Contents

Section 1 ◆ General Considerations

1. Examination of the Hand 3

Seating the Patient 3; Communicating with the Patient 3; Eliciting the History 4; Examination of the Patient 4

Section 2 ◆ Skin Reconstruction

2. Assessment of Skin Loss on the Hand 9

Assessment of the Raw Area 9; Assessment of the Patient 11

3. Littler's Island Flap 12

Advantages 12; Disadvantages 12; Presurgical Counseling 12; Surgical Steps 13; Postoperative Protocol 16

4. First Dorsal Metacarpal Artery Flap 18

Advantages of the Flap 18; Disadvantages of the Flap 18; Presurgical Counseling 18; Surgical Steps 19; Postoperative Protocol 22

5. Reverse Dorsal Metacarpal Artery Flap 23

Advantages of the Flap 23; Disadvantages of the Flap 23; Presurgical Counseling 23; Surgical Steps 24; Postoperative Protocol 26

6. Posterior Interosseous Artery Flap 27

Indications 27; Advantages 27; Disadvantages 27; Presurgical Counseling 27; Surgical Steps 28; Postoperative Protocol 31

7. Radial Artery Forearm Flap 32

Advantages 32; Disadvantages 32; Presurgical Counseling 32; Surgical Steps 32; Postoperative Protocol 35

8. Buried Abdominal Flap 36

Presurgical Counseling 36; Surgical Steps 36; Postoperative Protocol after Flap Stage I 38; Postoperative Protocol after flap stage II 40

9. Vascularized Free Anterolateral Thigh Flap **41**
Presurgical Counseling 41; Surgical Steps 41

Section 3 ◆ Other Post-traumatic Sequelae on the Skin

10. Adherent Scars and Contractures **49**
Examination of the Scar 49; Management Protocol 50

Section 4 ◆ Tendon Reconstruction

11. Tendon Reconstruction—Assessment **53**
Clinical Examination 56

12. Repair of Avulsed Flexor Tendon **57**
Presurgical Counseling 57; Surgical Steps 58; Postoperative Protocol 60

13. Flexor Tendon Grafting **61**
Presurgical Counseling 61; Surgical Steps 61; Postoperative Protocol 66

14. Staged Flexor Tendon Reconstruction **67**
Presurgical Counseling 67; Surgical Steps 68

15. Flexor Tenolysis **74**
Presurgical Counseling 74; Surgical Steps 74; Postoperative Protocol 76

16. Extensor Tendon Reconstruction **77**
Presurgical Counseling 77; Surgical Steps 77; Postoperative Protocol 79

17. Extensor Indicis Proprius to Extensor Pollicis Longus Tendon Transfer **80**
Presurgical Counseling 80; Surgical Steps 80; Postoperative Protocol 82

18. Flexor Digitorum Superficialis to Flexor Pollicis Longus Tendon Transfer **83**
Presurgical Counseling 83; Surgical Steps 83; Postoperative Protocol 85

Section 5 ◆ Bone Reconstruction

19. Bone Reconstruction—Assessment **89**
History 89; Deformity 89; Sinus 90; Abnormal Mobility 90

20. Open Reduction Internal Fixation of Fractures **91**
Presurgical Counseling 91; Surgical Steps 91; Postoperative Protocol 93

21. Bone Grafting **94**
Presurgical Counseling 94; Surgical Steps 94; Postoperative Protocol 95

22. Vascularized Fibula Transfer **97**
Presurgical Counseling 97; Surgical Steps 97; Vascular Anastomosis 100; Postoperative Protocol 100

Section 6 ◆ Joint Reconstruction

23. Joint Reconstruction—Assessment **103**
Clinical Examination 103; Planning the Management 104

24. Chronic Metacarpophalangeal Joint Dislocation Reduction **105**
Presurgical Counseling 105; Surgical Steps 105; Postoperative Protocol 107

25. Arthrolysis **108**
Arthrolysis of the Proximal Interphalangeal Joint of the Finger 108; Arthrolysis of the Metacarpophalangeal Joint of the Finger 110

26. Vascularized Toe Metatarsophalangeal Joint Transfer **113**
Presurgical Counseling 113; Preparation 113; Surgical Steps 114; Recipient Site Dissection 115; Fixation of the Toe Metatarsophalangeal Joint Flap 116; Postoperative Protocol 116

Section 7 ◆ Nerve Reconstruction

27. Nerve Reconstruction—Assessment **119**

28. Nerve Reconstruction—Management **120**
Approaches and Exploration 120; Nerve Repair 120; Nerve Grafting 122; Postoperative Protocol 122

Section 8 ◆ Complex Post-traumatic Problems

29. Complex Post-traumatic Problems—Assessment **127**
Priority of Management 127; Priority Lists 128

Section 9 ◆ Thumb Reconstruction

30. Principles and Decision Making in Thumb Reconstruction **133**
Principles 133; Decision Making 134

31. Procedures for Reconstruction of Type I Amputations **138**
Transverse and Volar Oblique Amputations 138; Dorsal Oblique Amputations 139; Oblique Amputation Type "A" 141; Oblique Amputation Type "B" 142

32. Procedures for Reconstruction of Type II Amputations **144**
Staged Island Flap of Professor R Venkataswami 144

33. Procedures for Reconstruction of Type III Amputations **148**
Osteoplastic Reconstruction 148; Vascularized Wrap-Around Great Toe Transfer 151

34. Procedures for Reconstruction of Type IV Amputations **155**
Vascularized Second Toe Transfer 155

35. Procedures for Reconstruction of Type V Amputations **159**
Pollicization 159

Section 10 ◆ Tumors

36. Ganglion Excision **163**
Salient Features of the Condition 163; Surgical Steps 163; Postoperative Protocol 164

Section 11 ◆ Degenerative Conditions

37. Dupuytren's Contracture—Assessment **167**
History 167; Symptoms 167; Clinical Examination 167; Staging 168; Planning The Management 168

38. Dupuytren's Contracture—Management **169**
Fasciectomy 169

Section 12 ◆ Infection

39. Hansen's Disease and Sequelae **173**
History 173; Clinical Examination 173

40. Opponensplasty with Flexor Digitorum Superficialis of Ring Finger **178**
Presurgical Counseling 178; Surgical Steps 178; Postoperative Protocol 180

41. Opponensplasty with Abductor Digiti Minimi Muscle (Huber's Transfer) **181**
Presurgical Counseling 181; Surgical Steps 181; Postoperative Protocol 183

42. Claw Correction—Lasso Procedure **184**
Presurgical Counseling 184; Surgical Steps 184; Postoperative Protocol 186

43. Claw Correction—Extensor to Flexor 4-Tailed Tendon Transfer (EF4T) Procedure **187**
Presurgical Counseling 187; Surgical Steps 187; Postoperative Protocol 190

44. Claw Correction—Fowler Procedure **191**
Presurgical Counseling 191; Surgical Steps 191; Postoperative Protocol 193

45. Tendon Transfer for Radial Nerve Palsy **194**
Presurgical Counseling 194; Surgical Steps 194; Postoperative Protocol 197

Section 13 ◆ Congenital Disorders

46. Congenital Disorders—Assessment **201**
Assessment Criteria—General 201; Assessment Criteria—Specific 201

47. Syndactyly **202**
Assessment (Syndactyly) 202; Management Schedule 202; Surgery (Syndactyly) 203

48. Cleft Hand **206**
Assessment (Cleft Hand) 206; Simple Closure of the Cleft—Method of Barsky 206; Release of Adduction Contracture of Thumb and Closure of the Cleft (Method of Littler) 209; Postoperative Protocol 212

49. Trigger Thumb Release **213**
Surgical Steps 213; Postoperative Protocol 214

50. Macrodactyly **215**
Assessment (Macrodactyly) 215

51. Hypoplastic Thumb—Pollicization **219**
Assessment (Hypoplastic Thumb) 219; Pollicization 219

Section 14 ◆ Common Clinical Conditions

52. Contractures on the Upper Limb—Assessment **227**
Examination of the Contracture 227; Contracture of the Finger 227; General Examination 228; Factors Affecting the Surgical Management 228; Protocols for Resurfacing after Contracture Release on the Upper Limb 230

53. Contractures on the Upper Limb—Management **231**
Release of Contracture 231: z-plasty 232; Square Flap Method 234; Five Flap Method of Thumb Web Release 236

Section 15 ◆ Adult Brachial Plexus Injuries

54. Adult Brachial Plexus Injuries—Assessment **241**
Clinical Examination 241; Motor Examination 241; Sensory Examination 241; Investigations 241; Documentation 241; Decision Making: What is to be Done? 244; Decision Making: When is it to be Done? 245; Management Protocol After Clinical Examination 246

55. Adult Brachial Plexus Injuries—Exploration **247**
Presurgical Counseling 247; Position of the Patient 247; Preparation 248; Markings 248; Tumescent Infiltration 248; Surgical Steps 248; Decision Making 250; Management Protocol after Exploration 252

56. Adult Brachial Plexus Injuries—Nerve Surgery **253**
Spinal Accessory Nerve Transfer 253; Intercostal Nerve Transfer 254; Oberlin Transfer 254; Contralateral C7 Transfer 256

57. Adult Brachial Plexus Injuries—Muscle Transfers **259**
Pedicled Latissimus Muscle Transfer for Elbow Flexion 259

58. Obstetric Brachial Plexus Palsy—Assessment **262**
Muscle Power Grading 262

59. Obstetric Brachial Plexus Palsy—Management **264**
Mod Quad Procedure 264

60. Volkmann's Ischemic Contracture—Assessment **267**
Planning the Sequence of Surgical Procedures 267

61. Volkmann's Ischemic Contracture—Management **270**
Exploration 270; Tendon Lengthening 272; Muscle Slide Operation 273; Tendon Transfer—FDS to FDP 274; Tendon Transfer— Brachioradialis to FPL and ECRL to FDP 275

62. Vascularized Gracilis Muscle Transfer **278**
Advantages 278; Disadvantage 278; Surgical Steps 278

Section 16 ◆ Difficult Hand Problems

63. The Mutilated Hand 285
Terminal Mutilation 285; Sequence of Surgery 287

64. Vascularized Double Toe Transfer 288
Indications 288; Preparation 288; Surgical Steps 278; Recipient Site Dissection 290; Fixation of the Double Toe Flap 291

Section 17 ◆ Appendices

Appendix I: Preparation for Hand Surgery 295
Preparation and Draping of the Hand 296

Appendix II: Preparation for a Free Flap 297
Preparation Before the Patient is brought to the Operation Theater 297; Preparation While Anesthesia is being Delivered 297; Preparation after the Anesthesia has been Delivered 297

Appendix III: Preparing Instrument Sets for Use in Hand Surgery 299
Preparing Instrument Sets 299; Microsurgery Instruments Tray 300

Appendix IV: Harvesting a Sural Nerve Graft 301

Appendix V: Harvesting a Skin Graft 302

Appendix VI: Harvesting an Ulnar Bone Graft 304

Appendix VII: Harvesting a Palmaris Longus Tendor Graft 305

Appendix VIII: Harvesting a Fascia Lata Graft 306

Section 18 ◆ Proformas

I: Microsurgery Recording Chart 309

II: Brachial Plexus Injury Evaluation 310

III: Contracture of Upper Limb 312
Proforma for Assessment of Contracture on Upper Limb

IV: Dupuytren's Contracture Evaluation **314**

V: Volkmann's Ischemic Contracture Evaluation **315**

VI: Bone Problem Evaluation **316**

VII: Joint Problem Evaluation **318**

VIII: Tendon Injury Evaluation **320**

Index *321*
