Contents

1. Approach to an Allergic Child **1**
Major K Nagaraju
Chief Complaints *2*
Triggers/Precipitating Factors *2*
Environment *2*
Drug History *3*
Physical Examination *5*

2. Sensitization: Epidemiology and Pathophysiology **12**
Mahesh PA, Amrutha D Holla
Epidemiology *12*
Epigenetic Modifications *17*
Pathophysiology *17*
Antigen-presenting Cells *18*
Cd4 Lymphocytes *19*
Airway Epithelium *19*
Toll-like Receptors *19*
T-regulatory Cells *20*

3. Diagnosis of Allergic Diseases **23**
Major K Nagaraju
Allergy Skin Testing *23*
History of Allergy Testing *24*

4. In Vitro Testing for Specific IgE **36**
Major K Nagaraju, N Satya Srivatsav
Characteristics of an Ideal IgE Test *36*
Methods *36*
Principle of Allergen-specific IgE Immunoassay *37*
Indications for IgE Testing *37*
Why In Vitro Testing is Needed? *37*
Classification of Specific IgE Antibody Immunoassays *37*
Types of Immunoassays *38*
Factors Influencing the Accuracy of In Vitro IgE Testing *38*
Techniques Commonly Available in India—which One to Choose? *38*
Points to Remember while Ordering and Interpreting the Results *38*
Merits of In Vitro-specific IgE Testing *40*
Limitations of In Vitro-specific IgE Testing *41*
When to Repeat In Vitro-specific IgE Tests? *41*
Component Resolved Diagnosis *42*

Multiplex System (Semiquantitative) *43*
Cell-based Technologies *43*

5. Atopic Dermatitis **45**
Major K Nagaraju
Epidemiology *45*
Disease Course *46*
Role of Aeroallergens *49*
Food Allergy and Atopic Dermatitis *49*
Microorganisms and Atopic Dermatitis *50*
Climate and Atopic Dermatitis *50*
Psychological Factors and Atopic Dermatitis *51*
Irritants and Atopic Dermatitis *51*
Mechanism of Pruritus *51*
Clinical Features *51*
Diagnosis *52*
UK Working Party's Diagnostic Criteria *53*
Scoring for Atopic Dermatitis *53*
Diagnosis of Atopic Dermatitis *54*
Variants of Atopic Dermatitis *54*
Investigations *54*
Treatment *55*
Complications *64*
Prognosis *65*
When to Refer to a Dermatologist or Allergist? *65*

6. Urticaria and Angioedema **69**
Major K Nagaraju
Classification *69*
Pathophysiology *70*
Etiopathogenesis *71*
Differential Diagnosis *73*
Diagnosis *73*
Approach to Urticaria *77*
Treatment *78*
Pharmacotherapy *79*
Complications *81*
Prognosis *82*

7. Contact Dermatitis **84**
Suresh Anne
Definition *84*
Prevalence *84*
Classification *85*
Diagnosis of Allergic Contact Dermatitis *92*

Treatment *95*
Prognosis *96*
Prevention *96*

8. Cow's Milk Allergy **98**
Major K Nagaraju
Epidemiology *99*
Mechanism of Cow's Milk Protein Allergy *100*
Clinical Features *101*
Immediate Cow's Milk Protein Allergy *101*
Diagnosis *105*
Allergen Elimination Test *107*
Treatment *109*
Prognosis *111*

9. Food Allergy **114**
Major K Nagaraju, N Satya Srivatsav
Prevalence *114*
Definitions *115*
Classification *116*
Pathophysiology *116*
Phenotypes of IgE-mediated Food Allergy *122*
Clinical Features *124*
Diagnosis *126*
Treatment of Food Allergy *134*
Prevention *137*
Recent Developments in Prevention of Food Allergy *138*
Problems of Food Allergies in India *139*
Prognosis *139*

10. Anaphylaxis **143**
Major K Nagaraju
Epidemiology *143*
Definitions *144*
Risk Factors *144*
Pathophysiology *145*
Etiology *146*
Clinical Features *148*
Symptoms and Signs *149*
Diagnosis *149*
Treatment *152*
Caution *155*
Prognosis *156*

11. Ocular Allergies **158**
Major K Nagaraju, Srinivas K Rao
Prevalence *158*
Definitions and Classification *158*
Pathophysiology *160*
Clinical Features *161*
Diagnosis *163*
Treatment *163*

12. Clinical Features and Diagnosis of Allergic Rhinitis **169**
Major K Nagaraju
Definition of Allergic Rhinitis *169*
Clinical Classification *169*
Clinical Features *170*
Diagnosis *171*
Investigations *175*
Allergic Rhinitis in Preschool Children *177*
Local Allergic Rhinitis *178*
Allergic Rhinitis and Asthma *179*
Allergic Rhinitis and Sinusitis *180*
Allergic Rhinitis and Otitis Media *181*
Allergic Rhinitis and Quality of Life *182*
Progression of Allergic Rhinitis *183*

13. Treatment of Allergic Rhinitis **185**
Major K Nagaraju, VV Kasyapi
Treatment *185*
Pharmacotherapy *187*
Oral Steroids *199*
Newer Drugs *199*
Monitoring *199*
Remission in Allergic Rhinitis *202*

14. H1 Antihistamines in Pediatric Practice **205**
Major K Nagaraju
Histamine *205*
Classification of Antihistamines *205*
Mechanism of Action *207*
Pharmacokinetics and Pharmacodynamics *207*
Side Effects *208*
Contraindications *211*
Drug Interactions *212*
Therapeutic Uses *212*
Antihistamines as Preventive Role for the Development of Allergic Disease *216*
Myths about Antihistamines *216*

15. Genetics of Allergy and Asthma **219**
Esra Birben, Cansin Sackesen, Omer Kalayci
Genetic Approaches for Studying Allergy and Asthma *219*
Epigenetics *226*
Future Directions *227*

16. Preschool Asthma **232**
D Vijayasekaran
Prevalence of Asthma *232*
Asthma Onset *232*
Phenotypes of Asthma in Clinical Practice *233*
Investigations in Asthma *235*
Modified Asthma Predictive Index *236*

17. Diagnosis of Asthma **238**
NC Gowrishankar
Measurement of Airflow Obstruction—Spirometry *239*
Peak Flow Monitoring *241*
Impulse Oscillometry *242*
Biomarkers *243*
Exhaled Breath Temperature *244*
Exhaled Breath Condensate *244*
Bronchial Provocation Tests *244*

18. Persistent Bronchial Asthma **247**
TU Sukumaran
Mechanism of Bronchial Obstruction in Bronchial Asthma *247*
Diagnosis *248*
Investigations *249*
Differential Diagnosis *252*
Pathophysiology of Asthma *253*
Cells in Asthma *256*
Classification of Persistent Bronchial Asthma *257*
Aims of Treatment *257*
Nonpharmacological Measures *260*
Patients and Parents Education on Bronchial Asthma *260*

19. Acute Asthma Exacerbations in Childhood **271**
George V Guibas, Nikolaos G Papadopoulos
Triggering Pediatric Asthma Exacerbations *271*
Preventing Pediatric Asthma Exacerbations *273*
Treating Pediatric Asthma Exacerbations *274*
Concluding Remarks *274*

20. Management of Acute Asthma **279**
Somu Sivabalan, Srinath MV
Pathophysiology *280*
Clinical Display and Judgment *281*
Pharmacotherapy *282*
Nonpharmacologic Management *287*
Summary of Acute Asthma Management *288*

21. Difficult to Treat Asthma **292**
H Paramesh
What is Difficult to Treat Asthma? *292*

22. Drug Allergy **296**
Major K Nagaraju
Epidemiology *296*
Classification *297*
Drug Allergy *297*
Approach *298*
Pathophysiology *299*
Factors Influencing Drug Allergies *299*
Clinical Features in Skin *300*
Clinical Spectrum Other than Skin Involvement *303*
Diagnosis of Drug Allergy *306*
Management *309*
Prognosis *311*
Prevention *311*

23. Allergens **313**
Major K Nagaraju
Terminology of Allergens *313*
Aeroallergens *313*
Indoor Allergens *315*
Outdoor Allergens *326*
Common Stinging Insects in India *330*

24. Clinical Importance of Standardization of Allergens **335**
Major K Nagaraju
Standardized Allergen Extracts *335*
Units of Nonstandardized and Standardized Extracts *337*
Guideline Recommendations *338*

25. Environment and Respiratory Allergies **341**
H Paramesh
Environmental Issues *342*
Air Pollution *342*

Climate Change and Air Pollution Interact on Respiratory Health *348*
Environment Control in Prevention Allergic Disease *348*

26. Allergen-specific Immunotherapy **351**
Major K Nagaraju
Mechanism of Immunotherapy *353*
Allergen Extracts to be Used in Immunotherapy *353*
Safety and Efficacy of Immunotherapy *353*
Adverse Reactions *356*
Schedule of Immunotherapy *360*
Age Appropriate to Begin Immunotherapy *361*
Allergens *361*
Cost-effectiveness of Allergen Immunotherapy *361*
Biomarkers *361*
Routes of Administration of Immunotherapy *362*
Future of Immunotherapy *364*
Passive Immunization Allergen-specific Immunotherapy *365*
Unmet Needs *365*

27. Approach to Primary Immunodeficiency Diseases **370**
Major K Nagaraju
Epidemiology *370*
Genetics of Primary Immunodeficiency Diseases *370*
Classification *370*
Diagnosis *371*
Treatment 378
Prenatal Diagnosis *380*

28. Vitamin D and Allergy **385**
Major K Nagaraju, N Karthik
History *385*
Vitamin D Metabolism *386*
Fallacies of Vitamin D Insufficiency *386*
Vitamin D and Fetal Lung *388*
Vitamin D and T Regulatory Cells *388*
Allergic Diseases *388*

29. Role of Probiotics in Allergic Diseases **397**
Major K Nagaraju
Choice of Probiotic *400*
Role of Probiotics in Different Allergic Diseases *401*
Probiotics in the Prevention of Allergic Diseases *405*
Safety of Probiotics *406*
Foods Rich in Probiotics *406*
Unmet Needs *406*

30. Rheumatology in Allergic Diseases **409**
Kavitha Mohanasundaram, Saranya Chinnadurai
T-cell Subsets *409*
Diseases with Th Dominance *410*
Urticarial Vasculitis *411*
Systemic Lupus Erythematosus *412*
Eosinophilic Granulomatosis with Polyangiitis (Churg–Strauss Syndrome) *413*
Investigations for Possible Rheumatological Illness *415*

31. Drugs Commonly Used in Allergy and Asthma **419**
Major K Nagaraju, N Karthik

32. Selected Laboratory Values in Allergy and Immunology **428**
N Karthik, Major K Nagaraju
Nitroblue Tetrazolium *428*
Test for Phagocytosis *428*

33. Devices in Allergy and Asthma **434**
Major K Nagaraju, N Karthik
Metered Dose Inhaler *434*
Nebulizers *439*
Dry Powder Inhalation Devices *442*
Intranasal Steroid Device *445*
Peak Expiratory Flow Meter *445*

Index *453*
