CONTENTS

1. Anatomy of the Uterus 1
María Alejo Sánchez, Joan Carles Ferreres Piñas, Josefina Autonell Reixach
Gross anatomy 2, Endomyometrial specimens 2, Uterine pathology epithelial endometrial lesions 4, Mesenchymal tumors 6, Mixed Müllerian tumors 7, Endometrial metastasis from extrauterine tumors 8

2. Maintenance of the Set of the Hysteroscopy Instruments 11
Concepción García-Zarza, Pilar Arranz-García, Nuria de Argila Fernandez-Durán
Introduction 12, The first phase of the managing of the set of hysteroscopy instruments in the operating room 12

3. Office Hysteroscopy: Indications and Contraindications 23
Tirso Pérez-Medina, Enrique Iglesias Goy
Technique 24, Specific complications 27, Indications for office hysteroscopy 28

4. The Role of Ultrasonography, Doppler Ultrasonography, 3D Ultrasonography, Hysterosonography, Magnetic Resonance Imaging and Hysterosalpingography in the Detection of Intrauterine Anomalies 35
Tirso Pérez-Medina, Francisco Salazar Arquero, Miguel-Angel Huertas
Transvaginal ultrasonography 36, Doppler ultrasonography 39, 3D ultrasonography 41, Hysterosonography 44, Magnetic resonance imaging 47, Hysterosalpingography 49

5. Hysteroscopy and Infertility 53
Tirso Pérez-Medina, Jennifer Rayward
Hysteroscopy in infertility 55, Hysteroscopy in recurrent pregnancy loss 62

6. Endometrial Hyperplasia and Hysteroscopical Diagnosis 69
Jesus S Jimenez, Carmen Alvarez, Cristina Gonzalez Macho
Gregorio Lopez Gonzalez, Carmen Guillen Gamez
Endometrial hyperplasia 70, Clinic 70, Diagnostic imaging 70, Hysteroscopical diagnosis of hyperplasia 72

7. Hysteroscopy and Endometrial Carcinoma 75
Enrique Cayuela Font, Juncal Pineros Manzano, Purificación Regueiró Espin, Alberto Puig Menem
Introduction 77, Diagnosis of endometrial cancer 77

8. Instrumentation and Distension Media in Diagnostic and Surgical Hysteroscopy ... 85
Enrique Cayuela Font, Sonia Moros, Josep Grau Galtes
Instrumentation 86, Distension media 91, Distension systems 92

9. Basic Principles of Electrosurgery 95
Tirso Pérez-Medina
Basic electricity 96, Bipolar electrosurgery 98, Clinical correlation 99, Risks of electrosurgery 101

10. Hysteroscopic Myomectomy 103
Ramón Cos Plans, Enrique Cayuela Font, Federico Heredia Prim
Clinical signs of submucous myoma 104, Treatment of submucous myoma 105, Preoperative evaluation 105, Preoperative preparation 108, Anesthesia 110, Results 112, Complications 113

11. Hysteroscopic Treatment of the Symptomatic Septate Uterus 117
Rafael F Valle
Introduction 118, Uterine anomalies (septum) 118

12. Endometrial Polyps 125
Tirso Pérez-Medina
Pathogenesis 126, Histopathology 127, Diagnosis 130, Management 131, Treatment 132

13. Hysteroscopic Techniques for Endometrial Ablation 137
Tirso Pérez-Medina, Mar Rios Vallejo
Indications 138, Contraindications 138, Patients counseling 139, Preoperative assessment 139, Anesthesia 139, Recommendations 140, Technique 141, Loop endometrial resection 142, Rollerball endometrial ablation 143, Evolution and normal postoperative follow-up 144, Specific complication 144, Postoperative complications 145

14. Hysteroscopic Tubal Sterilization Essure™ System 151
Enrique Cayuela Font, Federico Heredia Prim, Ramón Cos Plans, Sonia Moros
Description of system 152, Application 154, Recommendations 157, Complications 159, Experience 160, Results of multicentric studies 161, Other informations and applications 162

15. Complications in Hysteroscopy 167
Federico Heredia Prim, Enrique Cayuela Font, Ramón Cos Plans
Diagnostic hysteroscopy 168, Surgical hysteroscopy 171

16. Transcervical Embryoscopy 179
Tirso Pérez-Medina, Jennifer Rayward
Development of the technique 180, Material and methods 181, Findings 182, Indications for transcervical embryoscopy 187

17. Hysteroscopic Treatment of Intrauterine Adhesions 191
Rafael F Valle
Diagnosis 192, Methods of treatment 192, Postoperative adjunctive therapy 195, Diagnosis and classification 196

18. Anesthesia in Hysteroscopy 199
Teresa Tijero, Marta De Vicente
Indications for anesthesia in hysteroscopy 200, Hysteroscopy setting 201, Anesthetic techniques 202, Anesthetic management of complications 206
