Contents

Chapter 1: Development of the Nervous System **1**

Neural Tube Formation 1

Chapter 2: Anatomy of Nervous System **10**

Anatomy of the Nervous System 12
Major Divisions of the Central Nervous System 14
Description of Some Important Parts of Nervous System 15
The Lobes 15
Medial Surface of Cerebral Hemisphere 19
Nerve Fascicles of the Cerebrum 20
Diencephalon 21
Rhombencephalon 23
Pons 25
Medulla Oblongata 28
Spinal Cord 28
The Peripheral Nervous System 31
The Central-Peripheral Transition Region 32
Innervation of Skeletal Muscle 32

Chapter 3: Essential Functions of Different Parts of Cerebral Cortex and Effects of their Damage **33**

Essential Parts and their Main Functions 33
Structures and Functions of Neurons 33
Effects of Damage of Different Parts of Cerebral Cortex 35
Description of Certain Abnormal Conditions due to Lesions of Different Lobes 37
The Limbic System and Higher Mental Functions 40

Chapter 4: The Cranial Nerves **44**

Olfactory Nerves (Cr. Nerve No. 1) 44
Optic Nerve (Cr. Nerve No. 2) 45
Oculomotor (Cr. Nerve No. 3) 45
Trochlear Nerve (Cr. Nerve No. 4) 48
Trigeminal Nerve (Cr. Nerve No. 5) 50
Divisions of Trigeminal Nerve 52
Abducens (Cr. Nerve No. 6) 56
Facial Nerve (Cr. Nerve No. 7) 57
Vestibulocochlear Nerve (Cr. Nerve No. 8) 62
Glossopharyngeal Nerve (Cr. Nerve No. 9) 63

Vagus Nerve (Cr. Nerve No. 10) 66
Accessory Nerve (Cr. Nerve No. 11) 71
Hypoglossal Nerve (Cr. Nerve No. 12) 73

Chapter 5: The Neonatal Nervous System **75**
The Neonatal Musculoskeletal System 81

Chapter 6: Some Special Functions of Brain **84**
Memory and Learning 84
Speech 86
Development of Speech 87
Vision 93
Gait 103
Autonomic Nervous System 106
Autonomic Supply of Some Important Structures 109

Chapter 7: Recording the Neurologic History and Examination **112**
❖ *History* 112
The Scheme of History Taking 112
Outline of Neurological Examination 116
How to Proceed for Neurological Examination 121
The Mental Status Examination 123
Level of Consciousness 123
❖ *Intellectual Performance* 127
Memory and Learning 127
Thought Processes 128
Psychomotor Function or Praxis 128
Psychosensory Function 129
Cranial Nerve Testing 130
The Sensory System 152
The Extrapyramidal System 155
The Pyramidal System 158
Cerebellum 160
The Peripheral Nervous System 163
Neurovascular Examination 177
Evaluation of Speech and Language 178

Chapter 8: Neurological Examination of Children below 2 Years of Age **183**

Chapter 9: Neurologic History and Examination of the Newborn **191**

Chapter 10: Diagnostic Investigations of the Nervous System **199**
Special Diagnostic Procedures 199
Imaging 204
❖ *Tests for Neurophysiology (Functional Tests)* 206

Chapter 11: Congenital Abnormalities of the Central Nervous System **213**
Spina Bifida Occulta 213
Meningocele 213
Myelomeningocele 213
Microcephaly 214
Hydrancephaly 215
Hydrocephalus 217
Craniosynostosis 222

Chapter 12: Diseases of Nervous System of the Newborns **224**
Some General Clinical Manifestations 224
Intracranial Hemorrhage 225
Hypoxic-Ischemic Encephalopathy 229
Neonatal Seizures 237
Injuries and Diseases of Spine and Spinal Cord of the Newborn 245
Injuries of the Peripheral Nerves 246

Chapter 13: Seizures in Childhood **248**

Chapter 14: Infections of the Central Nervous System **258**
Meningitis in the Newborn 258
Acute Bacterial Meningitis beyond Neonatal Period 261
Viral Meningoencephalitis 287
Tubercular Meningitis 296

Chapter 15: Coma in the Pediatric Patients **302**
Use of Different Terms 302
State of a Person 302
Glasgow Coma Scale 303
Diagnostic Approach and Immediate Management of a Comatose Child 304
Pathophysiology of Loss of Consciousness 306
Mechanism of Unconsciousness 307
Clinical Findings in a Case of Coma 307

Chapter 16: Brain Tumors in Children **312**
Age Group 312
Types of Tumors 312
Pathogenesis 313
Clinical Manifestations 313
Special Features of Intratentorial Tumors 314
Ependymomas 315
Supratentorial Tumors 315
Pseudotumor Cerebri 316

Chapter 17: Motor System: Anatomy and Physiology and Effects of its Damage **318**
Upper Motor Neuron 318
Lower Motor Neuron 320
Basal Ganglia 321
Cerebellums 321
Extrapyramidal Systems 321
Integration of Components of Motor System 322
Reflex Movements 322
Damage to the Motor System 324
Approach to Diagnosis of Motor Deficit 324
Examination of the Motor System 328
Clinical Localization of the Lesions in a Patient with Motor Deficit 333
Investigations in a Case of Motor Deficit 337

Chapter 18: Cerebellar Disturbances and Ataxia **341**
Ataxia 341
Approach to Patients with Ataxia 344

Chapter 19: Abnormal Movements **352**
Disturbances of Basal Ganglia 352
Huntington's Disease 356

Chapter 20: Disorders of Somatic Sensation **367**
Functional Anatomy of the Somatic Sensory Pathways 367
Sensory Changes and their Significance at Different Sites 368
Clinical Findings of a Case of Peripheral Sensory Neuropathy 370
Approach to Diagnosis 370

Chapter 21: Diseases of the Spinal Cord **373**
Spinal Cord Trauma 373
Spinal Cord Tumors 377
Tethered Cord 379
Diastematomyelia 380
Syringomyelia 381
Transverse Myelitis 382
Anterior Horn Cell Diseases 384

Chapter 22: Nerve Root Lesions and Disorders of Peripheral Nerves **387**
Nerve Root Lesion 387
Disorders of Peripheral Nerves 388
Classification of Peripheral Neuropathy 388
Evaluation of the Patient 400

Chapter 23: Disorders of Neuromuscular Transmitters and Myopathic Disorders **403**
Myasthenia Gravis 403
Myasthenia Variants 411
Botulism 412
Myopathic Disorders 413
Muscular Dystrophies 416
Limb-Girdle Muscular Dystrophy 422
Glycogenoses 422
Endocrine and Metabolic Myopathies 424
Inflammatory Myopathy 425

Chapter 24: Cerebral Palsy **426**

Chapter 25: Cerebrovascular Diseases **442**
Arterial Thrombosis 442

Chapter 26: Neurocutaneous Syndromes **446**
Neurofibromatosis 446
Tuberous Sclerosis 450
Sturge-Weber Disease 453
von Hippel-Lindau Disease 455
Linear Nevus Syndrome 456

Chapter 27: Neurodegenerative Disorders **457**
Sphingolipidoses 458
Gangliosidoses 460
Krabbe Disease (Globoid Cell Leukodystrophy) 464
Metachromatic Leukodystrophy (MLD) 466
Neuronal Ceroid Lipofuscinoses 468
Adrenoleukodystrophy 470
Sialidosis 471
Friedreich Ataxia 472
Ataxia Telangiectasia 473
Olivopontocerebellar Atrophies (OPCA) 474
Abetalipoproteinemia 474
Huntington's Disease 475
Dystonia Musculorum Deformans 475
Wilson's Disease 475
Hallervorden-Spatz Disease 475
Multiple Sclerosis 475
Pelizaeus-Merzbacher Disease 476
Alexander Disease 477
Canavan's Disease 477
Menkes Disease 479
Rett Syndrome 480

Subacute Sclerosing Panencephalitis 481
Schindler Disease 482
Batten Disease (Lipofuscinosis) 482
Fucosidosis 484
Amyotrophic Lateral Sclerosis 485

Index *487*
