Contents

Section 1: Stem Cells

1. **Tissue Engineering with Adipose-Derived Stem Cells (ADSCs) in Plastic and Reconstructive Surgery: Current and Future Applications** 3
   Aris Sterodimas
   - Technique *3*
   - Discussion *9*

Section 2: Liposuction

2. **Liposuction for Chronic Lymphedema of the Upper Limb** 15
   Mark V Schaverien, D Alex Munnoch
   - Background *15*
   - Preoperative Assessment and Inclusion Criteria *15*
   - Liposuction Technique *15*
   - Postoperative Care *16*
   - Patient Demographics *16*
   - Limb Volume Outcomes *16*
   - Psychological Outcomes *17*
   - Discussion *19*

Section 3: Head and Neck

3. **Vaser-Assisted Minimally Invasive Neck–Chin Lift** 25
   Alberto Di Giuseppe, George Commons
   - Guidelines for Vaser-Assisted Neck Contouring *25*
   - Technique *25*
   - Postoperative *27*
   - Procedure *27*
   - Clinical Cases *27*
4. **Endoscopically Assisted Temporalis Muscle Transfer Harvesting for Orbit Reconstruction** 38
   Riccardo Girotto, Marco Messi, Paolo Balercia
   - Anatomical Basis *38*
   - Surgical Technique *38*
5. **Augmentation Rhinoplasty** 44
   José Guerrerosantos
   - Cartilage Grafts in Rhinoplasty *44*
   - Clinical Cases *46*
   - Multiple Ways to use Fascia Graft in Aesthetic Rhinoplasty *48*
   - Rolled Fascia Graft *51*
   - Clinical Cases *52*
   - Cartilaginous Spreader Grafting *56*

- Fragmented Cartilage Graft Wrapped with Fascia in Primary Rhinoplasty *60*
- Fragmented Cartilage Wrapped with Fascia in Secondary Rhinoplasty *68*
- Case of Deformed Dorsum due to Application of Cartilage Graft in a Very Superficial Cavity *68*
- Clinical Case *69*
- Patients with Depressed Dorsum due to Excessive Resection in the Nose's Back in Primary Aesthetic Rhinoplasty *70*
- Clinical Cases *70*

6. Total Resection of the Alar Cartilages and Temporal Fascia Technique in Rhinoplasty 77
Salvador Rodríguez-Camps Devís
- Technique *83*
- Results *92*
- Discussion *92*

7. Correction of Auricular Deformities after Failed Otoplasty 95
Alexander Berghaus
- Analysis of Deformities after Otoplasty *95*
- Undercorrection *95*
- Overcorrection *96*
- Distorted Proportions *97*
- Formation of Edges *97*
- Deformities with Skin Defects *98*
- Deformities with Loss of Cartilage and Skin *100*

8. Focal Nerve Lesions with a Monopolar Radiofrequency Device for Cosmetic Enhancement 102
Diane I Duncan, Doug McBurney, Brian Kinney
- The Device *102*
- Safety *102*
- History *103*
- History of Cosmetic Nerve Ablation *103*
- Anatomy *104*
- Potential Use for Brow Lifting *105*
- Technique: Treatment Protocols on Label *105*
- Case Studies *106*

Section 4: Breast

9. Stem Cell Fat Transfer for Mastoplasty using Vaser Ultrasound and Office Devised Stem Cell 113
Alberto Di Giuseppe, Dennis Wolf
- Stem Cell Niche Therapy using Adipose Tissue *114*
- Patient Selection *116*
- Patient Assessment *116*
- Selection of Anesthesia *116*
- Incisions for Infiltration *120*
- Levels of Infiltration *120*
- Method of Infiltration *120*
- Volume Ranges *121*
- Donor Areas for Fat Harvesting *121*
- Technique *123*
- Breast Fat Augmentation *124*
- Limits of Technique *127*
- Complications *129*

10. "Scarless" Mastopexy: Using Heat-Mediated Tissue Tightening to Lift the Breast **136**
Diane I Duncan
- Evolution of Technique *136*
- Technique *136*
- Results *137*
- Asymmetry Treatment *139*
- The Modest Result *139*
- Discussion *140*
- Complications *142*

11. Inverted "T" Superior Pedicle Technique with Inferior-Based Dermal Adipose Flap for Reduction Mammaplasty **144**
Paolo Persichetti, Pierfranco Simone, Carlo Carusi
- Patient Selection *144*
- Surgical Procedure *145*
- Postoperative Care *148*
- Complications *148*

12. A Novel Approach in Male Breast Contouring after Massive Weight Loss: The Central Pedicled Breast Reduction Technique **152**
Alexander Stoff, Fernando Velasco-Laguardia, Dirk F Richter
- Preoperative Management *152*
- Preoperative Marking *152*
- Surgical Technique *154*
- Discussion *157*

Section 5: Body

13. Perforator Flaps for Pressure Sore Treatment **163**
Luca Grassetti, Matteo Torresetti, Matteo Gioacchini, Manuela Bottoni, Alessandro Scalise, Giovanni Di Benedetto
- Preoperative and Postoperative Management *164*
- Superior Gluteal Artery Perforator Flap *164*
- Inferior Gluteal Artery Perforator Flap *166*
- Posterior Thigh Perforator Flaps *170*
- First and Second Perforator of the Profunda Femoris Artery Perforator Flap *170*
- First Medial Perforator of the Profunda Femoris Artery Perforator Flap or Adductor Flap *172*
- Authors' Procedure Technique and Results *176*
- Results *179*
- Discussion *180*

14. Gluteal Perforator Flaps for Coverage of Pressure Sores **186**
O Koray Coskunfirat, Anı Cinpolat
- Gluteal Vascular Anatomy *187*
- Superior Gluteal Artery Perforator *187*
- Inferior Gluteal Artery Perforator *187*
- Preoperative Preparation *188*
- Surgical Technique *188*
- Postoperative Care *190*

15. Using Radiofrequency Energy for Heat-Mediated Tissue Tightening: Minimally Invasive and Noninvasive Modalities **191**
Diane I Duncan, Anna Petropoulos, Brian Kinney, Karen S Harkaway, R Stephen Mullholland
- RF Basics *191*
- Technique *194*

- Noninvasive RF Devices *199*
- Reaction Device by Viora *202*
- Reaction Device and RF Energy Applicators *203*
- Endymed RF Device *204*

Section 6: Extremities

16. Carpal Tunnel Syndrome **213**

Cristina Isac, Aurelia Isac, Florin Isac

- Definition and Anatomy *213*
- Symptoms *213*
- Examination *213*
- Types of Treatment *214*
- Surgical Treatment *214*
- Endoscopic Carpal Tunnel Release *216*
- Postoperative Care *216*
- Complications *216*
- Prognosis *218*

17. Improved Double Fusiform Resection Technique for Postbariatric Brachioplasty **219**

Miguel L Modolin

- Surgical Technique *219*
- Complications *222*

18. Body Dysmorphic Disorder **226**

Melvin A Shiffman

- Symptoms *226*
- Consequences of BDD *226*
- Associated Disorders *227*
- Etiology *227*
- Screening Tools for BDD *227*
- Treatment *228*
- Discussion *228*

Index *231*
