Video 1 Laparoscopic Right Hemicolectomy 1

Indications 1
Anesthesia 1
Patient Position 1
Port Position 1
Procedure 2
Important Steps 4

Video 2 Laparoscopic-Assisted Transverse Colectomy 6

Indication 6
Anesthesia 6
Patient Position 6
Port Position 7
Operative Steps 7

Video 3 Laparoscopic Descending Colectomy 10

Indications 10
Instruments 10
Anesthesia 10
Patient Position 11
Port Position 11
Procedure 11

Video 4 Laparoscopic Sigmoid Colectomy 14

Indications 14
Anesthesia 14
Patient Position 14
Port Position 14
Procedure 15

Video 5 Laparoscopic Ultralow Anterior Resection 17

Indications 17
Contraindication 17
Instruments Needed 17
Anesthesia 17

Patient Position 18
Surgeon Position 18
Port Position 18
Procedure 19
Important Steps 23

Video 6 Laparoscopic Abdominoperineal Resection 25

Indications 25
Port Position 25
Procedure 26
Important Steps 28

Video 7 Laparoscopic Posterior Exenteration for Carcinoma Rectum for Advanced Rectal Malignancies 30

Indication 30
Contraindication 30
Anesthesia 30
Preoperative Preparation 30
Patient Position and Surgeon Position 31
Procedure 32
Modification for Coloanal Anastomosis 34

Video 8 Laparoscopic Posterior Exenteration for Advanced Rectal Malignancies with Coloanal Anastomosis 36

Indication 36
Anesthesia 36
Preoperative Preparation 36
Patient Position and Surgeon Position 37

Video 9 Laparoscopic Total Proctocolectomy 39

Indications 39
Patient Position 39
Monitor Position 39
Surgeon Position 39
Port Position 40

Video 10 Staplers Used in Colorectal Surgery 43
