Contents

Section 1: Basic Surgical Principles and Perioperative Management

1. Clinical Approach to Oral and Maxillofacial Surgical Patients **3**

- Case History 4
- Chief Complaint 4
- History of the Present Illness 4
- Medical History 4
- Social History 5
- Family History 5
- Review of Systems 6
- Examination of the Patient—General Procedure 6
- Vital Signs 6
- Craniofacial Region Examination 7
- Facial Structures 8
- Lips 8
- Cheeks 8
- Maxillary and Mandibular Mucobuccal Folds 8
- Hard Palate and Soft Palate 8
- Tongue 8
- Floor of the Mouth 8
- Gingivae 9
- Teeth and Periodontium 9
- Tonsils and Oropharynx 9
- Salivary Glands 9
- Neck and Lymph Nodes 10

2. Preoperative Care and Evaluation **12**

- Preoperative Evaluation 12
- Systemic assessment 14

3. Principles of Postoperative Care **22**

- Postoperative Care 22

4. Postoperative Complications and Management **27**

- Pulmonary Complications 31
- Ophthalmological Complications 35

5. Medically Compromised Patient Preparation for Maxillofacial Surgery **36**

- Cardiovascular System 36
- Diabetes mellitus 38

- Hemophilia, Anticoagulation 39
- Thyroid Disorders 40
- Adrenal Diseases 41
- Renal Disease 41
- Hepatic Disease 41
- Respiratory Disease 42
- Immunocompromised Patient 42

Section 2: Examination of Maxillofacial Trauma Patient

6. Initial Assessment and Emergency Care of Maxillofacial Trauma Patient 45

- Initial Assessment 45
- Preparation 45
- Triage 46
- Trauma Scoring Systems 47
- Primary Survey 49

7. Neurological Consequences Associated with Maxillofacial Injury 55

- Pathophysiology 55
- Classification of Head Injuries 55
- Primary Assessment 57
- Secondary Assessment 57
- Neurological Examination 59
- Cranial Nerves Examination 59
- Examination of Motor System 60
- Examination of Sensory System 60
- Imaging 61
- Unconscious Patient 61
- Critical Care in Head Injury 61
- Contribution of Neurosurgeon in Trauma Team 61

8. Maxillofacial Trauma: First 24 Hours in Intensive Care Unit 62

- Intensive Care Unit 62
- Prioritization 62
- Case Presentation 68

9. Basic Principles for the Management of Maxillofacial Trauma 75

- Approach to a suspected fracture 75
- Reduction 78
- Fixation 79
- Titanium Miniplates 80
- Newer Development in Osteosynthesis 82
- Locking Plates 83

10. Dentoalveolar Fractures 85
- Etiology 85

11. Mid-facial Fractures 88
- Surgical Anatomy 88
- Classification 88
- Maxillary Fracture Management 91
- Zygomaticomaxillary Complex Fractures 95
- Treatment Indications for Surgery 98
- Timing of Surgery 98
- Surgical Approaches 98
- Open Reduction Techniques 99
- Fixation V/S Nonfixation 99
- Direct Fixation Techniques 99
- Indirect Fixation 99
- NasoEthmoidal Orbital fracture 99
- Nasal Fractures 102
- Orbital Blowout Fractures 103
- Clinical Cases 109
- Zygomatic Arch Fracture Right Side 113

12. Mandibular Fractures 114
- Anatomical Considerations 114
- Classification 114
- Clinical Assessment and Diagnosis 116

13. Condylar Fractures 121
- Etiology of Condylar Injuries 121
- Classifications 121
- Diagnosis of Condylar Injuries 122
- Clinical Features 122
- Radiography 123
- Management Goals 123
- Conservative and Functional Management 123
- Closed Reduction 124
- Open Reduction 124
- Complications 128
- Conclusion 128
- Some more cases 128

14. Cerebrospinal Fluid Rhinorrhea 130
- Classification of CSF Rhinorrhea 130
- Differential Diagnosis 131
- Management 133

15. Maxillofacial Trauma: Case Presentation **135**
- Case number 1 135
- Case Number 2 136
- Case Number 3 139
- Case Number 4 141
- Case Number 5 142
- Case Number 6 144
- Case Number 7 144
- Case Number 8 144
- Case Number 9 145
- Case Number 10 145

Section 3: Carcinomas of Oral Cavity

16. Examination of an Ulcer **149**
- Parts of an Ulcer 149
- Classification 150
- History 151
- Differential Diagnosis 151
- Causes of Oral Ulcers 152
- Biopsy 153
- Intraosseous or Hard Tissue Biopsy Technique and Surgical Principles 157

17. Cancer Biology **158**
- Modes of Tumor Spread 158
- Process of Bone Metastasis 160
- Biology of Invasion and Metastasis 161

18. Surgical Treatment Plan for Oral and Maxillofacial Cancers **166**
- Epidemiology 166
- TNM Definitions 166
- Management 167
- Maxillary Approach 168

19. Management of Neck in Oral and Maxillofacial Carcinoma **179**
- History 179
- Anatomical Divisions 179
- Various Incisions for Neck Dissection 182
- Sentinel Node Biopsy 184
- Classification of Neck Dissections 184
- Comprehensive Neck Dissection 184
- Selective Neck Dissection (SND) 189

20. Role of Chemotherapy and Radiotherapy in Oral and Maxillofacial Carcinoma **191**

- Biological Response Modifiers 194
- General Principles in the Treatment of Cancers 194
- Components of Chemotherapy 194
- Case Study 197
- Panoramic Radiograph 198
- Etiology 200
- Pathogenesis 200
- Classification 200
- Revised European-American Lymphoma [REAL] 201
- Recommended Procedure for Staging 202
- Spread of Oral Lymphoma 202
- Treatment Options 202
- Chemotherapy 202
- Roles of Radiotherapy 202

21. Reconstructive Options in Oral and Maxillofacial Cancer **216**

- A Multidisciplinary Approach 217
- Goals of Reconstruction 217
- Timing of Reconstruction 217
- Current Approach 217
- Primary Closure 218
- Skin Grafts 218
- Flaps 218

22. Clinical Cases of Cancers in Oral Cavity **237**

- Case Number 1 237
- Case Number 2 238
- Case Number 3 240
- Case Number 4 242
- Clinical Case 5 243
- Case Number 6 246
- Case Number 7 249
- Some More Clinical Cases 252

Section 4: Cysts and Tumors of Odontogenic Origin

23. Odontogenic Cysts **257**

- Classification 257

24. Keratocystic Odontogenic Tumors **275**

- Pathophysiology 275
- Clinical Presentation 275

- Signs and Symptoms 276
- Radiological Features 276
- Histological Features 276
- Treatment 277
- Conclusion 278
- Case Presentation 278
- Discussion 281
- Some More Cases 282

25. Odontogenic Tumors **285**

- Classification 286
- Ameloblastoma 287
- Unicystic Ameloblastoma 290
- Ameloblastic Fibrosarcoma 297
- Odontogenic Myxoma 301
- Case Presentations 301
- Cases of Odontogenic Myxoma 308

26. Clinical Cases of Odontogenic Cysts and Tumors **310**

- Case Number 1 310
- Case Number 2 312
- Case Number 3 313
- Case Number 4 315
- Case Number 5 316

Section 5: Maxillofacial and Cervical Swellings

27. Maxillofacial and Cervical Swellings: Differential Diagnosis **323**

- Embryology of Neck 323
- Clinical Examination of Neck Swellings 325
- Superficial Swellings 326
- Investigations for Head and Neck Masses 326
- Unknown Neck Mass 328
- Branchial Cyst 328
- Case Presentation 330

28. Salivary Gland Disorders **335**

- Parotid Gland 335
- Clinical Case of Parotid Swellings 337
- Clinical Case Presentation 339
- Head and Neck Examination 340
- Sublingual Glands 341
- Minor Salivary Glands 341
- Saliva 341

- Clinical Examination and Classification of Salivary Gland Diseases 342
- Classification of Salivary Gland Disorders by Who 349
- Clinical Case Presentation 362
- Some More Cases 364
- Cases 1 365

29. Fibro-osseous Lesions of Jaws 370

- Classification 370
- Fibrous Dysplasia 370
- Osseous Dysplasias (OD) 374
- Ossifying Fibroma 376
- Juvenile Ossifying Fibroma 378
- Case Number 1 380
- Case Number 2 383

30. Vascular Anomalies 385

- Hemangiomas of the Maxillofacial Region 385
- Hemangioma 386
- Role of β-Blockers in Management of Hemangiomas 389
- Vascular Malformations 391
- Venous Malformations 394
- Arterial and Arteriovenous Malformations 396
- Case Number 1 397
- Case Number 2 402
- Some more cases 404

Section 6: Examination of Temporomandibular Joint Disorders

31. Temporomandibular Joint Ankylosis 409

- Classification 409

32. Temporomandibular Joint Dislocation, Subluxation, and Hypermobility 422

- Etiology 422
- Diagnosis 423
- Treatment 424
- Surgery for Subluxation and Dislocation 426

33. Internal Derangements of Temporomandibular Joint and Myofascial Pain Dysfunction Syndrome 429

- Derangements of the Condyle-Disk Complex 429
- Structural Incompatibility of the Articular Surfaces 435
- Inflammatory Disorders of the TMJ 437
- Myofascial Pain Dysfunction Syndrome 438

34. Clinical Cases of Temporomandibular Joint Pathology **441**
- Case Number 1 441
- Case Number 2 443
- Case Number 3 444
- Osteochondroma of the Coronoid Process 448

Section 7: Maxillofacial Infections

35. Fascial Spaces and Odontogenic Infections **451**
- Infections of the Orofacial Region 452
- Types of Infection 454
- Fascial Space Infections 457
- Case of a Submandibular Space Infection 469
- Case Reports 471

36. Osteomyelitis and Osteonecrosis **474**
- Classification 474
- Etiology 476
- Clinical Features 478
- Investigations Prior to Management 482
- Goals of Management 482
- Osteonecrosis and Hyperbaric Oxygen Therapy 486
- Definition 486
- Etiology 486
- Incidence 486
- Pathogenesis 486
- Histologic Features 487
- Clinical Classification of ORN 487
- Classification of ORN 487
- Differential Diagnosis 488
- Case Presentation 1 488
- Hyperbaric Oxygen Therapy 491
- Case Presentation 2 493
- Case Presentation 3 495
- Case 4 497

Section 8: Examination of Jaw Deformities

37. Diagnosis and Evaluation of Jaw Deformity **501**
- Dentofacial Deformity 501
- Esthetic Surgical Procedures 507
- Case Number 1 508
- Case Number 2 512

38. Principles and Protocols of Bimaxillary Surgery **515**
- Case Series 515
- Cephalometric Tracing and Osteotomy Lines 517
- Planning 520

39. Maxillary Orthognathic Procedures **522**
- Anterior Maxillary Osteotomy 522
- LeFort I Osteotomy 526
- Case Series 528

40. Mandibular Orthognathic Procedures **535**
- Classification of Osteotomies of the Mandible 535
- Technique 537
- Cases 541

Section 9: Miscellaneous

41. Imaging in Maxillofacial Pathology **553**
- Diagnostic Importance 553
- Imaging Modalities 553

42. Management of Soft Tissue Facial Wound **566**
- Healing 566
- Case Series 573

43. Surgical Anatomy of Incisions in Maxillofacial Surgery **576**
- General Guidelines for Incision Placement 576
- Incisions for Mandibular Area 577
- Incisions Around the Temporomandibular Joint 582
- Incisions for the Zygoma 584
- Incisions Around the Orbit 586
- Incisions Around the Nasal Complex 587
- Summary and Conclusion 589

44. Fluid, Electrolyte, and Acid–Base Balance **590**
- Sodium 592
- Potassium 593
- Magnesium 594
- Calcium 595

45. Surgical Nutrition **600**
- Nutrition and Maxillofacial Cancer 603
- Feeding Methods Enteral Nutrition 604
- Postoperative Nutrition Requirements 608

46. Power-driven Instruments Useful in Maxillofacial Surgery 610

- Electrosurgery 610
- Basics of Lasers and its Effects on Tissues 615
- Laser Types 618
- Laser–Tissue Interaction 620
- Laser Hazards and Laser Safety 621
- Harmonic Scalpel 622

47. Instruments and Postexposure Prophylaxis 623

- Instruments to Transfer Sterile Instruments 624
- Instruments for Preparing Surgical Field 624
- Instruments to Hold Towels and Drapes in Position 625
- Instruments to Incise Tissue 625
- Instruments for Elevating Mucoperiosteum 627
- Instruments for Controlling Hemorrhage 628
- Procedure Specific Instruments of Oral and Oral and Maxillofacial Surgery 641
- Diagnostic Instruments 641
- For Opening the Mouth/Keeping the Mouth open 642
- Soft Tissue Retractors 642
- Instruments for Exodontia 644
- Instruments for Trauma and Orthognathic Surgery 651
- Instruments for Cleft Surgery 658
- Use of Drains in Oral and Maxillofacial Surgery 660
- Types of Drains 662
- Postexposure Prophylaxis (PEP) Following Needle Stick Injury 667
