Contents

1. LAQs and SAQs for Pathology (General and Systemic) 1

- Cell Injury and Cellular Adaptation 3
- Hemodynamic and Electrolyte Imbalance 20
- Inflammation and Healing 31
- Infectious and Parasitic Diseases 50
- Neoplasm and Cellular Growth 53
- Blood Vessels and Lymphatic System 76
- Cardiovascular System 82
- Hematopoietic and Reticuloendothelial System 93
- Respiratory System 99
- Gastrointestinal Tract 108
- Liver, Biliary Tract and Pancreas 118
- Kidney and Lower Urinary Tract 129
- Male Genital Tract and Prostate 141
- Female Genital Tract 148
- Breast 155
- Musculoskeletal System 166
- Central Nervous System 177
- Clinical Pathology 180

2. MCQs for Genetics and Pathology 231

- Most Important Facts to Remember 233
- The Inheritance Mechanism of Diseases 234
- Solved Questions with Explanations 237

Genetics 237

- Introduction and Basic Genetics 237
- Congenital Genetic Diseases 239

- Chromosomal Aberration Inheritance 242
- Modes of Mendelian Inheritance 246
- Population Genetics and Multifactorial Inheritance 247
- Clinical Genetics and Atypical Inheritance 248
- Genetic Screening and Prenatal Diagnosis 252

Pathology 254

- Cell Injury and Cell Adaptation 254
- Infection, Inflammation, Repair and Healing 257
- Disturbance of Fluid and Electrolytes Imbalance 260
- Neoplasm and Cellular Growth 262
- Parasitic and Infectious Diseases 263
- Cardiovascular System 268
- Kidney and Lower Urinary Tract 269
- Respiratory System 272
- Gastrointestinal Tract 274
- Hepatobiliary System 278
- Reticuloendothelial and Hematopoietic System 281
- Male Genital System 285
- Female Genital System 287
- Breast 288
- Nervous System 290
