Contents

SECTION 1: THE BASICS

1. The Origins of Evidence-based Medicine **3**
Mohit Bhandari, Parag Kantilal Sancheti
- What is Evidence-based Medicine (EBM)? *3*
- Through the Ages of EBM *4*
- EBM and Modern Era *7*

2. Why do we Need Evidence-based Medicine? **9**
Hamza Jalal
- Case Example *9*
- What is EBM? *10*
- Why do we Need EBM? *10*

3. Tips to becoming an Evidence-based Clinician **14**
Ilyas Aleem
- Evidence-based Medicine (EBM) *14*
- The PICO Question *15*
- Conducting a Literature Search *16*

4. Quality of Evidence—Has it Improved? **21**
Enal Hindi
- What are the Various Forms of Medical Literature Available? *21*
- What is Current Medical Literature Used for? *22*

SECTION 2: CHOOSING THE RIGHT STUDY DESIGN

5. Levels of Evidence—A Quick Guide **33**
Yashama Anwar
- What is the Hierarchy of Evidence? *33*
- Levels of Evidence *34*
- Types of Study Designs *34*
- Different Types of Evidence *35*

6. Level 1 Evidence—Randomized Controlled Trials 40
Zohaib Ansari, Hiba Mannan
- Hierarchy of Evidence: Level 1 *40*
- Key Features *41*
- Blinding *42*

7. Level 2 Evidence—Prospective Cohort Studies 53
Sohail Sheriff
- What is a Prospective Cohort Study? *53*
- Where do Cohort Studies Rank in the Hierarchy of Evidence? *55*
- What are the Limitations of Prospective Cohort Studies? *55*
- How do we Select an Appropriate Cohort? *56*
- What Types of Bias Should we be Aware of? *57*

8. Level 3 Evidence—Case-control Studies 63
Raman Mundi
- What is a Case-control Study? *63*
- Important Learning Points *69*

9. Level 4 Evidence—Clinical Case Series 72
Shakir Ahamed
- What is a Clinical Case Series? *72*
- What are the Strengths of a Clinical Case Series? *73*
- What are the Limitations of a Clinical Case Series? *74*
- What Makes a Good Case Series? *76*

10. Level 5 Evidence—Surveys 79
Arnav Agarwal
- What is a 'Survey'? *79*
- How are Surveys Important in Clinical Research? *80*
- How are Surveys Developed? *80*
- How are Surveys Administered? *83*
- How are Survey Results Reported? *84*
- What are Limitations of Survey Research? *85*
- How can Researchers Ensure Optimal Response Rates? *86*
- How can I Assess the Quality of Survey Research? *87*

SECTION 3: SPECIAL DESIGNS AND TOPICS

11. The Basics of Systematic Reviews and Meta-analysis **95**
Alonso Carrasco-Labra, Lyubov Lytvyn
- What is a 'Systematic Review'? *95*
- What is a 'Meta-analysis' and How it is Conducted? *100*
- How to Identify Credible Systematic Reviews *103*

12. The Basics of Economic Evaluation **110**
Manraj Kaur, Feng Xie, Tahira Devji
- What is Health Economics and Health Economic Evaluation? *110*
- Why should one Conduct an Economic Evaluation of Healthcare Interventions? *111*
- What are the Different Types of Health Economic Evaluation? *111*
- What are the Key Things to Consider When Conducting an Economic Evaluation? *116*
- Critically Appraising a Published Economic Evaluation *124*

13. The Basics of a Diagnostic Test Study **133**
Kathleen G Dobson, Alonso Carrasco-Labra, Raman Mundi, Steve Rocha
- What is a Diagnostic Test Study? *133*
- Why do we Need to Conduct Studies of a Diagnostic Test? *134*
- What Should be Considered to Conduct an Ideal Study of a Diagnostic Test? *135*
- What Results of the Diagnostic Test Study Should be Reported? *136*
- How are LR of a Diagnostic Test Incorporated into Clinical Practice? *141*
- Receiver Operating Characteristic (ROC) Curves *143*
- How do you Appraise a Study of a Diagnostic Test? *144*

14. The Basics of Reliability **149**
Chloe Bedard, Anil jain
- What is 'Reliability'? *149*
- What are the Different Measures of Reliability? *153*

- What are the Characteristics of a Reliability Study? *155*
- How do I Critically Appraise a Reliability Study? *159*

15. Quick Guide to Assess Risk of Bias in Randomized Controlled Trials **163**
Alonso Carrasco-Labra, Kathleen G Dobson
- Bias in Randomized Controlled Trials *163*
- Assessing Risk of Bias in RCTs *170*

16. GRADE—Understanding Grades of Healthcare Recommendations **176**
Mark Phillips, S Rajasekaran
- Overview of the GRADE Approach *176*
- Research Questions and Determining Important Outcomes *177*
- Factors to Increase the Quality of Evidence Rating *182*
- Formulating Recommendations from the Evidence *184*

SECTION 4: THE RESEARCH PROTOCOL

17. First Things First—The Research Proposal **191**
Andrew Duong, Chuan Silvia Li
- What is a Clinical Research Proposal? *191*

18. Choosing the Outcome—A Primer **200**
Alisha Garibaldi, Gurava Reddy
- What is an Outcome in a Clinical Study? *200*
- Why is Choosing the Right Outcome Important in Clinical Research? *200*
- How Many Outcomes can I Choose? *201*
- How do I Choose an Outcome for my Study? *201*
- What are Patient-important Outcomes? *202*
- What is a Measuring Instrument? *202*

19. Common Quality of Life and Health Utility Outcome Tools **205**
Rajeev Jetly, Ydo V Kleinlugtenbelt
- What is a 'Life and Health Utility Outcome Tool'? *205*

20. An Introduction to Sample Size **217**
Christopher Scott Smith, Ashok Shyam, Thuva Vanniyasingam
- What is Sample Size and Why does It Matter? *217*
- What should be Considered before Calculating Sample Size? *218*
- What is Needed to Calculate Sample Size for a Clinical Trial? *218*
- What are Some Common Pitfalls When Calculating Sample Size? *221*
- How do I Report Sample Size Calculations? *223*

21. Estimating an Appropriate Sample Size—Advanced Concepts, Formulae and Examples **227**
Thuva Vanniyasingam, Lawrence Mbuagbaw, Christopher Scott Smith
- What Basic Components are Needed for Sample Size Estimations? *227*
- What are the Basic Steps for Sample Size Estimation? *228*
- What are the three Types of Comparisons Made in Randomized Controlled Trials? *228*
- Why is Hypothesis Testing Important in RCTs? *229*
- How do I Manually Estimate Sample Size? *230*
- What Programs are Available for Sample Size Estimation? *236*

22. Planning your Analysis—Keep it Simple **241**
Kerry Tai, Kim Madden , Ashok Rajgopalan
- Types of Data *241*
- Descriptive Statistics *243*
- Hypothesis Testing *246*
- How to Analyze your Data *246*
- Statistical Significance vs Clinical Significance *249*

23. What are Subgroup Analyses and How should You Interpret Them? **252**
Erika Arseneau, Jean-Eric Tarride
- What is a Subgroup Analyses? *252*
- What does a Well-designed Subgroup Analysis Consist of? *253*

- Why do Subgroup Analyses have Such a Bad Reputation? *254*
- A Classic Example of Subgroup Analysis Gone Wrong *257*
- How are Subgroup Analyses Performed? *257*
- How are Subgroup Analyses Reported? *258*
- Guidelines for Interpretation and Application of Subgroup Analysis *258*
- Can you Compare Results of Subgroup Analyses from Different Studies? *259*

SECTION 5: DOING RESEARCH

24. Study Roles—Who does What? 265
Mark Gichuru, Madhav Borate
- What are the Roles of a Principal Investigator? *265*
- What do I Need to Become a Principal Investigator? *267*
- What are the Roles of the Research Coordinator? *267*
- What do I Need to Become a Research Coordinator? *269*
- What are the Roles of the Clinical Trial Monitor? *269*
- What do I Need to Become a Clinical Research Associate/Assistant? *270*
- What are the Roles of the Clinical Research Nurse? *270*

25. Research Ethics Approval—A must Before any Clinical Trial 275
Zenon Sirko, S Rajasekaran
- What is 'Research Ethics' and Why is it Important? *275*

26. Why do we Need Patient Consent? Designing a Good Consent Form 283
Chuan Silvia Li, Madhav Borate
- What is Patient Informed Consent? *283*
- What are the Key Steps in the Informed Consent Process? *285*
- What are the General Guidelines on Designing Patient Informed Consent Forms (ICFs)? *286*

27. Collecting Data—It all Begins with a Good Data Form **297**
Nikhita Singhal, Steve Rocha
- What is a Data Form and Why is it Needed? *297*

SECTION 6: GETTING THE WORD OUT—PRESENTATION AND PUBLICATION

28. Creating an Impactful Slide Presentation **309**
Colm McCarthy, Mandeep Dhillon
- What is a Slide Presentation? *309*
- What is a Great Slide Presentation? *310*

29. Writing a Good Clinical Research Paper **316**
Sarah Resendes, Ashok Shyam
- Why is Scientific Writing Important? *316*

30. Making Sense of Reporting Guidelines **324**
Akhila Rachakonda, Kim Madden
- Why do we Need Reporting Guidelines and Checklists? *324*

31. Submitting a Paper for Publication—A Guide to Success **331**
Patrick Thornley
- How do I Select Which Journal to Submit my Research Paper to? *331*
- How do I Prepare my Manuscript for Submission? *333*
- How do I Navigate the Online Submission Process? *335*
- How do I Effectively Respond to Reviewers' Comments? *337*

32. Knowledge Translation 101—Maximizing Impact **339**
Austin MacDonald, Vijay Shetty
- What is Knowledge Translation? *339*

Glossary 345
