CONTENTS 1

By Case Scenario

M = Module number

T = Tutorial number

Case Scenarios	Tutorial
1. Difficulty in Swallowing	M1T5; M2T1; M3T3
2. Heartburn	M1T5; M2T1
3. Indigestion	M1T6; M3T3
4. Indigestion and Weight Loss	M1T6; M2T1
5. Painful Jaundice	M1T7; M2T2; M3T4
6. Jaundice and Weight Loss	M1T7; M2T2; M3T5
7. Jaundice Fever and Rigors	M1T7; M3T4
8. Acute Abdominal Pain	M1T1; M1T6; M1T8; M1T20; M2T4; M3T3; M3T5; M3T8
9. Chronic Abdominal Pain	M1T6; M3T5
10. Acute Abdominal Pain and Collapse	M2T5
11. Rectal Bleeding and Change in Bowel Habit	M1T9; M2T3; M3T6
12. Rectal Bleeding and Anal Symptoms	M1T10; M3T6
13. Vomiting Blood	M3T14
14. Diarrhea and Rectal Bleeding	M3T16
15. Diarrhea and Abdominal Pain	M3T16
16. Lump in Breast	M1T4; M1T11; M2T7; M3T2
17. Nipple Discharge/Painful Breast /Soreness of Nipple	M1 T11; M2T7;
18. Blood in Urine	M1T2; M1T12; M3T12
19. Difficulty in Passing Urine	M1T2; M2T8; M3T12
20. Loin Pain	M1T2; M1T13; M2T13; M3T10
21. Swelling in Scrotum	M1T13; M2T9; M3 T11
22. Painful Scrotum (Child and Adult)	M2T9; M3T11

23.	Non-palpable Testis (Child)	M3T11
24.	Tight Foreskin	M3T11
25.	Head Injury	M1T16; M3T17
26.	Motor Vehicle Accident	M3T17
27.	Postoperative Pyrexia	M1T17
28.	Postoperative: Wound Pain, Chest Pain, Abdominal Pain, Leg Pain, Wound Discharge Vomiting, Constipation, Breathlessness, Low Urine Output	M1 T18
29.	Passing Blood with Low Blood Count Postoperative Anemia Reaction to Blood Transfusion	M1T19
30.	Pain in Calf on Walking	M1T3; M1T14; M3T7
31.	Acutely Painful Lower Limb	M1T14; M2T5; M3T7
32.	Postoperative Pain in Calf (DVT)	M1T17; M2T5
33.	Ulcer on Leg	M1T15; M2T12; M3T9
34.	Swollen Leg	M3T9
35.	Varicose Veins	M2T12; M3T9
36	Lump in Neck	M1T4; M1T21; M2T6; M3T1
37.	Lump in Groin	M1T22; M3T15
38.	Burns	M2T10
39.	Fluid and Electrolytes	M2T11; M3T13
40.	Postoperative Intestinal Leak (Fistula)	M3 T13

CONTENTS 2

Module 1 History and Examination				
Tutorial	*Symptom/Sign/Topic*	*System*	*Page no.*	
			Questions	*Answers*
M1.1	Symptoms and signs of gastrointestinal (GI) diseases	Gastrointestinal	1	38
M1.2	Symptoms and signs of urological diseases	Urology	2	41
M1.3	Symptoms and signs of vascular diseases	Vascular	2	42
M1.4	Symptoms and signs of endocrine diseases	Endocrine	3	44
M1.5	Difficulty in swallowing: Cancer of esophagus; Achalasia Heartburn: GERD	Upper gastrointestinal	3	46
M1.6	Indigestion: Duodenal ulcer Acute abdominal pain; Perforated duodenal ulcer Abdominal pain and weight loss: Gastric cancer	Upper gastrointestinal	6	49
M1.7	Jaundice: Obstructive Gallstones (acute cholecystitis) Cholangitis Pancreatic cancer	Hepatobiliary	9	51
M1.8	Abdominal pain: Acute pancreatitis Chronic pancreatitis	Gastrointestinal	11	53
M1.9	Rectal bleeding: Colorectal cancer	Lower gastrointestinal	12	55
M1.10	Rectal bleeding: Hemorrhoids Fissure *in ano*	Minor anorectal	14	58
M1.11	Lump in breast: Cancer of breast Lump in breast: Fibroadenoma Pain in breast: Cyclical mastitis	Endocrine	15	61
M1.12	Blood in urine: Cancer of kidney	Urology	16	63
M1.13	Loin pain: Pyelonephritis/hydronephrosis scrotal swelling: Hydrocele	Urology	17	65
M1.14	Calf pain (chronic): Intermittent claudication Leg pain (acute onset): Ischemic limb	Vascular	19	68
M1.15	Leg ulcer: Varicose ulcer 'Infected' foot: Diabetic foot	Vascular	21	72
M1.16	Head injuries: Road traffic accident Boy falls out of tree; extradural hematoma Confused old lady: Chronic subdural hematoma	Neurosurgery	24	73
M1.17	Preoperative assessment and postoperative complications (1)	General surgery	25	76
M1.18	Postoperative complications (2)		29	82
M1.19	Blood transfusion: Passing blood and low blood count Low postoperative hemoglobin Low hemoglobin after RTA Transfusion reaction	Blood transfusion	30	88
M1.20	Acute abdomen: Pain/vomiting/abdominal distension (obstruction) Acute abdomen: Core knowledge	Gastrointestinal	33	91
M1.21	Lump in thyroid gland: Solitary thyroid nodule	Endocrine	35	93
M1.22	Swelling in groin: Inguinal hernia communication skills: Consent for hernia operation	General surgery	36	95

Module 2 Investigations/Differential Diagnosis/Basic Management				
Tutorial	*Symptom/Sign/Topic*	*System*	*Page no.*	
			Questions	*Answers*
M2.1	Difficulty in swallowing: Cancer of esophagus Difficulty in swallowing: Achalasia Heartburn: GERD Abdominal pain and weight loss: Cancer of stomach; patient consent for upper GI endoscopy	Upper gastrointestinal	100	152
M2.2	Abdominal pain and jaundice: Gallstones Jaundice, abdominal pain, weight loss: Cancer of pancreas Communication skills: Consent for ERCP	Hepatobiliary Pancreas	104	156
M2.3	Rectal bleeding, change in bowel habit : Cancer colon and rectum Patient consent for colonoscopy Patient consent for anterior resection of rectum	Lower gastrointestinal	108	160
M2.4	Acute abdominal pain: Pain in young female: appendicitis Large bowel obstruction	Acute abdomen	112	165
M2.5	Abdominal pain and collapse: Abdominal aortic aneurysm Sudden onset calf pain: DVT Sudden onset leg pain: Ischemic leg	Vascular	116	167
M2.6	Swelling in neck: Thyroid adenoma Neck swelling and weight loss: Lymphoma Patient consent for FNAC Patient consent for hemi-thyroidectomy	Thyroid/Neck	120	171
M2.7	Nipple discharge: Intraduct papilloma Nipple soreness Paget's disease, duct ectasia Acute breast pain: Abscess Breast lump: Fibroadenoma Cyclical breast pain: Fibrocystic disease	Breast	124	174
M2.8	Difficulty in passing urine: Benign prostatic hypertrophy Difficulty in passing urine: Prostatic cancer how to perform a rectal examination patient consent for bladder catheterization	Urology	127	176
M2.9	Pain in testis: Torsion of testis Swelling in scrotum: Hydrocele Pain in testis: Testicular tumor	Urology	130	179
M2.10	Scald: Thermal burn patient in house fire: Severe burns; Electric burn	Burns	132	183
M2.11	Perioperative fluid and electrolyte balance Please write up IV charts, doctor	Fluid and electrolytes	135	186
M2.12	Painful legs: Varicose veins Ulcer on leg: Varicose ulcer	Vascular	147	190
M2.13	Loin pain: Ureteric calculus	Urology	149	194

Module 3 Management and House Officer/Intern Tasks				
Tutorial	*Symptoms/Signs/Topic*	*System/organ*	*Page no.*	
			Questions	*Answers*
M3.1	Lump in neck: Solitary thyroid swelling Lump in neck: Multinodular goiter Lump in neck: Parotid tumor, submandibular swelling patient consent: Thyroidectomy	Endocrine	197	249
M3.2	Lump in breast: Cancer Lump in breast: advanced and recurrent breast cancer how to record clinical findings of a breast lump patient consent: mastectomy	Endocrine	200	250
M3.3	Difficulty in swallowing: Cancer esophagus Indigestion: Duodenal ulcer Acute abdominal pain: Perforated duodenal ulcer patient consent: upper G/I endoscopy consent for emergency laparotomy writing a prescription for drugs reading CVP manometer	Upper gastrointestinal	203	252
M3.4	Jaundice and gallstones: Cholecystectomy jaundice, fever and rigors: Cholangitis	Hepatobiliary	207	257
M3.5	Jaundice and weight loss: Cancer of pancreas Chronic abdominal pain: Chronic pancreatitis Acute abdominal pain: Acute pancreatitis	Panceas	207	259
M3.6	Rectal bleeding: Colorectal cancer Postoperative fever: Anastomotic leak Pain on defecation: Fissure in ano Perianal pain: Anal abscess Perianal soreness: Fistula in ano and pruritus ani Stoma complications Anal cancer; Rectal prolapse; Pilonidal sinus prescribing preoperative drug prophylaxis; marking a stoma	Lower gastrointestinal Minor anorectal	210	261
M3.7	Calf pain: Claudication Acutely painful leg: PVD; Arterial embolus Communication skills: Explanation of PVD and consequences	Vascular	216	265
M3.8	Acute RUQ abdominal pain: Cholecystitis Acute LLQ abdominal pain: Diverticulitis Colicky abdominal pain: Small bowel obstruction	Gastrointestinal	219	268
M3.9	Varicose veins Leg ulcer: Varicose ulcer Swollen leg; Lymphedema obtaining consent: vv operation	Vascular	223	272
M3.10	Acute loin pain: Renal stones drug prescription for pain	Urology	225	276
M3.11	Painful scrotum: Epididymitis; Scrotal gangrene Enlarged testis: Testicular tumor Difficulty with intercourse: Phimosis Scrotal ache: Varicocele Absent testis (infant) communication skills: explaining testicular cancer to patient communication skills: explaining retractile testis to a mother	Urology	227	278

Tutorial	*Symptoms/Signs/House/Topic*	*System/organ*	*Page no.*	
			Questions	*Answers*
M3.12	Difficulty in passing urine: Benign prostatic hypertrophy Difficulty in passing urine: Cancer of prostate Painless hematuria: Bladder cancer patient consent: cystoscopy TUPR	Urology	230	281
M3.13	Postoperative pain: Leaking anastomosis Fecal fistula writing up IV fluid chart writing a patient discharge summary	Gastrointestinal Fluid and electrolytes Nutrition	231	285
M3.14	Vomiting blood: Duodenal ulcer Esophageal varices establishing IV line inserting a Sengstaken tube	Upper gastrointestinal	238	291
M3.15	Irreducible groin swelling communication skills: speaking to the Anesthetist preparing a patient for theater scrubbing up in theater patient consent: hernia operation	Hernia	240	296
M3.16	Diarrhea and rectal bleeding: Ulcerative colitis Diarrhea and abdominal pain: Crohn's disease communication skills: speaking to a distressed patient	Gastrointestinal	242	298
M3.17	Motor vehicle accident: Multiple trauma Pneumothorax Splenic rupture Fractured leg Head injury (child) performing a primary survey performing a secondary survey practical assessment of the Glasgow Coma Score post-splenectomy prescribing	Trauma/orthopedics	245	302
