Contents

1. Congenital Skeletal Anomalies and Dysplasia **1**

Preaxial and Postaxial Polydactyly *1*; Ectrodactyly Ectodermal Dysplasia Cleft Lip Syndrome *1*; Madelung's Deformity *1*; Congenital Hip Dislocation *2*; Osteopetrosis *2*; Sprengel Deformity *3*; Macrodystrophia Lipomatosa *3*; Multiple Epiphyseal Dysplasia *3*; Cleidocranial Dysostosis *4*; Holt-Oram Syndrome *5*; Fibrous Dysplasia *6*; Fibrodysplasia Ossificans Progressiva *7*; Mucopolysaccharidoses *7*; Perthes Disease *10*; Congenital Bifid Sternum *10*; Bone Island or Enostosis *11*

2. Trauma **12**

Patterns of Fracture *12*; Healing of Fracture *12*; Fall on Outstretched Hand *14*; Fracture *16*; Stress Fracture *18*; Segond Fracture *19*; Avulsion Fracture *20*; Fracture Scaphoid *21*

3. Metabolic and Endocrine Disorders **22**

Rickets *22*; Renal Rickets *23*; Osteoporosis and Osteomalacia *24*; Acromegaly *25*; Fluorosis *26*; Resorption of Terminal Tufts *26*; Expansile Lesions of Metaphysis *27*; Hand as an Index of Disease *29*

4. Infections **32**

Periosteal Reaction (Periostitis) *32*; Osteomyelitis *32*; Sequelae to Septic Arthritis *36*; Tuberculous Arthritis *36*; Congenital Syphilis *37*; Infectious Arthritis *37*; Sacroiliitis *38*

5. Noninfective Inflammatory Arthritis **41**

Seronegative Spondyloarthropathy *41*; Hypertrophic Osteoarthropathy *42*; Ankylosing Spondylitis *44*; Psoriatic Arthritis *44*

6. Joints **46**

Anatomy Shoulder Joint *46*; Avulsion of Greater Tuberosity *47*; Acromioclavicular Degeneration *48*; Spinoglenoid Cyst *49*; Glenoid Labrum Tear *50*; Tuberculous Arthritis Right Shoulder *50*; Rotator Cuff Tears *52*; Anatomy Hip Joint *52*; Osteoid Osteoma *54*; Avascular Necrosis *56*; Septic Arthritis *58*; Anatomy Knee Joint *58*; Cruciate Ligaments *63*; Collateral Ligaments *63*; Menisci *65*; Pigmented Villonodular Synovitis *69*; Osteomyelitis *69*; Rheumatoid Arthritis *69*; Neuropathic Arthropathy *71*

7. Bone Tumors **72**

WHO Classification of Bone Tumors *72*; Aneurysmal Bone Cyst *73*; Osteoid Osteoma *74*; Osteochondroma *75*; Diaphyseal Aclasis (Chondromatosis) *76*; Tallus Chondroblastoma *77*; Giant Cell Tumor *77*; Hemangioma *78*; Lipoma *78*; Adamantinoma *79*; Fibrolipomatous Hamartoma Median Nerve *80*; Plasma Cell Tumor *81*; Plasmacytoma *82*; Multiple Myeloma *83*; Pigmented Villonodular Synovitis *84*; Fibrous Dysplasia *86*; Polyostotic Fibrous Dysplasia *87*; Ameloblastoma *89*; Loose Bodies in Shoulder Joint *90*; Osteochondritis Dissecans *90*; Odontogenic Fibromyxoma of the Maxilla *90*; Osteosarcoma *90*; Ewing's Sarcoma *96*; Osseous Lymphoma *96*; Liposarcomas *98*; Sacrococcygeal Teratoma *99*; Skeletal Metastasis *99*

8. Soft Tissues **101**
Classification of Soft Tissue Tumors *101*; Subcutaneous Lipoma *101*; Macrodystrophia Lipomatosa *103*; Liposarcoma *105*; Fibrolipomatous Hamartomas of Median Nerve *105*; Baker's Cyst *106*; Complete Tear Tendo-Achilles *106*; Neurogenic Tumors *106*; Bilateral Nasolabial Cyst *109*; Soft-tissue Calcifications *109*

9. Breast **116**
Breast Anatomy *116*; Breast Cysts *117*; Antibioma *118*; Intramammary Lymph Node *119*; Fibroadenomas *119*; Gynecomastia *120*; Phyllodes Tumor *120*; Carcinoma Breast *120*; Carcinoma Breast with Metastases *120*; Carcinoma *In Situ* *121*

10. Miscellaneous **124**
Imaging in Sickle Cell Anemia *124*; Pycnodysostosis *125*; Solitary Dense Vertebra *125*; Rib Notching *125*; Bone Infarct *125*; Fibrous Dysplasia *126*; Kienböck's Disease *127*; Avascular Necrosis Scaphoid *127*; Hyperostosis Frontalis Interna *129*; Renal Osteodystrophy *129*; Ozone Therapy *130*; Geode *131*; Magnetic Susceptibility Artifact *132*; Cloud Computing *132*; Metallic Foreign Bodies *132*

11. Ossification Centers **134**

Index *139*
