Contents

1. Introduction to Minimally Invasive Spine Surgery **1**

Kern Singh, Alejandro Marquez-Lara, Sreeharsha V Nandyala, Alexander R Vaccaro

- Principles and Patient Selection for MISS *1*
- Anatomic and Physiologic Considerations with MISS *3*
- Hospital Costs Associated with MISS *5*
- Anesthesia Techniques and Postoperative Analgesia in MISS *6*

2. Retractor Systems in Minimally Invasive Spine Surgery **9**

Sreeharsha V Nandyala, Mark F Kurd, Kern Singh

- Anatomic Considerations *9*
- Types of Retractors *12*

3. Minimally Invasive Posterior Cervical Foraminotomy **19**

Alejandro Marquez-Lara, Alpesh A Patel, Kern Singh

- Case Vignette *19*
- Diagnostic Imaging *19*
- Surgical Indications *20*
- Instrumentation *20*
- Positioning and Intraoperative Setup *21*
- Procedure Specific Steps *22*
- Postoperative Care *24*
- Expected and Adverse Outcomes *24*

4. Minimally Invasive Posterior Cervical Laminectomy and Fusion **27**

Sreeharsha V Nandyala, Damandeep Singh Makkar, Alpesh A Patel

- C1–C2 Fusion *27*
- Surgical Anatomy *30*
- Procedure-Specific Steps *30*
- Subaxial Laminectomy and Fusion *34*
- Surgical Indications for Cervical Subaxial Fusion *35*
- Instrumentation *35*
- Surgical Techniques *36*
- Subaxial Cervical Fusion *38*
- Procedure-specific Steps—Subaxial Lateral Mass Screw-rod Construct *38*
- General Postoperative Care for Posterior MIS Cervical C1–C2 Fusion, Subaxial Laminectomy and Subaxial Fusion *42*

5. Percutaneous Pedicle Screw Placement **45**

Alejandro Marquez-Lara, Thomas D Cha, Kern Singh

- Case Vignette *45*
- Diagnostic Imaging *45*
- Surgical Indications *46*
- Instrumentation *47*
- Procedure-specific Steps *48*
- Postoperative Care *51*
- Expected and Adverse Outcomes *52*

6. Minimally Invasive Lateral Retropleural Approach for Thoracic Discectomy and Corpectomy **55**
Kern Singh, Sreeharsha V Nandyala, Damandeep Singh Makkar, Alexander R Vaccaro
- Case Vignette *56*
- Diagnostic Imaging *56*
- Surgical Indications *56*
- Instrumentation *57*
- Positioning and Intraoperative Setup *58*
- Surgical Anatomy and Exposure *59*
- Procedure-specific Steps—Thoracic Discectomy *60*
- Procedure-specific Steps—Thoracic Corpectomy *61*
- Postoperative Care *62*
- Expected and Adverse Outcomes *63*

7. Percutaneous Cement Augmentation **65**
Alejandro Marquez-Lara, Daniel K Park
- Case Vignette *65*
- Diagnostic Imaging *65*
- Surgical Indications *66*
- Positioning and Intraoperative Setup *67*
- Surgical Anatomy *67*
- Procedure-specific Steps *69*
- Complications *72*
- Expected and Adverse Outcomes *72*

8. Minimally Invasive Lumbar Discectomy **75**
Sreeharsha V Nandyala, Gabriel Duhancioglu, Daniel D Bohl, Kern Singh
- Case Vignette *75*
- Diagnostic Imaging *75*
- Surgical Indications *76*
- Instrumentation *76*
- Positioning and Intraoperative Setup *76*
- Lumbar Discectomy *77*
- Procedure-specific Steps—Lumbar Discectomy *78*
- Far-lateral Lumbar Discectomy *79*
- Procedure-specific Steps—Far-lateral Lumbar Discectomy *80*
- Postoperative Care *82*
- Expected and Adverse Outcomes *82*

9. Minimally Invasive Transforaminal Lumbar Interbody Fusion **85**
Alejandro Marquez-Lara, Junyoung Ahn, Kern Singh
- Case Vignette *85*
- Diagnostic Imaging *85*
- Surgical Indications *86*
- Instrumentation *87*
- Positioning and Intraoperative Setup *87*
- Surgical Anatomy and Exposure *88*
- Procedure-specific Steps *88*
- Postoperative Care *93*
- Expected and Adverse Outcomes *94*

10. Minimally Invasive Lateral Lumbar Interbody Fusion **97**

Sreeharsha V Nandyala, Branko Skovrlj, Sheeraz A Qureshi, Kern Singh

- Case Vignette *97*
- Diagnostic Imaging *97*
- Surgical Indications *98*
- Instrumentation *99*
- Positioning and Intraoperative Setup *100*
- Surgical Anatomy and Exposure *101*
- Procedure-specific Steps *103*
- Postoperative Care *105*
- Expected and Adverse Outcomes *106*

11. Mini-Open Anterior Lumbar Interbody Fusion **109**

Alejandro Marquez-Lara, Branko Skovrlj, Sheeraz A Qureshi, Kern Singh

- Case Vignette *109*
- Diagnostic Imaging *110*
- Instrumentation *111*
- Positioning and Intraoperative Setup *111*
- Surgical Anatomy and Exposure *112*
- Postoperative Care *115*

12. Axial Lumbar Interbody Fusion **119**

Sreeharsha V Nandyala, Rahul Kamath, Kern Singh

- Case Vignette *119*
- Diagnostic Imaging *119*
- Surgical Indications *121*
- Instrumentation *121*
- Positioning and Intraoperative Setup *122*
- Surgical Anatomy and Exposure *122*
- Procedure-specific Steps *124*
- Postoperative Care *127*

13. Minimally Invasive Spine Deformity Correction **131**

Kern Singh, Neel Anand, Alejandro Marquez-Lara, Safdar N Khan

- Case Vignette *132*
- Principles of Minimally Invasive Deformity Correction *132*
- Diagnostic Imaging *132*
- Magnetic Resonance Imaging *133*
- Computed Tomography (CT) *134*
- Surgical Techniques *136*

14. Minimally Invasive Spinal Tumor Resection **141**

Kern Singh, Sreeharsha V Nandyala, Hamid Hassanzadeh, Alexander R Vaccaro

- Case Vignette *141*
- Principles of Minimally Invasive Spinal Tumor Resection *141*
- Diagnostic Imaging *142*
- Surgical Indications *142*
- Surgical Decision Making *143*
- The Surgical Approach *144*
- The Role of Vertebral Body Cement Augmentation—Kyphoplasty and Vertebroplasty *145*

15. Minimally Invasive Surgery for Spinal Trauma **149**

Alpesh A Patel, Alejandro Marquez-Lara, Hamid Hassanzadeh, Kern Singh

- Case Vignette *149*
- Principles of Minimally Invasive Surgery for Spinal Trauma *150*
- Diagnostic Imaging *150*
- Surgical Indications *151*
- Surgical Decision Making *151*
- Surgical Techniques *152*
- Rod Placement *154*
- Minimally Invasive Lateral Corpectomy and Cage Placement *154*

16. Minimally Invasive Bone Grafts and Osteobiologics **157**

Sreeharsha V Nandyala, Kris B Siemionow, Kern Singh

- Case Vignette *157*
- Principles of Lumbar Interbody Fusion *157*
- Implant Characteristics that Promote Spinal Fusion *158*
- Bone Grafts *160*
- Bone Graft Substitutes and Osteobiologics *161*

Index *165*
