CONTENTS

1. **Abdominal Distension** 1
Common 1; CBC 2; ESR 2; Urinalysis 2; Stools 2; LFTs 2; AXR 2; US Abdomen/Pelvis 2; Tuberculin or PPD and Casino's Test 3; Serum Lipase 3; CT/MRI Scan 3; MRI Angiography 3; Diagnostic Paracentesis 3; Laparoscopy with Biopsy 3; Exploratory Laparotomy 3; Functional GI Disorders (FGIDs) 4; Meigs Syndrome 5; Proctalgia Fugax 5; Rumination Syndrome 5; Spontaneous Bacterial Peritonitis (SBP) 6

2. **Abdominal Pain** 7
Common 10; Occasional 10; Rare 10; CBC 10; ESR 10; Urinalysis 10; Fecal Occult Blood 10; Blood Glucose 10; LFTs, Amylase, Lipase 11; Urea, Creatinine, Electrolytes 11; ECG 11; Pregnancy Test 11; US Abdomen 11; HRCT Scan 11; MRI 11; Endoscopy 11; CXR—Upright View 12; AXR 12; Magnetic Resonance Cholangiopancreatography (MRCP) 12; Endoscopic Ultrasound (EUS) 12; Radionuclide Scans 12; Angiography 12; Other Imaging 12; FNAC and Biopsy 13; Paracentesis 13; Laparoscopy 13; Surgical Exploration 13

3. **Amenorrhea** 18
Primary Amenorrhea 19; Occasional 19; Rare 19; Secondary Amenorrhea 19; Pregnancy Test 19; US of Pelvis 21; TFTs 21; ESR 21; Blood Glucose 21; Urea, Creatinine, Electrolytes, LFTs 21; RF, ANA 21; Physical Examination 21; Endocrine Hormone Assays 21; Serum Prolactin (PRL — Normal Reference- <25 ng/ml) 21; Serum LH, FSH 21; DEHA-S 21; Free Testosterone 21; Progestin Challenge (Withdrawal) Test 21; Estrogen-progestin Challenge (Withdrawal) Test 22; Dexamethasone Suppression Test 22; MRI/CT Scan—Brain 22; Karyotyping 22; Laparoscopy 22; Hysteroscopy 22

4. **Anxiety** 25
Common 26; Occasional 26; Rare 26; Blood Glucose 27; Thyroid Profile 27; ECG 27; 24-hour Urine for Catecholamines 27; Serum Insulin/C Peptide 27; 24-hour Holter Monitor 27; CT Scan/MRI Pancreas 27; EEG 27

5. **Arthralgia and Arthritis** 29
Common 29; Occasional 30; Rare 30; CBC 31; ESR, CRP 31; RF 31; Serum Uric Acid 31; X-rays 31; ASO Titer 31; Blood Culture 31; ANA 31; Anti-double-stranded DNA (anti-dsDNA); Antibody 32; Anti-Smith (anti-Sm) Antibody 32; Cytoplasmic Antineutrophilic Cytoplasmic (C-ANCA) Antibody 32; Cyclic Citrullinated Peptide (CCP) Antibody 32; Human Leukocyte Antigen (HLA - B27) Typing 32; HLA DR4/ DR1 Typing 32; Serology 32; TFTs 32; US with Duplex Scanning 32; CT/MRI 32; Synovial Fluid Analysis 32; Synovial Biopsy (Diagnostic Arthroscopy) 32

6. **Back Pain** 36
Common 37; Occasional 37; Rare 37; CBC, ESR, CRP 38; Urinalysis 38; Spine X-ray 38; Sr Calcium, Phosphorus, Alk Phosphatase, Acid Phosphate 38; Sr Uric Acid 38; PSA 38;

Plasmoprotein Electrophoresis 38; Bence Jones Protein 38; CXR 38; US Abdomen 38; CT Spine 39; HRCT Abdomen 39; MRI Spine 39; Bone Scans (Technetium) 39; Upper GI Endoscopy 39; CSF Analysis 39; Electrodiagnosis 39; Histocompatibility Antigen Test (HLA-B 27) 39; Myelography, Discography, Diagnostic Selective Nerve Blockade 39; Bone Marrow Biopsy/Aspiration 39

7. Breast Lump 42
Common 42; Occasional 43; Rare 43; CBC 43; ESR 43; LFTs 43; Serum Calcium 43; CXR 43; Mammography 43; Digital Mammography 43; FNAC or FNA Biopsy (FNAB)†† 44; US Breast 44; US Abdomen 44; MRI 44; Core-needle Biopsy 44; Excision Biopsy 44; Triple Diagnosis Test 44; Genetic Testing for Breast Cancer 44

8. Chest Pain 48
Common 49; Occasional 49; Rare 49; CBC 50; Blood Glucose/Lipid Profile 50; ECG 50; CXR 50; Cardiac Enzymes 50; Exercise ECG 51; Echocardiography – 2-D and Doppler 51; HRCT/ MRI 51; Ventilation-perfusion (V/Q) Scans 51; Myocardial Perfusion Imaging 51; Coronary Angiography 51; Intravascular Ultrasound (IVUS) 51; Multislice Computed Tomography (MSCT)/ 64-Slice Spiral Computed Tomography 52; GI Studies 52; PFTs 52; TFTs 52

9. Constipation 57
Common 58; Occasional 58; Rare 58; CBC 58; ESR 58; FOBT 58; Proctoscopy (Anoscopy) 58; Urea, Creatinine, Electrolytes 58; Endocrine Panel 58; Serum Calcium 59; AXR 59; US Abdomen 59; Colonoscopy 59; Sigmoidoscopy/Barium Enema 59; MRI—Brain, Spine 59; Expanded Physiological Studies 59; Rectal Biopsy 59

10. Convulsions 63
Common 64; Occasional 64; Rare 64; CBC 64; Blood Glucose 65; Serum Electrolytes 65; ECG 65; Neuroimaging 65; Biochemistry Panel 65; CSF 65; EEG 65; Ambulatory EEG (aEEG) 65; Video-EEG Monitoring2, 3 65; Toxicology (Serum and Urine) Screen 65

11. Cough 68
Common 69; Occasional 69; Rare 69; CBC 69; Sputum 69; CXR 70; Peak Expiratory Flow Rate (PEFR) 70; PFTs 70; Pulse Oximetry 70; pH Studies 70; CT Chest /MRI 70; CT Sinus 70; Esophagogastroduodenoscopy (EGD) 71; Bronchoscopy 71; Purified Protein Derivative (PPD) Skin Test 71; HIV Serology 71; Culture of Nasopharyngeal Secretions/PCR 71; Sputum Cytology 71

12. Dementia 73
Common 74; Occasional 75; Rare 75; CBC 75; ESR 75; Urea, Creatinine, LFTs 75; Electrolytes—Sodium, Potassium, Calcium, Glucose 75; TFTs 75; Neuroimaging—CT/MRI 76; Infection Screen 76; Vitamin B12 Assay 76; VDRL/Fluorescein Treponema Antibody (FTA-ABS) 76; HIV Serology 76; ANA, Anti-ds DNA 76; CSF 76; CXR/ECG 76; EEG 76; SPECT/PET 76; MR Angiography (MRA) 77; Brain and Meningeal Biopsy 77; Genetic Test 77; Neuropsychologic evaluation 77

13. Diarrhea 83
Common 84; Occasional 84; Rare 84; CBC 84; ESR 84; Blood Glucose 84; Metabolic Panel 84; HIV 84; Fecal Leukocytes 84; Rectal Swab for c/s 85; FOBT 85; Stool for Protozoa 85; Stools for

Clostridium Difficile Titer 85; Stool pH 85; Stool for ZN Stain (Modified) 85; Stool Chemical Analysis 85; Stool Fat (Sudan Stain) 85; TFTs 85; LFTs 85; Sigmoidoscopy with Biopsy and Culture 85; Colonoscopy or Barium Enema 85; US or CT Abdomen 85; Upper GI Barium Series 86; Laxative Abuse Detection 86; Urine 24-hr Collection for 5-HIAA Excretion 86; Serum Gastrin 86; Serum Calcitonin 86

14. Dyspepsia 90
Common 90; Occasional 91; Rare 91; CBC 91; ESR 91; FOBT and Parasites 91; ECG 91; Metabolic Panel 91; TFTs 91; LFTs, Amylase, Lipase 91; EGD with or without Biopsy for H. pylori (HP) 92; Tests for HP 92; US Abdomen or CT 92; Esophagography and upper GI Barium Meal Series 92; Esophageal Manometry 92; 24-hour esophageal pH Manometry 93; Fasting Serum Gastrin 93

15. Dysphagia 97
Oropharyngeal Causes 98; Esophageal Causes 99; CBC, ESR 99; CXR 99; X-ray Neck—lateral view 99; Barium Swallow (Barium Esophagography, or Modified Barium Swallow (MBS) 99; EGD 100; Esophageal Manometry (Stationary and Ambulatory) 100; Esophageal 24-hours pH Reflux Study 100; Videofluoroscopic Swallowing Function Study (VSFS) 101; Radionucleotide Study (Tc-99m Sulfur Colloid Bolus) 101; CT Scan/MRI 101; Muscle Enzymes 101; TFTs 101; RF, ANA 101; Antiacetylcholine Antibodies 101; Genetic Analysis 101; Common 108

16. Dyspnea—Acute 108
Occasional 109; Rare 109; CBC 109; Blood Glucose, Electrolytes, Urinalysis 109; Peak Expiratory Flow Rate (PEFR) 109; ECG 109; CXR 109; X-ray Neck—Lateral View 109; Pulse Oximetry 109; Sr Cardiac Markers 110; Sputum and Blood Culture 110; Pulmonary Function Tests 110; Arterial Blood Gases (ABG) 110; Bronchoscopy 110; D-dimer 110; HRCT of Thorax 110; V/Q scan 110; BNP (Brain or B-type Natriuretic Peptide) 110; Echocardiography 110; Drug Screen 110

17. Dyspnea—Chronic 114
Common 114; Occasional 115; Rare 115; CBC 115; Sputum 115; CXR 115; Pulse Oximetry 115; ECG 115; Metabolic Panel 115; Blood Chemistry 116; PFT/Spirometry 116; Methacholine Challenge Test 116; Echocardiography 116; B-type Natriuretic Peptide (BNP) 116; HRCT 116; HRCT Angiography 117; V/Q Scan 117; 24-hour Esophageal pH Monitoring 117; EMG and NCS 117; Noninvasive Cardiovascular Testing 117; Cardiopulmonary Exercise (CPEx) Testing 117; Bronchoscopy / Lung Biopsy 117

18. Facial Asymmetry and Weakness 120
Common 121; Occasional 121; Rare 121; CBC 121; Blood Glucose 121; VDRL 121; CXR 121; CT Skull 121; MRI with Gadolinium 121; CSF 121; EMG/NCS 122; Lyme titer 122; Serum Calcium and Angiotensin-converting Enzyme Levels 122

19. Facial Swelling 127
Common 127; Occasional 127; Rare 128; CBC 128; ESR 128; Urinalysis 128; Plasma Protein 128; Urea, Creatinine 128; Blood Glucose 128; CXR 128; X-ray PNS 128; TFTs 128; ANA 128; Parotid Sialography 128; CT/MRI Brain 128; CT/MRI Lungs, Abdomen 128; CT/MRI PNS 128; Plasma/urinary Cortisol 129; Muscle Biopsy (Bx) 129

20. Fever of Unknown Origin 131
Common 132; Occasional 132; Rare 132; CBC, PS. 132; ESR 132; Culture 132; Urinalysis 133; PPD or Mantoux Test 133; CXR 133; Plain X-ray of Bones 133; US Abdomen, Pelvis 133; LFT 133; Sputum 133; Stool Microscopy and Culture 133; Blood Glucose 133; CSF 133; HRCT Abdomen/Pelvis 133; Nuclear Imaging 134; FNAC and Directed Biopsies 134; Leg Doppler Imaging 134; Echocardiography 134; Serological Tests 134; HRCT Chest 134; Endoscopic Procedures 134

21. Gait Disorders 138
Common 139; Occasional 139; Rare 139; CBC 139; ESR 139; X-ray 139; ECG 139; MRI Brain/spinal cord 139; CT Brain 140; CSF 140; Serum Electrolytes 140; Muscle Enzymes 140; TFTs 140; RA factor and ANA 140; Serum B12 and Folate Levels 140; EMG/NCS 140; Genetic Testing 140; Drug Screen 140; Muscle Biopsy 140

22. Gastrointestinal Bleeding 146
Common 147; Occasional 147; Rare 147; CBC 148; Coagulation/clotting screen 148; Serum Chemistry/Serology 148; LFTs 148; ECG 148; EGD 148; Sigmoidoscopy 149; Colonoscopy 149; Angiography (Mesenteric) 149; Multidetector Computed Tomographic (MDCT) Angiography 149; 99mTc RBC Scanning 149; Abdomen US/HRCT 149; Double-contrast Barium Enema 149; Small Bowel Imaging 149; Capsule Endoscopy 149; Echocardiography 150; Laparotomy with Intraoperative Enteroscopy 150

23. Headache 155
Common 156; Occasional 156; Rare 156; CBC 156; ESR 156; Skull X-ray 156; X-ray PNS 156; Blood Culture 156; Biochemistry 156; CXR/spine X-ray 157; CT 157; CSF 157; MRI 157; Temporal Artery Biopsy 157; PET/SPECT Imaging 157; MR Angiography (MRA) 157; IOP 158

24. Hearing Loss 163
Common 164; Occasional 165; Rare 165; CBC 165; ESR 165; Blood Glucose 165; Serology for Syphilis 165; TFTs 165; Pure tone Audiometry 165; Speech Audiometry 165; Tympanometry 166; CT Scan of the Temporal Bones (without contrast) 166; MRI of the Head (Gadolinium-enhanced) 166; Brainstem Auditory Evoked Responses (BAERs) 166; Electrocochleography 166

25. Hematuria 170
Common 171; Occasional 171; Rare 171; CBC 171; ESR 171; Urine Dipstick 171; Urine Microscopy/culture 172; US 172; X-ray KUB 172; Multichemistry profile 172; Hb electrophoresis 172; HRCT—KUB 172; IVP/IVU 172; Cystoscopy 172; Urine for Schistosomiasis 173; Urine Cytology 173; Biopsy: Renal / bladder/ prostate 173

26. Hemoptysis 176
Common 177; Occasional 177; Rare 177; CXR 177; Bronchoscopy 177; Sputum Gram Stain, AFB Smear, Culture, and Cytology 178; CBC 178; ESR 178; Coagulation Screen 178; Mantoux Test 178; ECG 178; Pulse Oximetry 178; HRCT Scan 178; Multidetector CT (MDCT) 178; D-dimer 179; Echocardiography 179; V/Q lung scan 179; c-ANCA (Classical or Cytoplasmic Antineutrophil Cytoplasmic Antibodies) 179; HIV 179; Lung Biopsy—(Bronchoscopic or Video-assisted Thorascopic Surgery, i.e. VATS) 179

27. Hiccups 184
Common 185; Occasional 185; Rare 186; CBC, Blood Film 186; ESR 186; Urea/creatinine 186; Electrolytes—Na, K, Ca 186; LFT 186; Fluoroscopy of Diaphragmatic Movement 186; CXR 186; ECG7 186; EGD 186; US Abdomen 186; CT Scan Chest 186; MRI Brain 186; Bronchoscopy 187; Echocardiography 187; CSF 187

28. Insomnia 189
Common 190; Occasional 190; Rare 190; CBC 190; TFTs 190; ECG 190; Pulse Oximetry 190; Sleep Diary 191; Polysomnography (Sleep Study) 191; Actigraphy 191; CT/MRI Brain 191; Mini-Mental State Examination (MMSE) and Geriatric Depression Scale 191; Drug Toxicology Screen 191

29. Jaundice 195
Common 196; Occasional 196; Rare 196; CBC 197; ESR 197; Urinalysis 197; Serum Bilirubin 197; Serum Albumin 197; Prothrombin Time (PT) 197; Hepatic transaminase enzymes 198; Serum Alkaline Phosphatase (SAP) 198; Acute Viral Hepatitis Serology Markers (A, B, C and D) 198; Ultrasound (US) 198; Serum Amylase 200; HIV Serology 200; CT Scanning 200; Endoscopic Retrograde cholangiopancreatography (ERCP) 200; Magnetic Resonance Cholangiopancreatography (MRCP) 200; X-ray 200; Antimitochondrial antibodies 200; Autoantibody Tests 200; Serum Copper/ceruloplasmin 200; Serum Iron 200; Leptospirosis 200; Coombs' Test 200; Liver Biopsy 200

30. Myalgia 205
Common 206; Occasional 206; Rare 206; CBC 206; ESR 206; Urine 206; CPR 206; CK (with isoenzymes) 206; FBG, PPBG 207; Calcium 207; Electrolytes 207; Sr Alkaline Phosphate 207; TFTs 207; ANA, RF 207; X-rays 207; EMG 207; NCS 207; MRI 207; Endocrine/metabolic panel 207; Muscle biopsy/genetic analysis 207

31. Nausea and Vomiting 211
Common 212; Occasional 212; Rare 212; CBC 212; ESR 212; Urea, Creatinine, Electrolytes 212; LFTs, Amylase, Lipase 213; CXR 213; AXR 213; ECG 213; Blood Glucose 213; Serum Calcium 213; Urine 213; Pregnancy Test 213; US Abdomen and Pelvis 213; HRCT Abdomen 213; CT scan/MRI—Head 213; Upper GI/Barium Enema X-rays 213; Nuclear Scintigraphy 213; Audiometry 213; Toxicology Screen 213

32. Pain—Chronic 218
Common 219; Occasional 220; Rare 220; CBC 220; ESR or CRP 220; Blood Glucose 220; Serum Calcium/Alkaline Phosphatase 220; Urea, Creatinine, Electrolytes 220; CPK 221; X-ray/CT scan 221; MRI 221; Bone Scan 221; NCS/EMG 221; Cancer Screen/Tumor Markers 221

33. Palpitation 225
Common 226; Occasional 226; Rare 226; ECG 226; CBC 226; Blood Glucose 226; Ambulatory ECG (AECG) Recording/Holter Monitoring 226; Electrophysiological Studies (EPS) 227; Continuous —Loop Event Recorder 227; Continuous Mobile Cardiac Outpatient Telemetry (MCOT) 228; Pacemaker Evaluation 228; Exercise ECG/TMT 228; Echocardiography 228; TFTs 228; Urea, Creatinine, Electrolytes 228; Urine 228; Drug Levels 228

34. Polyuria 234
Common 235; Occasional 235; Rare 236; Urinalysis 236; CBC 236; Blood Glucose 236; 24-hour urine specimen 236; Serum Urea, Creatinine, Electrolytes 236; Serum Calcium 236; Ultrasound 236; 24-hour Urinalysis 236; Water deprivation test 236; Plasma vasopressin (ADH) 237; US of Neck 237; CT/ MRI 237; Renal Biopsy 237

35. Pruritus 241
Common 241; Occasional 242; Rare 242; CBC 242; Urinalysis 242; Stool Examination 242; Microscopy of Skin Scrapings 242; Potassium Hydroxide (KOH) 10-20% mounts 242; Blood Glucose 243; Serum Calcium 243; LFTs 243; Blood Urea, Creatinine, Electrolytes 243; TFTs 243; CXR 243; Serum ferritin 243; Serology 243; Serum Protein Electrophoresis 243; Urine for 5-hydroxyindoleacetic Acid (5-HIAA) 243; Antimitochondrial Antibody 243; US Abdomen 243; HRCT—Chest and Abdomen 243; ERCP (Endoscopic Retrograde Cholangiopancreatography) 243; Lymph Node Biopsy 244; Bone Marrow Aspirate and Biopsy 244; Skin Biopsy for Direct Immunofluorescence with Special Stains 244; Radioallergosorbent Tests (RASTs) or Patch Test 244; Tumor Markers 244

36. Red Eye 249
Common 249; Occasional 249; Rare 250; ESR 250; Blood Glucose 250; Gram's Stain of Conjunctival Exudates 250; Culture of Exudate 250; Immunofluorescent PCR Tests 250; Orbital US 250; Orbital CT Scan 250; RF, ANA 250; HLA-B27 250; Syphilis Serology 250

37. Sexual Dysfunction 254
Common 255; Occasional 256; Rare 256; Blood Glucose 256; Lipid Profile 256; TFTs 256; Chemistry Panel 256; Serum Testosterone-free (AM Sample) 256; Microscopy/Culture 256; Serum Prolactin (PRL) 256; LH and FSH 256; Nocturnal Penile Tumescence (NPT) 257; Intracavernosal Injection and Sexual Stimulation 257; Penile Duplex US 257; Perineal and Clitoral Electromyography 257; Pelvic Arteriography 257; US Testis and Pelvis 257; CT/MRI Scan 257

38. Sweating Abnormalities 263
Hyperhidrosis 264; Common 264; Occasional 264; Rare 264; Hypohidrosis and anhidrosis 264; Common 264; Occasional 264; Rare 265; CBC 265; ESR 265; TFTs 265; Blood Glucose 265; Urea, Electrolytes 265; Purified Protein Derivative (PPD) 265; HIV 265; CXR 265; Blood Culture 265; Iodine Starch Test 265; Urinary Catecholamines 265; Urinary 5-hydroxyindoleacetic Acid (5-HIAA) 265; Biopsy 265; Sudomotor Testing 266

39. Swelling of the Legs 269
Common 269; Occasional 270; Rare 270; CBC 270; Urinalysis 270; Serum Protein (total) 270; Lipid Profile 270; LFT 270; TFTs 270; ECG 270; Duplex US (Compression US) with Doppler 270; D-dimer Test 271; Brain Natriuretic Peptide (BNP) 271; Magnetic Resonance Venography (MRV) 271; US/CT Abdomen/Pelvis 271; Echocardiogram 271; Serology for Hypercoagulability State 271; Biopsy 271; Acquired 273; Inherited 273; Risk Factors 273

40. Syncope 276
Common 277; Occasional 277; Rare 277; ECG 277; Blood Glucose 277; CBC 277; Urea, Creatinine, Electrolytes 277; CXR 277; Cardiac Enzymes 278; Stress ECG 278;

Echocardiography 278; Holter Monitor 278; Carotid Doppler US 278; CT/MRI brain 278; Head-up Tilt-Testing 278; Electrophysiology study (EPS) 278; Implantable Loop Recorder (ILR) 278; Electroencephalography (EEG) 278; Psychiatric Evaluation 279

41. Tingling and Numbness 284
Common 285; Occasional 285; Rare 285; Transient 286; Upper Limbs 286; Lower Limbs 286; CBC 286; ESR 286; Blood Glucose, Urea, Creatinine, Electrolytes 286; CXR 287; X-ray 287; TSH 287; Rheumatology Screen 287; Angiotensin-Converting Enzyme Level 287; Urine for Porphobilinogen 287; Nerve Conduction Study (NCS) 287; CT/MRI 287; Nerve Biopsy 287; Lyme Titer 287; HIV 287; Serum B12 and Folate Levels 287; CSF Analysis 287; Serum Protein Electrophoresis and Immuno-fixation 287; Toxic Screen 287; Genetic Test 287

42. Tinnitus 291
Common 292; Otologic 292; Nonotologic 292; Physiological 292; Occasional 292; Rare 292; CBC, ESR 292; FBG, PPBG 293; Audiogram 293; Tympanogram 293; Biochemistry 293; TFTs 293; CT Scan 293; MRI Scan 293; MRI Cerebral Angiography 293; X-ray 293; CSF 293; Brainstem Evoked Potentials 293

43. Tiredness 296
Common 296; Occasional 297; Rare 297; CBC 297; ESR 297; Blood Glucose 297; LFTs 297; Urea, Electrolytes and Creatinine 297; TFTs 297; Pregnancy Test 297; CXR 297; Chronic Infection Screening 297; HIV and VDRL Serology 298; RF and ANA 298; Plasma Cortisol (8 AM-10 AM specimen) 298; Muscle Enzymes CK, CK-MB 298; Tensilon (edrophonium) Test 298; EMG 298; Muscle / Tissue Biopsy 298; Bone Marrow Biopsy/Aspirate 298; MRI Brain 298; Polysomnography (Sleep Study) 298; Cancer Screening 298

44. Urinary Frequency 302
Common 303; Occasional 303; Rare 303; Urinalysis 304; Quantitative Culture for Bacteriuria 304; Suprapubic Aspiration/ Catheterization 304; CBC 304; Blood Glucose 304; Urea, Creatinine 304; Electrolytes 304; Pregnancy Test 304; Urine Culture 304; US of Kidneys, Ureter, and Bladder (KUB) 304; CT scan of KUB 304; Intravenous pyelography (IVP) or Intravenous Urography (IVU) 305; MRI Brain/Spine 305; Cystoscopy 305

45. Urticaria and Angioedema 308
Occasional 309; Rare 309; CBC 309; ESR 309; Urinalysis 309; Stools 309; Challenge Testing for Physical Urticaria 310; Throat and Urine Culture 310; Multichemistry Screening Panel 310; TFTs 310; Serology 310; Skin Prick Test or Patch Test 310; Serum Immunoglobulin Analysis 310; Autologous Serum Skin Test (ASST) 310; Serum Complement 310; Cold Agglutinins and Cryoproteins 311; ANA 311; Skin Biopsy 311

46. Vaginal Bleeding—Abnormal 315
Common 316; Occasional 316; Rare 316; Pregnancy Test 316; CBC 316; Coagulation Profile 317; Blood Sugar 317; Pap Smear 317; Cervical Culture 317; Thyroid Function Test 317; Pelvic US 317; Transvaginal Ultrasound (TVUS) 317; Saline Infusion Sonography (SIS): Conventional and 3D-SIS 317; Hysteroscopy 318; Coagulation Profile 318; Serum Progesterone 318; LH, FSH 318; Prolactin (PRL) 318; Serum Testosterone, Free Testosterone, 17-Hydroxyprogesterone 318; Urinary Gonadotropins 318; Abdominal CT

Scan 318; MRI of Pituitary 318; Endometrial Biopsy (EMB) 318; Pelvic Examination 321; Digital Rectal Examination (DRE) and Proctoscopy 321

47. Vertigo 323
Common 324; Occasional 324; Rare 325; CBC 325; ESR 325; Audiometry 325; CT Head 325; MRI and Angiography 325; Brainstem Evoked Response (BSER) 325; Carotid Doppler Ultrasound 325; ECG/Holter Monitor 325; EEG 325; X-ray Cervical Spine 325

48. Vision Loss—Gradual 330
Common 331; Occasional 331; Rare 331; CBC 331; ESR 331; Blood Glucose/HbA1C 331; Lipid Profile 331; Coagulation Screen 331; TFTs 331; IOP (Tonometry) 331; Visual Field (Perimetry) 332; Fluorescein Angiography 332; US of Eye and Orbits 332; CT Scan Skull, Orbits/MRI Brain 332; Carotid Doppler Scan 332; Echocardiogram 332; Visual evoked response (VER) 332; Temporal Artery Biopsy 332

49. Vision Loss—Sudden 335
Common 335; Occasional 336; Rare 336

50. Weakness in the Arms and Legs 339
Occasional 340; Rare 340; CBC 340; ESR 340; Blood Glucose 340; Biochemistry and Metabolic Panel 341; Thyroid Function Tests 341; CT Scan Brain 341; X-ray Skull, Cervical and Lumbosacral Spine 341; CXR 341; Blood Culture 341; Creatine Kinase (total)—(CK) 341; Serum Acetylcholine Receptor Antibody Titer 341; ANA 341; Tensilon (Edrophonium Chloride) Test 341; Urine 341; CT—Thorax 341; MRI—Cervical and Lumbosacral Spine 341; Magnetic Resonance Angiography (MRA) 342; US (Duplex Scanning) of Carotid and Vertebral Arteries in the Neck 342; CSF Analysis 342; Nerve Conduction Study (NCS) 342; Electromyography (EMG) 342; Muscle Biopsy 342

51. Weight Loss 346
Common 347; Occasional 347; Rare 347; CBC 347; ESR 347; Urinalysis 347; Blood Glucose 347; HIV 347; Urea, Creatinine, Electrolytes 347; Tuberculin or PPD Test 347; LFTs 348; TFTs 348; Serum Calcium 348; CXR 348; Stool 348; US Abdomen / Pelvis 348; Endoscopy 348; CT / MRI abdomen 348; Fecal Fat 348; Antigliadin Antibodies 348; Other Screening Procedures 348
