Contents

1. Key Terms 1

2. Causes of Dizziness 2
- *Vestibular Disorders 2*
- *Medical Disorders 2*
- *Drugs 2*
- *Psychiatric 3*
- *Others 3*

3. Vestibular System 4
- *Peripheral Vestibular System 4*
- *Central Vestibular System 6*
- *Basic Physiology 6*

4. Features of a Vestibular Disorder 8

5. Peripheral Vestibular Disorders 10
- *Acute Peripheral Vestibular Disorders 10*
- *Mechanical Disturbance of Semicircular Canals 13*

6. Central Vestibular Disorders 20
- *Central Vestibular Causes of Vertigo 20*

7. Vertigo or Dizziness in Special Circumstances 22
- *Physiological Vertigo 22*
- *Drugs Associated with Dizziness 23*
- *Dizziness in the Elderly 25*
- *Dizziness in Pregnancy 25*
- *Dizziness in Children 26*
- *Post-traumatic Vertigo 26*
- *Cervical Vertigo 27*

8. Examination 29
- *General Examination 29*
- *ENT Examination 29*
- *Neurotologic Examination 32*
- *Oculomotor Tests 35*
- *Special Vestibular Tests 36*
- *Tests of the Vestibulospinal Tract 39*
- *Cerebellar Tests 40*
- *Tests for Semicircular Canal Mechanical Disorders 40*
- *Tests for Utricular/Otolithic Dysfunction 41*
- *Other Tests 43*

9. Investigations 44
- *Electrocardiogram (ECG) 44*
- *Blood Investigations 44*

- *Pure Tone Audiogram 44*
- *Radiology 44*
- *Special Vestibular Investigations 45*

10. Principles of Management 51
- *Pharmacotherapy 51*
- *Surgical Management 53*
- *Vestibular Rehabilitation 55*

11. Guide to Evaluating a Dizzy Patient 56
- *Examination 57*
- *Investigation 58*
