Contents

1. Anatomy **1**

2. Epidemiology, Mechanism of Injury and Diagnosis **5**

- *Epidemiology 5*
- *Mechanism of Injury 6*

3. Principles of Treatment **9**

- *Method of Thromboprophylaxis 9*

4. Femoral Head Fractures **11**

- *Mechanism of Injury 11*
- *Injury Profile 11*
- *Classification 12*
- *Investigations 14*
- *Treatment Options and Management Protocol 14*
- *Historical Controversy of Operative Reduction and Surgical Approach 15*

5. Fracture Neck Femur in Children **33**

- *Anatomy 33*
- *Classifications 35*
- *Treatment 37*
- *Nonunion Group 45*
- *Stress Fracture Neck Femur 53*

6. Fracture Neck Femur in Adults **56**

- *Presentation and Diagnosis 56*

7. Intertrochanteric Fractures **108**

- *Etiology 108*
- *Classification 108*
- *Management 111*
- *Surgical Treatment 112*

8. Subtrochanteric Fractures **169**

- *Classifications 170*
- *Discussion 190*
- *Complications 194*

9. Ipsilateral Femoral Neck and Shaft Femur Fractures **205**

- *Mechanism of Injury 206*
- *Management 206*
- *Postoperative Protocol 215*
- *Complications 215*

10. Rehabilitation **219**

- *Adaptive Equipment 220*
