Contents

1. Asthma in Children 1
Asthma 1
Definition 1
Etiology 2
Risk Factors 2
Symptoms 3
Signs 3
Investigations 4
Classification of Asthma 4
Management of Asthma 6
Types of Inhalation Devices Available 6
Reliever Medications 7
Controller Medications 8
Leukotriene Inhibitors 9
Suggested Treatment Protocol 10
Status Asthmaticus 11
Treatment 11

2. Atopic Dermatitis in Children 14
Predisposing Factors 14
Types of Atopic Dermatitis 15
Symptoms 15
Signs 15
Investigations 16
Treatment 16
Complications 18
Prognosis 18
Prevention 18

3. Anaphylaxis in Children 21
Causes of Anaphylaxis 21
Symptoms 22
Signs 23
Treatment 24
Patient Education 25

4. Bronchiolitis 26
Etiology 27
Pathology 28
Treatment 29
Prognosis 30
Prevention 30

5. Bronchomalacia and Tracheomalacia 32
Causes 32
Symptoms 33
Signs 33
Investigations 33
Treatment 33
Prognosis 34

6. Croup (Laryngotracheobronchitis) 36
Causes 36
Incidence 37
Symptoms 37
Signs 38
Investigations 38
Treatment 38
Complications 40
Prognosis 40

7. Infections 41
Typhoid in Children 41
Mode of Transmission of Infection 42
Pathogenesis 42
Investigations 43
Complications 44
Carrier State 46
Treatment 46
Role of Steroids in Typhoid Fever 47
Diet in Typhoid Fever 47
Prognosis 47
Prevention 47
Tuberculosis in Children 48
Methods of Transmission of Infection 49
Factors Aiding Spread of Infection 49
Time Interval between Infection and Clinically Apparent Disease 49
Pathogenesis 50
Clinical Features 51
Investigations 56
Treatment 59
Viral Hepatitis in Children 63
Hepatitis A 64
Route of Transmission 64
Pathology 64
Investigations 65
Treatment 66
Complications 66

Prevention 66
Prognosis 67
Hepatitis B 67
Route of Transmission 67
Pathogenesis 68
Investigations 70
Treatment 70
Complications 71
Prevention 71
Hepatitis C 73
Pathogenesis 73
Investigations 73
Treatment 74
Complications 74
Hepatitis D 74
Pathogenesis 75
Investigations 75
Treatment 75
Complications 75
Hepatitis E 76
Route of Transmission 76
Pathogenesis 76
Investigations 76
Treatment 76
Prevention 76
Dengue Fever 77
Etiology 77
Investigations 80
Treatment 81
Complications 82
Prognosis 82
Prevention 82

8. Gastroenteritis 86
Diarrhea 86
Definition 86
Common Causes of Diarrhea 86
Pathophysiology of Rotavirus Diarrhea 86
Symptoms of Rotavirus Diarrhea 87
Signs of Rotavirus Diarrhea 87
Assessment of Dehydration 88
Danger Signs 89

Algorithm to follow While Treating a Child with Diarrhea 90
Investigations 90
Treatment 91
Types of Dehydration based on Electrolyte Imbalance 94
Feeding in Gastroenteritis 96
Drugs in Gastroenteritis 96
Prognosis 97

9. Juvenile Rheumatoid Arthritis 99
Types of Juvenile Rheumatoid Arthritis 99
Criteria for Diagnosis of Juvenile Rheumatoid Arthritis 99
Causes of Juvenile Rheumatoid Arthritis 100
Pathogenesis 100
Symptoms of Juvenile Rheumatoid Arthritis 101
Signs of Juvenile Rheumatoid Arthritis 101
Investigations 103
Treatment 105
Physiotherapy 105
Vaccinations in JRA 106
Complications 106
Prognosis 107

10. Reactive Arthritis 109
Causes of Reactive Arthritis 109
Symptoms of Reactive Arthritis 110
Signs of Reactive Arthritis 110
Investigations 111
Treatment 111
Prognosis 112

11. Kawasaki Disease 113
Causes of Kawasaki Disease 113
Pathogenesis 113
Symptoms and Signs of Kawasaki Disease 114
Diagnostic Criteria 116
Investigations 116
Treatment 117
Complications 117
Treatment of Complications 118
Vaccinations in Kawasaki Disease 118
Prognosis 118
Poor Prognostic Indicators 118

12. Otitis Media in Children 121
Etiology 122
Types of Otitis Media 122
Predisposing Factors 122

Pathogenesis 123
Symptoms 123
Signs 124
Tympanometry 124
Treatment 125
Prevention 126
Prognosis 126

13. Pneumonia in Children 128
Causes 128
Clinical Features 129
Signs 130
Investigations 132
Treatment 132
Indications for Admission to Hospital 132
Response to Treatment 134
Non-response to Treatment 134
Complications 134
Prevention 134
Prognosis 134

14. Rheumatic Fever 137
Etiology 137
Symptoms 138
Major Criteria 138
Minor Criteria 138
Laboratory Evidence 139
Supportive Evidence 139
Carditis 139
Arthritis 140
Chorea 140
Erythema Marginatum 140
Subcutaneous Nodules 141
Minor Criteria and Laboratory
Criteria help to make a Diagnosis of Rheumatic Fever 141
Investigations 142
Treatment 144
Prevention 145
Prognosis 146

15. Status Epilepticus 149
Definition 149
Causes 149
Classification of Seizures 150
Convulsive Status 150
Non–convulsive Status 150
Investigations 150
Management of Status Epilepticus 152

16. Urinary Tract Infection 156
Predisposing Factors 156
Symptoms 156
Signs 157
Investigations 157
Treatment 158

17. Vulvovaginits 160
Etiology 160
Symptoms of Vulvovaginitis 161
Signs of Vulvovaginitis 162
Investigations 162
Treatment 163
Prevention of Recurrence 163
Prognosis 164

Index 165
