Contents

1. Introduction and Anesthesia 1

Shalabh Sinha

- Anesthesia 3
- General anesthesia 7
- Dressing and draping 8

2. Technological Support for MIVS 11

Kapil Bhatia, Ajit Babu Majji, Meena Chakrabarti

- Valved cannula 15
- Insertion trocar 15
- Infusion cannula 17
- Vitreous cutters 17
- Other disposable instruments 19
- Endoillumination 21
- Cone of illumination 21
- Led endoilluminators 24

3. Faster Visual Recovery with MIVS 30

Raja Narayanan, Anshuman Sinha, Baruch D Kuppermann

4. Microincision Vitrectomy—Incision 32

Abhishek Kothari, Narendran V, Amit Gupta

- Microincision wounds 32
- Attributes of MIVS incisions 32
- MIVS wound variants 34
- MIVS wound construction 34
- Incision closure 37

5. 25 Gauge Vitrectomy Overview 40

Saurabh Luthra

6. 23 and 25 Gauge Vitrectomy: An Overview 45

Pramod Bhende, Sudipta Das

- Ideology 45
- History 46

- Vitrectomy machine parameters 46
- Advantages of MIVS 48
- Decision making 49
- Preferred indication of MIVS 49
- Limitations of MIVS 50

7. 27 Gauge Vitrectomy System 54

Yusuke Oshima

- 27 gauge illumination system (Light source and fibers) 54
- 27 gauge vitreous cutter 59
- 27 gauge surgical instruments 59
- Clinical experiences with 27 gauge system 63
- Future pespective 65

8. MIVS in Macular Hole 67

SN Jha

- Clinical features and work up 67
- Signs 67
- Investigations 68
- Natural history 69
- Types of macular hole 69
- Pathogenesis 70
- Stages of development of senile macular hole by Gass 70
- OCT based prognosis 72
- Macular hole surgery 74
- Surgical technique 74
- MIVS and changing paradigm in macular hole surgery 76
- Postoperative posturing 77

9. MIVS for Vitreoretinal Interface Disorders 81

Alay S Banker, Rohan Chauhan

- Vitreoretinal macular traction syndrome..... 81
- Epiretinal membrane 84

10. Microincision Vitrectomy System in PDR 93

Cyrus Shroff, Charu Gupta

- Small gauge vitrectomy 93
- Endoillumination 97
- Viewing system 98
- Indications for surgery 98

- Surgical technique 100
- Lens status 103
- Sclerotomies 104
- Vitrectomy 104
- Membrane dissection 105
- Hemostasis 106
- Tamponade 107
- Photocoagulation/cryotherapy 107
- Closure 107
- Complications 108
- Postoperative hypotony 108
- Postoperative vitreous hemorrhage 108
- Postoperative retinal detachment 109

11. Small Gauge Vitrectomy in Endophthalmitis 112
Gopal S Pillai, Lalit Verma

12. MIVS in Vitreous Hemorrhage 116
Saurav Sinha

- Vitreous hemorrhage 116
- Proliferative diabetic retinopathy 117
- Vascular occlusions 118
- Eales' disease 118
- Trauma 119
- Special considerations in MIVS for vitreous hemorrhage 119
- Complications specific to MIVS for vitreous hemorrhage 120

13. MIVS for Retinal Detachment 122
Harsha Bhattacharya

- Historical background 122
- Instrumentation 123
- Basic surgical technique 124
- Complications 128
- Advantages 129
- 23 gauge vitrectomy outcomes 129

14. MIVS in Macular Edema 132
Atul Kumar, Subijay Sinha, Varun Gogia

- Macular edema in vascular occlusions 133
- Vitrectomy in diabetic macular edema 135

15. Silicone Oil in MIVS 142
Shalabh Sinha

- Injection of silicone oil 142
- To suture or not to suture the sclerotomies while using silicone oil 145
- Removal of silicone oil 145
- Combined surgery with silicone oil 146
- Complications of silicone oil in MIVS 147

16. Combined Cataract and Vitreoretinal Surgery 150
Shobhit Chawla

- Some pearls 153

17. Hybrid Vitrectomy 155
Manish Nagpal

- How recent advances have addressed early small gauge concerns? 157
- Trocar-cannula system 160
- Different types of incisions 161
- Extended hybrid techniques 163

18. 20 Gauge Sutureless Vitrectomy 167
C Claes, AP Lafetá

- Instrumentation and technique 168
- Discussion 171

19. Complications in MIVS 173
Priyank Garg, Arindam Chakravarti, Sundaram Natarajan

- Intraoperative complications 173
- Postoperative complications 175
- Wound leak/hypotony 175
- Wound healing 175
- Cataract 176
- Endophthalmitis 176
- Vitreous hemorrhage 177
- Vitreous incarceration and retinal detachment 177
- Others 178

20. Improved Visualization for Microincision Vitreous Surgery 181

Meena Chakrabarti, Sonia Rani John, Arup Chakrabarti

- Wide-angle vitrectomy lens systems 182
- Autoclavable lenses 185
- EIBOS 191
- PWL 192
- Resight 700 192
