Section 1 INTRODUCTION
1. General Introduction: Parasitology

Section 2 PROTOZOOLOGY
2. Introduction to Protozoa
3. Amoeba
4. Flagellates—I (Intestinal and Genital)
5. Flagellates—II (Hemoflagellates)
6. Apicomplexa—I (Malaria parasite and Babesia)
7. Apicomplexa—II (Opportunistic Coccidian Parasites)
8. Miscellaneous Protozoa

Section 3 HELMINTHOLOGY
9. Introduction to Helminths
10. Cestodes
11. Trematodes or Flukes
12. Nematodes—I (Intestinal Nematodes)
13. Nematodes—II (Nematodes of Lower Animals that Rarely Infect Man)
14. Nematodes—III (Somatic Nematodes)

Section 4 MISCELLANEOUS
15. Laboratory Diagnosis of Parasitic Diseases
16. Medical Entomology

Appendices
Appendix I Clinical syndromes in parasitology
Appendix II Relative size of morphological forms of parasites
