Contents

Section One: Basics

1. **The Fallopian Tubes: An Overview** 3
(Mrs) SN Tripathy
Anatomy and Physiology 5; Embryology and Congenital Anomalies 5; Diseases of the Tubes 6; Hysterosalpingography 6; The New Frontiers 11

2. **Surgical Anatomy of the Fallopian Tube** 15
Bhagyalaxmi Nayak
History 15; Gross Anatomy 15; Function in Fertilization 18

3. **Fimbria** 20
Bharathi Misra
Segments of Fallopian Tube 20; Anatomy of Fimbria 20; Histology 21; Electron Microscopy 21

4. **Molecular Biology of Endosalpinx** 24
Manoranjan Mahapatra, SN Tripathy
Structure of the Human Fallopian Tube Epithelium 24; Cross-section of a Cilia 25

5. **Effect of Ovarian Steroids on Fallopian Tube** 35
Sushma Pandey, Gaurav Pandey, Seema Pandey Chaudhary, Supriya Sharma
General Description 35; Structures 35; Role of Cilia in Tubal Transport 37

6. **Reproductive Significance of Fallopian Tube Cilia** 41
Saswati Sanyal Choudhury
Histology of Fallopian Tube 41; Structure of Cilia 41; Transport of Sperm 45; Hydrosalpinx and Cilia 46

Section Two: Obstetrics

7. **The Dialogue between Ovum and Sperm: Role of Fallopian Tubes** 53
Sulekha Pandey, Garima Gupta
Anatomy and Tubal Functions 53; Role of Chemotaxis and Thermotaxis in Human Reproduction 58

Section Three: Gynecology

INFERTILITY

8. Fallopian Tube Function Tests 65
(Mrs) SN Tripathy
Methylene Blue Test 65; Hysterosalpingo-contrast Sonography 66; Falloposcopy 67; Contraindications 68; Radionuclide Hysterosalpingography 73

9. Hysterosalpingogram 81
SN Tripathy
Advantages of Hysterosalpingogram 81; HSG and Laparotomy 86; MSCT-H and HSG 87

10. Ultrasonography in Tubal Pathology 91
Rajat Ray
Pathological States 91; Color Doppler Findings 92; Interventional Procedure 93; Ectopic Pregnancy 93; Benign Tumors 94; Malignant Tumors of Fallopian Tubes 94

11. The Laparoscopic Assessment of Fallopian Tubes 96
Sujata Kar
Laparoscopy to Assess the Fallopian Tubes 96; Salpingoscopy 99; Microlaparoscopy 101

INFECTIONS

12. Tuberculous Salpingitis 103
(Mrs) SN Tripathy, SN Tripathy
Pathogenesis and Pathophysiology 104; Signs and Symptoms 105; Investigations 106; Ultrasonography 109; Diagnosis 110

13. Pelvic Inflammatory Disease: Recent Advances 115
LK Pandey, Garima Gupta
Epidemiology 115; Microbiology of Pelvic Infection 115; Pathophysiology 116; Management 123

TUBAL ECTOPIC PREGNANCY

14. Risk Factors for Ectopic Pregnancy with Special Reference to Bilateral Tubal Pregnancy 129
Kusum Gopal Kapoor, Tripti Sinha
Tubal Factors 129

15. Conservative Management of Ectopic Pregnancy 136
Monika Anant, Joydev Mukherji
Early Diagnosis 136; Laboratory Assessment 137; Treatment 139; Drug Administration 141

16. Heterotopic Pregnancy 146
Ojaswini Patel, SN Tripathy

TUBAL MALIGNANCY

17. Malignancy and the Fallopian Tubes: An In-depth Study 149
SK Giri, Bhagyalaxmi Nayak
Epidemiology 149; Pathology 150

Section Four: Tubal Surgery

18. Evidence-based Management of Tubal Factors Infertility 157
Gangadhar Sahoo, Banya Das, Komal
Proximal Tubal Disease or Terotubal Disease 157; Diagnosis of Tubal Infertility 157; RCOG Recommendations for Tubal Assessment 158; Management 158

19. Tubal Catheterization: The Recent Scenario 166
Abha Rani Sinha, Anjana Sinha
Selection of Patients 166; History 166; Tubal Catheterization Procedures 167; Linear Everting Catheter 167; Sonographic Fallopian Tube Recanalization 169

20. Tubal Surgery in the Treatment of Infertility in the Era of Assisted Reproductive Technology 171
Arup Kumar Majhi
Etiopathogenesis of Tubal Injury and Selection of Therapy 171

21. Tubal Sterilization: The Past, Present and Future 177
Maya Padhi
History 177; The Present Scenario 178; Minilaparotomy 180; New Surgical Technique 190

Section Five: New Frontiers

22. Stem Cells and Fallopian Tubes 197
(Mrs) SN Tripathy
Treatment of Diseased Fallopian Tubes with Stem Cells 199

23. Robotic Surgery and the Tubes **202**
(Mrs) SN Tripathy
Robotic-assisted Tubal Reversal 203

24. Tubal Transplantation **206**
(Mrs) SN Tripathy
Advances in Immune Suppression 207
