Contents

Section 1 General Microbiology

Chapter 1: Microbiology and Nurses 3
- Infection Control Team *3*
- Role of Nurses in Prevention of Hospital Acquired Infection *3*

Chapter 2: History and Scope 5
- Microbiology *7*
- Biological Weapons *9*

Chapter 3: Morphology of Bacteria 10
- Slime Layer *11*
- Capsule *12*
- Cell Wall *12*
- Cytoplasmic Membrane *15*
- Cytoplasm *15*
- Nucleus *16*
- Flagella *17*
- Fimbriae *18*
- Spores *18*
- Unstained Preparations *21*
- Staining of Bacteria *21*
- Biofilm *24*

Chapter 4: Nutritional Requirements of Bacteria 25
- Growth Requirements *25*
- Growth Curve *27*
- Bacterial Reproduction *28*
- Generation Time *28*

Chapter 5: Media for Bacterial Growth 29
- Fluid Media *29*
- Solid Media *30*
- Methods of Isolating Pure Culture *32*
- Methods of Anaerobic Culture *34*

Chapter 6: Classification and Identification of Bacteria 36
- Biological Classification *36*
- Morphological Classification *36*
- Identification of Bacteria *37*

Chapter 7: Sterilization and Disinfection 41
- Application of Disinfectants *41*
- Autoclave *43*
- Spaulding Principles of Disinfection *48*

Chapter 8: Infection 49
- Classification of Infection *49*

Chapter 9: Chemotherapeutic Agents 52
- Antibiotic Stewardship *54*

Section 2 Bacterial Genetics

Chapter 10: Bacterial Genetics 57
- Structure of DNA *57*
- Plasmid *58*
- Transmission of Genetic Material *58*

Section 3 Immunology

Chapter 11: Immunity 63
- Historical Events in Immunology *63*
- Application of Immunology *64*
- Immunity *64*
- Innate Immunity *64*
- Acquired Immunity *67*
- Vaccination *69*
- Newer Vaccines *71*
- Application of Vaccine *71*

Chapter 12: Antigen 72
- Properties of Antigen *72*
- Superantigen *74*

Chapter 13: Antibodies—Immunoglobulins 75
- Immunoglobulins *75*

Chapter 14: Antigen and Antibody Reactions 80
- Precipitation *80*
- Lattice Hypothesis *80*
- Agglutination Reactions *82*
- Technique of Agglutination Test *82*

Chapter 15: The Complement System 86

Chapter 16: Hypersensitivity 90
- History *90*
- Hypersensitivity *90*
- Type I Reactions *92*
- Type II Reactions *95*
- Type III Reactions *96*
- Delayed Hypersensitivity (Type IV Reaction) *96*
- Classical Type *97*
- Granulomatous Reactions *97*
- Schwartzman Reaction *97*

Chapter 17: Immunohematology 99

Chapter 18: Miscellaneous 102
- Immune Deficiency Syndrome *102*
- Acquired Immune Deficiency Syndrome *103*
- Autoimmune Diseases *103*
- Immunology of Transplantation *104*
- Immunological Surveillance *105*
- Immunological Tolerance *106*
- Limulus Amebocyte Lysate Test *107*
- Radioimmunoassay Method *107*
- Enzyme-linked Immunosorbent Assay *107*
- Monoclonal Antibodies *108*
- Nobel Prize in Medicine in 1987 *110*

Section 4 Systemic Bacteriology

Chapter 19: Staphylococcus 113
- Micrococcaceae *113*
- Staphylococcus Aureus (Staphylococcus Pyogenes) *113*
- Biotypes *116*
- Toxins *117*
- Methicillin-resistant Staphylococcus Aureus *119*
- Prevention of MRSA *120*
- Staphylococcus Saprophyticus *120*
- Staphylococcus Albus *120*
- Staphylococcus Citrus *120*
- Micrococcus Tetragen (Gaffkya Tetragena) *121*
- Sarcina *121*

Chapter 20: Streptococcus 122
- Group A *123*
- Group B *127*
- Diseases Caused by Group 'B' Streptococci *128*
- Group C *128*
- Group D *128*
- Alpha Hemolytic Streptococci *129*
- Anaerobic Streptococcus *129*
- Anaerobic Cocci *129*

Chapter 21: Pneumococcus 130

Chapter 22: Neisseria 134
- Neisseria Meningitidis *134*
- Neisseria Gonorrhoeae *136*

Chapter 23: Corynebacterium 140
- Corynebacterium Diphtheriae *140*
- Diphtheroids *144*

Chapter 24: Mycobacteria 146
- Mycobacterium Tuberculosis *146*
- BCG Vaccine *153*
- Atypical Mycobacteria *154*
- Skin Pathogens *155*
- Mycobacterium Leprae *155*

Chapter 25: Bacillus 159
- Bacillus Anthrax *159*
- Bacillus Subtilis *162*
- Bacillus Cereus *162*

Chapter 26: Clostridium 163
- Clostridium Tetani *163*
- Clostridium Perfringens (Clostridium Welchii) *166*
- Nagler's Reaction *167*
- Clostridium Botulinum *169*
- Clostridium Difficile *170*

Chapter 27: Enterobacteriaceae 172
- Escherichia Coli *172*
- Edwardsiella *175*
- Citrobacter *175*
- Klebsiella *176*
- Enterobacter *176*
- Hafnia *176*
- Serratia *176*
- Proteus *176*
- Shigella *177*
- Toxin *178*
- Salmonella *180*

Chapter 28: Pseudomonas 186
- Pseudomonas Aeruginosa (Pseudomonas Pyocyanea) *186*
- Toxins and Enzymes Produced by Pseudomonas *187*

Chapter 29: Vibrio 188
- Vibrio Cholerae *188*

Chapter 30: Brucella 192
- Gram-negative Coccobacilli *192*

Chapter 31: Haemophilus 195

Chapter 32: Spirochaetes 198
- Borrelia *198*
- Lyme Disease *199*
- Leptospira *199*
- Treponema *201*

Section 5 Virology

Chapter 33: General Characteristics of Viruses 209
- Inclusion Bodies *215*

Chapter 34: Classification of Viruses 217

Chapter 35: DNA Viruses 221
- Poxvirus *221*
- Smallpox (Variola Major) *222*
- Molluscum Contagiosum *224*
- Adenoviruses *224*
- Herpes Virus *225*

Chapter 36: RNA Viruses 229
- Picornaviruses A *229*
- Orthomyxoviruses *230*
- Influenza Viruses *230*
- Paramyxoviruses *231*
- Rhabdovirus *234*

Chapter 37: Severe Acute Respiratory Syndrome 236
- Clinical Picture *237*
- Laboratory Diagnosis *237*
- Management *237*
- Highlights of COVID-19 *237*

Chapter 38: Avian Influenza (Bird Flu) 238
- Spread of Infection *238*
- Symptoms *238*
- Prevention and Treatment *238*

Chapter 39: Acquired Immune Deficiency Syndrome 239
- Important Events in AIDS *239*

Section 6 Mycology

Chapter 40: Mycology 247
- Morphological Classification of Fungi *247*
- Systematic Classification *247*
- Microsporum *250*
- Epidermophyton *253*
- Subcutaneous Mycosis *254*
- Systematic Mycosis *256*
- Opportunistic Mycotic Infections *261*
- Miscellaneous Mycology Topics *263*

Section 7 Parasitology and Medical Entomology

Chapter 41: Protozoa 267
- Rhizopoda *267*
- Serological Tests in Invasive Amebiasis *270*
- Free Living Soil Ameba *271*
- Mastigophora *273*
- Trichomonas Vaginalis *274*
- Trichomonas Tenax *276*
- Trichomonas Hominis *276*
- Trypanosoma Brucei *276*
- Trypanosoma Cruzi *277*
- Leishmania Donovani *278*
- Pathology and Clinical Picture *279*
- Post Kala-azar Dermal Leishmaniasis (Dermal Leishmaniasis) *281*
- Leishmania Tropica *282*
- Leishmania Braziliensis *282*
- Sporozoa *283*
- Toxoplasma Gondii *288*
- Isospora Belli *291*
- Cryptosporidium Parvum *292*
- Babesia *293*
- Parasites Associated with AIDS *293*
- Ciliata Balantidium Coli *293*

Chapter 42: Helminths 295
- Nematodes *295*
- Trematodes *310*

Chapter 43: Medical Entomology 312

Section 8 Clinical Microbiology

Chapter 44: The Normal Flora 321
- Location of Normal Flora *321*

Chapter 45: Collection and Transport of Clinical Specimens 323

Chapter 46: Collection and Preliminary Processing of Specimens 326

Chapter 47: Diagnostic Microbiology—an Approach to Laboratory Diagnosis 328
- Pyrexia of Unknown Origin (PUO) *329*
- Sore Throat *330*
- Urinary Tract Infection *331*
- Meningitis *332*
- Infective Diarrhea *333*
- Wound Infection *334*
- Food Poisoning *336*
- Pulmonary Tuberculosis *337*
- Infective Endocarditis *338*
- Septicemia/Bacteremia *339*

Chapter 48: Serological and Skin Tests 340

Chapter 49: Microbiology in the Service of Human Being 343
- Medical Microbiology *343*
- Role of Microbiology *343*
- Importance in Diagnosis of Infectious Disease *344*

Chapter 50: Community Microbiology 345
- Role of Microbiology in Community *345*

Chapter 51: Hospital Infections **347**
- Hospital Infection and Prevention *347*
- Microbes Causing Nosocomial Infection *349*
- Bundles in Infection Prevention and Safety *349*
- Blood Transfusion Infection *351*
- Infection Control Committee *351*
- Standard Routine Precautions to Prevent Hospital Inffection *352*
- Personal Protective Equipment *352*

Chapter 52: Handwashing **354**
- Factors Influencing Handwashing *354*
- Hand Hygiene *355*
- Steps to Wash Hands *355*
- When to Wash Hands *355*
- How to Wash Hands *355*

Chapter 53: Hospital and Laboratory Wastes **356**
- Infectious Waste of Hospital and Laboratory *356*
- Infectious Microorganisms Associated with Hospital or Laboratory *356*
- Segregation of Hospital Waste *357*
- Techniques for Waste Treatment *357*
- Disposal of Hospital and Laboratory Waste *358*

Chapter 54: Infection Control Measures for Nursing Staff **359**
- Infection Control Checklist for Nursing Staff *359*
- Are You Preventing Sharps Injuries? *360*
- Do You Deal Promptly with Spillages? *360*
- Do You Use Personal Protect Equipment and Know Standard Precautions *361*
- Do You Scrupulously Decontaminate Equipment? *362*
- Do You Know What to Do in the Event of an Accident? *362*
- Appropriate Use of Indwelling Devices *363*
- Have You Washed Your Hands? *364*
- Facilities *365*
- Handwashing Agents *366*
- Hand Drying Agents *366*

Chapter 55: Emergency Microbiology **368**
- Visualization of the Agent of Disease *368*
- Antigen Detection *368*

Chapter 56: Infectious Diseases and their Prevention **370**
- Biomedical Waste Management *370*
- Uses of Seperation of Waste *371*
- Disposal of the Waste *371*
- Disinfection Suggested Procedures *371*

Section 9 Practical Microbiology

Chapter 57: Microscope **375**
- Microscope *375*

Glossary *379*

Index *387*
