Contents

Section I: Nutrition

1. **History of Nutrition** **3**

2. **Introduction to Nutrition** **7**
   Nutritional Basic Concepts *7*
   Nutritional Problems in India *10*
   National Nutritional Policy *13*

3. **Medicinal Benefits of Whole Foods** **19**
   Health Benefits of Foods *19*

4. **Food Classification/Standards and Elements of Nutrition** **35**
   Definition of Nutrition *35*
   Food Standards *36*

5. **Measurements of Energy** **38**
   Calorie *38*
   Basal Metabolic Rate *38*

Section II: Carbohydrates

6. **Classification and Functions** **43**
   Classification of Carbohydrates *43*
   Functions of Carbohydrates *44*
   Sources of Carbohydrates (Dietary Sources) *44*
   Daily Requirement of Carbohydrates *44*
   Deficiency of Carbohydrates *45*
   Caloric Requirement *45*
   Fibers *45*

7. **Digestion, Absorption and Storage** **46**
   Digestion *46*
   Absorption *48*
   Storage *49*

8. Metabolism and Synthesis 50
Metabolism *50*
Synthesis *52*

9. Malnutrition and Overconsumption 53
Deficiencies *53*
Malnutrition *55*
Overconsumption *57*

Section III: Fats

10. Classification, Requirements and Functions 61
Classification of Lipids *61*
Classification of Fatty Acids (Chemistry) *61*
Chemical Properties of Fat *63*
Fat Requirements *63*
Visible and Invisible Fats *63*
Caloric Value and Recommended Daily Allowances *64*
Dietary Sources *65*
Functions of Fats *65*

11. Digestion, Absorption and Storage 67
Digestion and Absorption *67*
Storage *68*

12. Metabolism and Synthesis 69
Fat Metabolism *69*
Fat Synthesis *71*

13. Malnutrition and Overconsumption 73
Deficiencies *73*
Overconsumption *75*

Section IV: Proteins

14. Classification, Requirement and Functions 83
Classification of Proteins (Based on Amino Acid) *83*
Supplementary Action of Proteins *84*
Assessment of Protein Nutrition Status *84*
Recommended Daily Allowances *85*

Dietary Sources *87*
Functions *89*

15. Digestion, Absorption and Storage 92
Digestion *92*
Absorption *93*
Storage *93*

16. Metabolism and Synthesis 95
Metabolism *95*
Synthesis *97*

17. Malnutrition and Overconsumption 98
Deficiencies *98*
Protein-energy Malnutrition *99*
Overconsumption *104*

Section V: Vitamins, Minerals and Energy

18. Vitamins 109
Classification of Vitamins *109*

19. Minerals 143
Chemical Elements *143*
Trace Elements *155*
Types of Anemia *160*

20. Energy 175
Dietary Sources *175*
Energy Requirements *176*
Nutritional Individuality *178*
Units of Energy *179*
Energy Values of Foods *180*
Basic Metabolism *181*
Body Mass Index and Basic Metabolism *182*

Section VI: Water and Electrolytes

21. Water 189
Sources *189*
Daily Requirement *190*

Regulation of Water *193*
Homeostasis *195*
Fluid Balance Mechanisms *197*
Functions of Water *198*
Metabolism *200*
Distribution of Body Water *203*

22. Electrolytes and its Imbalances 206
Electrolytes *206*
Electrolyte Imbalances *208*

23. Fluid and Electrolyte Balance 217
Maintenance of Fluid and Electrolyte Balance *217*
Four Rules and Regulations of Fluids and Electrolytes *217*
Fluid, Electrolyte and Particle Movement *218*
Movement of Fluid According to Pressure Forces *218*
Primary Regulatory Hormones *219*
Stabilizing Extracellular and Intracellular Fluids *220*

24. Overhydration, Dehydration and Diarrhea..... 224
Overhydration *224*
Dehydration *224*
Diarrhea *229*

25. Water Intoxication..... 232
Risk Factors *232*
Signs and Symptoms *233*
Treatment *233*
Prevention *233*

Section VII: Balanced Diet

26. Balanced Diet Elements..... 237
Balanced diet *237*

27. Food Groups 240
Food Groups/Categories *240*
Food Group Systems *241*

28. Nutritive Value of Common Food Articles 245
Cereals and Millets *258*

Pulses and Legumes *260*
Vegetables *261*
Nuts and Oils Seeds *261*
Fruits *262*
Animal Foods *262*
Milk *263*
Milk Products *264*
Fats and Oils *265*
Sugar and Jaggery *265*
Condiments and Spices *265*
Miscellaneous *265*

29. Recommended Daily Allowances..... 267
Nutrient Requirement *267*
Reference Range *268*
Factors Affecting RDA *269*
Recommending Authorities *269*
Uses of RDA *270*
Conditions for Operating RDAs *271*
Limitations of RDA *271*
Recommended Dietary Intake *271*

30. Calculation of Balanced Diet for Different Categories 274
Balanced Diet *274*
Substitution for Nonvegetarians *275*
During Pregnancy and Lactation *276*
Preschool Children *276*
Nutritional Requirements of School
Children and Adolescents *278*
Diets for Pregnant and Nursing Mothers *282*
Nutritional Requirements for Old Age People *286*
Nutritional Requirements for Industrial Workers *289*

31. Planning Menu 292
Principles of Balanced Diet *292*
Normal Diet *293*
Menu Planning *293*
Menu Planning Process *297*
Principles of Meal Planning *300*
Planning Meals for a Family *302*

Points to be Considered in Planning a Diet *302*
Factors Affecting/Influencing the Selection of Food and Planning of Meal *303*
Steps Involved in Planning a Diet *313*

32. Budgeting of Food 316
Need for Food Budget *316*
Meaning of Food Budget *317*
Importance of Food Budget *317*
Advantages of Food Budget *317*
Factors Affecting Food Budget *317*
Factors to be Considered While Budget Planning *318*
Useful Tips for Food Purchase *318*

33. Diet as a Therapeutic Agent 320
Types of Diet Used in Hospitals *320*

34. Diet and the Patient 324
Environmental/Psychological/Cultural Factors in Accepting Diet *324*
Points to be Considered in Serving Food to Patients *325*
Feeding Helpless Patient/Preparation of Patient *326*
Opportunities for Nutrition Education *327*

35. Therapeutic Diets 329
Principles of Diet Therapy *329*
Modifications of Nutrients in Therapeutic Diets *329*
Management of Special Diets *332*
Modifications in Diet Consistency *334*
Special Feeding Methods *337*
High-protein and Low-protein Diets *343*
High- and Low-Calorie Diets *344*
Low- and High-Residue (Fiber) Diets *346*
Different Types of Therapeutic Diet *348*

36. Naturopathic Diet 355
Naturopathic Principles Applied to Meal Planning *356*
Functions of Naturopathy *356*
Basic Guidelines for Naturopathic Diet *356*
Naturopathic Diet Recipes *358*
Diet Therapy *361*

Section VIII: Food Preservation and Hospital Diets

37. Cooking 365
Art of Cooking *365*
Methods of Cooking *365*
Methods of Enriching the Family Diet *367*

38. Preservation and Storage 368
Household/Commercial Methods of Preserving and Storing Food *368*
Principles in Methods of Cooking and Serving for Preservation of Nutrients *369*
Food Hygiene or Precautions in Selection of Food *371*

39. Contamination and its Effect on Health (Food-borne Diseases) 374
Types of Food-borne Diseases *374*
Food Toxicity *376*
Classification of Toxic Chemicals in Foods *376*
Common Food Toxicants *379*

40. Safe Food Handling 384
Food Handling *384*
Food Selection *386*
Principles of Safe Food Practices *387*

41. Commercially Prepared Foods: Food Adulteration/Food Additives 390
Food Additives *390*
Food Fortification *391*
Adulteration of Foods *391*
Food Standards *393*

42. Hospital Diets 395
Types of Diets *395*

Section IX: Nutritional Programs/ Education and Role of Nurse

43. National Programs Related to Nutrition 411
Vitamin A Prophylaxis Program *412*

National Iodine Deficiency Disorders
Program (National Goiter Control Program) *413*
Mid-day Meal Program *414*
Integrated Child Development Scheme *417*
Other Nutritional Programs *420*
Applied Nutrition Program *420*
Special Nutrition or Supplementary Feeding Program *422*
Balwadi Nutrition Program *423*
Tamil Nadu Integrated Nutrition Project *424*
Rural Health Plan *424*
Anemia Control Program *425*
Monitoring and Evaluation of Nutrition Programs *426*

44. National and International Agencies Working Towards Food/Nutrition 427
National Institute of Public
Cooperation and Child Development *427*
Cooperative for Assistance and Relief Everywhere *429*
Food and Agriculture Organization *431*
National Institute of Nutrition *434*
Central Food Technology and Research Institute *436*

45. Nutrition Education and Role of Nurse 437
Need of Nutrition Education *437*
Methods of Nutrition Education *438*
Objectives of Nutrition Education *439*
Specific Means of Nutrition Education *440*
Training in Nutrition Education *440*
Channels of Nutrition Education to the Community *441*
Role of Nurse in Nutrition Education Program *443*

Index 449
