Contents

Section 1: Acute Rheumatic Fever

1. Historical Aspect of Rheumatic Fever and Rheumatic Heart Disease 3
M Satpathy
- Greek Medicine *3*
- Egyptian Medicine *3*
- Sumerian Medicine 3000 BC *3*
- Oriental Medicine (Ancient Hindus, Chinese and Japanese Medicine) *3*
  - Ancient Hindus Medicine *3*
- History of Recognition of Rheumatic Fever and Rheumatic Heart Disease in India *5*

2. Epidemiology of Rheumatic Fever and Rheumatic Heart Disease 7
M Satpathy
- RF and RHD in Developed Countries: Past and Present Status *7*
  - RF and RHD in Asian Countries: Past and Present *8*
  - RF and RHD in India: Past and Present *9*
  - Has Rheumatic Heart Disease Really Declined? *9*

3. Etiopathogenesis of Rheumatic Fever 14
HN Mishra
- Factors Responsible for Pathogenesis of Rheumatic Fever *14*
  - Agent Factor, Group A Beta Hemolytic *Streptococcus* *14*
  - The Host Factor (Patient) *17*
  - The Environmental Factor *17*

4. Pathology of Acute Rheumatic Fever 19
M Satpathy
- Pathology of Cardiac Lesions *19*
  - Pericardium *19*
  - Myocardium *19*
  - Endocardium *20*
  - Coronary Arterial Lesion *20*
  - Extracardiac Manifestations *20*
  - Central Nervous System *21*
  - Lungs *21*
  - Kidneys *21*

5. Clinical Manifestations of Rheumatic Fever 22
M Satpathy
- Major Manifestations of RF *22*
  - Carditis *22*
  - Arthritis 25

- Chorea *26*
- Subcutaneous Nodules *26*
- Erythema Marginatum *27*

- Minor Manifestations *27*
  - Fever *27*
  - Arthralgia *28*

6. Laboratory Diagnosis of Acute Rheumatic Fever 29
BR Mishra

- Streptococcal Antibody Titer *29*
- Throat Swab Culture *30*
  - Rapid Antigen Test for Group A *Streptococcus* *30*
- Hematological Investigations *30*
  - Acute Phase Reactants *30*
  - Troponin Test *31*
- Noninvasive Tests *31*
  - Electrocardiography *31*
  - Roentgenography *31*
  - Echocardiography *31*
  - Nuclear Imaging *32*
- Invasive Procedures *33*
  - Synovial Fluid Analysis *33*
  - Endomyocardial Biopsy *33*

7. Diagnosis and Differential Diagnosis of Rheumatic Fever 34
BR Mishra

- Modified Jones Criteria (2003) *34*
  - Major Criteria *34*
  - Minor Criteria *34*
  - Essential Criteria *34*
  - Characteristic Features of Major Criteria *34*
  - Characteristic Features of Minor Criteria *35*
  - Jones Criteria not Applied for *35*
  - Probable Rheumatic Carditis *35*
- Clarification of Certain Doubts *35*
  - Problems for Diagnosis of Acute Rheumatic Fever *36*
  - Peculiar Observation of Acute Rheumatic Fever *36*
  - Differential Diagnosis of Acute Rheumatic Fever *36*
  - Differential Diagnosis of Carditis *37*
  - Chorea *38*
  - Differential Diagnosis of Erythema Marginatum *39*
  - Differential Diagnosis of Subcutaneous Nodules *39*

8. Management of Rheumatic Fever 40
TK Mishra

- Introduction *40*
  - General Measures *40*
  - Management of Streptococcal Pharyngitis (Antimicrobial Therapy) *40*
- Management of Inflammatory Process (Anti-inflammatory Drugs) 41
  - Management of Heart Failure *43*
  - Management of Chorea *43*

- Prophylaxis of Rheumatic Fever *44*
- Primary Prophylaxis *44*
- Secondary Prophylaxis *45*
- Duration of Secondary Prophylaxis *46*
- Prospects of Vaccine Against Acute Rheumatic Fever *47*
- Control Programs for Acute Rheumatic Fever and Rheumatic Heart Disease *47*

Section 2: Rheumatic Heart Diseases

9. Approach to Diagnosis of Rheumatic Heart Disease 51
BR Mishra, M Satpathy
- Introduction *51*
  - Clinical Approach *52*
  - Functional Classification of Dyspnea, Fatigue and Palpitation New York Heart Association Classification (NYHA) *52*
  - Basic Hemodynamic Parameters *53*
  - Normal Valve Areas *55*
  - Level of Evidence of Treatment/Interventions/Procedure *55*
  - Medical Management of Congestive Heart Failure *55*

10. Mitral Stenosis 59
SN Routray, BR Mishra
- Definition *59*
  - Incidence and Prevalence *59*
  - Anatomy of Mitral Valve *59*
  - Etiology *60*
  - Pathology *60*
  - Pathophysiology *61*
  - Clinical Features *62*
  - Investigations *64*
  - Cardiac Catheterization and Angiocardiography *68*
  - Diagnosis *68*
  - Differential Diagnosis *68*
  - Complications *69*
  - Mitral Stenosis with Pregnancy *69*
  - Management *69*

11. Mitral Regurgitation 74
BR Mishra, M Satpathy
- Definition *74*
  - Incidence and Prevalence *74*
  - Etiology *74*
  - Pathology *75*
  - Pathophysiology *75*
  - Clinical Features *76*
  - Investigations *77*
  - Diagnosis *81*
  - Differential Diagnosis *81*
  - Complications *81*
  - Management *81*

12. Rheumatic Aortic Stenosis 84
Santanu Guha, M Satpathy
- Definition *84*
  - Incidence and Prevalence *84*
  - Anatomy of the Aortic Valve *84*
  - Etiology *84*
  - Pathology *85*
  - Pathophysiology *85*
  - Clinical Manifestations *87*
  - Investigations *88*
  - Differential Diagnosis *90*
  - Management *92*
  - Nonsurgical Interventional Management *93*
  - Surgical Procedure *93*

13. Aortic Regurgitation 95
BR Mishra
- Definition *95*
  - Incidence *95*
  - Etiology *95*
  - Pathology *95*
  - Pathophysiology *96*
  - Clinical Manifestations *96*
  - Peripheral Signs *97*
  - Investigation *99*
  - Echocardiography *101*
  - Radionuclide Imaging *101*
  - Magnetic Resonance Imaging (MRI) *101*
  - Cardiac Catheterization and Angiocardiography *101*
  - Diagnosis *103*
  - Differential Diagnosis *103*
  - Complications *103*
  - Treatment *104*

14. Tricuspid Valve Disease 106
M Satpathy
- Tricuspid Stenosis *106*
  - Definition *106*
  - Incidence *106*
  - Etiology *106*
  - Anatomy of Tricuspid Valve *107*
  - Pathology *107*
  - Pathophysiology *107*
  - Clinical Features *108*
  - Investigations *109*
  - Diagnosis *111*
  - Differential Diagnosis *111*
  - Management *112*
- Tricuspid Regurgitation *113*

- Definition *113*
- Etiology *113*
- Acute TR *113*
- Hemodynamics *113*
- Clinical Features *114*
- Investigations *115*
- Diagnosis *117*
- Differential Diagnosis *117*
- Complications *117*
- Management *118*

15. Pulmonary Valve Disease 120
M Satpathy
- Anatomy of Pulmonary Valve *120*
- Incidence *120*
- Causes of Pulmonary Stenosis *120*
- Causes of Pulmonary Regurgitation *121*
- Clinical Manifestations *121*
  - Symptoms *121*
- Investigations *121*
  - ECG *121*
  - Roentgenography *121*
  - Echocardiography *121*
- Management *122*

16. Combined Valvular Lesions 123
M Satpathy
- Introduction *123*
  - Incidence *123*
  - Parameters to Determine Dominance of Lesion *123*
  - Management *127*

17. Infective Endocarditis 134
C Satpathy, NK Mohanty
- Definition *134*
- History *134*
  - Epidemiology *134*
  - Changing Clinical Pattern of Endocarditis *134*
  - Classification *135*
  - Pathogenesis and Pathology of Infective Endocarditis *135*
  - Clinical Features *137*
  - Extracardiac Manifestations *138*
  - Investigation *139*
  - Diagnosis *141*
  - Prevention *142*
  - Treatment of Infective Endocarditis *143*
  - Summary *144*
  - Surgical Treatment *145*
  - Prognosis *145*
  - Future Perspectives *145*

18. Natural History of Rheumatic Fever and Rheumatic Heart Disease 147
M Satpathy, Bharati Das, JP Das
- Introduction *147*
  - Historical Aspect *147*
  - Magnitude of the Problem *147*
  - Evolution of Rheumatic Fever (Birth of RF) *148*
  - Natural Course of Rheumatic Fever *148*
  - Natural History of Rheumatic Manifestations *149*
  - Natural History of Rheumatic Heart Disease *151*
  - Stenotic Lesions *152*
  - Regurgitant Lesions *153*
  - Natural Problems Emerging *154*
