Contents

1. Transoral Robotic Surgery for Obstructive Sleep Apnea **1**
Hardik K Doshi, Rahmatullah Rahmati

◊ Transoral Robotic Surgery Background and Technique 1
◊ Transoral Robotic Sleep Surgery Literature Review 2

2. Image Guidance in Sinus Surgery **8**
Laura Oleaga, Manuel Bernal-Sprekelsen

◊ Computed Tomography 8
◊ Magnetic Resonance Imaging 18

3. Endoscopic Repair of Cerebrospinal Fluid Leaks **22**
Timothy R DeKlotz, Eric Wang, Carl H Snyderman

◊ Types of CSF Leaks 22
◊ Epidemiology 24
◊ Preoperative Assessment and Considerations 25
◊ Adjunctive Measures 28
◊ Methods of Repair 31
◊ Outcomes 38
◊ Complications 38

4. Measuring Quality of Life in Nasal Surgery **43**
Ingo Baumann

◊ Quality of Life—Basics and Definitions 43
◊ Quality of Life in Patients with Chronic Rhinosinusitis 44
◊ Quality of Life after Septoplasty 49
◊ Quality of Life after Rhinoplasty 51

5. Personalized Therapy in Head and Neck Cancer **60**
Xiao Xiao, Jennifer R Grandis

◊ EGFR Pathway 61
◊ JAK-STAT Pathway 67
◊ PI3K Pathway 68

6. Vascular Anomalies—Advances and Updates for the Otolaryngologist **73**
Francine Blei, Ascanio Guarini

◊ How to Distinguish a Hemangioma from a Vascular Malformation? 74
◊ Treatment of Hemangiomas 84
◊ Vascular Malformations 84
◊ Clinical Pearls to Distinguish Vascular Malformations 87
◊ Genetics and Vascular Malformations 87

7. Open Procedures for Airway Obstruction 101
Catherine K Hart, Aliza P Cohen, Robin T Cotton
◊ Historical Overview 101
◊ Preoperative Assessment 101
◊ Preoperative Decision Making 102
◊ Expansion Surgery 104
◊ Resection Surgery 107

8. Hypoglossal Nerve Stimulation for Obstructive Sleep Apnea 113
Stefan Mlot, Rahmatullah Rahmati
◊ Physiology of the Upper Airway in OSA 113
◊ Measures of Respiratory Status Used in the Analysis of Patients with Obstructive Sleep Apnea 115
◊ The Current State of Hypoglossal Nerve Stimulation 116
◊ Future Directions 121

9. Cochlear Implants: An Update 124
Divya Chari, Maura K Cosetti, Anil K Lalwani
◊ Updates in Cochlear Implant Technology: Hardware and Software 125
◊ Developments in Device Design 127
◊ Updates in CI Candidacy and Assessment of Efficacy 133

10. Implantable Hearing Aids 148
Arnaud Devèze
◊ What are the Drawbacks of Conventional Hearing Aids That AMEI should Overcome? 150
◊ Active Middle Ear Implants 152
◊ Bone Conduction Implants 153
◊ The Different Types of Currently Available Implants and their Characteristics 155
◊ The Middle Ear Transducer (MET; Previously Otologics LLC, Boulder, CO, USA, and Now Cochlear, Australia) 158
◊ The Ideal AMEI: Discussion on Limitations and Challenge to Improve the Output and Use of Implantable Auditory Prostheses 169
◊ What are the Main Indications of AMEI Nowadays? 176
◊ What is the Preoperative Selection Workup? 176

11. Endoscopic Ear Surgery 186
Muaaz Tarabichi, Marchioni Daniele, Livio Presutti
◊ History 186
◊ Instrumentation 187
◊ Discussion 187
◊ Basic Techniques and Management Algorithm 198
◊ Transcanal Transpromontorial Exclusive Endoscopic Approach 214
◊ Transvestibular Approach 221
◊ Transcochlear Approach 224

12. Some Mechanical Aspects of Implant Coupling 233
Albrecht Eiber, Markus HF Pfister
◊ Mechanics of Middle Ear 233
◊ Implants 235
◊ Mechanical Coupling of Implants to Natural Structures 239
◊ Clinical Aspects 248
◊ Preload 248

13. Stereotactic Radiosurgery for Acoustic Neuroma 256
Ajay Niranjan, John C Flickinger, L Dade Lunsford
◊ Gamma Knife Radiosurgery Technique for Acoustic Neuromas 257
◊ Radiosurgery: Clinical Results 259

14. Vestibular Rehabilitation 270
Jan Hendrik Wagner, Dietmar Basta, Arne Ernst
◊ Mechanisms of Compensation of a Vestibular Loss 270
◊ Mobile Posturography 273
◊ Vestibular Rehab (Training) Programs 273
◊ Surgical Treatment of Vestibular Disorders 275
◊ Disorders of the Semicircular Canals 276
◊ Further Otological Disorders with Vertigo 277

15. Tinnitus Therapy 280
Timea Toth, Markus HF Pfister, Peter A Tass
◊ History of Tinnitus Medicine 280
◊ Treatments of Tinnitus 282
◊ Pharmacological Treatment 282
◊ Treatment of Chronic Tinnitus 285
◊ Hyperbaric Oxygen Therapy 287
◊ Sound Therapy (Hearing Devices) 288
◊ Tinnitus Retraining Therapy 290
◊ Cognitive Behavior Therapy 291
◊ Biofeedback, Neurofeedback 293
◊ Magnetic and Electrical Brain Stimulation 295
◊ Acoustic CR Neuromodulation 299
◊ Music Therapy 303

16. Geriatric Otolaryngology—An Emerging Subspecialty 311
Karen M Kost, David E Eibling
◊ General Concepts in Geriatrics 312
◊ Geriatric Otolaryngology 315
◊ Dysphonia in the Elderly 316
◊ Dysphagia in the Elderly 317
◊ Presbycusis 322
◊ Balance in the Elderly 324

17. Genetics in Otolaryngology **330**

Nicolas Gürtler, Benno Röthlisberger

◊ Hereditary Hearing Impairment 331
◊ Oncology 339
◊ Miscellaneous 343

18. Botulinum Toxin in Otorhinolaryngology **348**

Saskia Rohrbach, Rainer Laskawi

◊ How Botulinum Toxin Acts 348
◊ Well-Established BTX Indications 349
◊ More Recent and Rare Indications 352
◊ More Recent Salivary Gland Applications 356

19. Computer-assisted Surgery of the Paranasal Sinuses and Skull Base **369**

Edgar Mauricio López-Chacón, Manuel Bernal-Sprekelsen

◊ Technical Characteristics 369
◊ Accuracy of CAS 374
◊ Indications for CAS 375
◊ Advantages and Disadvantages 376
◊ Special Features 377
