Contents

1. Introduction 1
AK Mahapatra

2. Epidemiology of Head Injury 4
AK Mahapatra

- Types of Injury 5
- Etiology of Head Injury and Age Incidences 5
- Gender and Head Injury 6
- Reasons for Road Accidents in India 6
- Financial Implication of Head Injury 7

3. Biomechanics of Head Injury 9
Raj Kamal, Raj Kumar

- Contact Injuries 9
- Local Effects 10
- Remote Contact Effects 11
- Inertial Injuries 11
- Mechanism of Injuries 12
- Intracerebral Hematoma 12
- Subdural Hematoma 12
- Cerebral Concussion 12
- Diffuse Axonal Injury 13
- Delayed Effect 13

4. Pathophysiology of Traumatic Brain Injury 14
Raj Kamal, Raj Kumar

- Cellular Metabolism 14
- Brain Edema and ICP 15
- Systemic Manifestations of Head Injury 16
- Effect on Cardiopulmonary System 16

5. Pathology of Head Injury 18
MC Sharma, Chitra Sarkar

- Skull Fractures 18
- Diffuse Axonal Injury (DAI) 19
- Brain Swelling 20
- Hemorrhage 21
- Concussion 22
- Contusions 22
- Secondary Complications 23

6. Traumatic Brain Edema 26

AK Mahapatra, Raj Kumar

- Pathophysiology of Brain Edema 26
- Brain Damage 27

7. Role of Abnormal Calcium Homeostasis in Head Injury 30

P Sarat Chandra, AK Mahapatra

- A Brief Review of Normal Calcium Homeostasis 30
- Calcium Influx 30
- Calcium Buffering 31
- Calcium Extrusion 31
- Intracellular Calcium Diffusion 31
- Calcium Ions, Glutamate Receptors and "Excitotoxicity" 32
- Mechanism of Ca^{2+} Neurotoxicity 32
- Mechanism Triggering and Sustaining Intracellular Ca^{2+} Excess 34
- Secondary Phenomena Precipitated by Ca^{2+} Excess 34
- Formation of Free Radical Species 34
- Endonucleases, Apoptosis and Necrosis 35
- Mitochondrial Damage 35
- Acidosis 36
- Strategies for the Treatment of Ca^{2+} Neurotoxicity 36
- Glutamate Antagonists 36
- Drugs that Attenuate Excitatory Neurotransmission 36
- Agents that ACT Directly on Intracellular Ca^{2+} Ions 36
- Drugs that Attenuate the Secondary Processes Triggered by Ca^{2+} Excess 36

8. Ischemic Damage in Brain Following Head Injury 40

AK Mahapatra

- Pathophysiology of Ischemic Injury 40
- Failure of Microcirculation 40
- Factors Responsible for Ischemia 41
- Diagnosis of Ischemic Brain Injury 42
- Prevention of Ischemic Injury 42
- Newborn Encephalopathy (NE) 43

9. Neurological Examination of Head Injured Patients 46

Raj Kamal

- History 46
- Initial Examination 46
- Level of Consciousness 47
- Memory Function 48
- Eyes 49
- Caloric Reflexes 50
- Disorders of Gaze of Traumatic Brain Injury 51
- Motor Response 53
- Adjunct Diagnostic Modalities 54
- Brain Death Examination 54
- Minor Head Injury 55

10. Imaging in Head Injury 56

Raj Kamal, AK Mahapatra

- MRI in Head Injury 56
- Skull Fractures 57
- Subarachnoid Hemorrhage (SAH) 60
- Cerebral Contusion and Edema 60
- Intracerebral Hematoma 60
- Diffuse Axonal Injury (DAI) 60
- Primary Brainstem Injury 61
- Angiography 61

11. Role of Intracranial Pressure (ICP) Monitoring in Head Injury 64

AK Mahapatra

Indications for ICP Monitoring 64

12. Monitoring in Head Injury 69

AK Mahapatra, Raj Kumar

- Clinical Monitoring 69
- Monitoring of Vestibulo-ocular Reflex (Cold Caloric Response) 70
- Evoked Potential Monitoring 70
- CT Scan Monitoring 71
- Transcranial Doppler Monitoring 72
- Jugular Venous Saturation Monitoring 72
- Metabolic Monitoring in Head Injury 73
- Brain Microdialysis 73

13. Management of Severe Head Injury 76

Raj Kamal, AK Mahapatra

- Initial Management of Airway 76
- Management in the Casualty Room 76
- Intensive Care Unit Management 78
- Sedation 80
- Osmotic Agents 80
- Barbiturates 80
- Propofol 81
- Seizure Prophylaxis 81
- Cerebral Perfusion Pressure (CPP) Monitoring 81
- Measures to Maintain MAP 81

14. Minor Head Injury 84

Deepak Agarwal, AK Mahapatra

- Epidemiology 84
- Clinical Features 84
- Pathophysiology 84
- Investigations 85
- Management 86

15. Fluid and Electrolyte Imbalance in Head Injury 88
RR Sharma, Sanjay Pawar, RV Devadas
- General Considerations 88
- Maintenance of Volume in Hyponatremic States 92
- Syndrome of Inappropriate ADH Secretion (SIADH) 94
- Cerebral Salt Wasting Syndrome (CSWS) 94
- Maintenance of Volume in Hypernatremic States 95

16. Coagulopathy in Head Injury 99
Aditya Gupta, AK Mahapatra
- Incidence of Coagulopathy 100
- Pathogenesis 100
- Laboratory Evaluation 102
- Therapeutic Considerations 102

17. Coagulopathy in Head Injury in Reference to Pediatric Patients 107
Raj Kumar, AK Mahapatra
- Overview of the Coagulation Mechanism 107
- Pathophysiology of Coagulopathy in Head Injury 107
- Treatment 109

18. Role of Surgery in Head Injury 112
AK Mahapatra, Raj Kumar
Indications for Surgery in Head Injury 112

19. The Role of Stereotactic Surgery in Head Injury 116
RR Sharma, Sanjay Pawar, RV Devadas, SD Lal
General Considerations 116

20. Endocrinal Abnormalities Following Head Injury 126
AK Mahapatra, Raj Kumar
- Pathogenesis of Endocrinal Abnormalities 126
- Clinical Problem 127
- Investigations 128

21. The Role of Hypothermia in Head Injury Management 131
Aditya Gupta, AK Mahapatra
- Synopsis of TBI Pathophysiology 131
- Clinical Use of Hypothermia for TBI 132
- Current Evidence for Efficacy and Indications 133
- Complications of Hypothermia Treatment 134

22. Prognosis and Outcome in Head Injury 137
AK Mahapatra, Raj Kumar
- Clinical Factors Influencing Outcome in Head Injury Patients 137
- Physiological Factors 138
- Radiological Factors 139
- Biochemical Parameters 139
- Cerebral Perfusion and Cerebral Blood Flow 140
- Standardized Assessment 140

23. Improving Outcome after Traumatic Brain Injury 143
P Sarat Chandra
- Resuscitation and Transfer 144
- Severe Physical Disability 145
- Challenges in Management of Head Injuries 146

24. Extradural Hematoma 148
AK Mahapatra, Raj Kumar
- Pathogenesis 148
- Diagnosis of Acute Post-traumatic Extradural Hematoma 149
- CT Appearance 150
- Treatment of Acute Extradural Hematoma 150
- Outcome of Patients with Extradural Hematoma 151

25. Posterior Fossa Extradural Hematoma 155
PK Gupta, AK Mahapatra
- Mode of Injury 155
- Pathogenesis 155
- Clinical Profile 155
- Investigations 156
- Treatment/Surgery 156
- Outcome 156

26. Acute Subdural Hematomas 158
Raj Kamal
- Epidemiology 158
- Pathogenesis 158
- Injuries Associated with Acute Subdural Hematoma 158
- Magnetic Resonance Imaging 160
- Burr Holes as Diagnostic Aids 160
- Treatment 160
- Surgical Technique 160

27. Cerebral Contusion and Intracerebral Hematoma 164
Raj Kamal
- Pathology and Pathogenesis 164
- Clinical Features 164
- CT Scan Findings 165
- Management 165
- Outcome 166

28. Penetrating Head Injuries 169
Raj Kamal
- Epidemiology 169
- Ballistics and Pathophysiology 169
- Management of Penetrating Injuries 170
- Operative Technique 171

29. Traumatic Diffuse Axonal Injury 174
Raj Kamal, Raj Kumar, AK Mahapatra
- Pathogenesis 174
- Pathology 175

- Incidence 175
- Clinical Presentation 175
- Diagnostic Studies 175

30. Pediatric Head Injury 180

Raj Kumar, AK Mahapatra

- Mechanism of Injury 180
- Pathology 181
- Clinical Assessment 184
- Investigations 186
- Management 187
- Outcome 189

31. Head Injury in Elderly 191

AK Mahapatra, Raj Kumar

- Incidence 191
- Clinical Presentation 192
- Management 193
- Outcome 193

32. Chronic Subdural Hematoma 197

Raj Kamal, AK Mahapatra

- Pathogenesis and Pathology 197
- Clinical Manifestations 198
- Investigation 198
- Treatment 199
- Complications 200

33. Traumatic Cerebellar Hematomas 202

AK Mahapatra, Raj Kumar

- Pathology of Traumatic Cerebellar Lesions 202
- Clinical Presentations 203
- Investigations 203
- Management Policy 203
- Overall 204

34. Traumatic Basal Ganglia Hematomas and Infarcts 207

P Sarat Chandra, AK Mahapatra

- Mechanism 207
- Enlargement 208
- Management 209
- Outcome 209

35. Post-traumatic Meningitis and Brain Abscess 212

Aditya Gupta, AK Mahapatra

- Post-traumatic Meningitis 212
- Post-traumatic Brain Abscess 215
- Management 218

36. Post-traumatic Hydrocephalus 222

AK Mahapatra, Raj Kumar

- Pathogenesis 222
- Clinical Symptomatology 223
- Diagnosis 223
- Treatment 224
- Outcome 225

37. Post-traumatic Epilepsy 227

Raj Kamal, AK Mahapatra

Pathophysiology 228

38. Post-traumatic Cerebrospinal Fluid Fistula–CSF Rhinorrhea 232

Raj Kamal, Raj Kumar

- Incidence and Etiology 232
- Clinical Features 233
- Diagnostic Studies 233
- Management 234

39. Post-traumatic CSF Otorrhea 238

Abrar Ahad Wani, Raj Kumar

- Cerebrospinal Fluid Otorrhea 238
- Epidemiology, Classification and Frequency 238
- Traumatic Leaks 238
- Non-traumatic Leaks 238
- Post-traumatic CSF Otorrhea 238
- Approach to the Patient 239
- Diagnosis 239
- Treatment 239

40. Skull Base Fractures 241

Abrar Ahad Wani, Raj Kumar

- Biomechanism of the Fracture at Skull Base 241
- Anatomy of Skull Base 241
- Radiographic Diagnosis 241
- Anterior Skull Base Fractures (Rhinobasal) 242
- Management 244

41. Traumatic Carotico-cavernous Fistula 247

AK Mahapatra

- Pathophysiology 247
- Clinical Features 247
- Investigations 248
- Treatment 249

42. Traumatic Dural Venous Sinus Thrombosis 253

Deepak Agarwal, AK Mahapatra

- Epidemiology 253
- Pathophysiology 253

- Clinical Features 253
- Investigations 253
- Treatment 254

43. Cranioplasty 256

Raj Kumar, Arun Kumar Srivastava

- Indication/Consideration for Cranioplasty 256
- Alloplastic Cranioplasty 256
- Autogenous Cranioplasty 256
- Technique of Cranioplasty 257

44. Visual Problems Following Head Injury 259

AK Mahapatra

- Anatomical and Pathological Consideration 259
- Pathology 259
- Indirect Optic Nerve Injury 260
- Chiasma Injury 265
- Injury to Posterior Visual Pathway 266

45. Growing Skull Fracture 269

AK Mahapatra, Raj Kumar

- History 269
- Mechanism of Formation of Growing Skull Fracture 269
- Pathology 270
- Presentation 270
- Investigations 271

46. Traumatic Subarachnoid Hemorrhage 275

AK Mahapatra, Raj Kumar, Raj Kamal

- Incidence 275
- Pathology 275
- Demographic Aspect of TSAH 277
- Grading 277
- Localization 277
- Clearance 277
- Vasospasm in Head Injury and TSAH 277
- Transcranial Doppler in TSAH 278
- Role of Calcium Channel Blocker in TSAH 278
- Traumatic Subarachnoid Hemorrhage and Outcome 278
- Traumatic SAH and Other Prognostic Factors 279

47. Craniocervical Junction Injuries 281

Raj Kumar

- Occipitocervical Instability 281
- Atlantoaxial Dislocation 281
- Clinical Features 281
- Treatment 282

48. Traumatic Brainstem Hemorrhage 284

AK Mahapatra, Raj Kumar

- Pathology 284
- Clinical Presentation 285
- Cold Caloric Response (Vestibulo-ocular Reflex) 286
- Brainstem Auditory Evoked Response (BAER) 286
- Treatment 287
- Outcome in Patients with Brainstem Hematoma 287

49. Management of Facial Injuries 290

Arun Kumar Singh, Devi Prasad Mohapatra

- Surgical Anatomy 290
- Etiology 290
- Initial Management of Trauma Patient 291
- Soft Tissue Injuries 293
- Bony Injuries and their Management 295
- Gunshot and Panfacial Injuries 300
- Secondary Deformities in Facial Trauma 300

50. Nutritional Management of Head Injury 302

A Jindal, AK Mahapatra

- Metabolic Requirements 302
- Nitrogen Metabolism 302
- Use of Anthropometric Indices for Assessment of Nutritional Status 303
- Aims of Nutritional Supplement 303
- Enteral vs Parenteral Feeding 303

51. Rehabilitation in Head Injury 305

AK Mahapatra, Raj Kumar

- Rehabilitation of Physical Disability 305
- Care of Eyes and Prevention of Blindness 306
- Cognitive Abnormalities in Head Injury 306
- Disorder of Arousal, Sleep and Attention 307
- Behavioral Abnormalities and Rehabilitation 307
- Decreased Initiation and Depression 308
- Rehabilitation of Children 308
- Vocational Rehabilitation 308
- Postconcussion Syndrome (PCS) 309
- Problems of Rehabilitation in Vegetative Patients 309
- Endocrinal Dysfunction 309
- Driving after Head Injury 310

52. Persistent Vegetative State in Head Injury 313

AK Mahapatra, Raj Kumar

- Characterization of Vegetative State 313
- Pathology in Brain and Pathogenesis of PVS 313
- CT and MRI Finding in PVS 314
- Treatment of Persistent Vegetative State 315
- Pharmacotherapy in Persistent Coma 315

53. Prevention of Head Injuries 318

P Sarat Chandra, AK Mahapatra

- Crash Injuries—Biomechanical Aspects 318
- Crash Head Injuries—Mechanisms 319
- Role of Physicians in Accident Prevention 319
- Prevention of Head Injuries in Two-wheeler Occupants 320
- Prevention of Head Injuries in Car Occupants 320

54. Newer Trends in Management of Neurotrauma 322

AK Mahapatra

- Investigations 322
- Pathogenesis 322
- ICU Management 322
- Role of Barbiturate in Head Injury 323
- Role of Cerebral Microdialysis in Head Injury 323
- Role of Drugs in Severe Head Injury 324
- Role of Dorsal Column Stimulation (DCS) 324

55. Genetic Influences in Traumatic Brain Injury 327

Raj Kumar, Priyanka Kawal, AK Mahapatra

56. Brain Death: Indian Law on Organ Transplant 329

A Jindal, AK Mahapatra

- Establishing Brain Death 329
- Observation Period 330
- Paraclinical Confirmatory Tests 330
- Indian Law and Organ Transplantation 331

Index 333
