharika Malhotra
• Screening of Congenital Birth Defects 94 • Role of Doppler in Screening for Defects 95 • Role of 3D and 4D 95 • Conclusion 101 • Acknowledgment 102

4. Termination of Pregnancy **104**
RN Goel, Narendra Malhotra
• Medical Termination of Pregnancy Law in India 104 • Who Can Terminate a Pregnancy? 104 • When Can a Pregnancy be Terminated? 104 • Where can a Pregnancy be Terminated? 105 • Medical Methods of Abortion 105 • Indications for Termination of Pregnancy As Per Act 106 • Clinical Assessment 106 • Termination of First Trimester Pregnancy 106 • MMA for Early Pregnancy up to 7 weeks 106 • Termination of Second Trimester Pregnancy (12–20 Weeks) 108 • Termination of Second Trimester Pregnancy (20–28 weeks) 110

5. Teenage and Elderly Gravida **115**
Savithri Sowmya, A Kriplani
• Teenage Gravida 115 • Elderly Gravida 117

6. The Grand Multipara **122**
Alka Saraswat
• Relationship of Gravidity and Parity to Risk in Pregnancy 122 • Increased Parity and Confounding Variables 123 • Complications of Pregnancy 124 • Complications in Labor 125 • Puerperal Complications 126 • Management of Grand Multiparous Women 126

7. Bad Obstetric History **127**
SA Inamdar, Samta Singhania
• Definition 127 • Recurrent Pregnancy Losses in First Half of Gestation 127 • Pregnancy Loss in Second Half of Gestation 132 • Summary 134

8. Gross Underweight and Gross Obese Pregnant Woman **136**
Atul Munshi, Sujal Munshi
• Pregnancy in Gross Underweight 136 • Pregnancy in Gross Obese 137 •

9. Anemia in Pregnancy **141**
JB Sharma, Debjyoti Karmakar
• Erythropoiesis In Pregnancy 141 • Prevalence of Anemia In Pregnancy 141 • Types of Anemia 141 • Clinical Case Scenarios 151

10. Infections in Pregnancy **152**
Damyanti Sharma, Lavanya Rai, Ashish N Shah, Alka Sehgal, Deepti Shrivastava, Pratap Kumar

Urinary Tract Infection During Pregnancy **152**
Damyanti Sharma
• Pathophysiology 152 • Asymptomatic Bacteriuria 153 • Investigations 154 • Preventive 154 • Specific Treatment 154 • Treatment Failure 154

Chickenpox in Pregnancy **156**
Lavanya Rai
• Pathogenesis 156 • Transmission 156 • Clinical Infection 156 • Diagnosis 157 • Serological Tests Used 157 • Effects of Chickenpox in Pregnancy 157 • Management of Pregnant Women After Exposure to Varicella Infection 159 • Treatment 160 • Management of Pregnancy and Complications 161 • Management of New Born 161 • Prevention 161 • Conclusion 162 • Key Points 162

Pulmonary Tuberculosis **164**
Ashish N Shah
• Incidence and Epidemiology 164 • Etiology and Etiopathogenesis 164 • Effect of Pregnancy on Tuberculosis 164 • Effect of Tuberculosis on Pregnancy 165 • Diagnostic Modalities 165 • Clinical Manifestations 166 • Investigations 166 • Specific Situations 167 • Therapies 167 • Effects of Antituberculous Drugs on Mother, Fetus and Lactation 168 • Supportive Care 169 • Summary 171

Malaria in Pregnancy **173**
Alka Sehgal
• Pathogenesis 173 • Clinical Features 173 • Effects of Malaria in Pregnancy on the Fetus/Newborn 175 • Diagnosis 175 • Treatment of Malaria in Pregnancy 175

Jaundice in Pregnancy **180**
Deepti Shrivastava
• Bilirubin Metabolism 180 • Jaundice (Icterus) 180 • Physiological Changes in Hepatobiliary System During Pregnancy 181 • Jaundice in Pregnancy 182 • Viral Hepatitis 183 • Non-Hepatotropic Virus 186 • Alcoholic Hepatitis 186 • Gallstones 186 • Jaundice Induced by Pregnancy 187 • Disorders Probably Related to Pregnancy 189 • To Conclude 189 • Summary 189

Vaginits in Pregnancy **195**
Pratap Kumar
• Bacterial Vaginosis 195 • Candidiasis (Moniliasis) 197 • Trichomonas Vaginitis 197 • Chlamydia Trachomatis 197 • Ureaplasma Urealyticum 197 • Effects of Vaginal Infection on Pregnancy 197 • Effects of Vaginitis Causing Detrimental Problems to Pregnancy 198

11. Pregnancy with Local Abnormalities **200**
Ragini Agrawal, Sudha Prasad, Teena Gupta, Saumya, Tamkin Khan, Sabahat Rasool, Anjali Tempe, Ronita Devi, Anupam Gupta

Uterine Anamolies **200**
Ragini Agrawal
• Bibliography 202

Malposition of the Uterus and Prolapse **203**
Sudha Prasad, Teena Gupta, Saumya
• Uterine Retroversion or Incarceration 203 • Uterine Torsion 207 • Uterine Herniation 208 • Uterine Inversion 209

Uterine Torsion **218**
Tamkin Khan, Sabahat Rasool
• Etiology and Pathogenesis 218 • Clinical Presentation 219 • Treatment 219

Pregnancy with Fibroids **221**
Anjali Tempe, Ronita Devi
• Pathology 221 • Effects of Pregnancy on Fibroids 221 • Effects of Fibroids on Pregnancy 221 • Effects of Fibroid on Fertility and Management before Pregnancy 222 • Management During Pregnancy 223 • Summary 223

Ovarian Tumors **225**
Anupam Gupta
Diagnosis 225 • Evaluation and Testing 225 • Management 225

12. Medical Diseases and Pregnancy **227**
Sunil Bansal, Mandakini Parihar, Richa Singh Chauhan, Madhu Nagpal, Atul Munshi, Sujal Munshi, BS Duggal, Devendra Arora, Nidhi Gupta, Randhir Puri, Rashmi Datta, Richa Saxena

Diabetes in Pregnancy: Current Concepts **227**
Sunil Bansal
• Maternal Fetal Metabolism in Normal Pregnancy 227 • Fetal Morbidity with Diabetes During Pregnancy 228 • Management 229 • Postpartum 232

Endocrine Disorders in Pregnancy **236**
Mandakini Parihar
• Anterior Pituitary Insufficiency 236 • Thyroid Diseases in Pregnancy 240 • Parathyroid Diseases 242 • Polycystic Ovarian Syndrome 244 • Adrenal Diseases 245

Urinary Complications **252**
Richa Singh Chauhan
• Anatomical and Physiological Changes 252 • Urinary Tract Changes During Pregnancy 252 • Assessment of Renal Disease During Pregnancy 253 • Stone Disease During Pregnancy 257 • Pregnancy after Renal Transplantation 258

Pulmonary Disease in Pregnancy **265**
Madhu Nagpal
• Epidemiology 265 • Physiological Changes 265 • Dyspnea of Pregnancy 266 • Asthma in Pregnancy 266 • Infective States 270 • Pregnancy Specific Disorders 274 • Acknowledgement 278

Neurological Diseases **279**
Atul Munshi, Sujal Munshi
• Epilepsy and Pregnancy 279 • Obstetrical Complications 279 • Effect of Antiepileptic Drugs on the Fetus 280 • Management of Epilepsy and Pregnancy 281

NonProteinuric Hypertension in Pregnancy **286**
BS Duggal
• Gestational Hypertension 286 • Chronic Hypertension 288

Rh Factor **291**
Devendra Arora
• History 291 • Genetics 291 • Pathophysiology 292 • Hydrops Fetalis 293 • Routine Rh Screening and Obstetric History 294 • Factors Influencing Rh(D) Immunization 295 • Procedure 300 • Future Pregnancies 304

Hematological Coagulation Disorders in Pregnancy **308**
Nidhi Gupta
• Pathophysiology 308 • Disseminated Intravascular Coagulopathy 309 • Platelet Disorders 311 • Hemoglobinopathies 314

Anticoagualation Therapy During Pregnancy **319**
Randhir Puri, Rashmi Datta
• Conditions Warranting Anticoagulation During Pregnancy 319 • Individual Agents 319 • Antiplatelets Drugs 322 • Complications of Anticoagulant Therapy 325

Cardiac Disease during Pregnancy **328**
Richa Saxena
• Prepregnancy Congenital or Acquired Cardiac Lesions 329 • Acquired Cardiovascular Disorders During Pregnancy 331 • Congenital Heart Disease in Pregnancy 333 • History 333 • General Physical Examination 334 • Specific Systemic Examination 335 • Abdominal Examination 335 • Management 335 • Prepregnancy Management 336 • Antenatal Management 338 • Pregnancy in the Presence of Prosthetic Heart Valve 342 • Complications 343 • Fetal Complications 344

13. Hypertensive Disorders of Pregnancy **346**
BS Duggal
• Blood Pressure Measurement 346 • Pathogenesis of Pre-eclampsia 347 • Eclampsia 359

14. HELLP Syndrome **369**
K Kapur
• Etiology and Pathogenesis 369 • Classification 369 • Incidence 369 • Clinical Features 370 • Diagnostic Tests 370 • Management 370

15. Normal Labor **372**
Shyam, S Inamdar
• The Passenger (Fetus) 372 • The Passage 376 • The Powers 376 • Initiation of Labor 377 • Progress of Labor 379 • Stages of Labor 379 • Mechanism of Labor 380 • Delivery of the Fetus 383

16. Intrapartum Monitoring and Management **386**
Kavita N Singh
• Intrapartum Fetal Monitoring 386 • Perinatal Asphyxia 386 • Apgar Scoring 388 • Diagnostic Modalities: Methods of Fetal Monitoring 390 • Irregular Fetal Heart Rate 391 • Other Intrapartum Fetal Monitoring Techniques 399 • Maternal Monitoring During Labor 402 • The Sample WHO Partograph 405 • Paperless Partogram 405 • Management of Labor 408 • Supportive Care During Labor and Childbirth 413 • Normal Childbirth 416 • Completion of Delivery 416 • Conclusion 417

17. Induction of Labor **418**
Ajay S Dhawle
• Definitions 418 • Indications 418 • Contraindications 420 • Predictors of Successful Induction 420 • Interventions for Decreasing the Need for Induction 421 • Methods for Ripening 421 • Methods for Induction 423 • Complications Associated with Induction of Labor 425 • Keypoints 427

18. Abnormal Labor: Malpositions **429**
Kavita N Singh, Priyamvada Pathak (Pandey)
• Malpositions 429 • Occipito-Posterior Position 429 • Course of Labor 438 • Management of Labor 438 • Manual Rotation 441

19. Malpresentations **444**
Nidhi Gupta, Mohita Agarwal
• Occipito-Posterior Position 444 • Shoulder Presentation(Transverse or Oblique Lie) 449 • Neglected (Impacted) Shoulder 451 • Unstable Lie 451 • Complex (Compound) Presentation 452 • Breech Presentation 452 • Face Presentation 459 • Cord Presentation and Prolapse 462 • Brow Presentation 463

20. Twins and High-Order Multiple Pregnancy **465**
Mandakini Parihar, Anubhuti Jain
• Classification 466 • Diagnosis 466 • Multifetal Pregnancy Reduction (Embryo Reduction) • Problems Unique to Twins/Multiple Pregnancy • Management of Multiple Gestations 469 • Conclusion 469

21. Fundal Height More than the Period of Amenorrhea **472**
Neema Acharya
• Polyhydramnios (Hydramnios) 472 • Maternal Diabetes and Fetal Macrosomia 473 • Multiple Pregnancy 473 • Gestational Trophoblatic Disease (GTD) 473 • Other Causes 473

22. SFH Less Than the Period of Amenorrhea **475**
Neema Acharya
• Fundal Height 475 • Method 475 • Approach to a Case with Less Fundal Height 477

23. Intrauterine Growth Restriction **480**
Meena A Khatri
• Definition 480 • Incidence 480 • Etiology 480 • Classification of Intrauterine Growth Restriction 481 • Pathophysiology and Complications of Intrauterine Growth Restriction 482

• Diagnosis 482 • Mother's Weight Gain 482 • Doppler Flow 483 • Management 483 • Treatment for Intrauterine Growth Restriction 483 • Other forms of Treatment 483 • Delivery 483 • Prevention of Intrauterine Growth Restriction 483 • Intrapartum Management of Intrauterine Growth Restriction 484 • Outcome 485

24. Cephalopelvic Disproportion **486**
Tamkin Khan, Randhir Puri, Ayesha Ahmad

• Definition 486 • Pelvic Assessment 486 • Methods of Ruling Out Cephalopelvic Disproportion 487 • Fetal Dimensions in Fetopelvic Disproportion 487 • Clinical Presentation 487 • Dystrophia-Dystocia Syndrome 487 • Management 488 • Complications of Fetopelvic Disproportion 490

25. Instrumental Delivery **492**
Sadhna Gupta, Mitra Saxena

Forceps Delivery **492**
Sadhna Gupta

• Historical Perspective 492 • Incidence 492 • Classification of Forceps Delivery 493 • Type of Forceps 493 • Indications for Instrumental Delivery 494 • Prolonged Second Stage 495 • Fetal Indication of Instrumental Deliveries 495 • Maternal Indication 495 • Prophylactic Forceps 495 • Trial of Forceps 495 • Communication 496 • Pre-Requirements of Forceps Application 496 • Preparation for Forceps Delivery 496 • Forceps Application 498 • Traction 499 • Precaution 499 • Forceps Extraction in Abnormal Presentation and Position 500 • Forceps Rotation of Occiput Transverse Position by Kielland Forceps 502 • Forceps Delivery of Face Presentation 502 • Forceps Application in after Coming Head 503 • Forceps in Contracted Pelvis 504 • Failed Forceps 504 • Morbidity from Forceps Operation 504 • Febrile Morbidity 505 • Fetal Risk 505 • Long-Term Infant Morbidity 505 • Concluding Remarks Regarding Morbidity from Forceps 505

Vacuum **507**
Mitra Saxena

• Equipment 508 • Forceps/Vacuum: the Eternal Debate 508 • Procedure 508 • When to Abandon the Procedure? 509 • Maternal and Fetal Complications 509 • Word of Caution 509

26. Management of Third Stage of Labor **511**
Bellad MB, Shravage JC, Tara D

• Delivery of the Placenta 512 • Retention of Placental Tissue 512 • Active Management of Third Stage of Labor 512 • Uterotonic Agents 513 • Summary 515

27. Postpartum Problems (Acute) **516**
Manash Biswas, Himadri Bal, Tamkin Khan, Sabahat Rasool

Postpartum Collapse **516**
Manash Biswas, Himadri Bal

• Pathophysiology 516 • General Management of Postpartum Collapse 517 • Causes of Postpartum Collapse 518 • Conclusion 522

Postpartum Hemorrhage **523**
Tamkin Khan, Sabahat Rasool

• Incidence 523 • Anatomy 523 • Physiology of Placental Separation 523 • Mechanism of Hemostasis 523 • Management of Third Stage of Labor 524 • Postpartum Hemorrhage 525 • B-Lynch Brace Sutures 531 • B-Lynch Procedure 531 • Traumatic Postpartum Hemorrhage 533 • Pelvic Hematomas 533 • Rupture Uterus 534 • Uterine Inversion 534

28. Trauma in Obstetrics **537**
Barun Sarkar

• Changes in Maternal Physiology Which Alter Trauma Management 538 • Management 540 • Key Issues 540 • Secondary Assessment 542 • Special Scenarios 545 • Cardiopulmonary Resuscitation 545

29. Maternal Injuries During Delivery **547**
Nidhi Gupta

• Vulva 547 • Pelvic Hematoma 547 • Perineal Tears 548 • Vaginal Tears 552 • Colporrhexis 553 • Cervical Tear 553 • Rupture of Uterus 554 • Clinical Features of Rupture During Pregnancy 556

• Rupture of the Uterus Without Dystocia 557 • Rupture of Uterus Following Obstructed Labor or Difficult Delivery 558 • Urinary Bladder Injuries 560

30. Cesarean Delivery **561**
Ajay S Dhawle
• Cesarean Delivery Through the Ages 561 • Definition and Types 561 • Indications 562 • Preoperative Preparation 563 • Procedure 564 • Complications 568 • Debate: Cesarean Delivery on Maternal Request (CDMR) 569

31. Neonatal Resuscitation **571**
Rajeshwar Dayal, Abhishek Singh, Shyam Baboo Gupta
• Why Learn Neonatal Resuscitation? 571 • Respiratory Physiology at Birth 571 • Circulatory Adjustments at Birth 571 • Resuscitation of Newborn 572 • Meconium Stained Delivery 574 • Resuscitation Devices 574 • Chest Compressions 577 • Endotracheal Intubation 577 • Establishing Intravenous Access During Resuscitation 578 • Post-resuscitation Care 579 • Resuscitation of Preterm 579 • Ethical Considerations 580

32. Puerperium **581**
Hiralal Konar, Picklu Chaudhuri, Arindam Halder
• Overview 581 • Physiological Changes 581 • Physiological Changes in other systems 582 • Management of Normal Puerperium of Postnatal Care 583

33. Prematurity **585**
Rajyashree Sharma
• Classification 585 • Incidence 585 • Etiology 586 • Effects of Prematurity 586 • Signs and Features of Prematurity 586 • Long-Term Effects of Prematurity 589 • Survival of Premature Infants 590 • Pre-pregnancy Prevention of Preterm Birth 590 • Antepartum Prevention of Preterm Birth 590 • Intrapartum Management 590 • Management 590 • What to Avoid in the Case ofPreterm Babies 594 • Criteria for Discharge 594 • Instructions at the Time of Discharge 594 • When to Call Health on Care Provider 594 • Follow-Up Protocol 594

34. Postmaturity **596**
S Rudra
• Definition 596 • Incidence 596 • Etiology 597 • Risks 597 • Management 597 • Timing of Delivery 598 • Prognosis 599

35. Routine Ultrasonography in Pregnancy **601**
Sakshi Tomar
• First Trimester Ultrasound 601 • Normal Sonographic Appearance 601 • Ectopic Pregnancy 603 • Early Pregnancy Failure 604 • Ultrasound Diagnosis 605 • Fetal Anomalies 606 • First Trimester Masses 606 • Ultrasound in Second and Third Trimester 607 • Doppler Ultrasonography in Obstetrics 611

36. Obstetrical Hemorrhage **614**
Pradip Kumar Saha, Rimpy Tandon
• Placenta Previa 614 • Vasa Previa 619 • Abruptio Placentae 619

37. Universal Work Precautions for HIV and other Blood-borne Infections **626**
Alok Vashishtha
• Pathogenesis of HIV Infection 626 • Exposures Presenting a Risk for Transmission 626 • Universal Precautions 627

38. Diet and Exercise in Pregnancy **629**
Maninder Ahuja
• Energy Requirements During Pregnancy 629 • In Utero Origin of Adult Diseases 630 • Essential Fatty Acids 631 • Iron Deficiency Anemia and Supplementation During Pregnancy and Lactation 633 • Requirement of Vitamins in Pregnancy 635 • Minerals and Trace Elements Required in Pregnancy 637 • Lactation 638 • Priority I 638 • Priority II 639 • Summary 639 • Exercise In Pregnancy 640 • Conclusion 649

39. Prescribing in Pregnancy **650**
Tamkin Khan, Randhir Puri, Jaideep Malhotra
• Definitions 650 • Drugs and the Lactating Mother 652 • Prenatal Counseling for Drug Exposure 657 • Counseling After Exposure 657 • Principles of Prescribing in Pregnancy 657 • Vaccination in Pregnancy 657

Appendix *663*

Index *729*
