Contents

1. OSTEOPOROSIS—AN OVERVIEW 1
   - *Meeta*

   Types of Osteoporosis 2
   Clinical Types of Osteoporosis 4
   Fracture 6

2. BONE BASICS 11
   - *Meeta, Tanvir*

   Bone Structure and Function 11
   Remodeling of Bone Tissue 14
   Regulation of Basic Multicellular Units 15
   Vitamin D 16

3. PATHOGENESIS OF OSTEOPOROSIS 18
   - *Prasun Deb*

   Pathogenesis of Osteoporotic Fractures 18
   Pathogenesis of Osteoporosis 18
   Cellular Basis of Osteoporosis 20
   Centrality of Estrogen in Bone Health in Both Sexes 21

4. EPIDEMIOLOGY OF OSTEOPOROSIS: INDIAN PERSPECTIVE 24
   - *Rashmi Shah, Rama Vaidya, Meeta*

   Burden of Osteoporosis and Osteoporotic Fractures: Indian Perspective 25
   Multifactorial Etiology 29
   Other Factors 34
   Future Directions 35

5. GENETIC FACTORS CONTRIBUTING TO BONE HEALTH 39
   - *Mohammed Ikram Khatkhatay, Meena Desai*

   Etiopathogenesis of Osteoporosis 40
   Impact of Genetic Factors on Skeletal Phenotypes 41
   Strategies for Identifying Osteoporosis Genes 42
   Importance of Studying Genetics of Osteoporosis 46

6. DEVELOPMENTAL ORIGIN OF OSTEOPOROSIS 51
   - *Dinesh K Dhanwal, C Cooper*

   Bone Growth *In Utero* 52
   Peak Bone Mass 54

Population Studies 55
Developmental Plasticity and Osteoporosis 57

7. EVALUATION OF POSTMENOPAUSAL OSTEOPOROSIS 61
▸ *Meeta, Harinder Singh*
Osteoporotic Fracture Risk is Based on Three Factors 61

8. FRAX®—PRACTICAL APPLICATIONS 70
▸ *Anna Fenton*

9. INVESTIGATIONS 76

9A: Bone Densitometry **76**
▸ *Rabinder Nath Mehrotra*
What is Bone Densitometry? 76
When We should Ask for BMD? 78
How to Interpret the BMD Reports? 78
What is the Definition of Osteoporosis? 79
Why it is Less than –2.5 and Not any other Number? 80
In What Conditions BMD Measurement may Not Reflect Accurate BMD? 80
How do We Monitor Change in BMD? 81
How can We Improve the Risk Assessment by BMD? 81

9B: Role of X-rays and other Imaging Techniques **84**
▸ *Vivek Arya, Ritu Trivedi*
Conventional Radiography 84
Radiogrammetry 87

9C: Role of Biochemical Markers of Bone Turnover **93**
▸ *Vipla Puri, Meeta*
Bone Markers 93
Effects of Menopause and Aging on Bone Markers 96
Bone Markers and Therapy 97
Limitations of Routine Use of Bone Turnover Markers 99

10. MANAGEMENT—OLD AND NEW THERAPIES FOR OSTEOPOROSIS 102

10A: Hormone Therapy **102**
▸ *Marco Gambacciani*
Definition and Pathophysiology 102
Osteoporosis: Clinical Management 102
Osteoporosis and Hormone Replacement Therapy 103
Osteoporosis and Low-Dose Hormone Replacement Therapy 104
Hormone Replacement Therapy: Why So Many Fears? 105

10B: New Horizons in Osteoporosis Therapy: Denosumab and Odanacatib **111**
▸ *Pamela Taxel, Edilfavia Mae Uy*
New Horizons 112
Denosumab 112
Odanacatib 113

10C: Tibolone **117**
▸ *Janice Rymer, Beth Cartwright*

10D: Selective Estrogen Receptor Modulators and Bisphosphonates **125**
▸ *Ambrish Mithal, Nidhi Malhotra, Beena Bansal*
Bisphosphonates 126
Adverse Effects of Bisphosphonates 131
Selective Estrogen Receptor Modulators 132

10E: Parathyroid Hormone, Calcitonin and Strontium Ranelate **137**
▸ *URK Rao*
Teriparatide 137
Strontium Ranelate 139
Calcitonin 139

10F: Osteoporosis Therapies—A Synopsis **141**
▸ *Sudhaa Sharma, Annil Mahajan, Vishal R Tandon*
Health Issues and Challenges 141
Emerging Concept 141
Current Guideline for Prevention and Treatment of Postmenopausal Osteoporosis 142
Emerging Therapies for Postmenopausal Osteoporosis 144
Newer Selective Estrogen Receptor Modulators with Promising Activity 145

10G: Dosage Schedules of Vitamin $K_{2\text{-}7}$ **155**
▸ *Dilip Mehta, Ashok Vaidya*
Vitamin K 156
Choice of Vitamin K Analog in Osteoporosis 159
The Dosage Schedules of Vitamin $K_{2\text{-}7}$ 162
Epidemiology of Vitamin K_2 163
Relationship Between Vitamin K Status to Undercarboxylated Osteocalcin to Bone Health 164
Vitamin $K_{2\text{-}7}$—A Missing Link in Management of Osteoporosis 165

10H: The Role of Calcium and Vitamin D in the Management of Postmenopausal Osteoporosis **171**
▸ *Beverely Lawton, Meeta*
Vitamin D 171
Vitamin D and Bone 178
Calcium 181

10I: Role of Nutrition **186**
▸ *Jagmeet Madan, Ankita Narsaria*
Nutrition and Osteoporosis 186

10J: Prevention of Falls **200**
▸ *Heung Kim*
Prevention Strategies 200

11. GUIDELINES IN THE MANAGEMENT OF POSTMENOPAUSAL OSTEOPOROSIS 208
▸ *John C Stevenson, Kate Maclaran*
General Measures 208
Premature Menopause 209
Perimenopause 210
Early Postmenopause 211
Late Postmenopause 213

12. SURGICAL MANAGEMENT 219

12A: Spine **219**
▸ *Raghava D Mulukutla*
Incidence 219
Diagnosis 220
Dual-energy X-ray Absorptiometry and Bone Markers 220
Biopsy 221
Conditions Requiring Surgery in Postmenopausal Osteoporosis 221
Results 224
Primary and Metastatic Conditions of Spine 225

12B: Hip **229**
▸ *SKS Marya, Sumeet Rastogi, Chandeep Singh*
Hip Fractures are a Major Public Health Concern Today 229
Classification 230
Treatment 231
Internal Fixation 232
Operative Treatment—Arthroplasty 236
Synopsis 239

13. SARCOPENIA AT MENOPAUSE: IS IT PHASE-SPECIFIC OR MULTIMODAL? 241
▸ *Rama Vaidya, Namyata Pathak, Ashwini Kumar Raut, Deepak Patkar, Ashok Vaidya*
Synonyms and Evolving Definition 241
Sarcopenic Obesity: A Chronic Inflammatory State 242
Prevalence 243
Etiology: Multifactorial vs Antiestrogenic Mechanisms 244
Diagnosis and Assessment Techniques 245
Assessment of Muscle Performance 246
Consequences with Associated Morbidity and Mortality 246
Management: Multimodal Approach 247
