CONTENTS

1.	Introduction	1
2.	Epidemiological Aspects of Psoriasis	3
3.	Psoriasis in India	5
4.	Genetic and Familial Factors in Psoriasis	7
5.	Aetiology and Pathogenesis	9
6.	Histology and Pathology	13
7.	Clinical Presentations of Psoriasis	16
8.	Types of Psoriasis	19
9.	Assessing the Severity of Psoriasis	75
10.	History of the Disease and Triggers	77
11.	Effects of Psoriasis	80
12.	Metabolic Syndrome and Psoriasis	83
13.	Psoriatic Arthritis	87
14.	Associations of Psoriasis	96
15.	Psychiatric Comorbidity in Psoriasis	99
16.	Childhood Psoriasis	100
17.	Management of Psoriasis	116
18.	Systemic Therapies for Psoriasis	124
19.	Retinoids in Psoriasis	126
20.	Calcineurin Inhibitors in Psoriasis	131
21.	Methotrexate in Psoriasis	136
22.	Azathioprine in Psoriasis	143
23.	Fumaric Acid Esters	146
24.	Hydroxyurea in Psoriasis	149
25.	Leflunomide in Psoriasis	151
26.	Mycophenolate Mofetil in Psoriasis	153
27.	Sulfasalazine in Psoriasis	155

28. Tacrolimus in Psoriasis 157
29. 6-Thioguanine in Psoriasis 159
30. Retinoic Acid Metabolism Blocking Agents in Psoriasis 161
31. Rapamycin Inhibitors: Sirolimus, Everolimus 162
32. Thiazolidinediones in Psoriasis 163
33. Paclitaxel in Psoriasis 164
34. Neovastat in Psoriasis 165
35. The Strength of Recommendations for the Treatment of Psoriasis Using Traditional Systemic Therapies 166
36. Investigational Therapies in Psoriasis 168
37. Phototherapy in Psoriasis 172
38. Recent Advances in Phototherapy 180
39. Narrowband Ultraviolet B Phototherapy in the Treatment of Psoriasis 182
40. Targeted Phototherapy in Psoriasis 196
41. Biological Agents for Psoriasis 202
42. Ambulatory Treatment (Day Care) for Psoriasis 211
43. Indications for Hospitalization in Psoriasis 212
44. Counseling and Patient Education in Psoriasis 214
45. Complimentary Therapies for Psoriasis 215
46. Diet and Nutrition in Psoriasis 218
