Contents

1. Organization of Hospitals **1**
Definition of hospital 1
Providers of healthcare services 2
Functions of hospital 2
Changing needs of healthcare services (hospitals) 3
Philosophy of the hospital 3
Classification according to management 4
Classification according to system 5
List of various specialties that exist in a multispecialty hospital 5

2. Classification of Healthcare Providers **7**
Clinic 7
Nursing homes 7
Primary healthcare center 7
Voluntary healthcare center 7
Private hospitals 8
Trust hospital 8
Corporate hospitals 8
Teaching hospitals 9
Isolation hospital 9
Government hospitals or ESI hospitals 9

3. Hospital Administration **10**
General administration 10
Medical administration 11
Finance and accounts 11
Personnel management 11
Levels of management 12
Difference between administration and management 12
Scope of services 14

Points for effective administration 15
Duties and responsibilities of hospital administrator 17
Duties and responsibilities of medical superintendent/ chief medical officer/medical director 20

4. Important Components of Hospital **22**
Doctor 22
Nurse 25
Patient or the person with illness 31

5. Procedures in Hospital **38**
Admission of a patient 38
Transfer of a patient 41
Discharge of a patient 43

6. Outpatient Department **46**
Effective running of outpatient department 46
Duties and responsibilities of outpatient department receptionist 47

7. Diagnostic Departments: Central Billing **49**
Billing procedures 50
Functions of the department 50

8. Pharmacy **52**
Effective pharmacy services 52
Right billing and right issues 53
Return of medicines 53
Substores 54
Drug formulary 55
Drug recall 55

9. Dietetic Services **57**
Canteen administration 57
Effective canteen services 57
Duties and responsibilities of the dietician 58

10. Hospital Infection Control **60**
Components for effective infection control program 60
Predictors of infection 61
Guidelines and recommendations for HIC program 61
Handwashing techniques 62
Handwashing indications 63
Handwashing facilities 63
Standard precautions 63
HIC committee 63
Functions of the committee 64
Duties and responsibilities of infection control nurse 64

11. Medical Gases **65**
Types of medical gases 65
Color codes for medical gases 65
Uses and properties of medical gases 66
Procedures for purchase of medical gases 69
Duties and responsibility of manifold operator 70
Safety measures to be taken 70
Precautions for use 71
12. Consent **72**
Types of consent 72
13. Operation Theaters **75**
Points for effective functioning of OTs 75
Criteria for a good OT air conditioning 76
Common equipments available in OT 77
Checklist before starting any procedure 77
Duties and responsibilities of OT In-charge 78
Duties and responsibilities of OT technician/nurse 79
14. Blood Bank **80**
Definition of blood bank 80
Objective of the department of blood transfusion medicine 80
Duties and responsibilities of blood bank medical officer 81
Blood and blood donation 83
Precautions to be taken for blood transfusion among blood relatives 86
15. Medical Record Department **87**
Some of the important forms which are to be filled in patient case-sheet before sending it to the MRD 88
Duties and responsibilities of medical record officer 89
16. Biomedical Engineering Department **94**
Some of the equipments 94
Duties and responsibilities of biomedical engineers 101
17. Biomedical Waste Management **105**
Segregation and collection 106
Color codification of biomedical waste 106
18. Medical Ethics **108**
Basic principles of medical ethics 108
19. Medicolegal Issues **113**
Definition of MLCs in medical practice 113
General Guidelines for dealing with medicolegal cases 114
Precautions to be taken in MLCs 116

Guidelines for preservation of medicolegal Evidence 117
Guidelines for preservation of Medicolegal documents 118
Special precautions in cases of Death in the hospital 118
General guidelines for sudden death/found dead cases 118
Medicolegal aspects of sexual offences 119
Medicolegal aspects of poisoning 120
Guidelines for action in case a patient is found missing from the hospital 121

20. Consumer Protection Act, 1986 and Hospitals 122
Extent and Coverage of the Act 122
The act with relation to the hospitals or medical profession 124
Structure of consumer forums/commissions and their jurisdictions 126
The legal avenues (other than CPA) available to aggrieved patients to sue against health professionals 126
Rights and privileges of registered medical practitioners conferred by the Indian Medical Council Act, 1956 127
Indian Penal Code and Medical Negligence 128
Do's and don'ts for doctors 129
Preventive measures (how to avoid litigation) 135

21. Personnel Management 137
Functions 137
Human resource management 138
Difference between human resource management and personnel management 139
Induction programs 139
Nurses and doctors to bed ratio 140
Duties and responsibilities of personnel manager 142
Duties of human resource manager 143
Discipline and disciplinary action 144

22. Finance Management 150
Differences between hospital management and the management of other organization 150
Sources of income in the hospitals 151
Utilization of funds 152
Duties and responsibilities of the chief finance Officer or the director—finance and accounts 154
Duties and responsibilities of manager/accounts manager 154
Project report 155

23. Facility Management 161
Importance of facilities management in hospitals 161
Strategies for the success of facility management 162
Vital aspects of facility management which lead to patient safety 163
Roles of facility managers for managing activities 166

24. Committees in Hospitals **168**
Administrative committees 168
Types of committee members 173
Tips for effective functioning of committees 174
25. Insurance Help Desk **175**
Procedure 175
Duties and responsibilities of a front officer in TPA help desk 176
Guidelines to TPA (Insurance) Patients 175
26. Communication **180**
Nature and scope of communication 180
Purpose of communication 180
Importance of communication in hospitals 181
Poor communication between healthcare staff and patients in hospital 181
Barriers to effective communication 182
Barriers to effective communication by nurses 183
Effective communication 183
27. Safety and Security **186**
Definition of patient safety 186
Patient safety tips for hospitals 187
Problems of security in hospital 189
Security measures 189
Safety measures 190
Duties of security guards 191
Duties of hospital fire officer 193
28. Duties and Responsibilities of Hospital Staff **195**
Receptionist (All shifts) 196
Linen keeper/House keeping department in-charge 197
Billing staff (IP) 198
Sanitary technician 199
Sweepers 200
Ambulance driver 200
Ambulance paramedical staff 201
CSSD technicians 201
Ward assistants and ayahs 202
Male nursing assistant 203
Public relation officers 203
Maintenance supervisor/facility manager 204
Physiotherapist 205
29. Sensitive Issues in Hospitals: Role of Administration **206**
Brought in dead cases 206
Replacement of drugs 207

Refusal for admission 207
Terminal patients 208
Redo tests 208
Outpatient department 209
Reception 209
Billing 211
Estimated cost of treatment 212
Pharmacy 214
Hospital acquired infection 215
General issues 221
Role of Administration 225

30. Architectural Overview Towards Healthcare Projects 232
Key points 233
Methodology of the project 234
Functional facilities 235
Divisionwise scope of work 237

31. Guidelines for NABH Accreditation for Hospitals 241

32. Licenses and Acts Applicable to Hospitals 260
