Contents

1. Examination Tips 1
General Tips for the Day of Examination 1
Tips for Case Assessment 1
Examinations 2
Musculoskeletal System 4

2. Long Cases 6
Hemiplegia (Stroke) 6
Differential Diagnosis 6
Cerebellar Stroke 16
Special Issues in TBI 16
Paraplegia (Spinal Cord Injury) 17
Quadriparesis (GB Syndrome) 26
Quadriplegia (Cerebral Palsy) 30
Spondyloarthropathy (Ankylosing Spondylitis) 35
Polyarthritis (Rheumatoid Arthritis) 43
Amputation (Above Knee) 52

3. Short Cases 60
Abnormal Gait 60
Achondroplasia 62
Adhesive Capsulitis 63
Bell's Palsy (LMN VII Cranial Nerve Palsy) 64
Below Elbow Amputation 66
Benign Hypermobile Joint Syndrome 67
Bulbar and Pseudobulbar Palsy 69
Charcot-Marie-Tooth Disease 69
Colostomy 70
Complex Regional Pain Syndrome (CRPS) 72
Congenital Talipes Equino Varus (CTEV) 73
Carpal Tunnel Syndrome 74
Diabetic Foot Ulcer 76
Dupuytren Contracture 78
Deep Vein Thrombosis (DVT) 79
Dysphasia 80
Erb's Palsy 81
Erythema Nodosum 83
Foot Drop 84
Friedreich Ataxia 85
Klippel-Feil Syndrome 85
Lateral Epicondylitis 86
Motor Neuron Disease (MND) 87
Multiple Sclerosis 88
Muscular Dystrophy 89
Myasthenia Gravis 91
Osteoarthritis 92
Pagets Disease 95
Parkinsonism 96
Peripheral Nerve Injury 97
Peripheral Vascular Disease 99
Post Burn Contracture 100
Post Mastectomy Lymphedema 104
Post-Polio Residual Paralysis (PPRP) 105
Pressure Sore 107
Proximal Myopathy 108
Psoriatic Arthropathy 110
Raynaud's Phenomenon 110
Scoliosis 112
Task Specific Dystonia 115
Tophaceous Gout 116
Torticollis 117
Ulnar Claw Hand 118
Vertigo 119
Wrist Drop 120

4. Orthosis, Prosthesis, Mobility Aids and Wheelchair 122
Orthosis 122
Shoes 122
Lower Limb Orthosis 124
Spinal Orthosis 131
Upper Limb Orthosis 134
Prosthesis 137
Upper Limb Prosthesis 141
Mobility Aids 144
Wheelchair 145

5. PMR Radiology 152
X-Ray 152
Bone Tumors 172
USG: Shoulder 174
CT Scan 176
MRI 177

6. PMR Tracings 186
Nerve Conduction Study 186
Strength Duration Curve 193
Dexa Scan 194
Pulmonary Function Text 196
Electrocardiogram 199
Urodynamic Study 201
ABG 205

7. PMR Specimen.....208
Bronchiectasis of Lung 208
Brain Hemorrhage 210
Carcinoma Breast 210
Carrie's Spine 211
Osteomyelitis 213

8. PT Instruments.....215
Heat Therapy 215
Cryotherapy 220
Transcutaneous Electrical Nerve Stimulation Machine 220
Interferential Therapy 221
Extracorporeal Shockwave Therapy 222
Electromuscular Stimulation 222
Laser 224
Spinal Traction 225

9. Surgical Instruments.....228
Sponge Holding Forceps 228
Mayo's Scissors 228
Dissecting Forceps 228
Scalpel Handle 229
Mosquito Hemostatic Forceps 230
Allis Tissue Forceps 230
Babcock's Tissue Forceps 231
Humby's Knife 232
Kocher's Hemostatic Forceps 234
Needle Holders 234
Army Navy Retractor 234
Towel Clip 235
Dissecting Scissors 236
Reverse Cutting Needle 236
Surgical Blade 237
Miscellaneous 238

10. Miscellaneous.....242
Basics of Interventional Spinal Pain Management 242
Neuroaxial Procedures 242
Approach of Interventional Lumbosacral Spinal Pain Management 244
Interventional Approach to Cervical Radiculopathy 248
Interventional Approach to Spondylolisthesis 250
Basic Principles of Therapeutic Exercise 251
Basic Principles of Occupational Therapy 254
Tilt Table 255
Stem Cell in PMR 255

11. Scales of PMR.....257
Scales on Consciousness 257
Scales on Cognition 257
Scales on Functional Assessment 258
Manual Muscle Testing 259
Scales on Spasticity 260
Scales on Stroke 260

Index.....367
