Contents

VOLUME 1

SECTION 1 **OTOLOGY AND NEUROTOLOGY** **1–562**

Section Editors: **Michael M Paparella, Sady Selaimen da Costa**

1. Anatomy and Clinical Physiology of the Organs of Hearing and Balance **3**
Pedro Luiz Mangabeira Albernaz

♦ Hearing System *3* ♦ External Ear *3* ♦ Middle Ear *5* ♦ Inner Ear *6* ♦ Balance System *11*

2. Otopathology **16**
Joseph Nadol

♦ History of Otopathology *16* ♦ Contemporary Role of Human Otopathology *17*

3. Diagnosis and Physical Examination in Otology and Neurotology **32**
Yaser Ghavami, Marlon Maducdoc, Hamid Djalilian

♦ History Taking *32* ♦ General Otologic Examination *32*

4. Electrophysiology: General Principles and Clinical Applications **40**
Luiz Carlos Alves De Sousa, Inesangela Canali, Nelma Ellen Zamberlan-Amorim

♦ Electrocochleography *41* ♦ Auditory Brainstem Response *42*
♦ Auditory Steady-state Response *45* ♦ Event-related Cortical Auditory Evoked Potentials (P300) *46*
♦ Illustrative Case Reports *47*

5. Diseases of the External Ear **54**
Neil M Sperling, Frank E Lucente

♦ Dermatoses *54* ♦ Seborrheic Dermatitis/Keratosis *54* ♦ Eczema (Atopic Dermatitis) *54*
♦ Psoriasis *55* ♦ Herpes Virus (Herpes Zoster Oticus, Herpes Simplex and Ramsay Hunt Syndrome) *55*
♦ Chondrodermatitis Nodularis Chronica Helices (Winkler Disease) *55* ♦ External Ear Infections *55*
♦ Other Cutaneous Lesions *57* ♦ Trauma *58* ♦ External Ear Canal Disease *59*

6. General Principles of Middle Ear Pressure Regulation: Eustachian Tube Function and Dysfunction **63**
Jacob R Brodsky, Wei-Chieh Chao, Dennis S Poe

♦ Pressure Regulation and Gas Exchange in the Healthy Middle Ear *63* ♦ Pressure Regulation and Gas Exchange in the Diseased Middle Ear *65* ♦ Anatomy of the Eustachian Tube *66*
♦ Middle Ear Pressure Regulation by the Eustachian Tube *67* ♦ Other Functions of the Eustachian Tube *70*
♦ Etiologies of Eustachian Tube Dysfunction *70* ♦ Diagnosis of Eustachian Tube Dysfunction *72*
♦ Management of Eustachian Tube Dysfunction *73*

7. Otitis Media with Effusion 80
Timothy TK Jung, Jinwei Hu, Michael M Paparella

♦ Historical Considerations *80* ♦ Epidemiology *80* ♦ Etiology and Pathogenesis *82*
♦ Classification of Middle Ear Fluid and Otitis Media *87* ♦ Clinical Features *88* ♦ Treatment *89*
♦ Clinical Applications *93* ♦ Complications *94* ♦ Sequelae *95*

8. Tympanic Membrane Retractions: Classification and Management 102
Carlos Ruah, Bernard Ars

♦ Pathogenesis and Pathology *102* ♦ Classification and Clinical Behavior *103* ♦ Treatment *104*

9. Indications and Follow-up for Myringotomy and Tympanostomy Tube Placement 108
Charles D Bluestone

♦ Importance of Official Guidelines for the Management of Middle Ear Disease *108*
♦ Randomized Controlled Trials *109* ♦ Other Indications for the Placement of Tympanostomy Tubes *113*
♦ Postoperative Follow-up after Placement *113* ♦ When should Tympanostomy Tubes be Removed? *113*
♦ Complications and Sequelae *114*

10. Chronic Otitis Media without Cholesteatoma 116
Sady Selaimen da Costa, Letícia Petersen Schmidt Rosito, Maurício Noschang da Silva, Fábio André Selaimen

♦ Definitions *116* ♦ Clinical Forms *117* ♦ Etiopathogenesis *122* ♦ The Continuum: An Operational Model for the Pathogenesis of COM *124* ♦ The Contralateral Ear in COM *126* ♦ Clinical Picture *130*
♦ Treatment *132*

11. Tympanoplasty and the Flexible Approach 136
Sady Selaimen da Costa, Maurício Noschang da Silva, Letícia Petersen Schmidt Rosito, Inesângela Canali

♦ Introduction and Historical Remarks *136* ♦ Definitions and Classification of Tympanoplasty *138*
♦ Indications *138* ♦ Principles of Temporal Bone Surgery *139* ♦ Preoperative Evaluation and Workup *140*
♦ Tympanoplasty—Traditional Guidelines *145* ♦ The Flexible Endaural Tympanoplasty and Inside-out Tympanomastoidectomy *153* ♦ Surgical Approach to the Atelectatic Ear *165*

12. Cholesteatoma: From Principles to Practice 169
PL Santa Maria, RK Jackler

♦ Acquired Cholesteatoma *169* ♦ Congenital Cholesteatoma *180*

13. Surgical Treatment of Cholesteatoma: Basic Techniques 184
CJ Voelker, Derald E Brackmann

♦ Cholesteatoma Classification *184* ♦ Preoperative Evaluation *185* ♦ Surgical Management *186*
♦ Potential Problems/Complications *193*

14. Chronic Silent Otitis Media 195
Michael M Paparella

♦ The Continuum *196* ♦ Obstructive Sites *197* ♦ Residual Mesenchyme *197*
♦ Complications and Sequelae *197* ♦ Diagnosis *199* ♦ Treatment *199*

15. Exploratory Tympanotomy 202
Hamed Sajjadi, Michael M Paparella

♦ Indications *202* ♦ Techniques *203* ♦ Discussion *205*

16. Complications of Chronic Suppurative Otitis Media 207
André Souza de Albuquerque Maranhão, Norma de Oliveira Penido

♦ Definition *207* ♦ Epidemiology *207* ♦ Pathophysiology *208* ♦ Diagnosis *208* ♦ Treatment *209*
♦ Intratemporal Complications *209* ♦ Intracranial Complications *214* ♦ Final Considerations *218*

17. Otosclerosis: Pathology, Clinical Diagnosis and Treatment 220
Marcelo Miguel Hueb, Marcos V Goycoolea

♦ Terminology *220* ♦ History *221* ♦ Histopathology and Pathogenesis *222*
♦ Incidence and Genetics *223* ♦ Clinical Aspects and Diagnosis *225* ♦ Treatment *228*

18. Otosclerosis: Surgical Treatment with Transcanal Approach and the Stapedotomy with Vein Graft Interposition Technique 237
Robert Vincent, John Oates

♦ Equipment *237* ♦ Surgery *242* ♦ Special Conditions in Otosclerosis Surgery *244*

19. An Overview of Sensorineural Hearing Loss: Past, Present and Future 261
Joel Lavinsky, Luiz Lavinsky

♦ The Past *261* ♦ The Present *264* ♦ The Near Future *267*

20. Congenital Sensorineural Hearing Loss 271
Christopher F Barañano, Richard J Smith

♦ Diagnosis *271* ♦ Intervention *271* ♦ Classification *272*

21. Acquired Sensorineural Hearing Loss: Infectious and Inflammatory Causes 284
Tomás Labatut, Marcos V Goycoolea

♦ Mumps *284* ♦ Measles *285* ♦ Varicella-zoster Virus *285* ♦ Herpes Simplex Virus *286*
♦ Human Immunodeficiency Virus *286* ♦ Meningitis *287* ♦ Syphilis *287*
♦ Toxoplasmosis *288* ♦ Chronic Otitis Media *288*

22. Hereditary Hearing Loss 292
José Faibes Lubianca Neto, Mauricio Kurc, Roland Douglas Eavey

♦ Genetics and the Molecular Biology of Deafness *293* ♦ Mapped and Isolated Genes that Cause Nonsyndromic Hearing Loss *297* ♦ Clinical Assessment on Nonsyndromic Hereditary Deafness: Practical Aspects *308* ♦ Recent Progresses in the Techniques for Gene Isolation and Sequencing *310*

23. Ototoxicity and Otoprotection: Principles and Protocols 312
José Antonio A de Oliveira, Miguel A Hyppolito

♦ Etiologic Agents: Ototoxic Drugs *312* ♦ Aminoglycoside Antibiotics *312* ♦ Research in Ototoxicity *320*
♦ Stem Cells and Cochlear Repair *323*

24. Immunomediated Inner Ear Diseases: Clinical Diagnosis and Treatment 326
Mia E Miller, Jeffrey P Harris

♦ Autoimmune Inner Ear Disease *326* ♦ Systemic Autoimmune Diseases with Inner Ear Involvement *331*

25. Noise-induced Hearing Loss....338
Helen X Xu, O'neil Guthrie
♦ Epidemiology *338* ♦ Pathogenesis *338* ♦ Evaluation and Diagnosis *342* ♦ Management *342*

26. Presbycusis: When Hearing Loss Becomes Hearing Deficiency....345
Adriane Ribeiro Teixeira, Sílvia Dornelles, Maira Rozenfeld Olchik, Sady Selaimen da Costa
♦ Types of Presbycusis *345* ♦ Identification of Individual with Presbycusis *347*
♦ Families of the Individual with Presbycusis *350*

27. Sudden Deafness....353
Ashok R Jethwa, Meredith E Adams
♦ Definition *353* ♦ Epidemiology *353* ♦ Clinical Presentation *353* ♦ Etiology *353* ♦ Evaluation *355*
♦ Natural History and Prognosis *357* ♦ Treatment *358* ♦ Aural Rehabilitation *360*

28. Hearing Aids: Form and Function....363
Jason A Galster, Elizabeth A Galster
♦ Essential Descriptors of Hearing Aid Acoustics *363* ♦ Common Components *364*

29. Hearing Aids: Prescription and Outcome Assessment....380
Jason A Galster, Elizabeth A Galster
♦ The Impact of Hearing Loss *380* ♦ Hearing Aid Candidacy *380* ♦ Hearing Aid Prescription *381*
♦ Verification of the Hearing Aid *381* ♦ Validation of the Fitting: Outcomes Assessment *383*

30. Implantable and Semi-implantable Hearing Aids: Current Indications and Results....386
Ricardo Ferreira Bento, Aline Gomes Bittencourt
♦ Semi-implantable Hearing Aids *387* ♦ Fully Implantable Hearing Aids *391*

31. Cochlear Implants: Surgical Technique and Complications....396
William J Parkes, Sharon L Cushing, Blake C Papsin
♦ History *396* ♦ Indications *396* ♦ Positioning, Preparation and Draping *397* ♦ Incision and Postauricular Flap *397* ♦ Cortical Mastoidectomy *398* ♦ Securing the Device *399* ♦ Facial Recess *400*
♦ Entering the Cochlea *401* ♦ Electrode Insertion *403* ♦ Closure *404* ♦ Revision Surgery *404*

32. Facial Palsy: Etiology, Topodiagnosis, and Treatment....407
Thomas E Linder
♦ Clinical Evaluations and First Decisions *407* ♦ Next Considerations and Decision-making Process *408*
♦ Diagnostic Tests in Suspected Non-Bell's Palsy Patients *410* ♦ Further Diagnosis in Patients with Bell's Palsy *412* ♦ Treatment Strategies in Bell's Palsy *413* ♦ Facial Nerve Decompression Surgery *416*

33. Temporal Bone Trauma....419
Vijay K Sharma, Prabodh Karnik, Chris de Souza
♦ Fractures of the Temporal Bone *419* ♦ Newer Classification System: The Otic Capsule System *420*
♦ Types of Injury *420* ♦ Clinical Features *421* ♦ Management *423*

34. Tinnitus: Overview, Clinical Investigation, and Treatment Modalities....427
Carlos A Oliveira, Fayez Bahmad Jr
♦ Overview *427* ♦ Clinical Investigations *430* ♦ Treatment Modalities *432*

35. Ménière's Disease 439
Hamed Sajjadi, Michael M Paparella
♦ Incidence *439* ♦ Pathology of Ménière's Disease *440* ♦ Clinical Diagnosis *442* ♦ Treatment Options *444*

36. Benign Paroxysmal Positional Vertigo 451
F Vaz Garcia, F Zuma e Maia
♦ Physiopathology *451* ♦ Time Course *452* ♦ Clinical Evaluation *452* ♦ Differential Diagnosis *453*
♦ Clinical Presentation *454* ♦ Treatment Strategy *463*

37. Vestibular Neuritis 467
Fernando Freitas Ganança, Evandro Maccarini Manoel, Maurício Malavasi Ganança
♦ Physiopathology *467* ♦ Physical Examination *467* ♦ Diagnosis *468* ♦ Treatment *469* ♦ Prognosis *470*

38. Central Vestibular Disorders 472
Francisco Carlos Zuma e Maia, Sergio Carmona, Pedro Luiz Mangabeira Albernaz
♦ Symptoms and Signs of Central Vestibular Disorders *472*
♦ Central Vestibular Syndromes and Disorders *474* ♦ Discussion *477*

39. Middle and Inner Ear Interaction: Principles behind the Intratympanic Therapy 480
Marcos V Goycoolea
♦ General Concepts *480* ♦ Structure, Function and Permeability of the Round Window Membrane *480*

40. Principles of Vestibular Rehabilitation 494
Ziming Wu, Dongyi Han
♦ Concept of Vestibular Rehabilitation *494* ♦ Mechanisms of Vestibular Rehabilitation Therapy *494*
♦ Goals of VRT *496* ♦ VRT Exercise Techniques *497*

41. Surgical Treatment of Vertigo 498
Herbert Silverstein, Yi-Hsuan Emmy Wu, Julie Daugherty
♦ Ménière's Disease *498* ♦ Benign Paroxysmal Positional Vertigo *506*
♦ Superior Semicircular Canal Dehiscence *506*

42. Endolymphatic Sac Enhancement for Ménière's Disease 511
Michael M Paparella, Joshua Yorgason
♦ Selecting Patients *512* ♦ Outcomes *513* ♦ History of Surgical Techniques for Endolymphatic Sac Surgery *513* ♦ Our Current Recommended Technique for ESE *514* ♦ Surgery to Revise an ESE *515*
♦ Complications *516* ♦ Pitfalls and Nuances of Endolymphatic Sac Surgery *518* ♦ Our Philosophy Based on Decades of Experience *519* ♦ Pathogenesis of Ménière's Disease and Endolymphatic Sac Revision *520*

43. Vestibular Schwannomas: Differential Diagnosis and Treatment Modalities 523
Audrey P Calzada, Derald E Brackmann, Rick A Friedman
♦ Tumor Biology and Pathology *523* ♦ Clinical Manifestations *524*
♦ Radiology and Differential Diagnosis *525* ♦ Treatment Modalities *528*

44. Clinical and Surgical Pathology of the Petrous Apex 533
Sampath Chandra Prasad, Fernando Mancini, Mario Sanna
♦ Anatomy of the Petrous Apex *533* ♦ Diseases Affecting the Petrous Apex *534*

SECTION 2 RHINOLOGY AND SINUSOLOGY 563–750

Section Editors: **Robert C Kern, Rakesh K Chandra**

45. Important Sinonasal Anatomy with Endoscopic Correlations 565
Giridhar Venkatraman, Courtney A Hill

♦ Sinonasal Development *565* ♦ Sinonasal Anatomy *566*

46. Important Sinonasal Anatomy with Radiologic Correlations 576
Sharon H Gnagi, Joseph M Hoxworth, Devyani Lal

♦ Imaging Techniques for Sinonasal Anatomy *576* ♦ Sinonasal Embryology *577*
♦ Sinonasal Anatomy: Review of Computed Tomography Scan Correlates *577*

47. Sinonasal Physiology and Chronic Rhinosinusitis Pathophysiology 598
Quinn A Dunlap, Elisa A Illing, Bradford A Woodworth

♦ Physiology of Sinonasal Defense *598* ♦ Pathophysiology of Chronic Rhinosinusitis *602*

48. Chronic Rhinosinusitis without Nasal Polyposis 610
Elizabeth A Kelly, Timothy L Smith, David M Poetker

♦ Diagnostic Criteria *610* ♦ Clinical Evaluation *611* ♦ Medical Management *613*
♦ Surgical Management *615* ♦ Complications of Rhinosinusitis *615*

49. Chronic Rhinosinusitis with Nasal Polyposis 619
Kevin Welch, Muhamad Amine

♦ Epidemiology *619* ♦ Anatomy and Histology *619* ♦ Etiologies *622* ♦ Noneosinophilic CRS *626*
♦ Evaluation *627* ♦ Investigation *629* ♦ Treatment and Management *634*
♦ Postoperative Management *641*

50. Allergic Fungal Rhinosinusitis 646
Sarfaraz Mubarak Banglawala, Rodney J Schlosser

♦ Rhinosinusitis and Fungi *646* ♦ Diagnosis *646* ♦ Epidemiology *647* ♦ Clinical Presentation *647*
♦ Radiological Findings *648* ♦ Orbital Changes *649* ♦ Management *649*

51. Aspirin-exacerbated Respiratory Disease 653
Jonathan M Melzer, Joseph K Han

♦ History *653* ♦ Pharmacology *653* ♦ Pathogenesis *654* ♦ Epidemiology *655*
♦ Clinical Presentation *655* ♦ Diagnosis *655* ♦ Therapeutic Strategies *656*

52. Pituitary Surgery 662
Raewyn G Campbell, James N Palmer

♦ Anatomy *662* ♦ Pituitary Tumors *663* ♦ Preoperative Considerations *664* ♦ Radiologic Considerations *664* ♦ Surgical Approach *665* ♦ Postoperative Considerations *669* ♦ Complications *669*

53. Inverted Papilloma 673
Michael A Kohanski, Douglas D Reh

♦ Pathophysiology *673* ♦ Human Papillomavirus *675* ♦ Radiologic Diagnosis *676* ♦ Surgical Management of Inverted Papilloma *678* ♦ Radiation Therapy *683* ♦ Postsurgical Follow-up/Surveillance *683*

54. Management of Sinonasal Malignancies 687
Pete S Batra, Nathan Deckard

♦ Differential Diagnosis *687* ♦ Presenting Signs and Symptoms *688*
♦ Imaging *688* ♦ Management *690* ♦ Outcomes *694*

55. CSF Leaks and Skull Base Defects 701
Zachary M Soler, Rodney J Schlosser

♦ Physiology of CSF Production and Flow *701* ♦ Classification of Sinonasal CSF Leaks *701*
♦ Diagnostic Workup *702* ♦ Management *703* ♦ Surgical Repair *705*

56. Contemporary Management of Epistaxis 713
Kristine A Smith, Timothy L Smith, Luke Rudmik

♦ Assessment of Epistaxis *716* ♦ Management of Anterior Epistaxis *717* ♦ Management of Posterior Epistaxis *721* ♦ Management of Intractable Epistaxis *722* ♦ Surgical Management of Intractable Epistaxis *723* ♦ Controversies in the Contemporary Management of Epistaxis *727*

57. Nasal Obstruction and Adult Sleep-disordered Breathing 730
Brian W Rotenberg, John Scott

♦ Review of Relevant Anatomy and Physiology *730* ♦ Indications for Nasal Intervention in Obstructive Sleep Apnea *730* ♦ Medical Management of Nasal Obstruction in Obstructive Sleep Apnea *731*
♦ Surgical Management of Nasal Obstruction in Obstructive Sleep Apnea *732*
♦ Nasal Surgery as Part of Multilevel Surgery for Obstructive Sleep Apnea *733*
♦ When to Restart Nasal Continuous Positive Airway Pressure after Nasal Surgery *733*

58. Destructive Lesions of the Sinonasal Tract 735
Ashleigh Halderman, Deborah Chute, Raj Sindwani

♦ Granulomatosis with Polyangiitis *735* ♦ Sarcoidosis *737* ♦ Extranodal NK/T-cell Lymphoma *738*
♦ Fungal Sinusitis *740*

59. Olfactory Disorders 744
Chan Nadia, Eric H Holbrook, Wrobel Bozena

♦ Anatomy and Physiology of Olfaction *744* ♦ Disorders of Olfaction *745* ♦ Workup and Tests *748*
♦ Treatment *749*

SECTION 3 PHARYNGOLOGY, BRONCHOESOPHAGOLOGY AND LARYNGOLOGY 751–1020

Section Editor: **Milan Amin**

60. Anatomy and Physiology of Swallowing 753
Kendrea (Focht) Garand, Jessica Gullung Lee, Bonnie Martin-Harris

♦ Overview of Swallowing *753* ♦ Anatomy and Physiology of the Upper Aerodigestive Tract Swallowing Mechanism *756* ♦ Interaction Between Respiration and Swallowing *762*
♦ Airway Protection During Swallowing *763* ♦ Effects of Bolus Characteristics on Swallowing *763*
♦ Age-related Effects on Swallowing Function *764*

61. Assessment of the Dysphagic Patient 769
Catherine Rees Lintzenich

♦ History *769* ♦ Written Dysphagia Instruments *770* ♦ Physical Examination *770*
♦ Diagnostic Testing in the Dysphagic Patient *771* ♦ Clinical Swallow Evaluation *771*
♦ Flexible Endoscopic Evaluation of Swallowing *772* ♦ Videofluoroscopic Swallow Evaluation *772*
♦ Videofluoroscopic Esophagram *773* ♦ Esophagoscopy *774* ♦ Manometry *774*

62. Management of the Dysphagic Patient 776
Jacqui Allen

♦ Preparatory Management *776* ♦ Multidisciplinary Management *777*

63. Cough 788
Amanda L Richards, Kenneth W Altman

♦ Pathophysiology *789* ♦ Clinical Approach *789* ♦ Acute Cough: <3 Weeks *790*
♦ Subacute Cough: 3–8 Weeks *791* ♦ Chronic Cough: >8 Weeks *791*

64. Laryngotracheal Stenosis 799
Alessandro de Alarcón, Aliza P Cohen, Michael J Rutter

♦ Overview *799* ♦ Congenital Stenoses *799* ♦ Acquired Stenoses *801*

Managing Glottic Stenosis 805
Glendon M Gardner

♦ History and Physical Examination *805* ♦ Pulmonary Function Tests *805* ♦ Imaging Studies *805*
♦ Laryngeal Electromyography *806* ♦ Anterior Glottic Stenosis *806* ♦ Posterior Glottic Stenosis *811*

Subglottic Stenosis 823
Robert R Lorenz

♦ Etiology Influences Management *823* ♦ Idiopathic SGS Management *823* ♦ Autoimmune SGS Management *823* ♦ Traumatic SGS Management *824* ♦ Infectious SGS Management *824*
♦ Evaluation *825* ♦ Complex Stenosis *825* ♦ Tracheotomy and Laryngopharyngeal Reflux *826*
♦ Treatment: Endoscopic Surgery *826* ♦ Treatment: Open Surgery *827* ♦ Stents *830*

65. Upper Airway Obstruction (Includes Sleep Apnea) 832
Gayle Woodson

♦ Emergency Management of Acute Upper Airway Obstruction *832*
♦ Inflammatory Causes of Upper Airway Obstruction *834* ♦ Intermittent Obstruction *835*
♦ Airway Stenosis *835* ♦ Sleep-disordered Breathing *837*

66. Airway Management (Includes Tracheotomy and Intubation) 840
Kashif Mazhar, Ravindhra G Elluru

♦ Identification of the Potentially Difficult Airway *840* ♦ Management of the Airway *842*

67. Anatomy and Physiology of Voice Production 848
Shigeru Hirano

♦ Anatomy *848* ♦ Physiology of Voice Production *852*

68. Assessment of the Voice Patient 854
Thomas L Carroll, Douglas Roth

♦ Initial Evaluation *854* ♦ Medical Speech Evaluation and Laryngeal Function Studies *858*
♦ Physical Examination *862* ♦ Visualization of the Larynx *863* ♦ Flexible Laryngovideo-stroboscopy *863*
♦ Rigid Laryngovideostroboscopy *866* ♦ Decision-making for the Professional Voice Patient *866*

69. Inflammatory Conditions of the Larynx 869
Ramon Franco

♦ Common Infections of the Larynx *869* ♦ Chronic Inflammatory Conditions of the Larynx *872*

70. Benign Vocal Fold Lesions 882
Brianna K Crawley, Lucian Sulica

♦ Phonotrauma *882* ♦ Polyp *884* ♦ Midfold Fibrous Masses *885* ♦ Pseudocyst *885* ♦ Cyst *886*
♦ Reinke's Edema *886* ♦ Sulcus and Bridge *887* ♦ Scar *888* ♦ Granuloma and Contact Lesions *889*
♦ General Considerations in Treatment and Conclusion *890*

71. Vocal Fold Paralysis and Paresis 893
Nausheen Jamal, Dinesh K Chhetri

♦ Etiologies *893* ♦ Clinical Presentation *893* ♦ Management *899* ♦ Bilateral Vocal Fold Immobility *903*

72. Voice Therapy 908
Edie Hapner

♦ Voice Therapy: Then and Now *909* ♦ Voice Therapy Evidence, Outcome, and Use *910* ♦ Use of Therapy Alone or Adjuvant to Surgery *911* ♦ Diagnoses and Voice Therapy—a Model to Guide the Physician *912*

73. Phonomicrosurgery 923
Milan Amin, Sal Taliercio, Michael Persky

♦ Principles of Phonomicrosurgery *923* ♦ Perioperative Care *923* ♦ Anesthesia Considerations *924*
♦ Instrumentation and Positioning *925* ♦ Polyps *927* ♦ Granuloma *927* ♦ Recurrent Respiratory Papillomatosis *928* ♦ Leukoplakia *930* ♦ Cysts *931* ♦ Sulcus Vocalis/Vocal Fold Scar *932*
♦ Vocal Nodules *933* ♦ Glottic Webs *934* ♦ Complications *935*

74. Office-based Procedures 937
Christopher M Johnson, Gregory N Postma

♦ Anesthesia *937* ♦ Patient Selection and Preparation *938* ♦ Monitoring/Postprocedure Care *938*
♦ Procedures *939*

75. Neurologic Diseases Affecting Voice and Swallowing 951
Brianna K Crawley, Amy P Wu, Elizabeth Guardiani, Andrew Blitzer

♦ Hyperfunctional Disorders *952* ♦ Hypofunctional Disorders *958* ♦ Mixed Disorders *960*
♦ Neurogenic Dysphagia *961*

76. Lasers in Laryngology 964
David E Rosow, Si Chen

♦ History and Development of Lasers *964* ♦ Laser Physics *965* ♦ Laser Safety *966*
♦ Laser Classification *966* ♦ Designation of a Laser Safety Officer *966* ♦ Different Types of Lasers *966*
♦ Laser Applications in Laryngology *968*

77. Functional Voice Disorders 984
Leah B Helou, Seema Jeswani, Ryan C Branski

♦ Characteristics of Functional Voice Disorders *985* ♦ Etiologies of Functional Voice Disorders *990*
♦ Treatment of Functional Voice Disorders *991*

78. Voice Across the Age Continuum 996
Scott Rickert

♦ Embryology and Formation of the Larynx *996* ♦ Vocal Fold Development and the Pediatric Voice *996*
♦ Dysphonia in Children *998* ♦ Adult Larynx and Dysphonia in Adults *998* ♦ Aging Larynx *1001*

79. Premalignant and Early Glottic Lesions 1003
Daniel S Fink, Melda Kunduk, Peter McGuire, Andrew J McWhorter

♦ Premalignant Lesions *1003* ♦ Malignant Lesions *1005* ♦ Treatment *1006* ♦ Complications *1010*
♦ Conservation Partial Laryngectomy for Glottic Carcinoma *1012* ♦ Radiation Therapy *1016*
♦ Salvage Surgery *1017* ♦ Outcomes *1017*

VOLUME 2

SECTION 4 HEAD AND NECK DISEASE AND SURGERY 1021–1298

Section Editor: **Johannes Jacobus Fagan**

80. Principles of Surgical Management of Head and Neck Cancer 1023
Mina N Le, Luc GT Morris, Jatin P Shah

♦ Skin *1023* ♦ Orbit *1024* ♦ Nose and Sinuses *1024* ♦ Skull Base *1024* ♦ Oral Cavity *1025*
♦ Pharynx *1026* ♦ Larynx *1026* ♦ Unknown Primary *1027* ♦ Thyroid and Parathyroid *1028*
♦ Salivary Glands *1029* ♦ Nerve Sheath and Neuroendocrine Tumors *1029* ♦ Soft-tissue Tumors *1030*
♦ Bone Tumors *1030*

81. Radiation Therapy 1031
Jacques Bernier

♦ Radiotherapy Technology: Highly Conformal Techniques and Adaptive Methodologies *1031* ♦ Tumor Biology-based Strategies *1035* ♦ Role of Radiotherapy in the Multidisciplinary Therapeutic Management of SCCHN *1040* ♦ Radiotherapy Toxicity *1041* ♦ Reirradiation *1043* ♦ Quality Assurance *1044*

82. Basic Biology of Head and Neck Cancer 1048
Nicole C Schmitt, Robert L Ferris

♦ Genetic Aberrations in Head and Neck Cancer *1048* ♦ Immunology of Head and Neck Cancer *1053*
♦ Human Papillomavirus *1056* ♦ Cancer Stem Cells and Tumor Heterogeneity *1059* ♦ MicroRNAs *1061*

83. Oral Cavity Nonmalignant 1064
George Bohle III

♦ Soft-tissue Lesions *1064* ♦ Tumors *1068* ♦ Diseases and Other Conditions of the Tongue *1069*
♦ Diseases of Hard Tissues *1071* ♦ Diseases of the Salivary Glands *1077*

84. Malignant Tumors of the Oral Cavity 1082
Luiz Paulo Kowalski

♦ Descriptive Epidemiology *1082* ♦ Risk Factors *1083* ♦ Pathology *1090* ♦ Diagnosis and Stage *1091*
♦ Treatment Decision *1094* ♦ Surgery as Initial Treatment *1096* ♦ Postoperative Treatment *1100*
♦ Functional Evaluation and Rehabilitation *1102* ♦ Treatment of Recurrent and Metastatic Oral Cancer *1103*
♦ Multiple Primary Cancers *1104* ♦ Surveillance *1104* ♦ Prognostic Factors *1105*

85. Oropharyngeal Cancer: Contemporary Management in 2018 1112
Kenric Tam, Anirudh Saraswathula, F Christopher Holsinger, Stanley Yung-Chuan Liu, Ryan K Orosco

♦ Anatomy *1112* ♦ Pathology *1113* ♦ Diagnosis *1114* ♦ Treatment *1117*

86. Hypopharynx Cancer 1120
Samip N Patel, Patrick J Gullane, David P Goldstein

♦ Surgical Anatomy *1120* ♦ Epidemiology *1121* ♦ Etiology *1122* ♦ Pathology and Staging *1123*
♦ Patient Evaluation *1124* ♦ Treatment Approach *1126* ♦ Primary Surgery *1126*
♦ Radiation Therapy *1129* ♦ Chemoradiation *1129*

87. Larynx and Hypopharynx Cancer: Endoscopic Surgery 1136
Aaron Feinstein, Abie Mendelsohn, Marc Remacle

♦ Treatment Options *1138* ♦ Endoscopic Surgery Techniques *1140* ♦ Surgical Techniques *1143*
♦ Postoperative Management *1145*

88. Thyroid Cancer Evaluation and Management 1148
Iain J Nixon, Ashok Shaha, Jatin P Shah

♦ Epidemiology *1148* ♦ Investigation of a Patient with a Thyroid Nodule Suspicious for Well-differentiated Thyroid Cancer *1149* ♦ Prognosis and Risk Stratification *1151*
♦ Surgical Management of Well-differentiated Thyroid Cancer *1153* ♦ Adjuvant Therapy for Well-differentiated Thyroid Cancer *1155* ♦ Follow-up for Well-differentiated Thyroid Cancer *1156*
♦ Treatment for Medullary Thyroid Cancer *1157* ♦ Treatment for Anaplastic Thyroid Cancer *1157*
♦ Treatment of Recurrent Disease *1157*

89. Thyroid and Parathyroid: Robotic Surgery for Thyroid Cancer 1160
Jandee Lee, Woong Youn Chung

♦ Evaluation *1161* ♦ Surgical Procedures *1161* ♦ Postoperative Care and Complications *1168*
♦ Outcomes *1171*

90. Parathyroid 1177
Jonathan Zagzag, Kepal Patel

♦ Hyperparathyroidism *1179* ♦ Parathyroid Carcinoma *1184*

91. Salivary Gland Neoplasms 1187
Vincent Vander Poorten, Esther Hauben, Pierre Delaere

♦ Clinical, Imaging, and Pathologic Evaluation of the Tumor *1189* ♦ Treatment *1200*
♦ Surgical Treatment Focused on Malignant Disease *1202* ♦ Postoperative Care and Complications *1210*
♦ Outcomes According to Site for Malignant Tumors *1211*

92. Neck 1218
Susanne Wiegand, Stephan Hoch, Jochen A Werner

♦ Classification of Neck Levels *1218* ♦ Patterns of Lymph Node Metastasis *1218*
♦ Carcinoma of Unknown Primary Origin *1223* ♦ Detection of Lymph Node Metastases *1223*
♦ Management of Lymph Node Metastasis *1226* ♦ Classification of Neck Dissection *1226*
♦ Surgical Technique *1227* ♦ Perioperative Care *1233* ♦ Postoperative Care *1234*

93. Skin Cancer of the Head and Neck 1237
Christian Jacob, John Carter, Brian A Moore, Randal S Weber

♦ Evaluation *1240* ♦ Histologic Evaluation *1247* ♦ Treatment *1248* ♦ Surgical Treatment *1252*
♦ Postoperative Care and Complications *1258*

94. Sarcomas 1265
Jonathan M Bernstein, Nidal Muhanna, Jonathan C Irish

♦ Sarcoma of Soft Tissues *1265* ♦ Sarcoma of Bone *1270*

95. Neurogenic Tumors of the Head and Neck 1274
Daniel R Clayburgh, Tanya J Rath, Jonas T Johnson

♦ Schwannomas *1274* ♦ Solitary Neurofibromas *1282*
♦ Malignant Peripheral Nerve Sheath Tumors *1286* ♦ Paragangliomas *1288*

SECTION 5 PEDIATRIC OTORHINOLARYNGOLOGY 1299–1582

Section Editor: **Jorge Spratley**

96. Pediatric Otolaryngology: Growth, Development, and the Current Status 1301
Charles D Bluestone

♦ How is the Pediatric Otolaryngologist Different from a General Otolaryngologist? *1301*
♦ Pediatric Otolaryngology Societies *1302* ♦ My Own Genesis in Pediatric Otolaryngology *1303*
♦ Fellowship Training in Pediatric Otolaryngology *1303*

97. Research and Publication in Pediatric Otolaryngology 1305
Alison Maresh, Vikash K Modi, Michael G Stewart

♦ Importance of Pediatric-focused Research *1305* ♦ Notable Publications *1306*
♦ Clinical Practice Guidelines *1307* ♦ Outcomes Instruments *1307* ♦ Research Barriers *1309*

98. The Syndromic Child in Pediatric Otorhinolaryngology 1313
Carla Pinto Moura, Jorge Spratley

♦ Syndromes that may Present to the Otolaryngologist *1313*
♦ General Otolaryngological Management in Syndromic Children *1320*

99. Early Assessment and Management of Pediatric Hearing Loss 1326
Manuel Manrique, Raquel Manrique

♦ Development and Maturation of the Auditory System During Childhood *1326* ♦ Detecting Hearing Loss in Newborns *1327* ♦ Diagnosing Hearing Loss in Children *1327* ♦ Treating a Child with Hearing Loss *1329*

100. Malformations of the Inner Ear 1333
Akihiro Shinnabe, Naohiro Yoshida, Yukiko Iino

♦ Characteristics of Each Inner Ear Malformation *1333*

101. Implantable Hearing Aids in Children with External Ear Canal Atresia 1342
Françoise Denoyelle, Ralf Siegert

♦ Bone Conduction Devices Clipped on a Percutaneous Abutment *1342*
♦ Closed Skin Bone Conduction Device *1344* ♦ Closed Skin Active Middle Ear Implants *1344*

102. Acute Otitis Media in Children: Current Evidence 1348
Cuneyt M Alper

♦ Epidemiology *1348* ♦ Risk Factors *1348* ♦ Etiology *1348* ♦ Signs and Symptoms *1349*
♦ Diagnosis *1349* ♦ Natural History of Otitis Media *1352* ♦ Treatment *1352* ♦ Complications *1355*

103. Otitis Media with Effusion in Children 1358
Sten Hellström

♦ Definition and Classification *1358* ♦ Epidemiology *1358* ♦ Natural History *1358*
♦ Risk Factors *1359* ♦ Pathogenesis *1360* ♦ Molecular Events in Production of Middle Ear Effusion *1360*
♦ Clinical Features *1361* ♦ Differential Diagnoses *1362* ♦ Speech and Language Development *1363*
♦ Treatment *1363* ♦ Future Perspectives *1365*

104. Cholesteatoma and Tympanic Membrane Retraction in Children 1369
Shazia Peer, Blake C Papsin, Adrian L James

♦ Spectrum of Middle Ear Disease *1370* ♦ Risk Factors *1373* ♦ Management *1375*

105. Dizziness in Childhood 1382
Margaretha L Casselbrant

♦ Classes of Balance Disorders *1383*

106. Congenital Malformations of the Nose and Paranasal Sinuses 1393
Sarah L Prunty, Ravindhra G Elluru, Shyan Vijayasekaran

♦ Overview *1393* ♦ Developmental Errors of the Anterior Neuropore *1393*
♦ Developmental Errors of the Central Midface *1396* ♦ Developmental Errors of the Nasobuccal Membrane *1398* ♦ Other Mesodermal and Germline Malformations *1400*

107. Rhinosinusitis in Children 1403
Fuad M Baroody

♦ Clinical Presentation *1403* ♦ Prevalence *1403* ♦ Physical Examination *1404*
♦ Imaging *1404* ♦ Bacteriology *1405* ♦ Comorbidities *1406* ♦ Medical Treatment of ARS *1407*
♦ Medical Treatment of CRS *1408* ♦ Surgical Treatment of Rhinosinusitis *1409* ♦ Complications *1410*

108. Nasal Polyps in Children 1416
Carlos Ruah, Ezequiel Barros
♦ Histopathology *1416* ♦ Pathogenesis *1417* ♦ Clinical Findings *1419* ♦ Treatment *1420*

109. Epistaxis in Childhood 1423
Tania Sih, Marcelo Rain Hernandez
♦ Anatomy *1423* ♦ Etiology *1423* ♦ Clinical Evaluation *1424* ♦ Treatment *1424*
♦ Important Clinical Points *1428*

110. Craniofacial Anomalies 1430
Sharjeel A Shaikh, Chris de Souza
♦ Causes *1430* ♦ Cleft Lip and Cleft Palate *1431* ♦ Craniosynostosis *1432*
♦ Hemifacial Microsomia *1433* ♦ Vascular Lesions *1434* ♦ Deformational Plagiocephaly *1435*

111. Cleft Palate and Velopharyngeal Dysfunction 1437
Gábor Katona, Jenő Hirschberg
♦ Cleft Palate *1437* ♦ Velopharyngeal Dysfunction *1440*

112. Pediatric Maxillofacial Trauma and Facial Fractures 1448
Ann Hermansson
♦ Examination *1448* ♦ Soft-tissue Damages *1449* ♦ Major Traumas *1453* ♦ Antibiotics *1453*
♦ Nonaccidental Injuries *1453* ♦ Special Considerations in Pediatric Fracture Management *1454*

113. Diseases of the Tonsils and Adenoids 1455
Christopher M Discolo, Peter J Koltai
♦ History *1455* ♦ Anatomy *1455* ♦ Immunology of the Tonsils and Adenoids *1456*
♦ Inflammatory and Infectious Diseases of the Tonsils and Adenoids *1456*
♦ Neoplastic Disease of the Tonsils and Adenoids *1462* ♦ Techniques for Tonsillectomy *1462*

114. Obstructive Sleep Apnea in Children 1465
Gopi B Shah, Ron B Mitchell
♦ Definition *1465* ♦ Epidemiology *1465* ♦ Pathophysiology *1466* ♦ History and Physical Examination *1466* ♦ Diagnosis *1467* ♦ Treatment *1468* ♦ Outcomes of AT for OSA *1468*
♦ Evaluation of Persistent Pediatric Sleep Disordered Breathing Postadenotonsillectomy *1469*
♦ Advanced Sleep Surgery *1469*

115. Approach to the Child with Stridor 1474
Douglas R Sidell, Robin T Cotton
♦ Distinguishing Airway Sounds *1474* ♦ Pediatric versus Adult Laryngeal Anatomy *1475*
♦ Clinical Presentation *1475* ♦ Differential Diagnosis *1478*

116. Congenital Malformations of the Larynx and Trachea 1484
Nicolas Leboulanger, Noël Garabedian
♦ Malformations of the Larynx *1484* ♦ Tracheal Malformations *1488*

117. Acquired Pathology of the Larynx and Trachea in Childhood 1492
Lluís Nisa, Philippe Monnier, Kishore Sandu

♦ Background and Epidemiologic Aspects *1492* ♦ Clinical Presentation and Preoperative Workup *1494*
♦ Specific Clinical Forms and Management *1497* ♦ Surgery Outcomes and Follow-up *1507*

118. Voice Disorders in the Pediatric Population 1509
Mara Behlau, Rita Hersan

♦ Considerations on the Pediatric Voice *1510* ♦ Evaluation of Pediatric Voice Disorders *1512*
♦ Treatment of Pediatric Voice Disorders *1513*

119. Speech–Language Development and Related Disturbances in Children 1516
Márcia Keske-Soares, Marizete Ilha Ceron

♦ Final Thoughts *1519*

120. Tracheostomy, Home Care, and Decannulation 1521
Victoria Possamai, Joanne Cooke, David Albert

♦ Indications for Tracheostomy *1521* ♦ Failed Extubation *1521* ♦ Subglottic Stenosis *1521*
♦ Glottic Webs *1522* ♦ Vocal Cord Palsy *1522* ♦ Craniofacial Anomalies *1522*
♦ Papillomatosis *1522* ♦ Airway Hemangioma *1522* ♦ Long-term Ventilation *1523*
♦ Tumor or Compression *1523* ♦ Chronic Aspiration and Bronchial Toilet *1523* ♦ Surgery *1523*
♦ Postoperative Instructions *1524* ♦ Tube Selection *1524* ♦ Complications *1525*
♦ Home Care *1525* ♦ Collaboration with Local Services *1527* ♦ Decannulation *1528*
♦ Tracheocutaneous Fistula *1529*

121. Caustic Ingestion and Foreign Bodies of the Aerodigestive Tract 1530
Javan Nation, Wen Jiang, Seth Pransky

♦ Caustic Ingestion *1530* ♦ Foreign Bodies of the Aerodigestive Tract *1533*

122. Swallowing Disorders in the Child 1541
Cláudia Schweiger, Deborah Salle Levy, Denise Manica

♦ Anatomic and Physiologic Aspects in the Development of Swallowing in Infants *1541* ♦ Etiology *1542*
♦ Clinical Evaluation of Feeding and Swallowing *1544* ♦ Videofluoroscopic Swallowing Study *1545*
♦ Flexible Endoscopic Evaluation of Swallowing *1546* ♦ Treatment of Dysphagia *1547*

123. Congenital Cysts, Fistulae, and Vascular Lesions of the Neck 1551
Jean-Michel Triglia, Eric Moreddu, Richard Nicollas

♦ Laterocervical Malformations *1551* ♦ Malformations of the Midline *1555*
♦ Lymphatic Malformations, Hemangiomas, and Vascular Lesions of the Neck *1556*

124. Acquired Neck Lesions in Pediatric Otolaryngology 1560
Mira Sadadcharam, John Russell

♦ Embryology *1560* ♦ Clinical Assessment *1560* ♦ Investigations *1562*
♦ Inflammatory Lesions of the Head and Neck *1563*

125. Diseases of the Salivary Glands in the Child 1572
Olivier Abboud, Sam J Daniel, Patrick Froehlich
♦ Infectious and Inflammatory Diseases *1572* ♦ Congenital Lesions *1575*
♦ Neoplastic Lesions *1575* ♦ Developmental Disorders *1577*

SECTION 6 FACIAL PLASTIC AND RECONSTRUCTIVE SURGERY 1583–2008

Section Editors: **Peter A Hilger, David A Shaye**

126. Dermal Wound Healing and Skin Closure Fundamentals 1585
Tasneem Shikary, David B Hom
♦ Wound Healing *1585* ♦ Suture *1587* ♦ Surgical Technique and Suture Instruments *1591*

127. Facial Analysis and Anatomy 1595
Helen Bai, Travis T Tollefson
♦ Facial Landmarks and Reference Points *1595* ♦ Facial Height and Width *1595*
♦ Facial Analysis using Angles *1596* ♦ Facial Esthetic Units and Anatomy *1597*

128. Facelift and Necklift 1608
Holger Gassner, Payam Maneschi
♦ Pathophysiology of the Aging Face *1608* ♦ Surgical Anatomy *1610*
♦ Different Rhytidectomy Types *1612* ♦ Surgical Technique *1615*
♦ Postoperative Care *1621* ♦ Complications *1622* ♦ Results *1624* ♦ Discussion *1624*

129. Browlift 1626
Jonathan M Sykes, David Nolen
♦ Periorbital Esthetics *1626* ♦ Patient Assessment *1628* ♦ Preoperative Considerations *1629*
♦ Browlift Approaches *1630* ♦ Complications *1634*

130. Blepharoplasty 1636
Jessyka G Lighthall, Tom D Wang
♦ Patient Consultation *1636* ♦ Anatomy *1637* ♦ Physical Examination *1641* ♦ Additional Evaluation *1644*
♦ Techniques in Blepharoplasty *1645* ♦ Markings *1645* ♦ Complications *1650*

131. Implants 1653
Justin Cohen, Melanie Malone, William Binder, Karan Dhir, Kate McCarn
♦ Alloplastic Materials *1653* ♦ Implants by Anatomic Site *1655* ♦ Upper Face *1655*
♦ Middle Face *1657* ♦ Lower Face *1659*

132. Injectables and Fillers in Facial Plastic Surgery 1664
Roxana Cobo
♦ Botulinum Exotoxin for the Treatment of Hyperfunctional Facial Lines *1664*
♦ Specific Injection Sites *1666* ♦ Side Effects and Complications *1673* ♦ Follow-up *1673*
♦ Volume Replacement in the Aging Face *1673*

133. Skin Resurfacing 1683
J Jared Christophel, James Ridgway

♦ Anatomy *1683* ♦ Skin Aging *1684* ♦ Physiology of Resurfacing *1685*
♦ Dermabrasion *1686* ♦ Chemical Peels *1687* ♦ Lasers *1689* ♦ Complications *1692*

134. Hair Restoration 1696
Samuel M Lam

♦ Preoperative Considerations *1696* ♦ Operative Considerations *1700*
♦ Postoperative Considerations *1709* ♦ Comment *1710*

135. Rhinoplasty Analysis 1712
Alexis Patsias, David A Shaye, Peter A Hilger

♦ Rhinoplasty Analysis *1712* ♦ Nasal-facial Proportions *1712* ♦ Ethnic Variations *1714*
♦ Character of the Skin Envelope *1715* ♦ Frontal Analysis *1715* ♦ Profile Analysis *1717*
♦ Base Analysis *1719* ♦ Intranasal Evaluation *1719* ♦ Analytic Features that are a Warning Sign *1720*

136. Primary Open Rhinoplasty 1722
Benjamin P Caughlin, Dean M Toriumi

♦ Preoperative Assessment *1722* ♦ Preoperative Injection and Preparation *1723*
♦ Incision Planning and Raising the Flap *1723* ♦ Harvesting Septal Cartilage *1724*
♦ Assessing the Nasal Bones and the Need for Osteotomies *1725* ♦ Upper Lateral Cartilages, Middle Vault, and Spreader Grafts *1728* ♦ Nasal Tip Projection, Rotation, and Nasal Length *1729*
♦ Lower Lateral Cartilages *1732* ♦ Contouring and Nasal Tip Grafting *1735*
♦ Nostril Size and Nasal Base Width *1736* ♦ Closing *1737* ♦ Final Comments *1737*

137. Endonasal Rhinoplasty 1740
Pietro Palma, Iman Khodaei

♦ Face-to-face: The First Encounter *1741* ♦ Face-to-face: The Second Consultation *1743*

138. Revision Rhinoplasty 1757
Peter Adamson, Jeremy Warner

♦ Preoperative Assessment and Consultation *1757* ♦ Preoperative Planning *1759*
♦ Intraoperative and Surgical Techniques *1759* ♦ Correcting Functional Problems in Revision Rhinoplasty *1760*
♦ Correcting Esthetic Problems in Revision Rhinoplasty *1761* ♦ Revision Osteotomies *1765*
♦ General Dorsal Irregularities *1767* ♦ Use of Fillers in Revision Rhinoplasty *1767*
♦ Postoperative Care *1767*

139. Functional Nasal Surgery and Nasal Septal Perforations 1769
Stephen S Park

Functional Nasal Surgery *1769*

♦ Relevant Anatomy *1769* ♦ Physiology of Airflow *1770* ♦ Etiology *1770*
♦ Preoperative Evaluation and Diagnosis *1771* ♦ Management *1772*

Nasal Septal Perforations *1778*

♦ Pathophysiology *1778* ♦ Etiology *1779* ♦ Clinical Evaluation *1779*
♦ Management *1779*

140. Soft-tissue Injuries 1783
Samuel L Oyer, Michael W Moore, Krishna G Patel
♦ Evaluation *1783* ♦ Techniques *1784* ♦ Types of Injury *1787* ♦ Zones of Injury *1791*
♦ Special Considerations *1797* ♦ Complications *1802*

141. Facial Fractures 1805
Thomas S Lee, Raja Sawhney, Yadranko Ducic
♦ Mandible Fractures *1808* ♦ Zygomaticofacial Fractures *1818* ♦ Orbital Floor Fractures *1822*
♦ Naso-orbitoethmoid Fractures *1825* ♦ Frontal Sinus Fractures *1827* ♦ Le Fort Fractures *1829*
♦ Panfacial Fractures *1831*

142. Cleft Lip 1835
David A Shaye, Timothy A Lander
♦ Epidemiology *1835* ♦ Anatomy and Embryology *1835* ♦ Classification *1837*
♦ Diagnosis and Preoperative Care *1839* ♦ Repair of the Cleft Lip *1840*
♦ Unilateral Cleft Lip Repair *1842* ♦ Bilateral Cleft Lip Repair *1845* ♦ Postoperative Cleft Lip Care *1845*
♦ Cleft Complications and Revisions *1845* ♦ Cleft Rhinoplasty *1846* ♦ Evidence-based Medicine *1846*

143. Cleft Palate and Velopharyngeal Dysfunction 1848
David A Shaye, Timothy A Lander
♦ Epidemiology *1848* ♦ Anatomy and Embryology *1848* ♦ Classification *1851*
♦ Diagnosis and Preoperative Care *1851* ♦ Palatoplasty *1852* ♦ Speech Surgery *1856*
♦ Postoperative Care *1857* ♦ Complications *1857*

144. Craniofacial Surgery 1859
Rosser Powitzky, Colin A Neumann, Robert Tibesar
♦ Historical Perspective *1859* ♦ Facial Growth and Development *1859* ♦ Syndromes *1860*
♦ Craniosynostosis *1866* ♦ Facial Clefts *1874* ♦ Hypertelorism *1877*

145. Auricular Construction for Microtia and Otoplasty 1882
Akira Yamada
♦ Embryology *1882* ♦ Incidence *1882* ♦ Diagnosis *1882* ♦ Historical Background *1885*
♦ Total Auricular Construction in Microtia: The Author's Method *1887*
♦ Prominent Ear—Traditional Otoplasty *1914* ♦ Surgical Techniques *1915*

146. Vascular Anomalies 1918
Lisa Buckmiller
♦ Classification *1918* ♦ Etiology *1919* ♦ Diagnosis *1919* ♦ Treatment *1923*
♦ Special Cases *1930* ♦ PHACES Syndrome *1930*

147. Skin Grafts and Minimally Invasive Closure Techniques 1933
Ashley E Wenaas, K Kelly Gallagher, Anthony E Brissett
♦ Vascularization of Skin Grafts *1933* ♦ Split-thickness Skin Graft *1933*
♦ Full-thickness Skin Graft *1935* ♦ Composite Grafts *1936* ♦ Acellular Dermal Matrix *1937*
♦ Minimally Invasive Closure *1938*

148. Local Flaps 1941
Shan R Baker
♦ Local Flap Classification *1942* ♦ Defect Analysis *1956* ♦ Preferred Flaps *1957*

149. Regional Flaps and Tissue Expanders 1966
JH Clarke, A Kochlar, PJ Byrne
♦ Regional Flaps *1966* ♦ Tissue Expansion *1975*

150. Free-tissue Transfer 1979
Colin A Neumann, Samir S Khariwala
♦ History of Head and Neck Reconstruction *1979*

151. Facial Reanimation 1994
Kofi Boahene, James A Owusu
♦ Evaluation *1994* ♦ Reanimation Techniques *1995* ♦ Timing of Intervention *1995*
♦ Functional Muscle Transfer *2002* ♦ Free-muscle Transfer *2003* ♦ Static Procedures *2004*
♦ Platysma Hypercontracture *2006* ♦ Adjunctive Technique and Therapy *2006*
♦ Selective Neurectomy *2006*

Index 2009
