Contents

Acronyms and Abbreviations

Section I. General Topics in Medical Mycology

1. Introduction *3*
2. Fungal Morphology *24*
3. Fungal Taxonomy *39*
4. Immunity to Fungal Diseases *59*
5. Diagnosis of Fungal Diseases *71*
6. Antifungal Therapy *102*

Section II. Superficial Cutaneous Mycoses

7. Malasseziosis *127*
8. Tinea Nigra *145*
9. Piedra *154*
10. Dermatophytosis *162*

Section III. Subcutaneous Mycoses

11. Mycetoma *203*
12. Sporotrichosis *229*
13. Chromoblastomycosis *251*
14. Phaeohyphomycosis *269*
15. Lacaziosis *297*

Section IV. Systemic Mycoses

16. Histoplasmosis *311*
17. Blastomycosis *342*
18. Coccidioidomycosis *356*
19. Paracoccidioidomycosis *379*

Section V. Opportunistic Mycoses

20. Candidiasis *401*
21. Cryptococcosis *434*
22. Pneumocystosis *473*
23. Microsporidiosis *494*

24. Talaromycosis *506*
25. Aspergillosis *524*
26. Mucormycosis *554*
27. Entomophthoramycosis *597*
28. Miscellaneous Opportunistic Mycoses *613*

Section VI. Miscellaneous Mycoses

29. Oculomycosis *639*
30. Otomycosis *669*
31. Hyalohyphomycosis *682*
32. Adiaspiromycosis and Emergomycosis *707*
33. Allergic Fungal Diseases *722*
34. Fungal Rhinosinusitis *737*
35. Mycotoxicoses and Mycetismus *762*
36. Mycology Laboratory Contaminants *780*

Section VII. Pseudofungal Infections

37. Protothecosis and Chlorellosis *797*
38. Rhinosporidiosis *811*
39. Pythiosis and Lagenidiosis *828*

Section VIII. Appendices

A Fungal Culture Media *847*
B Fungal Reagents and Stains *856*
C Conventional Mycological Techniques *868*
D Antifungal Susceptibility Testing *874*
E Quality Control, Preservation and Culture Collections of Fungi *888*
F Bibliography *894*
G Glossary *912*

Index *921*
