Contents

1. Basics in General Surgery 1
Ulcer 1
Sinus 1
Fistula 2
Swellings in Skin 2
Infections in the Hand 4
Nutrition in Surgery 4
Types of Enteral Nutrition 5
Parenteral Nutrition 5
Indications of Total Parenteral Nutrition 5
Fluids and Electrolytes 6
Hypercalcemia and Hypocalcemia 7
Hypernatremia and Hyponatremia 7
Fluid Therapy: Two Types of Fluids
Crystalloids and Colloids 7
Choice of Fluid 8

2. Shock, Blood Transfusion and Organ Transplantation 11
Severity of Shock 12
Resuscitation 12
Hemorrhage 13
Transfusion 13
Blood Products 13
Complications of Blood Transfusion 14
Complications from Massive Transfusion 14
Points to be Emphasized 15
Better Indicator for Transfusion 15
Septic Shock 15
Organ Transplantation 16
Types of Allograft Rejection: Three Types 16
Graft Versus Host Disease (GVHD) 16
HLA Matching 17
Immunosuppression 17

3. Trauma 20
Advanced Trauma Life Support (ALTS) 20
Head Injury 21
NICE Guidelines for CT Scan in Head Injury 22
Primary Treatment for Head Injury 22
Types of Head Injury 22
Extradural Hematoma 22
Acute Subdural Hematoma 22
Chronic Subdural Hematoma 23
Subarachnoid Hemorrhage 23
Cerebral Contusions 23
Thoracic Trauma 24
Flail Chest 25
Emergency Thoracotomy 26
Abdominal Trauma 26
Investigations of Abdominal Injury 27
Spleen 27
Pancreas 27

4. Oral Cavity 32
Etiological Factors for Oral Cavity Carcinoma 32
Level of Nodes 33
Drainage of Each Tumor Site Specific 33
Pathology of Oral Cancers 34
Carcinoma Tongue 34
Carcinoma Hard Palate 35
TNM Staging of Oral Cancer 35
Types of Neck Dissection 35
Reconstructions 36
Mandibulectomy is of Two Types 36
Carcinoma Lip 36
Basic Points for Head and Neck Cancers 37
Syphilis in Oral Cavity 37
Cancrum Oris 37
Epulis 38
Ludwig's Angina 38
Cysts of Jaw 38
Impacted Tooth 39

5. Head and Neck (General) 40
Carotid Body Anatomy 40
Branchial Cyst 44
Cystic Hygroma 45

Cold Abscess in Neck 46
Triangles of Neck 46

6. Salivary Glands 48
Anatomy 48
Submandibular Gland 49
Salivary Gland Tumors 49
Classification of Salivary Gland Tumors 50
Benign Mixed Tumor (Pleomorphic Adenoma) 50
Warthin Tumor (Adenolymphoma) 51
Mucoepidermoid Carcinoma 51
Adenoid Cystic Carcinoma (Also Called Cylindroma) 51
Acinic Cell Tumor 51
Minor Salivary Gland Tumor 51
Investigations for Tumor 52
Parotid Surgeries 52
Frey's Syndrome 52

7. Thyroid Disorders 56
Embryology 56
Anatomy 57
Recurrent Laryngeal Nerve 58
Simple Goiter 59
Reason for Nodule Formation 59
Clinical Indicators of Malignancy in Nodular Swelling 60
Retrosternal Goiter 60
Types of Toxicosis 60
Primary Thyrotoxicosis 61
Secondary Thyrotoxicosis 61
Preparation of Thyroid Crisis 61
Thyroid Storm 62
Thyroiditis 62
Hashimoto's Thyroiditis 63
Reidel's Thyroiditis 63
De Quervain's (Subacute) Thyroiditis 63
Infective Thyroiditis 63
Thyroid Cancers 63
Papillary Carcinoma 64
Follicular Cancer 64
Hurthle Cell Carcinoma 65
Medullary Carcinoma 65
Anaplastic Carcinoma 66
B-Cell Non-Hodgkin's Lymphoma 66
Metastatic Cancer Thyroid 66
Important MCQ Points in Carcinoma Thyroid 66
Postsurgical Complications 66
Perioperative Complications 67
Hypoparathyroidism 67
Surgery for Intrathoracic Goiter 67

8. Parathyroids and Adrenal Glands 70
Parathyroids 70
Hyperparathyroidism 71
Primary Hyperparathyroidism 71
Secondary Hyperparathyroidism 72
Tertiary Hyperparathyroidism 73
Adrenal Glands 73
Pheochromocytoma 73
Malignant Pheochromocytoma 74
Cushing's Syndrome 75
Conn's Syndrome 76

9. Breast Disorders 78
Anatomy 78
Lymphatic Drainage 78
Benign Breast Diseases 80
Mondor's Disease 81
Duct Ectasia/Periductal Mastitis 81
Important Points 81
Carcinoma Breast 81
Types of Carcinoma Breast 82
Invasive Cancers 82
TNM Staging of Breast 84
Treatment Modality 85
Advantage Over Radical Type 85
Radical Mastectomy: Halstead's Radical Mastectomy 86
Chemotherapy 86
CMF Regimen 86
Hormone Therapy 86
Tamoxifen 87
Radiotherapy 87
Distant Metastasis 87
Phyllodes Tumor 88
Skin Involvement 88
Prognostic Factors of Carcinoma Breast 88
Breast Conservation Surgery 89

10. Diseases of Esophagus 92
Anatomy 92
Surgical Anatomy at a Glance 92
Lower Esophageal Sphincter (LES) Zone 93
Factors Causing 93

Investigations 93
Gastroesophageal Reflux Disease 93
Barrett Esophagus 94
Hiatus Hernia 94
Tracheoesophageal Fistula 95
Perforations in Esophagus 96
Motility Disorders 96
Classification 96
Dysphagia 96
Diffuse Esophageal Spasm (DES) 97
Achalasia Cardia 98
Odynophagia 98
Diverticulum Esophagus 98
Esophageal Varices 99
Cancer Esophagus 100
Malignant Tracheoesophageal Fistula 100
Plummer-Vinson Syndrome (Paterson-Brown-Kelly Syndrome) 101
Schatzki Rings 101

11. Stomach and Duodenum 103
Anatomy 103
Helicobacter Pylori Infection 105
Duodenal Ulcer 106
Causes of Recurrent Ulcer 108
Cancer Stomach 108
Histological Types 108
Gastric Lymphoma 111
Gastrointestinal Stromal Tumors (GIST) 111
Upper GI Bleeding 112
Epithelial Polyps 113
Congenital Hypertrophic Pyloric Stenosis 113
Borchardt's Triad 114
Bariatric Surgery 114

12. Intestinal System 118
Hirschsprung's Disease 118
Meckel Diverticulum 118
Diverticular Disease 119
Polyps 119
Colonic Cancer 119
Percentages 120
Management 120
Small Bowel Tumors 121
Small Bowel Carcinoids 121
Inflammatory Bowel Disease (IBD) 121
Local Complications of IBD 123
Treatment for IBD 123
Extraintestinal Manifests 123
Tuberculosis of Abdomen 124
Short Bowel Syndrome 125
Superior Mesenteric Artery (SMA) Syndrome 125
Enterocutaneous Fistula 125
Acute Appendicitis 126
Enterocutaneous Fistula 126
Mucoceles 127
Carcinoid Appendix 127
Intestinal Obstruction 128
Meconium Ileus 128
Congenital Atresias 129
Small Bowel Obstructions 129
Cause of Distension 129
Adhesion: Causes 129
Paralytic Ileus (Inorganic Cause) 130
Large Bowel Obstructions 130
Salient Points in Large Bowel Obstruction 130
Acute Mesenteric Ischemia 131
Ischemic Colitis 131
Pseudo-obstructions 131
Cancer Rectum 132
Anal Cancer 132
Fissure-In-Ano 134
Normal Fecal Continence Require 135
Anorectal Abscess 135
Pilonidal Sinus 135
Pruritus Ani 135
Imperforate Anus 136
Rectal Prolapse 136
Solitary Rectal Ulcer 137
Abdominal Compartment Syndrome 137

13. Hepatobiliary and Pancreatic System 144
Gallbladder and Biliary Tract 144
Moynihans Hump and Caterpillar Turn 144
Anomalies of Gallbladder 145
Cystic Duct Variations 145
Functions of GB 145
Investigation 145
Gallstones 146
Pigment Stones 146
Complications 147
Limey Bile 148
Treatment Options 148
Common Bile Duct Stones 148
Treatment Options 148

Missed/Retained/Residual Stones (< 2 Years) 149
Choledochal Cysts 149
Extrahepatic Biliary Atresia 149
Differential Diagnosis of Jaundice in Infants 150
Primary Sclerosing Cholangitis 150
Hemobilia 151
Carcinoma Gallbladder 151
Pancreas 154
Pancreatic Function Test 154
Pancreatitis 154
Chronic Pancreatitis 155
Surgeries 155
Pseudocyst Pancreas 156
Ranson's Criteria 156
Pancreatic Tumors 156
Endocrine Neoplasms 157

14. Liver 161
Functional Anatomy (Couinaud's Segments) 161
Acute Liver Failure Causes 162
Modified Child-Pugh Classification 163
Chronic Liver Disease 163
Investigations 163
Portal Hypertension and Cirrhosis 163
Transjugular Intrahepatic Portal Shunt (TIPS) 166
Prevention of Recurrent Bleed 166
Shunting Surgeries 166
Transplant Candidates 167
Pyogenic Abscess 168
Amebic Abscess 168
Differential Diagnosis of Amebic and Pyogenic Features 168
Hydatid Cyst 169
Benign Liver Tumor 169
Fibrolamellar Variant of HCC 171
Budd-Chiari Syndrome 171
Liver Transplant 172

15. Spleen 174
Anatomy 174
Splenic Function 174
Splenic Trauma 175
Splenectomy 176
Hematological Indications 176
Complications of Splenectomy 176
Overwhelming Postsplenectomy Infection 176
Hematologic Effect of Splenectomy 177
Splenic Tumors 177
Splenic-Gonadal Fusion 177
Splenic Artery Aneurysm 178
Splenic Infarction 178
Idiopathic Thrombocytopenic Purpura (ITP) 178

16. Urological Surgery 180
Kidney and Ureters 180
Methods of Stone Removal 181
Ureteroscopy 181
Percutaneous Nephrolithotomy (PCNL) 182
Renal Cell Carcinoma 183
MC Points 184
Renal Cell Carcinoma 184
Wilm's Tumor 185
Differentiating Feature Between Neuroblastoma and Wilm's Tumor 185
Angiomyolipoma of Kidney 185
Genitourinary Tuberculosis 186
Renal Trauma 186
Polycystic Kidney Disease 187
Ectopic Ureter 187
Congenital Pelviureteric Junction Obstruction (PUJ Obstruction) 188
Medullary Sponge Kidney 188
Renal Transplantation 188
Renal Casts 189
Xanthogranulomatous Pyelonephritis 189
Nephrectomy Approaches 190
Ureterocele 190
Carcinoma Bladder 190
Management of Bladder Cancer 191
Bladder Calculi 192
Rupture of Bladder 192
Tuberculosis of Bladder 193
Anatomical Division of Prostate 193
Complications of TURP 194
Absolute Indications for Surgical Treatment of BPH 194
Solutions in TURP 194
Medical Treatment of BPH 194
Cancer Prostate 195
Tumor Markers in Carcinoma Prostate 195

Clinical Features 196
Management Plan 196
Seminal Vesicles 197
Hypospadias 197
Paraphimosis 199
Injury to Urethra 199
Compare the Two Types of Urethral Injuries 200
Peyronie's Disease 202
Testicular Tumors 202
Germ Cell Tumor Staging and Treatment 203
More About Testicular Malignancy 203
Worth Mentioning about Cryptorchidism 203
Tumor Markers 203
Varicocele Testis 205
Undescended Testis 205
Congenital Hydrocele 206
Tuberculosis of Testis 207
Infections of Testis 207
Tuberculosis of Kidney and Bladder 207
Vesicoureteral Reflux (VUR) 207

17. Hernia, Umbilicus, Abdominal Wall and Peritoneum 213
Anatomy of Inguinal Canal (House of Bassini) 213
Types of Hernia 214
Hesselbach Triangle 214
Surgeries for Femoral Hernia 215
Sliding Hernia 215
Surgeries for Hernia 217
Desmoid Tumor 217
Rectus Sheath Hematoma 217
Divarication of Recti 218
Retroperitoneal Fibrosis 218
Peritonitis 218
Subphrenic Abscess 219
Mesentric Cysts 219

18. Elective Neurosurgery 222
Raised Intracranial Pressure 222
Intracranial Tumors 224
Gliomas 225
Cerebral Metastasis 225
Meningioma 225
Pediatric Brain Tumors 226

19. Cardiothoracic Surgery 227
Mediastinum 227
Bronchogenic Cyst 227
Lung Sequestration 228
Pancoast Tumor 228
Lungs and Pleura 228
Empyema of Lungs 228
Foreign Body in Lung 229
Bronchogenic Cancer 229
Selection of Conduit 232
Myxoma 232

20. Burns and Cosmetic Surgery 234
Burns 234
Major Determinants of the Outcome of a Burn 235
Superficial Burns Have Capillary Filling 236
Degrees of Burns 236
Management of Burns 236
Topical Treatment 237
Cosmetic Surgery 238
Facts about Skin Grafts 238
Cannot We Graft Every Wound? Why do We Need Flaps? 238
Types of Flaps 238
Axial and Random Flaps 238
Local Flap 239
Terms in Plastic Surgery 239
Cleft Lip/Palate 239

21. Vascular Surgery 244
Venous System 244
Tests for Varicose Veins 244
Short Saphenous Incompetency 245
Perforator Incompetence 245
Deep Vein Thrombosis 245
Few Line about Duplex Scan 247
Points from Bailey and Love 247
Arterial System 247
Popliteal Artery Aneurysm 248
Mycotic Aneurysm 248
Amputations 248
Gangrene 249
Arterial Stenosis and Occlusion 249
Subclavian Aneurysm 249
Ainhum 249
Seldinger's Technique 249
Buerger's Disease/Thromboangitis

Obliterans 250
Lumbar Sympathectomy 250
Raynaud Disease 250
Arteriovenous Fistula 251
Lymphatic System 251
Limb Reduction Procedures 252
Points for Memory 252

22. Oncosurgery 255
Epidemiology of Common Cancer 255
Tuberous Sclerosis 255
Neurofibromatosis 1
(Von Recklinghausen's Disease) 256
Neurofibromatosis 2 256
Skin Cancers 256
Basal Cell Carcinoma 256
Squamous Cell Carcinoma 257
Treatment of Skin Cancers 258
Malignant Melanoma 258
Prognostic Factors 259
Satellite Nodules Treatment 259
Soft Tissue Sarcomas 259
Spontaneous Regression 260
Radiation Induced Cancers 260
Sentinel Node Biopsy 260

23. Pediatric Surgery 261
Omphalocele 261
Gastroschisis 261
Exstrophy of Bladder (Ectopia Vesicae) 262
Congenital Diaphragmatic Hernia 262
Points from CDH 262

Index *265*
